COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 26th June 1883.—In exercise of the powers conferred on him by section 27(*b*) of the Court Fees Act, 1870, the Lieutenant-Governor is pleased to lay down the following rules to regulate the use of adhesive and impressed court-fees stamps in accordance with the notification of the Government of India, Finance and Commerce Department, No. 361, dated the 18th April 1883.

(1)—When, in the case of fees amounting to less than Rs. 10, the amount can be denoted by a single adhesive stamp, such fee shall be denoted by a single adhesive stamp of the required value. But if the amount cannot be denoted by a single adhesive stamp, or if a single adhesive stamp of the required value is not available, the next lower value available shall be used, and the deficiency shall be made up by the use of one or more additional adhesive stamps of the next lower values which may be required to make up the exact an ount of the fee.

(2)—When, in the case of fees amounting to or exceeding Rs. 10, the amount can be denoted by a single impressed stamp, the fee shall be denoted by a single impressed stamp of the required value. But if the amount cannot be denoted by a single impressed stamp, or if a single impressed stamp of the required value is not available, an impressed stamp of the next lower value available shall be used, and the deficiency shall be made up by the use of one or more additional impressed stamps of the next lower values available which may be required to make up the exact amount of the fee, in combination with adhesive stamps to make up fractions of less than Rs. 10.

(*a*)—Any adhesive stamps which may be used under clause (2) shall be affixed to the impressed stamp of the highest value employed in denoting the fee.

(*b*)—When two or more impressed stamps are used to make up the amount of the fee chargeable under the Court Fees Act, a portion of the subject-matter shall be written on each impressed stamp so used, and the writing on each stamp shall be attested by the signature of the person or persons executing the document.

(*c*)—When one or more impressed stamps used to denote a fee are found insufficient to admit of the entire document being written on the side of the paper which bears the stamp, so much plain paper may be joined thereto as may be necessary for the complete writing of the document, and the writing on the impressed stamps and on the plain paper shall be attested by the signature of the person or persons executing the document.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 26th June 1883.—In exercise of the powers conferred on him by section 27 of the Court Fees Act, 1870, and on the recommendation of the Board of Revenue, the Lieutenant-Governor is pleased to lay down the following rules under section 3 of the Board's Stamp Manual in substitution for the five rules now in force.

1. Adhesive and impressed stamps bearing the words* "Court fee" are called court fee stamps, and the fees chargeable under Act VII of 1870 are to be collected only by means of such stamps, subject to the exceptions mentioned in section 3 of the Act.

* See paragraph 6 of Board's letter No. 456B, dated 29th May 1883.

2 If in any case the amount of the fee chargeable involves a fraction of an anna, such fraction shall be remitted.

3. When, in the case of fees amounting to less than Rs. 10, the amount can be denoted by a single adhesive stamp, such fee shall be denoted by a single adhesive stamp of the required value. But if the amount cannot be denoted by a single adhesive stamp, or if a single adhesive stamp of the required value is not available, the next lower value available shall be used and the deficiency shall be made up by the use of one or more additional adhesive stamps of the next lower values which may be required to make up the exact amount of the fee

4. When, in the case of fees amounting to or exceeding Rs. 10, the amount can be denoted by a single impressed stamp, the fee shall be denoted by a single impressed stamp of the required value. But if the amount cannot be denoted by a single impressed stamp, or if a single impressed stamp of the required value is not available, an impressed stamp of the next lower value available shall be used, and the deficiency shall be made up by the use of one or more additional impressed stamps of the next lower values available, which may be required to make up the exact amount of the fee, in combination with adhesive stamps to make up fractions of less than Rs 10.

5. When a single stamp of the required value under the last two rules is not available in stock, a certificate to that effect shall be given by the Collector of the district or officer in charge of the sudder or sub-divisional treasury: provided that when the fee chargeable does not exceed Rs. 75 such certificate may also be given by a licensed vendor of court fee stamps. The certificate referred to must be affixed to the document and filed with it.

6 Any adhesive stamps which may be used under rule 4 shall be affixed to the impressed stamp of the highest value employed in denoting the fee, or to the first sheet of the document, to be inscribed in such manner as not to conceal the value of the stamp thereon.

7. A document stamped otherwise than in accordance with the preceding rules is not properly stamped within the meaning of section 28 of the Court Fees Act, 1870.

8 When two or more impressed stamps are used to make up the amount of the fee chargeable under the Court Fees Act, a portion of the subject-matter shall be written on each impressed stamp so used, and the writing on each stamp shall be attested by the signature of the person or persons executing the documents.

9 When one or more impressed stamps used to denote a fee are found sufficient to admit of the entire document being written on the side of the paper which bears the stamp, so much plain paper may be joined thereto as may be necessary for the complete writing of the document, and the writing on the impressed stamps and on the plain paper shall be attested by the signature of the person or persons executing the document.

10. Every *ex-officio* or licensed vendor shall insert at the time of sale to the public the name of the purchaser, the date of sale, and the signature of the vendor on the blank space left for this purpose on each adhesive court fee stamp.

11. Every *ex-officio* or licensed vendor shall write on the back of every impressed court fee stamp which he sells the date of sale, the name of the purchaser, and the value of the stamp in full in words, and shall affix his signature to the endorsement

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 30th June 1883.—Whereas a notice was published at page 306, Part I of the *Calcutta Gazette* of the 2nd May 1883, declaring the intention of the Lieutenant-Governor to confirm the bye-laws therein referred to, framed by the District Road Cess Committee of Pubna, under section 180 of the Cess Act, IX (B C) of 1880, and whereas no objections have been raised to those bye-laws, it is now notified for general information that they are confirmed.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

ERRATUM.

The 30th June 1883.—In the orders dated the 13th June 1883, published at page 493, Part I of the *Calcutta Gazette*, dated the 20th idem, appointing Baboo Gobind Mohun Ghosh, Deputy Magistrate and Deputy Collector, to be Vice-Chairman of the Mozufferpore District Road Cess Committee, *for* Mozufferpore *read* Chumparun.

NOTIFICATION.

The 26th June 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 26).

BAY OF BENGAL—BURMA COAST.

PORT OF AKYAB OR ARAKAN.

Buoy marking sand off Flat Island.

THE Port Officer, Akyab, has notified that on the 6th June 1883, a new (first class) buoy, painted *black*, had been moored on the tail of the sand running from Flat Island, in Akyab port, to indicate the extension which has taken place there.

The buoy lies in 17 feet of water at low-water ordinary springs, distant half a mile South of the old position of the lower black buoy and on the following bearings:—

Savage island lighthouse	..	..	..	S 7° W.
Point flagstaff	..	..	..	S 29° W.
Jail creek	..	..	..	West.

By direction of the Government of Bengal,

J. MENTEITH BREDNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 19th June* 1883.

[First Publication.]

NOTIFICATION.

The 30th June 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 25).

INDIA—WEST COAST—BOMBAY PRESIDENCY.

GULF OF CUTCH.

Beyt or Bate (Sainia) new light.

THE Agent to the Governor-General at Baroda has given notice that a new lighthouse on the highest, and nearly the central, part of Sainia island, at the entrance to Beyt harbour, has been erected, and that the light was exhibited therefrom on the 13th May 1883.

The light is a *fixed* white light, elevated 71 feet above the sea, and should be visible in clear weather from a distance of 13 miles. The building is a circular tower of stone masonry, and is 65½ feet high from base to vane.

A *red* ray is also shown from this light to cover the danger called the *Chiuri Reef* over a sector of 30 degrees from the bearings of S. 37° 30′ W. to S. 67° 30′ W.

The illuminating apparatus is dioptric, or by lenses of the fourth order.

Position, as determined by G. T. S., latitude 22° 29′ 18″ N., longitude 69° 04′ 41″ E.

The light is intended as a guide to the harbour of Beyt, and for vessels crossing the mouth of the Gulf of Cutch.

The bearings are *Magnetic*, and are given from the *ship*, *not* from the *light*.

By direction of the Government of Bengal,

J. MENTEITH BREDNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, 27th June* 1883.

To—Darjeeling.	From—Simla.
To—Bengal, General.	From—Home.

FOLLOWING received from British Consul, Constantinople. Message begins:—Egyptian Khedive's Company has made an arrangement with the Ottoman Health Department to take pilgrims from Camaran to Jeddah after performance of quarantine at a charge of 25 shillings a head. Pilgrim ships that wait at Camaran until the quarantine enforced on their passengers is complete have the right to re-ship their own passengers and take them to Jeddah, but not the pilgrims brought here by other vessels. Message ends.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

ERRATUM.

The 3rd July 1883.—For the words "1st September next" in the last line of the notification dated the 19th December 1882, published in the *Calcutta Gazette* of the 20th idem, declaring the Jaldaka forest in the Dumsong sub-division of the district of Darjeeling, a reserved forest, *read* "1st September 1883."

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 20th June 1883.—It is hereby notified, under section 19 of the Indian Forest Act (Act VII of 1878), that the following tract of land in the Hazaribagh district, which, in a notification dated the 19th October 1882, published at page 896 of the *Calcutta Gazette* of the 1st November 1882, it was proposed to constitute a reserved forest, shall, from the 1st July next, be a "Reserved Forest" under the said Act:—

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Hazaribagh ...	Koderma ...	An addition to the Koderma forest reserve.	*North.*—From the northern point of the present forest reserve, along the Gya district boundary, to a point about half a mile north-west of Kurhuria. *West.*—A demarcated line along the foot of the Doorbasha hill in an easterly direction to a point about one mile north-east of Bishneshkur; then due south to the Phutlahi nadi; then in a westerly direction to the Gya district boundary, and along that boundary to a point on the Ilieya nadi, about one mile east of Bisbeupore; then up that nadi for about half a mile; then a demarcated line nearly due west to the Bunda nadi; then up the Bunda nadi to a point half a mile north-west of the village Bara Khooda. *South.*—A demarcated line due east to the Saganwa Seemur nadi; then up that nadi to post 147 of the present forest reserve boundary. *East.*—The forest reserve as at present demarcated.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 19th June 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 24.)

CEYLON—EAST COAST.

TRINCOMALIE.

Rock off York Shoal.

INFORMATION has been received from the Naval Commander-in-Chief in the East Indies of the existence of a sunken rock (on which the steam-ship *Kerbela* struck) lying in the approach to the Merchant Ships' anchorage at the entrance to the Inner Harbour of Trincomalie.

The rock, with a least depth of 15 feet over it at low-water, lies one cable North from the centre of York Shoal, with the following bearings :—

Dockyard flagstaff	S. 18° E.
West extreme of York Shoal	N. 87° E.

This new danger, not marked on charts, consists of a rocky, uneven bottom, with soft mud all round, the shoalest part being almost a pinnacle, and difficult to find with a lead. The approach is sudden on the North side, but between the rock and York Shoal there are five fathoms of water.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

CALCUTTA PORT OFFICE, *the 16th June* 1883.

[Third Publication.]

NOTIFICATION.

The 19th June 1883.—The following Gilchrist Scholarship Regulations are published for general information.

A P. MACDONNELL,
Offg Secretary to the Govt. of Bengal.

GILCHRIST EDUCATIONAL TRUST.

Trustees :

RICHARD LEIGH HOLLAND, ESQ., (*Chairman*).
EDGAR ALFRED BOWRING, ESQ., C.B.
RT. HON. LYON PLAYFAIR, C.B., M.P., LL.D., F.R.S.
SIR UGHTRED JAMES KAY-SHUTTLEWORTH, BART.
THE HON. ALFRED LYTTELTON.

Secretary :

WILLIAM B. CARPENTER, ESQ., C.B., M.D., LL.D., F.R.S.

[All communications to be addressed to

The Secretary of the Gilchrist Educational Trust,
4, The Sanctuary, London, S.W.]

Conditions for Scholarships instituted by the Gilchrist Educational Trust for the benefit of Natives of India.

[These Scholarships, like the Degrees and other Academical Rewards of the University of London, are open to Women upon exactly the same conditions as to Men.]

A SCHOLARSHIP of the value of £150 per annum, and tenable for four years, will be annually awarded to a candidate, born in India, who shall become eligible by competitive examination, and shall be desirous of prosecuting a course of Academical study in Great Britain with a view to graduation in one of the Faculties of Arts, Science, Law, or Medicine, in the University of London, under the following conditions :—

1. Of the parents of each candidate one at least shall belong to one of the native races.

2. Every candidate must furnish proof satisfactory to the local authorities that he has completed his sixteenth year, and that his age does not exceed twenty-two years.

3. Every candidate must furnish proof satisfactory to the local authorities that, in regard to personal character and social position, he is qualified to be admitted to competition for a scholarship.

4. Candidates approved by the local authorities shall present themselves at the January Matriculation Examination of the University of London, which will be held simultaneously, under the direction of Government Sub-Examiners, at the three presidential capitals, commencing on the second Monday in January.

5. The answers of the candidates, approved as aforesaid, will be forwarded, through the India Office, to the Registrar of the University, who will cause them to be reviewed by the Examiners, and who will forward their report to the India Office for transmission to the local authorities in the presidential capitals, to be by them announced to the candidates.

6. The scholarship shall be awarded to the candidate whose aggregate of marks stands highest, provided that he passes either in the Honours or in the First Division. Such candidate shall have his choice whether he will pursue his curriculum of study in the University of Edinburgh or in University College, London.

7. The successful candidate will be provided by the Government of India with a free passage to England; and will be expected to arrive in London, and to present himself to the Secretary of the Gilchrist Trust, not later than the first week in the October following his appointment.

8. The scholarship shall be considered as commencing from the 1st of July following the award of the Examiners; and shall be paid in quarterly instalments on the first days of October, January, April, and July.

9. Each scholar shall attend in every session at least three courses of lectures at the institution in which he studies; and shall transmit to the Secretary of the Gilchrist Trust, at the conclusion of each session, a certificate from each of the Professors, whose lectures he has attended, stating that his diligence and conduct have been satisfactory. Should he not be able to produce such a certificate, or should he be proved guilty of discreditable conduct elsewhere, he shall be considered to have forfeited his claim to the remaining instalments of his scholarship.

10. Each scholar shall be expected to present himself at the first examination in one of the Faculties of Arts, Science, Law, or Medicine in the University of London before the termination of the second (Academical year* from the commencement of his scholarship, unless excused from doing so by the Trustees; and if he do not so present himself (unless by permission of the Trustees), or if he fail to pass, he shall be considered as forfeiting his claim to the remaining instalments of his scholarship. After having passed the first examination he will be expected to pursue his studies with the view of presenting himself at the next examination within two (Academical) years.

11. A grant of Fifty Pounds will be made by the Trustees for the return passage of every scholar who shall succeed in obtaining his degree in the University of London For every scholar who may fail to obtain his degree a return passage will be provided by the Government of India.

12. The foregoing scheme shall be subject to revision from time to time, the Trustees reserving to themselves the power of altering the conditions of the scholarships, or of altogether withdrawing them, if they deem it expedient to do either. But no change will be made in such a manner as to affect the interests of candidates already appointed to scholarships, or in any case without twelve months' notice.

* Thus a candidate whose scholarship commences on the 1st of July 1884 would be considered as having fulfilled his conditions if he pass the Intermediate LL.B. Examination in January 1886 or the Intermediate B.A., the Intermediate B.Sc., or the Preliminary Scientific M.B. Examination in the following July.

[Third Publication.]

NOTIFICATION.

The 19th June 1883.—The following notices are published for general information.

A. P. MacDonnell,

Offg. Secretary to the Govt. of Bengal.

NOTICE TO MARINERS.—(No. 53).

CEYLON—SOUTH COAST.

Point de Galle Harbour Approach.

Buoy marking Para Rock Shoal.

The Government of Ceylon has given notice that a buoy has been placed to mark the south-western edge of Para rock shoal, approach to Point de Galle harbour.

The buoy, painted black and white in horizontal stripes, is moored in 7½ fathoms, with the following bearings:—

Bayley's Villa, Gloseuburg	N.N.E. ½ E.
Point de Galle lighthouse	N.W. ½ N.

Note—As this buoy is placed mainly for the information of the pilots, vessels making the port should not proceed northward of the bell buoy marking the Outer Cadda rock until a pilot has been received.

(*The bearings are Magnetic. Variation* 1° *Easterly in* 1883.)

By Command of their Lordships,

Fred. J. Evans,

Hydrographer.

Hydrographic Office, Admiralty, London, *the 23rd February* 1883.

This notice affects the following Admiralty Charts:—Ceylon, southern part, No. 813; Point de Galle, approaches to, No. 819; Point de Galle harbour, No. 820: also West Coast of Hindostan Pilot, 1880, page 12.

NOTICE TO MARINERS.—(No 81).

ARRACAN COAST.

PORT OF SANDOWAY

Buoy marking Drunken Sailor Shoal.

A buoy has been placed near the south end of Drunken Sailor shoal, entrance to port of Sandoway.

The buoy (first class), conical, coloured red, and carrying a basket on a spire, is moored in 6 fathoms at low water, with the following bearings:—

Rest house, north bank, Sandoway river entrance ..	N. 78° E.
Bluff point, south bank	East.
Detached rock	S. 46° E.

Position approximate, lat. 18° 33′ 25″ N., long. 94° 8′ 40″ E.

Note.—Vessels may pass between Detached rock and this buoy, and, hauling up N.N E., anchor in about 6 fathoms, mud and sand, with Bluff point bearing East, distant half a mile.

(*The bearings are Magnetic. Variation 2¾ Easterly in* 1883.)

By Command of their Lordships,

FRED. J. EVANS,
Hydrographer.

HYDROGRAPHIC OFFICE, ADMIRALTY, LONDON, *the 28th March* 1883.

This notice affects the following Admiralty Charts:—Cheduba strait to Coronge island, No. 822; Cheduba strait and Ramree harbour, No. 832.

[Third Publication.]

NOTIFICATION.

The 12th June 1883.—In exercise of the powers conferred upon him by section 19 of the Indian Forest Act. VII of 1878, the Lieutenant-Governor hereby declares the tract described below to be a Reserved Forest with effect from the 1st April 1883.

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Description of boundaries.
Chittagong Hill Tracts.	.....	Sitapahar Reserve.	*North.*—A demarcated line running from the ridge of Rampahar hill to the mouth of the Rhynkheong stream; then the Rhynkheong stream up to the mouth of the Baibong Serra. *East and South.*—The Baibong Serra to its source; then a demarcated line running in a south-westerly direction to the Kaptai stream, and across this in a westerly direction to the source of the Chitmaram Serra; then the Chitmaram Serra; then the Karnafoolee river; then the Jamir Serra to its source *West.*—A demarcated line running from the source of the Jamir Serra along the ridge of the Sitapahar range of hills to the Karnafoolee river; then along the ridge of Rampahar hill to the northern boundary.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

DECLARATION.

The 26th June 1883.—Whereas it appears to the Lieutenant-Governor that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz. for the construction of additional settling tanks and filter beds, required for the extension of the water-works, it is hereby declared that for the above purpose a piece of land measuring, more or less, 25,018 square feet is required in mohulla Chandnighat, in the town of Dacca, pergunnah Jehangir Nagore, in the district of Dacca. The land is bounded on the north by lands belonging to the municipality; on the south by the main public road and a lane; on the east by a public bye-lane; and on the west by the water-works premises.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 29th June 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for a camping ground of Government troops in the village of Peero, pergunnah Peero, zillah Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 20 beegahs of standard measurement, bounded on the north by the Peero and Bcha public road; on the south by maliki land of Andop Dass; on the east by the Arrah and Tendoori public road; and on the west by land belonging to Bhinick Khan, Rajakhan, and Bahadoor Bhaliaras, tenants, is required within the aforesaid village of Peero, pergunnah Peero.

This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

DECLARATION.

The 29th June 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for a camping ground of Government troops in the village of Gudahni, pergunnah Pamar, zillah Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 20 beegahs of standard measurement, bounded on the north by the village road to Ratnar; on the south by land belonging to Dorga Singh, Protap Singh, and Ajodhia Singh, tenants; on the east by land belonging to Bija Aheer, Akloo, and Protap Singh, tenants; and on the west by the road cess serai and land belonging to Dorga Singh, tenant, is required within the aforesaid village of Gudahni, pergunnah Pamar.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

A. P. MacDonnell,
Offg. Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 1726A.

The 25th June 1883.—Mr. A. Earle, Assistant Magistrate and Collector, Cuttack, is vested with the powers of a Magistrate of the second class.

Tekait Udit Narain Singh Deo of Seraikelah is appointed to be an Honorary Magistrate, in the district of Singbhoom, and is vested with the powers of a Magistrate of the second class.

The Lieutenant-Governor also vests Tekait Udit Narain Singh Deo with power, under section 32 of Act X of 1882, to pass sentences of whipping.

The Lieutenant-Governor accepts the resignation tendered by Munshi Farid Bux of his appointment of Honorary Magistrate of the Kissengunge Bench, in the district of Purneah.

The undermentioned gentlemen are appointed to be Honorary Magistrates for the Satkhira Bench, in the district of Khoolna, and are vested with the powers of a Magistrate of the third class:—

Munshi Aftabuddin. | Baboo Soilendrabundhoo Rai.

Baboo Amarendra Nath Rai Choudhury.

The undermentioned gentlemen are appointed to be Honorary Magistrates for the Alipore Bench, in the district of the 24-Pergunnahs, and are vested with the powers of a Magistrate of the third class:—

Prince Mohammud Furrukh Shah. | Baboo Kishta Dass Law.

The 26th June 1883.—The undermentioned gentlemen are appointed to be Honorary Magistrates for the municipal bench at Rajpur, in the 24-Pergunnahs, and are vested with the powers of a Magistrate of the third class:—

Baboo Annada Prosad Moitra. | Baboo Mohendra Nath Rai Choudury.

The 27th June 1883.—Baboo Juggobundhoo Khan, Deputy Magistrate and Deputy Collector, Kurigram, Rungpore, is vested with the powers of a Magistrate of the first class.

Leave of Absence to Munsifs.—*The 25th June* 1883.—Baboo Sasi Bhusan Banerjee, Munsif of Motihari, in the district of Sarun, is allowed leave for fifteen days, under rule 2, section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him on the 11th May 1883.

The 27th June 1883.—Baboo Nilmadhub Mookerjee, First Sunder Munsif of Jessore on transfer to Raojan, in the district of Chittagong, is allowed furlough for one year, under section 131, chapter X of the Civil Leave Code, with effect from the date on which he will be relieved by his successor.

The 2nd July 1883.—Baboo Biraj Krishna Ghose, Munsif of Rughoonathpore, in Manbhoom, is allowed leave for six months, under section 127, chapter X of the Civil Leave Code, with effect from the 9th June 1883.

F. B. Peacock,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 28th June 1883.—Mr. W. Duff Bruce, C.E., is appointed to be a member of the Boiler Commission for the purpose of carrying out the provisions of Act III (B.C.) of 1879 entitled an Act to provide for the periodical inspection of Steam Boilers and Prime Movers attached thereto, in the town and suburbs of Calcutta and in Howrah.

F. B. Peacock,
Secretary to the Govt. of Bengal.

[Second Publication]

NOTIFICATION.

The 25th June 1883.—It is hereby notified, under the provisions of section 15 of Act V of 1861, that the villages of—

1. Madartoli,
2. Hugolpatti,
3. Kataltoli,
4. Betmore,
5. Charackhola,
6. Koroitolla,
7. Lemooa,
8. Putimara,
9. Jamritolla,
10. Golbouia,

in the Perozepur sub-division, in the district of Backergunge, being in a disturbed and dangerous state, owing to the existence of disputes regarding the possession of lands and collection of rents, the Lieutenant-Governor has sanctioned the retention of a special police force of one head constable and four constables for a further period of one year, commencing from the 1st July 1883, to be quartered upon the said ten villages for the purpose of preserving the peace.

2. The total cost of the force, which is shown below, will be assessed and levied from the inhabitants of the villages in proportion to their respective means—

	Rs.	A.	P.
1 Head Constable at Rs 25	25	0	0
4 Constables at Rs. 9 each	36	0	0
Total monthly cost ...	61	0	0
For twelve months	732	0	0
Contingencies at 10 per cent	73	8	0
Pensionary charges	91	8	0
Clothing charges	20	0	0
Repair of barracks	50	0	0
Boat establishment for four months from July to October...	140	0	0
Total cost ...	1,106	11	0

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

By order of the Lieutenant-Governor of Bengal,

J. M. HEYWOOD, *Lieut.-Col.*, R.E.,

Offg. Joint-Secretary to the Government of Bengal P. W. Dept.

The 3rd July 1883.

No. 245.—*Transfer.*—Mr. J. A. Price, Executive Engineer, fourth grade, is transferred in the interests of the public service from the First Calcutta Division to the Burdwan Division.

COMMUNICATIONS.

The 3rd July 1883.

No. 246.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for making a dâk bungalow in the village of Char Palanda, pergunnah Shazapur, and Bhabail, pergunnah Bankipur, zillah Faridpur: it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 beegahs 4 cottahs of standard measurement, bounded on the north by the railway cuttings; on the east by land in Bhabail tenanted by Lal Chand Shaikh, and land in Char Palanda tenanted by Ram Nath Sarkar,

Dhananjay Sarkar, and others; on the south by land in Char Palanda tenanted by Git Govinda Bairagi and Adya Nath Kar; and on the west by land in the same mouzah tenanted by Miyazan Sardar, Dhananjay Sarkar, and others, is required with the aforesaid villages of Char Palanda and Bhabail.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

CIVIL BUILDINGS.

The 3rd July 1883.

No. 247.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for a brickfield, near the station of Darjeeling, zillah Darjeeling: it is hereby declared that for the above purpose a piece of land measuring, more or less, 9 acres 1 rood of standard measurement, bounded on the north and north-east and south and south-east by Mr. Charles Donaghen's Patrabong Tea Estate; on the south and south-west by the Tukvar Road; and on the north and north-west by municipal land, is required near the aforesaid station of Darjeeling.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

G. F. E. S NEILL, *Major*, M.S.C.,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

[Third Publication.]

IRRIGATION.

Draft of the Revised Water-rate Rules for the Orissa Canals.

The 18th June 1883.

No. 233.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following revised rules proposed to be passed in supersession of rules 5 and 31 passed under Notification No. 105 of the 26th July 1880, and published in the *Calcutta Gazette* for the 28th July 1880, Part I, pages 643 to 651.

RULE 5.—The rates chargeable per acre for the different descriptions of crops have been fixed up to the 1st of April 1888, and are as follows :—

	Flow.			Lift.		
	Rs.	A.	P.	Rs.	A.	P.
For the rice crop.						
I.—For the whole irrigable or rice cultivated area of any village if applied for up to the expiration of sanctioned rates	1	8	0	1	0	0
II.—For any fractional area of a village or for other term	3	0	0	2	0	0
For cold-weather crops.						
III.—Dalwa rice	1	8	0	1	0	0
IV.—For cotton, tobacco, huldi, ginger, wheat, vegetables, indigo, and all garden produce grown in villages, the rice lands of which are leased under rate I ..	1	0	0	0	10	0
V.—For the above produce when grown in villages the rice lands of which are not leased under rate I ..	2	0	0	1	8	0
VI.—For linseed, oilseed, dâl, and all pulses grown in villages, the rice lands of which are leased under rate I ..	0	8	0	0	5	0
VII.—For the above produce when grown in villages, the rice lands of which are not leased under rate I ..	1	0	0	0	10	0
For perennial crops.						
VIII.—For sugarcane	6	0	0	4	0	0

IX.—The charge for filling tanks will be Re. 1 per 10,000 cubic feet of water used.

RULE 31.—The dates of payment of water-rates shall be as follows :—

For rice ..	1st instalment ..	Two-thirds of the water-rate ..	1st January.
Ditto ..	2nd ditto ..	One-third ditto ..	1st May.
Sugarcane ..	....	....	1st June.
Dalwa rice and cold-weather crops ..		....	1st August.

N.B.—The Lieutenant-Governor reserves the right of withdrawing the permission to pay water-rates on rice in two instalments, and of requiring payment in one instalment, payable on such date as he may fix, should an alteration in this respect be at any time considered desirable.

J. M. HEYWOOD, *Lieut.-Col.*, R.E.,
Joint-Secy. to the Govt. of Bengal, P. W. Dept.

HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

CRIMINAL.

No. 1, *dated the* 18*th June* 1883.

AFTER clause (*h*), page 118, Rule 40, Chapter VI, General Rules and Circular Orders (Criminal), insert the following:—

(*hh*) When a copy of a judgment, sentence, or order is granted, the following particulars must invariably be recorded on the back of the copy itself, and in the form given below, for the information of the Appellate Court (section 12, Act XV of 1877). A stamp may be used for the purpose:—

Date of application for the copy	
Date of delivery of the requisite stamped sheets	
Date on which the copy was ready for delivery	
Date of making over the copy to the applicant	

CIVIL.

No. 4, *dated the* 18*th June* 1883.

AFTER clause (*h*), page 294, Rule 41, Chapter V, General Rules and Circular Orders (Civil), insert the following:—

(*hh*.) When a copy of a decree, judgment, or order is granted, the following particulars must invariably be recorded on the back of the copy itself, and in the form given below, for the information of the Appellate Court (section 12, Act XV of 1877). A stamp may be used for the purpose:—

Date of application for the copy	
Date of delivery of the requisite stamped sheets	
Date on which the copy was ready for delivery	
Date of making over the copy to the applicant	

Sheriff's Office, the 27th June 1883.

NOTICE is hereby given that the Fourth Criminal Sessions of the year 1883 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Monday, the Thirtieth day of July next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

SYAD ASGHAR ALLY, *Sheriff.*

MOHESCHANDRA NYAYARATNA,
Offg. Principal, Sanskrit College.

NOTICE is hereby given that the ensuing half yearly departmental examination of Assistant Magistrates, Deputy Magistrates, and others serving in this division will be held at Bhagulpore on Monday, the 5th November and following days.

The examination will be held in the Commissioner's office.

G. N. BARLOW, *Commissioner.*

COMMR.'S OFFICE, *Bhagulpore Division, the 23rd June* 1883.

Department Public Works Half-yearly Examination

THE half-yearly examination of candidates for promotion and employment in the Public Works Department will be held at the Government Engineering College, Howrah, at 10 o'clock on Monday, the 6th August 1883, and the following days. Applications, with fees, for admission to the examination are required to be filed before the 15th of July 1883. Candidates for the grade of accountant, who are not in Government service, should be under 25 years of age, and must prove to the satisfaction of the Principal that they are under that age.

The following are the centres of Examination sanctioned by the Government of India as stations where candidates for fourth grade accountantships are to appear for examination:—

Ajmere, Allahabad, Durbhunga, Ghadechi, Howrah, Indore, Lahore, Lucknow, Mount Abu, Nagpore, Poona, Rangoon, Rawal Pindi, Saidpore, Secunderabad, Sukkur, Simla, and Shillong.

Candidates for the Accountant's examination are therefore requested to select one of the places mentioned above.

S. F. DOWNING,

Principal, Government Engineering College, Howrah.

SHIBPORE, *the 18th June* 1883.

STAMPS.
H. A. Cockerell, Esq., C.S.I.

WITH reference to the provision contained in clause C, section 51 of the Indian Stamp Act, I of 1879, which requires that, in the event of the impressed stamp used for any bill-of-exchange, &c., signed by the drawer thereof being spoiled or rendered useless in consequence of any error or omission, another completed or duly stamped bill-of-exchange shall be produced indentical in every particular with the spoiled bill, except in the correction of such error or omission, before allowance can be made for the stamps spoiled: it is hereby notified for the information of the public that the Governor-General in Council has authorized the Collector of Stamp Revenue, Calcutta, to renew the stamps used for bills-of-exchange, which have become spoiled in consequence of mistake or error in drawing out the document, after the Collector has satisfied himself by evidence that a fresh set of bills-of-exchange has been executed in each case, and that application for such renewal has been made within ten working days from the date of the bill-of-exchange in respect of which the renewal of the stamp was required.

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND, *Offg. Secretary.*

BOARD OF REVENUE, FORT WILLIAM, *the 12th June* 1883.

NOTIFICATION.

EXCISE.
H. A. Cockerell, Esq., C.S.I.

IN continuation of the notification published in part I, page 546 of the *Calcutta Gazette* of the 21st June 1882, the Board, under the powers vested in them by section 17A of the Bengal Excise Act, IV (B.C.) of 1881, hereby declare, with the sanction of the local Government, that the possession, without a license from the Collector or other duly authorized officer, of any foreign excisable article (except spirituous and fermented liquors imported by sea and kept only for private use and consumption, and not for sale) is absolutely prohibited within the districts of Noakholly and Hooghly.

By order of the Board of Revenue, L. P.,

C. E. BUCKLAND, *Offg. Secretary.*

CALCUTTA, *the 19th June* 1883.

No. 736B.

NOTICE is hereby given that the Eighth Sale of Opium, the Provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 2nd August 1883, at 11 A.M., and will comprise 4,450 chests, viz :—

	Chests.
Opium manufactured at the Patna Factory, consisting of 219 lots and four chests of 75° consistence and 225 lots and one chest of 76° consistence	2,225
Opium manufactured at the Ghazipore Factory, consisting of 445 lots of 72° consistence	2,225
Total ...	4,450

2nd. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd. The latest dates for deposit and clearance will be the 7th and 17th August 1883, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 7th August 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 17th August 1883.

4th. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year, about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Thursday, 2nd August 1883...	2,225	2,225	4,450
„ Monday, 3rd September „ ...	2,225	2,225	4,450
„ Wednesday, 26th „ „ ...	2,225	2,225	4,450

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following order, issued by the Government of India in the Department of Finance and Commerce, is republished for general information :—

NOTIFICATION.

The following Corrigendum to the Codes of the Financial Department is published for general information :—

Simla, the 29th June 1883.

No. 1767.

C. P. C.

Page 5.

Section 8, *Rule* 5*A*.

Substitute the following for the Rule :—

5A The contributions due from officers transferred to Foreign Service and permitted by competent authority to retain claim to Pension or Absentee Allowance, will be levied under the following Rules :—

(1) The officer, immediately on receiving the order of transfer, must furnish a copy thereof to the Civil Accountant-General of the province within which he is serving, and must apply for orders to whom he is to account for the contribution required.

(2) The officer to whom he is to account is determined as follows :—

(*a*) If the salary of the transferred officer in his new appointment is to be paid from a Government Treasury upon a Bill subject to the audit of the Civil Accountant-General—it will be the said Accountant-General.

(*b*) Otherwise—it will be the Accountant-General of the province within which the Municipality, Port Trust, Local Fund, or other body concerned is situated; or if the case is one of service under a Native State, the Accountant-General of the Government under whose administration the Native State is.

(*c*) If the Foreign Service is outside British India—it will be the Comptroller-General.

(3) The officer transferred must, immediately on his being relieved of his duty under the British Government, report to the Account Officer mentioned in Rule (2) the date and time on which he made over charge, and furnish particulars regarding his salary in Foreign Service, and his postal address : he should also report the date on which he takes charge of his appointment in Foreign Service. Any change in these particulars, and any leave taken by him, should also be reported to the Account Officer; and he must furnish all information which may at any time be required from him by the Account Officer.

(4) In the case mentioned in Rule 2 (*a*) the officer will make his contribution by deduction upon his salary bill.

(5) In other cases the officer must, not later than fifteen days after the end of the quarter for which salary in Foreign Service is earned, remit direct to the Account Officer mentioned in Rule (2) the amount payable by him on account of contribution under the Rules in this Chapter, in respect of his salary for the said quarter: the remittance to be advised in such form as the said Account Officer may require. If the Officer fails to make the remittance within the said period of fifteen days, or if the amount remitted is less than that properly payable, interest at the rate of 4 pies a day per 100 rupees (about 8 per cent.) will be levied upon the amount due from the date of the expiry of the said fifteen days until the date of receipt of the remittance by the Account Officer. If any amount due, including interest, is not paid up within twelve months of its accrual, the Account Officer should submit a report to the Government of India, in the Department of Finance and Commerce, in order that it may be decided whether the officer's claims upon the British Government shall not be deemed to have lapsed.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

Calcutta, the 30th June 1883. (1308 1) G. H. SIMMONS, for Vice-Chairman.

Notification

THE owners of Lands in Calcutta or their Agents, Trustees, Executors, Administrators, &c, are hereby informed that for purposes of more speedy and convenient collection of land revenue in Calcutta, the town has been divided into eleven parts, each embracing a certain number of survey blocks, and that the revenue payable on account of all holdings for the current official year (1883-84), which became due on the 1st day of April 1883, must be paid into this Collectorate within the time mentioned against each survey block within which such holdings are situated.

Part I embracing—
Survey blocks 1 and 2 North Division
Ditto 1 and 2 South Division
} The land revenue due on account of holdings situated within these blocks must be paid on or before the 30th April 1883.

Part II embracing—
Survey blocks 3 and 4 North Division
Ditto 3 and 4 South Division
} Ditto ditto on or before 31st May 1883.

Part III embracing—
Survey blocks 5 and 6 North Division
Ditto 5 and 6 South Division
} Ditto ditto on or before 30th June 1883.

Part IV embracing—
Survey blocks 7 and 8 North Division
Ditto 7 and 8 South Division
} Ditto ditto on or before 31st July 1883.

Part V embracing—
Survey blocks 9 and 10 North Division
Ditto 9 and 10 South Division
} Ditto ditto on or before 31st August 1883.

Part VI embracing—
Survey blocks 11 and 12 North Division
Ditto 11 and 12 South Division
And Talook Sootanooty.
} Ditto ditto on or before 30th September 1883.

Part VII embracing—
Survey blocks 13 and 14 North Division
Ditto 13 and 14 South Division
} Ditto ditto on or before 31st October 1883.

Part VIII embracing—
Survey blocks 15 and 16 North Division
Ditto 15 and 16 South Division
} Ditto ditto on or before 30th November 1883.

Part IX embracing—
Survey blocks 17 and 18 North Division
Ditto 17 and 18 South Division
} Ditto ditto on or before 31st December 1883.

Part X embracing—
Survey blocks 19 and 23 North Division
Ditto 19 and 20 South Division
} Ditto ditto on or before 31st January 1884.

Part XI embracing—
Survey blocks 24 and 25 North Division
Ditto 21 and 23 South Division
And Lottery Committee lands assessed under Act 23 of 1850.
} Ditto ditto on or before 29th February 1884.

If the rents are not paid in accordance with this notification, the provisions of the law will be immediately enforced in every case.

Calcutta Collectorate, No. 4, Bankshall Street, the 4th April 1883. G. M. GOODRICKE, Collector.

NOTICE.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

1. OFFERS are invited from private firms or companies desirous of taking over the steam transport service now kept up by Government on the Sone Canals.

2. Copies of the following documents relating to the service may be had on application to the Under-Secretary in this Department, Writers' Buildings, Calcutta, or to the Superintending Engineer, Sone Circle, Arrah, Shahabad :—

I.—Description of the steamers employed.

II.—General rules under which the service is now conducted, shewing also the fares charged and distances run.

III.—Detailed statement shewing the receipts and working expenses of the service during the year 1882-83.

3. The tolls leviable, under Act V (B.C.) of 1864, on boats or steamers plying in the Sone Canals are shewn in a notice published in the *Calcutta Gazette* for the 18th January 1882, Part I, page 59. They are in amount as follows :—

	Per 100 maunds of displacement. Rs A. P.
Arrah Canal—	
Dehree to Arrah railway bridge	2 3 0
Buxar Canal—	
Bedadi to railway, Buxar	2 0 0
Patna Canal—	
Baroon to railway, Khagoul	2 15 0

4. The purchase of the steamers now employed on the canals must form an integral part of any tender. The descriptions of the steamers referred to in paragraph 2 of this notice are believed to be correct, but persons proposing to tender should examine the boats for themselves, as no errors of description will be admitted as a reason for cancelling a tender.

5. Reduced rates of tolls may, for a period not exceeding one year, be stipulated for ; but in that case the fixed intervals at which the steamers will run must be mentioned in the tender, and the maintenance of an effective service will be required as a condition of the concession.

6. The Government will, so long as a service is regularly carried on, cease from carrying passengers by boat or steamer, or goods not required for Government works.

7. No exclusive concession can be granted, the canals being open to all boats, whatever the motive power, on payment of the tolls prescribed by law.

8. It is proposed to make over the service, should a tender be accepted, from the 1st of October next, but a later date may be named.

9. All tenders must be addressed to the Secretary to the Government of Bengal in the Public Works Department, and must be accompanied by a receipt from the officer in charge of the Third Calcutta Division, or from some Executive Engineer for Rs. 500. Earnest-money to be forfeited if the person tendering fails to carry out the offer made. Tenders will be received up to the 1st of September next.

10. The highest or any tender will not necessarily be accepted.

J. M. HEYWOOD,

Joint-Secy. to the Govt. of Bengal,
P. W. Dept.

Trust N. P. Pogose.

KANHYA LAL, in charge Byramghat Depôt.
The 22nd May 1879.

Notification.

THE right of selling Non-judicial Stamps up to and inclusive of the value of Rs. 50, and Court-fee Stamps up to and inclusive of the value of Rs 75, for the remainder of the official year 1883-84 at the undermentioned places will be put up to auction at this office at 12 o'clock on Thursday, the 5th July 1883 The licenses for sale of Non-judicial Stamps and those for sale of Court-fee Stamps will be separately sold—

Calcutta Collectorate.
Police Court

The vendors who may be appointed will be allowed the usual discount on all purchases made by them from this office. They will be required to pay one month's fee in advance and one month's fee on the 1st day of each month for which it is due.

A vendor not acting up to his bid or surrendering his license before the expiry of the official year 1883-84 will forfeit his advance fees.

A vendor wishing to surrender his license before the expiry of the official year will also be required to give one month's previous notice of his intention of doing so.

The Collector does not bind himself to accept the highest or any offer which may be made, but reserves to himself a discretion to select the candidate who may appear best qualified.

The following are the limits within which the auction vendors will have the exclusive privilege of selling Non-judicial Stamps :—

CALCUTTA COLLECTORATE.

North.—Dalhousie Square (North) and Coilah Ghat Street.
West.—Strand Road from Coilah Ghat to Hastings Street.
South.—Hastings Street and Government Place (North).
East.—Old Court House Street and Dalhousie Square (East).

POLICE COURT.

North.—Canning Street.
West.—Radha Bazar and Old China Bazar Streets.
South.—Lall Bazar Street
East.—Lower Chitpore Road.

If the license for vend of stamps at the Calcutta Police Court is purchased by the Collectorate vendor, he will be allowed to sell stamps at that place by deputy.

It is, however, understood that the revenue authorities do not guarantee any monopoly to the vendor as regards the sale of Court-fee Stamps.

Any further information or particulars may be obtained by applying to the undersigned at his office daily between the hours 11 A M and 5 P M.

G. M. GOODRICKE, Collector of Stamp Revenue.
Calcutta Collectorate, No 4, Bankshall Street, the 2nd July 1883.

Calcutta, the 2nd July 1883.

Notice.

AN examination will be held at the Court of the Second Sudder Munsif of Sylhet, on 1st August 1883, under the new rules prescribed by the Chief Commissioner of Assam, dated the 29th December 1882, for the appointment of a sheristadar for the said court, on a salary of Rs. 40 rising Rs. 60 by biennial increments of Rs 2.

"Suitable candidates" presenting themselves for examination will be examined in the following subjects :—

1. English } Reading, writing, and speaking,
2 Bengali } including translation and composition.
3. Arithmetic.
4 Law—Civil Procedure Code, Limitation Act, Court Fees Act, General Stamp Act, Small Cause Court Act, Rent Law, Registration Act, and High Court Circulars (Civil).
5. Account keeping.

"Suitable candidates" under the said rules should apply, on or before the 15th July next, to the Second Sudder Munsif of Sylhet, forwarding certificates of character, with copies of other testimonials as required by the rules.

A similar examination is notified to be held at the Sudder Munsif's Court of Cachar on the 7th July next. Candidates presenting themselves for the said examination need not necessarily appear again at Sylhet, but the claims of those who pass creditably in the Cachar examination will be taken into consideration on their applying to the undersigned with copies of their testimonials before the fixed date

SYAM KISHORE SEN,

Ghazipur, North-Western Provinces. (1280—3)

Lost Interest Warrant.

NO. 72269, dated 24th February 1883, for Rs. 26-14-2, issued in the name of Sasi Bhushan Mukerjee, as broken and anticipation interest from 30th June 1882 to 31st October 1882 on Note No. 041827, 4 per cent. loan of 1854-55, for Rs. 2,000. (1288—3)

Suit No. 568 of 1881.

Nripendra Naryan Ghose *versus* Rajendra Naryan Ghose.

NOTICE.

THE High Court has authorised the Receiver in the above suit to raise money when necessary for the payment of Government revenue and zemindars' rents on the security of the estate, and has also authorised the Receiver to raise at once a sum of Rs. 40,000 on the security of the properties belonging to the estate. The public are cautioned that these charges will have priority over any private charges which may be created by any co-sharer

MOONALY DHUR SEN,
4, Hastings Street, Plaintiff's Attorney.
Calcutta, the 20th June 1883. (1283—2a)

Notification.

TO be peremptorily sold by the Registrar of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction in his sale-room in the Court-house on Saturday, the 21st day of July next, at the hour of 12 o'clock at noon, pursuant to a decree of the said court made in suit No. 273 of 1878 (wherein Heera and Panna are plaintiffs and Hurris Chunder Holdar is defendant), and dated the 8th of July 1878, the following properties :—

1. All that undivided one equal ninth part or share (the same into nine equal parts or shares being considered as divided) of and in all that partly upper-roomed and partly lower-roomed messuages, tenements, or dwelling-house with the piece or parcel of land or ground thereto belonging, or on part whereof the same is erected and built, containing by estimation four biggahs and ten cottahs or thereabouts, situate at and being Nos. 40 and 43, Sunker Holdar's Lane, in the town of Calcutta, in the registration district of Calcutta, and butted and bounded in manner following, that is to say :—on the north partly by the dwelling-house of Koylas Chunder Bonnerjee and Gopaul Chunder Bonnerjee, partly by the dwelling-house of Nilmoney Mookerjee and others, and partly by Sunker Holdar's Lane; on south partly by the dwelling-house of Gopaul Chunder Sen and partly by the dwelling-house of Woomes Chunder Mookerjee; on the east by the said Sunker Holdar's Lane; and on the west partly by the tenanted land of Cally Churn Bonnerjee and partly by the dwelling-house of Nilmoney Mookerjee and Jadub Chunder Mookerjee.

2. All that undivided one equal ninth part or share of and in all that lower-roomed messuage, tenement or dwelling-house with a piece of land or ground thereto belonging, and on which the same is erected and built, containing by estimation four cottahs, be the same a little more or less, situate at and being No. 50, Moiraputty Street, in the said town of Calcutta, in the registration district of Calcutta, and butted and bounded in manner following, that is to say :—on the north by the tenanted house of Obhoy Churn Mullick; on the south by the tenanted house of Doyal Chunder Sett; on the east by the said Moiraputty Street; and on the west by the tenanted house of Debendra Narain Shah.

3. All that undivided one equal ninth part or share of and in all that piece or parcel of land called or known by the name of Holdar Baugan, together with a large tank containing by estimation 27 biggahs, be the same a little more or less situate at Wooltadingee, in the registration sub-district of Alipore, in the district of Twenty-four Pergunnahs, and butted and bounded in manner following, that is to say :—on the north by the tenanted land of Kuggunder Chunder Mullick; on the south partly by Wooltadingee Road, partly by the land belonging to the Government, and partly by the tenanted land of Jeebun Money Dossee; on the east partly by the public road called Canal Street and partly by the land belonging to Government; and on the west by the tenanted land of Radha Madhub Dutt.

The conditions of sale and the mortgage may be seen at the office of the Registrar, High Court, Original Side, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

H. C. Chick, Plaintiff's Attorney.
High Court, Original Side, the 13th June 1883.
(1302—1)

Notification.

TO be peremptorily sold by the Registrar of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction in his sale-room, in the Court-house, on Saturday, the 4th of August next, at the hour of 12 o'clock at noon, pursuant to the decree of the said Court, made in suit No. 476 of 1882 [wherein Judoo Nauth Mookerjee is plaintiff and Sreemutty Kamini Dossee, Nobo Krishna Ghose, and Bhuckto Krishna Ghose are defendants], and dated the 14th of December 1882, the following property belonging to the said defendants, namely :—

Lot 1.—All that upper-roomed brick-built messuage, tenement, or dwelling-house, together with the piece or parcel of land or ground thereunto belonging and whereon, or on part whereof, the same is erected and built, containing by estimation eight cottahs, be the same a little more or less, situate at and being No. 110, formerly No. 34, Baniatollah Street, Hautkh Ilah in Soosnutty, in the town of Calcutta, and bounded on the north by the tenanted land and house, formerly of Anund Chunder Khan, but now or until lately of Ramdhone Khan; on the south by the said Baniatollah Street; on the west by the house, formerly of Woomesh Chunder Roy, but now or until lately of Ramjadoo Nath; and on the east by the dwelling-house, formerly of Gobind Chunder Mookerjee, and now or until lately of Kalee Prosonno and Dabendro Nauth Mookerjee.

The abstract of title and the conditions of sale may be seen at the office of the Registrar of the High Court, Original Jurisdiction, or at the office of Messrs Wilson and Chatterjee, the plaintiff's attorneys, at No. 7, Old Post Office Street, Calcutta, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Wilson and Chatterjee, Plaintiff's Attorneys.

Calcutta, High Court, Original Jurisdiction, the 25th June 1883. (1307—1)

Mrs. Grace Phoebe Roe, deceased.

STATUTORY NOTICE TO CREDITORS.

PURSUANT to the Trustees and Mortgagees Powers Act, 1866, notice is hereby given that all creditors and other persons having any claims or demands upon or against the estate of Grace Phoebe Roe, deceased, the wife of George Benjamin Roe of Calcutta, gentleman, who died at No. 5, Chowringhee Lane, in Calcutta aforesaid, on the 11th day of April 1883, and letters of administration with the will annexed of whose property and credits were on the 7th day of May 1883 granted by the High Court of Judicature at Fort William in Bengal in its Testamentary and Intestate Jurisdiction to Courtenay Carew Robinson of No. 4, Strand, in Calcutta aforesaid, attorney at law, and the constituted attorney of Sylvester Dignam at present residing in Europe beyond the jurisdiction of the said court, the sole executor in the said will named (with effect within the province of Bengal), for the use and benefit of the said Sylvester Dignam, and limited until he the said Sylvester Dignam should obtain probate or letters of administration (with will annexed) from the said court are hereby required to send in writing the particulars of their claims or demands to the undersigned Courtenay Carew Robinson at his office at No. 4, Strand, in the town of Calcutta, on or before the 31st day of August 1883; and notice is hereby also given that after the said last mentioned day, the said Courtenay Carew Robinson will be at liberty to distribute the assets of the said Grace Phoebe Roe or any part thereof amongst the parties entitled, having regard only to the claims of which the said Courtenay Carew Robinson shall then have had notice, and that the said Courtenay Carew Robinson will not be liable for the assets or any part thereof so distributed to any person of whose claim the said Courtenay Carew Robinson shall not have had notice at the time of such distribution.

Dated this 2nd day of June 1883

(1231—3) C. C. ROBINSON.

BERHAMPORE, the 2nd July 1883.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	„ 45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series .	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883:—

No. 14 of 1883.

A Bill to amend the Cattle-trespass Act, 1871.

I of 1871. WHEREAS it is expedient to amend the Cattle-trespass Act, 1871; It is hereby enacted as follows:—

I of 1871. Power for Local Government to transfer functions of District Magistrate and Local Government to local authority and direct that surplus receipts be credited to local fund.

1. The Local Government may, from time to time, by order notified in the local official Gazette—

(*a*) transfer to any local authority, within any part of the territories under its administration in which the Cattle-trespass Act, 1871, is in operation, all or any of the functions of the Local Government and the Magistrate of the district under sections four, five, six, seven, twelve, fourteen and seventeen, and clause (*a*) of section eighteen, of that Act, within the local area subject to the jurisdiction of the local authority; or I of 1871.

(*b*) direct that the surplus accruing in any district under section eighteen of that Act shall be placed to the credit of such local fund or funds as may be formed for any local area or local areas comprised in that district,

and may from time to time, in like manner, cancel any order made under this section.

Definitions. 2. In this Act—

"Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area; and

"local fund" means any fund under the control or management of a local authority.

STATEMENT OF OBJECTS AND REASONS.

BY the Central Provinces Local Self-government Act, 1883, (I of 1883), certain functions which under the Cattle-trespass Act (I of 1871), are to be performed by the Local Government or the Magistrate of the District are transferred to the local authorities constituted under the first-mentioned Act, and the surplus proceeds arising under section 18 of the Cattle-trespass Act are directed to be carried to the local funds which are placed under the control of the local authorities. Provisions to the same effect are embodied in the Bill now pending in the Legislative Council of the Lieutenant-Governor of Bengal for the amendment of the system of Local Self-government in that province and in the Bills now pending in the Legislative Council of the Governor General for the amendment of the system of Local Self-government in the North-West Provinces and in the Panjáb. But doubts have been entertained whether, inasmuch as these provisions amount to an amendment of the Cattle-trespass Act, which is an Act of the Governor General in Council, their enactment would not be beyond the powers of a local legislature such as the Legislative Council of the Lieutenant-Governor of Bengal. It has therefore been thought desirable to amend the Act in such a way as to enable Local Governments to make the requisite changes by executive order.

2. The following extracts from the Cattle-trespass Act will explain the nature of the powers which it is proposed by the Bill to confer on Local Governments:—

"4. Pounds shall be established at such places as the Magistrate of the District, subject to the general control of the Local Government, from time to time directs.

"The village by which every pound is to be used shall be determined by the Magistrate of the District.

"5. The pounds shall be under the control of the Magistrate of the District; and he shall fix, and may from time to time alter, the rates of charge for feeding and watering impounded cattle.

"6. The Magistrate of the District shall also appoint for each pound a pound-keeper:

"Provided that, in the Presidency of Fort St. George, the heads of villages, and, in the Presidency of Bombay, the police pátils, or (where there are no police pátils) the heads of villages, shall be *ex-officio* the keepers of village-pounds.

"Every pound-keeper appointed by the Magistrate of the District may be suspended or removed by such Magistrate.

* * * * * * * *

"7. Every pound-keeper shall keep such registers and furnish such returns as the Local Government from time to time directs.

"12. For every head of cattle impounded as aforesaid, the pound-keeper shall levy a fine according to the following scale:—

* * * * * * * *

"All fines so levied shall be sent to the Magistrate of the District through such officer as the Local Government from time to time directs.

* * * * * * * *

"14. If the cattle be not claimed within seven days from the date of their being impounded, the pound-keeper shall report the fact to the officer in charge of the nearest police-station, or to such other officer as the Magistrate of the District appoints in this behalf.

* * * * * * * *

"If the cattle be not claimed within seven days from the date of the notice, they shall be sold by public auction by the said officer, or an officer of his establishment deputed for that purpose, at such place and time and subject to such conditions as the Magistrate of the District by general or special order from time to time directs:

"Provided that if any such cattle are, in the opinion of the Magistrate of the District, not likely to fetch a fair price if sold as aforesaid, they may be disposed of in such manner as he thinks fit.

"17. The officer by whom the sale was made shall send to the Magistrate of the District the fines so deducted.

"The charges for feeding and watering deducted under section sixteen shall be paid over to the pound-keeper, who shall also retain and appropriate all sums received by him on account of such charges under section thirteen.

"The surplus unclaimed proceeds of the sale of cattle shall be sent to the Magistrate of the District, who shall hold them in deposit for three months, and, if no claim thereto be preferred and established within that period, shall, at its expiry, dispose of them as hereinafter provided.

"18. Out of the sums received on account of fines and the unclaimed proceeds of the sale of cattle, shall be paid—

"(*a*) the salaries allowed to pound-keepers under the orders of the Local Government;

"(*b*) the expenses incurred for the construction and maintenance of pounds, or for any other purpose connected with the execution of this Act;

"and the surplus (if any) shall be applied, under orders of the Local Government, to the construction and repair of roads and bridges and to other purposes of public utility."

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

SUBORDINATE EXECUTIVE SERVICE EXAMINATIONS.

APPOINTMENT DEPARTMENT.

Darjeeling, the 20th June 1883.

RESOLUTION.

READ—

Resolution of this Government, dated the 23rd February 1883, prescribing the conditions upon which appointments will in future be made to the Subordinate Executive Service in these Provinces.

IN paragraph 7 of the Resolution cited above, it has been ruled that candidates who will be permitted to appear at the open competitive examinations for admission into the Subordinate Executive Service must not be more than 25 years of age. The question having been raised whether this restriction of age applies equally to persons who are already in the Government service, the Lieutenant-Governor directs that, at the examination to be held in January 1884, the limit of age shall not be enforced against persons now in Government service, who will be allowed to compete, viz. the officers in the first and second grades of Sub-Deputy Collectors, or against those candidates whose names are included in the Government list. For the subsequent examinations the 25 years' rule will be strictly enforced in regard to all candidates, whether in Government service or not.

2. It will thus hereafter be open to persons already in Government employ to obtain appointments as Deputy Magistrates and Deputy Collectors, *firstly*, in open competition, they being, at the time they compete, not more than 25 years of age; and *secondly*, by special selection by Government for special reasons, or under exceptional circumstances, as laid down in paragraph 9 of the Resolution of the 23rd February last.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Commissioners of Divisions for information, and for communication to all District Officers in their Divisions.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Secretary to the Government of Bengal.

REPORT OF THE HEALTH OFFICER OF CALCUTTA FOR THE YEAR 1882.

Dated Calcutta, the 14th April 1883.

From—The Health Officer of Calcutta,
To—The Chairman of the Corporation.

I HAVE the honour to submit the annual report and returns for the year 1882.

2. In accordance with the provisions of Act I (B.C.) of 1882, annual reports will for the future be prepared for the official year (ending 31st March) in place of the calendar year, as heretofore. It is therefore necessary that this report should embrace a period of 15 months (commencing 1st January 1882, and ending 31st March 1883). In order to maintain continuity of record, and facilitate comparison with the past, the report will mainly concern the calendar year 1882, and all comparisons with preceding years will refer to corresponding periods. The statistics of the three months January, February, and March 1883, will be inserted as a supplement, and the narrative of the sanitary state of Calcutta brought up to 31st March 1883. Future reports will embrace the official year, and the statistics of previous years will be recast, so as to obviate the hiatus which would result from a comparison of calendar and official years. This is not a point of much importance perhaps, but it is thought better not to allow the statistics of the first quarter of 1883 to drop out of the series.

3. *Meteorology.*—There is nothing worthy of note in the meteorology of the year. It may be pronounced normal. The barometric tide, as indicated by monthly means, was in accordance with rule, and very slight difference of level is observable in either monthly or annual means. The temperature of the year was, on the whole, little higher than usual, making allowance for the lower readings now obtained at the Alipore Observatory, as compared with the observations previously recorded in the Surveyor-General's office at Park Street. The difference will, however, become less appreciable as the results of preceding years come to comprise an increasing number of Alipore observations. A larger than average depression is observable in the results for February, May, and October. In the remaining months the readings correspond more closely with the annual mean. January and March present, however, relatively high figures. The mean range of temperature followed a normal curve. The humidity of the year was high: that of October and November being conspicuously so.

4. The rainfall of the year fell short by but two-tenths of an inch of the mean fall of the preceding 48 years. The distribution of the fall departed in some respects from the fall of former years, February and October receiving an undue share of the total, and June, July, and August less than the wonted amount No meteorological disturbance of note visited Calcutta, unless the violent thunder-storms of February and October are entitled to that distinction. They were, however, but somewhat severe manifestations of phenomena always liable to occur at these seasons. The following table sets forth the various data above commented upon in detail:—

TABLE No. I.

Table showing the main features of the Meteorology during the year 1882.

MONTHS.	BAROMETER.		TEMPERATURE.		Range of 1882.	HUMIDITY.		RAINFALL.	
	1882.	Mean of 24 years.	1882.	Mean of 24 years.		1882.	Mean of 24 years.	1882.	Mean of 48 years.

5. Since the close of the year the weather has been characterized by an unusually low temperature in January and February, and a heavier than usual fall of rain in February; this took place on the 25th and 26th of the month. Rain also fell in smaller quantities, almost daily, from 5th to 11th March, and was accompanied by considerable atmospheric disturbance. The humidity of March was rather high. In other respects the meteorology of the first quarter of 1883 was normal.

6. *Price of Food.*—The cost of food has been moderate throughout the year. Good *balam* rice sold at Rs. 2-9, coarse *balam* at Rs. 2-3, *khari* at Rs. 2-1, and *deshi* at Re. 1-14. These prices entitle the year to rank as a year of plenty. A reference to the table published in the report for 1880 indicates that the year 1882 is the third year of moderate prices following a period of six years of comparative dearness. Table No. XXII in the appendix shows that the prices of meat and other articles sold in the municipal market have been comparatively low, and table No. XX, which is a return of animals killed for food in the municipal slaughter-house at Tengra, exhibits an excess of 6,887 head of cattle of sorts as compared with the preceding year. The excess is contributed by every species of kill, excepting kids. The excess under the head of "second class bullocks" and sheep is very marked. Prices of food have continued moderate up to the close of the first quarter of 1883.

7. *Markets.*—The markets of the town have been under systematic inspection by the officers of this department during the year, with, on the whole, satisfactory results. Improvements have been made, at the instance of this office, in the sanitary condition of the following markets:—

Name and Locality.	Proprietor.	Improvements effected.
Bowbazar, registered.		
No. 84, Bowbazar Street	Nundogopal Muttylall	Part of the flooring repaired, as also the roads and drains.
Pork Market, licensed.		
No. 23, Chattawalla Gully	Ranee Wooma Soondery Dossee	Thoroughly re-built on improved plan, with a pucca shed of 60 feet in length, with brick-on-edge road round pucca drains; drainage works, and water connections.
Dewan Kassy Nauth's Bazar, licensed.		
No. 58, Clive Street	Damoodor Dass Burmon ...	Part of the shed on the west re-built and made pucca, with drains and roads round it; as also partial repairs made to other roads and drains.
Chandney Bazar, licensed.		
No. 167, Dhurrumtolla Street	Receiver, High Court	A good portion of the roads made pucca and cemented, as also the drains, with drainage connections.
Manicktolla Bazar, registered.		
No. 101, Upper Circular Road	Ranee Kristoramoney Dossee ...	Sheds repaired, as also flooring; road widened to four feet, drains repaired and cemented; two urinals and a privy of four seats are also made for this bazar.
Notcon Bazar, registered.		
No. 226, Chitpore Road	Rajah Rajendra Mullick	Roads, drains, and flooring repaired and put in proper order.
Lalla Baboo's Bazar, registered.		
No. 272, Chitpore Road	Coomar Indra Narain Sing	Many of the roads and drains in this market are improved and thoroughly put in order; flooring and some portion of the sheds are repaired.
Annauth Nath Deb's Bazar, licensed.		
No. 159, Manicktolla Street	Annanth Deb	Newly constructed and nearly completed, with proper roads, drains, privy, and water connections.
New Bazar.		
Nos. 156 to 158, Bowbazar Street ...	Norendra Coomar Dutt	Ditto ditto.

Considerable opposition was experienced in inducing the proprietor of the registered market at 101, Upper Circular Road, to put the place in order and restore the paths to the width originally sanctioned, serious encroachments on them having intermediately been made by vendors with consent of the manager. After long discussions a compromise was effected, and the paths widened from three to four feet. It has now become the practice for the market committee to inspect all markets before giving the annual license. Opportunity is thus afforded for procuring the execution of all repairs and alterations which are considered conducive to public convenience and health.

8. *Birth Registration.*—The number of births registered during the year was slightly in excess of 1881, and 1,098 over the mean of the preceding decennium. The rate, 17·3, is exceeded by only one year of that series, namely 1880. The improvement in birth registration, which commenced in 1875, has been sustained, but, for the reasons stated fully in last year's report, there can be little or no doubt that a considerable number of births in Calcutta

still escape registration. The statistics of 1882 agree with those of previous years in showing an excess of births in the last quarter of the year:—

TABLE No. II.

Statement of Births registered from 1872 *to* 1882.

YEARS.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.	Ratio per 1,000 of population, census 1881.

1881	609	584	664	656	580	504	518	606	653	730	764	683	7,506	17·3
1883	643	602	618	.....	...	.....	.....	.....	.....	.....	.....	.....	.....	17·

The returns of the first quarter of 1883 present results corresponding closely with recent years.

9. *Births according to Race.*—For reasons fully set forth in last report, statistics relating to non-Asiatics and mixed races are subject to very great doubt. The census basis and the registered events are both liable to error; and as these data are recorded in a different manner, and by a different agency, it is more than probable that the kind and amount of error in them are also different. The remaining racial divisions shown in the following abstract and table (No. III) are less subject to error, both as regards numeration and registration:—

NATIONALITY.		Birth-rates.		Proportion of male to female births.	
		1882.	1881.	1882.	1881.
Non-Asiatics		16·3	12·1	102	140
Mixed races		42·7	50	109	119
Asiatics ...	Hindoos	18·3	18	108	107
	Mahomedans	13·9	11·2	121	115
	Other classes	6·3	5·2	84	58

Mixed races, as usual, exhibit the greatest fecundity, and the proportion of male and female births is more normal. Non-Asiatics present a higher birth-rate than in 1881, and a normal sex proportion. Hindus are more prolific than Mahomedans, and show a more regular ratio of sexes in their births. The statistics relating to other classes—Native Christians, Armenians, Turks, Chinese, Syrians, Brahmos, Buddhists, Jains, Jews, Parsees, Sikhs, Dhangers, &c., are altogether anomalous.

Table No. III presents the registered births of the year, sub-divided according to race and sex, in detail.

10. *Plural Births.*—Thirty-five twin births were registered during the year : 38 of the children were males and 32 females. In 13 instances both children were males, in 10 both females, and in 12 one of each sex.

These figures correspond with those of previous years, and exhibit the same remarkable preponderance of males. I have searched sundry statistical reports for parallel data, and found in the excellent registration reports of the State of Michigan, figures which are compared with the results recorded in Calcutta during the last three years in the following statement :—

	Twin births per 1,000 of population.	Per cent. of Total Births.			Per cent. of Total Infants.	
		Both males.	Both females.	One male and one female.	Males.	Females.
Calcutta, three years	·08	39·6	26·7	33·6	56·4	43·
Michigan, five years	·29	29·9	31·6	38·5	49·2	50·8

This is a very special item of vital statistics, and not, it may reasonably be urged, so liable to error, either of omission or commission, as a more general entry. Still it is curious to observe how greatly the results differ in all respects—in respect of the number of these occurrences and of the sex of the children. The repetition of nearly similar proportions year after year gives presumption of accuracy in each case. If the discrepancy in a special point, such as this, is due to annually repeated error, the prospect of obtaining correct statistics seems almost hopeless. If, on the other hand, the figures in each case are sound, they indicate profound differences in the vital circumstances of different communities, which should temper hasty assumptions of inaccuracy when results, in different places or at different times, are found to disagree.

11. *Mortality.*—The death-rate of the year must be pronounced excessive. Only three years in the preceding decade present higher aggregates, and the rate is also in excess of the decennial mean. Cholera is the main cause of increase ; "other causes," though rendering fewer deaths than in 1881, present a striking contrast with the average. Under other heads, as shown in table No. IV, the results of the year are satisfactory, more particularly as regards small-pox. The mortality of the first quarter of 1883 has also been somewhat in excess of the preceding decennium, the excess being due to an increase of deaths from cholera, bowel-complaints, and other causes.

Table No. IV.

Statement of Deaths from the most prevalent diseases from 1872 *to* 1882.

Years.	Cholera.	Diarrhœa and dysentery.	Fevers.	Small-pox.	Other causes.	Total.	Ratio per 1,000 of population, census 1881.

1873-82, first quarter ...	440	390	1,107	145	1,206	3,330	30·8

12. *Mortality according to Locality.*—The varying death-rates of different sections of the town have been illustrated and commented upon in previous reports. The feature is also evident in the figures of 1882 ; but, as compared with the preceding decennium, there is a greater tendency to equalization than usual, the habitually low showing higher rates, and the habitually high somewhat lower. In addition to the circumstances tabulated in previous reports, which tend to explain the high rates of the more unhealthy sections, I have added in table No. V a column showing the extent of area covered by *bustees* in each ward. The higher death-rates correspond generally with the more

extensive *bustee* area, thus affording statistical evidence of the great insalubrity of bustees, and the extent to which their presence in a ward comprises its health.

TABLE No. V.

Statement of Mortality according to Locality in 1882.

13. *Mortality according to Race.*—Deaths are shown according to race in the detailed tables appended to this report. In the following abstract the aggregates are shown for the different races, sub-divided according to sex.. Excluding "other classes," whose vital statistics are anomalous, the very high death-rate of mixed races, and the low death-rate of non-Asiatics, arrests attention. The data on which these rates are founded are, however, very doubtful. The death-rates of females are lower than of males in both classes. Hindus, as usual, present a higher rate than Mahomedans, and in the case of both the mortality of females exceeds that of males. The mortality of Mahomedan females is, as in former years, remarkably large.

TABLE No. VI.

Deaths according to Race for the year 1882.

RACE	POPULATION.			DEATHS.			RATIO OF DEATHS PER 1 000 OF POPULATION		
	Males	Females	Total	Males.	Females.	Total.	Males	Females.	Total.
Non Asiatics	9 193	4 658	13,851	180	36	216	19 5	7 7	15 5
Mixed races	4 515	4 389	8 904	217	189	406	48	43	45 5
Hindoos	180,084	98,678	278 703	5,972	3,766	9,108	29 7	37 9	32 6
Mahomedans	90,667	33 763	124 430	1 981	1,401	3,382	21 8	41 5	27 1
Other classes	4,358	2 914	7,272	51	13	64	11 7	4 4	8 8

14. In Table No. VII the facts as regards race and sex are stated in mensural detail, and arranged under the principal causes of mortality; reference will be made to this statement in discussing the special causes of mortality. As regards the totals, it will be observed that the month of December furnishes the highest, and the month of July the lowest aggregate of deaths, and that there is a tendency to fall and rise between these extremes. The tendency to fall is, however, disturbed by a very marked rise in April and May. A hot weather rise of the death-rate is a normal event, but that of 1882 was rather more marked than usual. The rains are the healthiest season of the year in Calcutta, because the two main causes of mortality, fever and cholera, are at a minimum during that time.

No VII.

to Race and Sex during the year 1882.

15. *Deaths according to age.*—The figures exhibited in Table No. VIII agree very closely with those of the previous year. In the last report a comparison was made between Calcutta and London in respect of the composition of its inhabitants as regards age and the death-rate at different periods of life. The data of the present year sustain the conclusion therein stated. It will be observed that the death-rate of person above 60 is higher than in the preceding year, and considerably above the London rate for this period of life (91·7 against 82·7). As the census returns do not furnish information regarding the numbers living at different ages of non-Asiatics and mixed races, their death-rates cannot be separately computed according to age.

TABLE No. VIII.

Statement of Deaths according to Age for the year 1882.

Ages.	Population.			Deaths.			Ratio of Deaths per 1,000 of Population per Annum		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Combined

Other classes	6	90·9	82·5
Total ...	2,609	427·1	299·2

16. *Infant mortality.*—The death-rates of infants under one year of age do not exhibit any abatement, and the infant mortality among different races presents similar contrasts. Mahomedans give the highest rates; Hindus come next; Christians follow at a considerably lower level; and "other classes" render rates comparing favourably with English rates. The main causes of infant mortality are shown in Table No. IX, from which it appears that convulsive diseases are the principal factors of the large loss of infant life among natives, and that these diseases tend rather to rise than fall. Probably a more accurate diagnosis has been made within recent years since attention was prominently directed to the subject.

TABLE No. IX.

17. A more minute analysis is made of infant deaths in table No. X, which also shows the sectional mortality as compared with the number of children under one year of age assigned to each ward by the census enumeration of 1881. The number of deaths occurring with 15 days of birth is again very striking, amounting to more than a half of the whole. The deaths of male children are as 122 to 100 female. The proportion in the census return is 109 to 100, and in the births of the year 111 to 100. Male infants, therefore, die in excess as compared with females, if these figures are to be trusted. In this respect the result agree with those of preceding years, and with the experience of Europe and America.

TABLE NO. X.

Statement of sectional Infant Mortality according to Sex and Age of the year 1882.

| SECTION. | POPULATION. | | | AGE. | | |

18. *Suburban mortality.*—The death-rate of the suburbs, though still greatly in advance of that of the town, presents an improvement as constrasted with the last few years, as is shown in the following statement:—

Year.	Town.		Suburbs.	
	Actual number of deaths.	Per 1,000 of population.	Actual number of deaths.	Per 1,000 of population.
1877	18,704	31·6	14,025	55·7
1878	16,396	27·8	17,480	69·4
1879	18,044	30·1	13,835	55
1880	11,681	20·9	11,216	44·6
1881	13,030	30	11,143	44·3
Mean	13,571	31·3	13,535	53·8
1882	13,177	30·4	10,470	41·6

The abatement in the suburban mortality, as compared with that of the previous year, is due to a decline of deaths from fevers, bowel-complaints, and "other causes," small-pox showing a slight rise, and cholera a considerable advance. Table No. XI presents the figures of the year in monthly detail, and under certain main causes similar to those exhibited for the town in table No. VII.

TABLE No. XI.

19. *Cholera.*—The past year has been an exceedingly unfavourable one in respect of cholera. In no year since 1869 has there been so large an agreegate mortality from this cause. The nearest approach to it is 1876, in which 1,851 deaths were registered. The mean of the 12 years 1870 to 1881 was 1,314. On scanning the figures of this series, as shewn in table No. XII, an alternate ebb and flow of the disease is observable, and the large total of 1882 is the climax of a somewhat sudden ascent from 1880, in which a minimum occurred by a more gradual fall from 1876. The maximum of that year was gained by an ascent from 1871, which shows the lowest cholera mortality on record in Calcutta. But although the cholera aggregate of 1882 was unprecedented in recent years, it only amounts to about a half of what seems in former times to have been the habitual mortality from cholera in Calcutta. Dr Macpherson, in his work on cholera in its home, gives the aggregate statistics of cholera for 26 years, ending 1860. The mean of the series is 4,011 annual deaths. Table No. XII shows the mean of the five years, 1865-69, to be 4,388. Taking 4,000 to represent the annual cholera mortality of Calcutta prior to 1870, a saving of 34,000 lives may be fairly credited to sanitary improvements, more particularly to the supply of pure water for drinking and cooking purposes to the town. The cholera mortality of the suburbs presents a rise of 25 per cent., against 33 per cent. for the town.

The figures for town and suburbs are contrasted in the following statement:—

Year.	Town.		Suburbs.	
	Cholera deaths.	Per 1,000 of population.	Cholera deaths.	Per 1,000 of population.
1877	1,418	2·3	1,008	7·5
1878	1,738	3	2,361	9·3
1879	1,147	2·7	1,070	7·4
1880	696	1·8	980	3·8
1881	1,693	3·2	1,879	7·4
Mean	1,338	2·9	1,600	7·1
1882	2,240	5·1	2,349	9·3

It will be observed that the figures rise and fall consentaneously, but that the excess in 1882 over the mean is not so marked in the suburbs as in the town. Either, therefore, there is deterioration in the town, or amelioration in the suburbs as far as conditions favouring cholera are concerned; perhaps both. I am inclined to think that the suburbs are improving, but in view of the fact that the town is encircled by the suburbs on every side, and that both general and cholera death-rates tend to rise and fall in common, the importance of improving the sanitary condition of the suburbs is a matter of vital interest to the town.

TABLE No XII.

Monthly Cholera Deaths from 1865 *to* 1882.

19. *Cholera, according to race, sex, and age.*—The incidence of cholera varies in each of these respects. Males died at the rate of 5·5 per 1,000, against 4 4 for females. The death-rate among Hindus was 6·2, Mahomedans 3·6, mixed races 2·6, non-Asiatics 2·1, and other classes ·55. These figures accord with the results of previous years. Forty-six infants under one year died of cholera; 17 children in the second year, 55 in the third, 66 in the fourth, and 41 in the fifth. The number of fatal cases among infants is large, but it probably includes cases of so-called "cholera infantum," which is not specific.

20 *Cholera according to season.*—The following statement gives an instructive view of the monthly prevalence of cholera in the past and previous years:—

	DEATHS FOR EACH MONTH PER 1,000 OF TOTAL.												
	January	February.	March.	April	May.	June.	July	August.	September.	October	November	December.	
1865-69	69	90	141	196	128	80	38	84	89	89	79	79	1 000
1865-69	56	92	158	144	109	73	46	63	57	61	79	85	1,000
1870-81	77	90	146	163	101	57	30	31	35	50	101	108	1 000
1882													
Town	67	49	75	141	189	113	24	23	16	46	103	104	1,000
Suburbs	88	63	95	99	141	79	21	19	32	74	90	228	1,000

The two earliar periods represent times of habitually severe prevalence, the third a time of abated cholera prevalence. The table shows two seasons of higher prevalence—the hot whether and commencement of the cold—and two seasons of lower prevalence, the rains and cold weather. The period of abatement, 1870-71, presents a contrast with the earliar periods in relatively less cholera in the rains and more after their cessation. The spring cholera is not so severe, and shows a tendency to earlier decline. In 1882 the spring cholera

is more protracted, the rains depression more pronounced, and the winter cholera higher, with a decided and very remarkable rise in December. This table should be read in comparison with table No. XII, which gives the actual numbers.

21. The seasonal variations exhibited in the foregoing paragraph must depend mainly, but probably not immediately, on meteorology. But in the absence of exact knowledge of the proximate cause of cholera, it is impossible to make any positive statement regarding the precise manner in which climatic changes, near and remote, affect the prevalence of the disease. It must suffice for the present to place the facts on record; and as the relation observed to exist between the weather and the prevalence of cholera was made the subject of remark in the quarterly reports, extracts from these will furnish all the information available for the year.

In the report for the first quarter of the year the following remarks were recorded:—

"Cholera deaths have been somewhat below the mean. The mortality has been higher than that of the three preceding years In the report for the last quarter of 1881 it was shown that the autumnal outbreak of this disease was exceptionally virulent. January and February exhibit a decline from the very high figures of November and December, but the March total gives evidence of the usual Spring rise This has been progressive since the close of the quarter When the maximum will be attained will depend on the weather. Experience has taught that a prolongation of drought with heat or a succession of heavy showers mitigates or quenches a Spring cholera; while an infrequent succession of light showers with intermediate humid heat encourage and sustain it. Whether the experience of 1882 will confirm that of past years in this respect remain to be seen. An inspection of the weekly returns of cholera discloses a tendency to decrease until the middle of March, and a somewhat rapid rise subsequently. The heavy rain of 11th and 12th February was followed by a slight abatement, and the scanty showers of the 14th, 16th, and 24th were coincident with a rise."

The second quarterly report was to this effect:—

"The number of deaths registered under the head of cholera is in excess of every year of the preceding decade, and amounts to more than double the mean of that period. In no year since 1869 has the second quarter of the year exhibited so large a tale of cholera fatalities The normal seasonal rhythm is also departed from, inasmuch as the May total exceeds the April total, while the June total amounts to over three times the June mean.

"The excess is therefore more manifest in May and June than in April, the disease attaining its maximum later than usual and declining more slowly. On studying the prevalence of the disease, week by week, no very marked fluctuations are apparent There was a tendency to fall during the first three weeks of April, the numbers being 75, 58, and 52, succeeded by a rapid rise in the last week of April and first of May, the numbers being 100 and 104. The three succeeding weeks show more moderate figures—73, 73, 79: the rain in the first half of the month seems to have caused an abatement The rainless second half of the month is succeeded by a remarkable rise to 115 in the week ending 3rd June, and thenceforward the weekly numbers are 75, 55, 58, and 18. The disease seems to have yielded, but somewhat stubbornly, to the heavier showers of June. The influence of rain is not so well marked in these figures as in former years. Still the disease has undoubtedly obeyed the usual law of season.

In the third quarterly report it was noted that, while the numbers were somewhat high, the usual depression in the prevalence of the disease was well marked The meteorology of the season was normal.

In the report for the fourth quarter the cholera statistics of the period were commented upon in the following terms:—

"The mortality caused by cholera has been conspicuously large. In no fourth quarter of the preceding decade has the cholera mortality been so large as in 1882. As shown in previous quarterly reports, the year has been a bad one throughout as regards cholera. The Spring cholera was unusually severe and protracted, and the subsidence, which occurs in the rains, did not reach an average level. Indications of a rise commenced in the third week of October, and the numbers gradually grew larger until the middle of December, since when a somewhat rapid abatement has taken place. The disease did not present any tendency to ascent until after the heavy fall of rain, to which reference has been made in paragraph 2; but with the cessation of the rains and change of the monsoon it made very decided progress The October total, though in advance of the mean, is by no means excessive. November renders the same figure as the preceding year, in which the winter cholera was also severe It is the December result which presents so startling a departure from the rule of previous years, and so greatly exceeds the decennial mean. This exceptional December rise is not only at variance with the rule of cholera in recent years,

but is still more so with that of former times, when the disease habitually prevailed with greater severity. Dr. John Macpherson gives a table in his work on "Cholera in its Home," showing the aggregate monthly mortality caused by cholera during 26 years ending 1860. The mean numbers of October, November, and December are 238, 320, and 313, giving a quarterly aggregate of 871 deaths. The cholera mortality of December constitutes, therefore, a very well-marked abnormality; and the question arises whether this abnormality has been peculiar to Calcutta, or has been shared by the suburbs and the surrounding districts. I have endeavoured to collect evidence on this point, with the result that all the information which I have succeeded in obtaining points to a similar excess of cholera mortality having occurred in the districts surrounding Calcutta. This is clear from the following tabular statement, which underrates, rather than overrates, the December mortality:—

Cholera Deaths for the months of October, November, and December 1882.

Districts.	Population.	Deaths from Cholera.			Ratio per 1,000 of Population.		
		October.	November.	December.	October.	November.	December.
24-Pergunnahs	1,869,858	261	516	2,058	·14	·27	1·1
Howrah	635,391	50	96	325	·07	·13	·51
Midnapore	2,517,802	68	*	587	·02	*	·23
Hooghly	1,012,768	18	83	208	·01	·08	·2
Nuddea	2,017,847	272	1,073	429	·13	·53	·68
Jessore	1,877,249	675	1,976	1,880	·36	1·24	1·0

* Returns not received.

The general accuracy of the return is confirmed by the notes on the health of districts which appear weekly in the *Calcutta Gazette*. The returns obtained from the suburbs give totals of 172, 216, and 529 for the months of October, November, and December, which, making allowances for population, bear the ratios of 328, 156, and 223 to the urban mortality taken as 100. The first indication of unusual cholera prevalence was the occurrence, towards the end of October, in some villages of the suburban section, Chitpore, of a very serious outbreak among the coolies employed in certain jute presses. Close upon 200 of these were attacked in a few days, and the great majority of them died very rapidly. At this time cholera did not prevail with any severity in either town or suburbs. Subsequently the disease became very general throughout both urban and suburban areas. The incidence of the disease in the town was sporadic. It was very rarely that a group of cases occurred in one house or locality, and when this happened a special enquiry was invariably made. In some cases very insanitary conditions were discovered in localities where several cases occurred. The disease was of a very virulent type, the proportion of deaths to cases being remarkably high.

The history of cholera, up to the close of March 1883, is contained in the following extract from the report of the first quarter of this year:—

"Cholera mortality has again been very severe in the quarter under report, the quarterly total being 120 above the decennial mean. This excess is mainly due to the magnitude of the January total, February and March exhibiting figures nearly level with the decennial average. The disease in fact, though abating in January, maintained a high position. The February figures were more normal, and a minimum of prevalence was reached in the second week of this month. Since then the rise habitual to the season has occurred, but the figures are not far beyond the average of recent years. The disease may be said to have resumed its usual dimensions after a conspicuous increase of bulk in December and January, for which, in the present state of our knowledge, it is impossible to assign a satisfactory reason. The incidence of the disease has been sporadic, and the northern and central sections have, as usual, suffered more than the southern."

22. *Localization of cholera.*—In the following table, No. XIII, the sectional death-rates from cholera are shown for the year and for the preceding decade. These figures compare instructively with the general death-rates for similar periods given in table No. V. Serial numbers are introduced into table No. XIII in place of these. It will be observed that the sections generally retain a similar position in the cholera scale to that assigned to them by the decennial figures. Waterloo Street, Puddopooker, and Shampooker have risen somewhat, and Burtollah and Hastings fallen. It will also be observed that there is a general correspondence between the general death-rate and the cholera death-rate. The most notable exceptions are Burra Bazar, Jorabagan, and Coomertolly, in which comparatively high cholera death-rates coincide with comparatively low general death-rates. Taltollah and Collingah, on the other hand, are high in the general scale, but moderately low in the scale of death-rate from cholera. What these variations are due to might admit of free speculation; but in the absence of anything like a solid groundwork for these I content myself with placing the facts on record. The two sections principally inhabited by Europeans occupy a favourable position in every respect.

TABLE No. XIII.

Sectional comparative statement of the Death-rate from Cholera per 1,000 *of Population during the years* 1872, 1881, *and in* 1882.

23. In all cases in which the disease presented any tendency to grouping, special investigation was made; and every instance in which several cases had occurred in a house or village, or within circumscribed limits, glaring insanitary defects were discovered. A foul tank, obstructed drainage, fœtid ditches and cess-pools, ill-kept byres, offensive latrines, and so forth. Numerous cases might be detailed in support of this statement; but the conclusion forced upon me by all that I have seen of cholera since I became Health Officer of Calcutta is, that the disease flourishes in places and among communities where cleanliness is neglected, and filth of kinds allowed to lodge and fester in various ways and under various circumstances. The results of my inspections have in each instance been communicated to the Chairman, and recommendations made according to the nature of the sanitary defects discovered. These recommendations have invariably received prompt attention.

24. *Bowel-complaints.*—Although cholera was in excess in 1882, deaths from dysentery and diarrhœa were below the average. Fatal fluxes, however, occur under such a variety of conditions, and in association with so many diseased conditions of the body, that any discussion of totals represented by the term "bowel-complaints" would be absolutely valueless. It will be observed from table VII that these diseases are less fatal in the rains, and more fatal in the cold weather months.

25. *Fevers.*—The year has been a very favourable one as regards fatal fevers. In no year of the preceding decade have so few deaths been registered under this head.

26. *Enteric fever.*—Special care has been taken to check the accuracy of this entry, with the result that the number of deaths returned under this head has fallen from 569 in 1882 to 175 in 1883. It is more than doubtful whether this figure is correct. Only six cases were registered among Asiatics, and four among mixed races. In the month of November, I addressed a circular to the principal medical practitioners of the town, requesting them to intimate to this office the fact of any case of enteric fever occuring in their practice, with a vew to investigating the circumstances under which the disease was contracted. Up to the close of March only two reports were received. The result of enquiry was to reveal a neglected latrine in one case and faulty drains in another. It is quite certain that enteric fever is a rare disease in Calcutta. Cases are occasionally met with, but they are rare—much rarer than in the large cities of Europe and America. Enquiries instituted in the hospitals during the year support the statements recorded in my report for 1881, that the disease is very seldom met with in the large hospitals of Calcutta.

27. *Small-pox.*—Only 17 deaths were registered under this head in 1882—a smaller total than in any year of the preceding decade. A minimum of prevalence has now been reached following the severe epidemic of 1878-79. Calcutta has been visited periodically by epidemics of small-pox from time beyond record. In 1832-33 an epidemic raged which caused 3,227 deaths; in 1837-38 another which killed 1,773 persons; in 1843-44 another from which 3,176 died; in 1848-49-50 another which caused a mortality of 6,261; one in 1856-57-58 killing 3,478; one in 1863-64-65 slaying 5,656; a slight

outbreak in 1870 with 151 deaths; another in 1874-75 with 900; and a severe epidemic in 1878-79, from which 2,267 died. The years intervening between these outbreaks show less than 100 deaths, but none of them is blank. Since the close of the year apprehensions have been entertained of a fresh epidemic movement in Calcutta, as will be gathered from the following extract from the report of the first quarter:—

"Considerable anxiety was felt during the quarter regarding small-pox. The disease reached a very low level in 1882, only two deaths having been registered in the last quarter of that year. During the month of January only two deaths were returned; but in the third week of February reports of cases and deaths began to reach the office with increasing frequency. The disease was known to have prevailed with severity in some up-country stations, and frequent reports of cases and deaths were being received from the suburbs. The disease, moreover, has a tendency to prevail in epidemic form in Calcutta every third, fourth, or fifth year; and the last epidemic having disappeared in 1879, it was felt another was due. On the 24th February a report was received from Assistant Surgeon Jogendro Nath Bhuttacharjee, Deputy Superintendent of Vaccination, that the disease had broken out severely in a village (Khalásee-tollah) at No. 8, Jaun Bazar Street, principally inhabited by native seamen, and in some neighbouring villages. I visited this locality and saw a considerable number of bad cases—as many as six in one house. I at once addressed the Deputy Commissioner of Police, urging the immediate removal of the affected to the small-pox hospital at Sealdah, and soliciting his aid in getting the village vaccinated. The Deputy Superintendent, with praiseworthy energy, vaccinated and re-vaccinated every man, woman, and child in these places: 359, 328, 142, and 131 persons were vaccinated on the 27th and 28th February and 1st and 3rd March. I at the same time, with the sanction of the Chairman, entertained five additional vaccinators, and inserted advertisements in the papers warning the public of the danger, and recommending vaccination of the unprotected, and re-vaccination of the doubtfully protected. A depôt for the propagation of animal lymph had fortunately been by this time established, and Dr. Gupta was good enough, at my request, to keep a succession of vaccinated calves available for emergencies. These have been found useful in vaccinating villages, and have been used also in the more crowded depôts. Those measures have, I rejoice to say, been apparently successful, for the disease has, since their adoption, abated, the figures for the weeks ending 3rd, 10th, 17th, 24th, and 31st March being 12, 4, 8, 4, 2. The same system of removing the affected to the hospital, and vaccinating the house and neighbourhood, has been adopted in every other case of reported small-pox; but the instances of attack have been isolated, and no attempt at epidemic prevalence has become manifest, except that to which reference has been made. The assistance received from the police has been most valuable. The Assistant Surgeon Hari Das Mittra carried on the work with diligence and judgment on Baboo J. N. Bhuttacharjee's transfer to another post. It is interesting to note that among 40 cases reported to this office, regarding which information of this kind was furnished, one had had a previous attack of small-pox, seven had undergone inoculations, six had been vaccinated, in four cases protection was doubtful, and 22 were unprotected."

28. *Other causes.*—These, as will be gathered from a reference to table No. IV, are again in excess. There was no epidemic of any consequence during the year, except whooping cough, from which 28 deaths were registered, against an average of about 20. Deaths from croup were also rather more numerous than usual. The mortality from measles fell from 114 to 12. Diphtheria gave 10 deaths, which is about the usual number. The mortality from phthisis was high—482 deaths, against about 350. Tetanus and convulsions were more fatal than usual, as also inflammatory chest complaints of all kinds. Twenty-seven deaths from diabetes were registered, against an average of 23. Fewer still-births were returned, and more deaths from old age. Suicides were also fewer in number, and the total under the head of "not specified," though higher than in 1881, is below the average. Deaths from syphilis were more numerous than in recent years.

29. *Vaccination.*—The number of vaccinations performed during the year 1882 was 7,802, against 6,538 in 1881. Of these 7,273 were primary vaccinations, and 529 re-vaccinations, against 5,523 and 1,015 in the preceding year. These figures indicate a marked improvement, due to greater diligence on the part of the staff, and also to the aid derived from the returns of unvaccinated children obtained from the Registrars, under section 23 of Act V of 1880 (B.C.) Substantial progress has been made in carrying out the provisions of the law; but difficulties are still encountered, and many children escape vaccination owing to the long period allowed by the Act. The increased number of vaccinations performed in 1882 during the hot weather and rains is specially noteworthy. I have inspected the vesicle weekly, and invariably found it satisfactory. Full details of vaccination, section by section, and month by month, are given in table No. XIV.

30. Since the close of the year, under pressure of an impeding epidemic of small-pox, vaccination has been pushed with greater activity, as the following extract from the report for the first quarter shews :—

"Six thousand and sixty-three persons were vaccinated, and 2,246 re-vaccinated during the quarter, against 4,263 and 475 in the first quarter of 1882. This great augmentation has been due to the greater anxiety of the public and more active exertions of the department in view of the probability of an epidemic outbreak of small-pox. Animal vaccination has now been established in Calcutta, and though the vesicle does not seem to be quite so strong as that already in use, the public possess, through the liberality of Government, the option of obtaining vaccine from the calf, which many persons prefer."

31. Tables Nos. XV and XVI give further information regarding vaccination. The proportion of females primarily vaccinated is higher, but that of infants lower. The ratio of success in primary vaccination continues to be good.

One hundred and thirteen prosecutions were instituted for refusal to comply with the provisions of the law. In 100 of these vaccination was performed under order of the Magistrate; in two cases fines of Rs. 5 were imposed. In eight instances vaccination was postponed: one child died, and two absconded while the proceedings were going on. In no case has prosecution been resorted to until after persuasion has been tried without success.

32. *Nuisance Department.*—On the 1st of June the Night-soil Department was transferred from the control of the Engineer to that of this office. The establishment was strengthened and reorganized in order to subserve other purposes connected with the health of the town besides the disposal of night-soil. The staff sanctioned by the Commissioners is shewn on the margin. Mr. Gilbert Wright, who had previously held the office of Personal Assistant to the Health Officer, was appointed Inspector of the Nuisance Department, and he has abundantly justified his selection by the great zeal and intelligence, and the indefatigable industry with which he has carried on the work. The following return indicates the work done by this department as far as privies are concerned:—

	Rs.
1 Inspector at ...	350
2 Sub-Inspectors at	150
9 Jemadars at ...	20
18 Mate jemadars at	10
27 Peons at ...	8
1,100 Mehters at ...	8
2 Sircars at ...	12
2 Coopers at ...	10 and 8

Number of privies on the 1st January 1882 ...	37,940	
Ditto undertaken during the year	1,825	
		39,765
Less number in which services were discontinued		149
Total number now served		39,616
Construction of new privies.		
Pucca privies sanctioned		169
Kutcha ditto		2,024
Connection of privies with the sewer recommended		5
Applications received and attended to		6,829
Letters written		1,376

In sanctioning new privies, great attention has been paid to their drainage and to the removal of the foul liquid which was wont to stagnate in their neighbourhood. Wherever it was possible to convey this into the sewers, cemented drains have been insisted on, and when this was impossible, receptacles have been provided to retain the fluid, and a staff of 100 additional mehters has been sanctioned by the Commissioners to empty and clean these. In addition to the special work by the department, it has been utilized for purposes of general conservancy, investigating disease, inspecting markets and drug shops, &c. Prosecutions have also been instituted for violations of the sanitary clauses of the Municipal Act as displayed in the following statement:—

Statement shows the Notices and Summons issued and disposed of under different Sections of the Act during the year 1882 (*for the first five months being under the Engineer, and last seven months under the Health Officer*).

Sections of the Act under which action was taken.	Offences.		Number of notices issued.	Notices.						Summonses.					
				Number complied with.	Number of cases in action which taken by the department.	Number of cases transferred to Engineer's Department for action.	Number of cases not complied with, for which summons have been taken.	Parties absconded.	Pending.	Number of persons prosecuted.	Number dismissed.	Absconded.	Pending.	Number fined.	Total fines imposed.

* Action taken by the Engineer's Department.

33. *The sanitary condition of Calcutta.*—Measures having for their object the improvement of the sanitary state of the town have been pushed on with vigour. New roads have been made, foul drains have been piped and converted into clean pathways, new areas have been provided with sewers, and the houses connected with these for the removal of house and bath-washings, which previously stagnated and stank. Streets have been widened, and facilities provided for the removal of refuse; tanks, and wells containing water which has truly been described as diluted sewage, have been filled up, and substantial progress made in the reclamation of some of the worst *bustees* of the town. The details of these operations will be found in the Engineer's report.

34. But although great sanitary improvements have been accomplished in Calcutta, and, year by year, palpable progress is being made in the direction of reform, there still remains much to be done ere the sanitary condition of the town can be pronounced in any sense satisfactory. This undoubted fact has found loud expression in the shape of a public agitation which took place at the commencement of the cold weather of 1881-82, and was repeated with renewed vigour at the beginning of the cold season of 1882-83. On each occasion the municipality has responded by appointing a carefully selected committee for the purpose of enquiry and deliberation. The outcome of these proceedings has been—

1*st*—The organization of a nuisance department.

2*nd*—The organization of an establishment for *bustee* conservancy.

3*rd*—The assignation of more money for *bustee* improvement and general conservancy.

4*th*—Change of method in dealing with rubbish in certain parts of the town. The material, in place of being cast on the footpaths and roadways, is now retained in bins and baskets, and removed from the interior of compounds by carts.

5*th*—Accelerated effort to increase the water-supply of the town.

6*th*—Careful study of the sewer system, and consideration of measures necessary for its improvement.

35. The following extract from my report for the first quarter of 1882 describes concisely the principal sanitary defects of Calcutta. It is hoped that the new energy displayed by the newly elected Corporation in the direction of sanitary reform will make a decided impression on the sources and causes of uncleanliness which this passage represents:—

"The sanitary condition of the town has been under keen criticism during the past quarter. Although the general health and mortality of the city have been, as compared with past years, not unfavourable, and there has existed a remarkable exemption from epidemic disease, the occurrence of a few cases of typhoid fever among residents belonging to the upper class of Europeans excited something akin to a panic, and loud and repeated complaints were made in the papers regarding the conservancy and sanitation of the town. This outcry has led to a thorough enquiry by a special Committee of the Commissioners regarding the system of drainage and conservancy at present in existence, its adequacy, and the probable influence on the health of the town, of defective arrangements or faulty execution. I have adduced evidence in my annual report to show that typhoid fever is not a common disease in Calcutta. The existing system of underground sewers has been carefully examined and reported on by competent sanitary authorities as regards construction and ventilation. Two important measures have been indicated as necessary for the safety of the town in connection with these, namely, more flushing and better street ventilation. Active steps are being taken in the Engineer's Department to secure these objects. It has been realized that the arrangements for the removal of filth from roads, drains, and more especially from *bustees*, are imperfect. There can be no question that an enormous mass of filth of the worst kind—organic matter in process of putrefaction—lodges perennially in Calcutta. The removal of this is simply a matter of contrivance and expense. That worst of all kinds of filth—human excrement—is carried away partly by the mechanical agency of water through the sewers, and partly by the agency of human beings—the mehters. The former service is is undoubtedly the best as regards thoroughness, promptude, and safety. The work done by the latter—the human agency—is very far from perfect. The removal is not complete, and part of the dangerous material finds its way into drains, into tanks, and on to the surface, there to undergo dangerous decomposition But there are other kinds of filth—house refuse, rotting vegetable matter, remnants of food, stable and horse dung and litter, and the refuse of sundry trades, which are removed very imperfectly and rarely, or not at all, and are permitted to flow into tanks, to fester in stagnant drains, or soak into an alluvial soil. Filth of this kind is to be met with all over the town.

The two principal receptacles of this kind of filth are the tanks and ditches which stud and fret the surface of the town. Nothing short of the radical and complete obliteration of these fœtid pits and troughs will suffice to remove what constitutes a palpable and indisputable danger to the public health. The progress of road-making, sewer construction, and tank filling is gradually reducing the number of these horrid sloughs; but it seems desirable to urge once again, as I have repeatedly done in previous reports, periodical and special, that the sanitary state of Calcutta cannot be pronounced in any sense satisfactory until the tanks and drains which receive and store so large a share of the filth of the town have been obliterated or remodelled and conserved The diurnal removal of filth from privies and roads, even if it were more satisfactorily and thoroughly accomplished than it is, still leaves behind, as long as these tanks and drains exist, an immense mass of uncleanliness permanently, to offend the senses and endanger health.

36. • *Water-supply.*—The tabular statements appended to this report containing the results of periodical and systematic analyses by Mr. A. Pedler shew that the water supplied to the town continues to be of excellent quality. The question of increasing the supply—a measure which is urgently desirable—has been under earnest discussion during the year. Three alternative proposals engaged the attention of the Commissioners—namely (1) conveyance by an open cut with subsequent filtration; (2) conveyance after filtration by a brick conduit; and (3) conveyance after filtration by an iron main, as at present. It has been decided, I rejoice to write, to adopt the last of these measures, and it may be expected that at no distant date the supply of water, of similar purity to the present, will be doubled.

37. The appendix furnishes information regarding confiscations, the number of complaints and applications disposed of, and other matters of office routine. I have much pleasure in recording my sense of the valuable assistance rendered to me by my Personal Assistant Mr. Gilbert Wright, and my head clerk Baboo Indro Mohun Chatterjee.

I have the honour to be,

SIR,

Your most obedient servant,

K. McLEOD, A.M., M.D., F.R.C.S.E., *Surgeon-Major*,

Health Officer of Calcutta.

APPENDIX.

Health Officer's Department.

Report on the working of the Establishment for the quarter ending 31st March 1883

The following cases were enquired into, the respective localities inspected by the officers of the department, reports furnished, and the cases finally disposed of:—

53 Complaints.
19 Registry certificates granted for dispensaries and drug shops
7 Registry certificates granted for offensive and dangerous trades.
17 Applications rejected for offensive and dangerous trades.
171 Applications attended to.
412 Applications for vaccination attended to.
163 Miscellaneous cases disposed of.

Confiscations consisted of the following:—

Tea ... ... 8,680 lb.
Rice ... ... 2,291 mds.
Dál ... 60 mds.
Vermicelli ... ... 700 lb.

Table No. XXXVI.

Nuisance Department.

The following statement shews the number of privies attended to by the municipal mehters:—

Number in list on 31st December 1882	38,227		
Ditto undertaken during the quarter	322		
		38,549	
Less number in which services were discontinued		117	
Total number now served		38,432	
Total for the corresponding quarter of 1882			38,165

Sanction was accorded for building 36 pucca privies in private dwelling houses and 758 privies in bustees. Every bustee privy was sanctioned on the standard plan, special care being taken to insure the provision of means of draining the privy and its surroundings. The connection of three privies with the sewers has been recommended, subject to the approval of the Engineer. Receptacles for washings allowed to 216 privies.

The following statement shews the notices that were issued under different sections of the Act, and the action taken thereon:—

	Substance of section.	Notices.			Number complied with.	Number of cases in which action was taken by the department.	Number of cases transferred to Engineer's Department for action.	Parties absconded.	Number of cases pending with the overseers.
		Number pending on the 31st December 1882.	Number issued during the quarter.	Total.

RESOLUTION ON THE REPORT OF THE SUPERINTENDENT OF EMIGRATION ON INLAND EMIGRATION FOR THE YEAR 1882.

GENERAL DEPARTMENT—INLAND EMIGRATION

Calcutta, the 3rd July 1883.

RESOLUTION.

READ—

The Report on Inland Emigration for the year 1882.

The report has reached the Government punctually on the date fixed for its submission, and in this respect contrasts very favourably with its recent predecessors. It is the first prepared for the calendar year, that period having been substituted for the official year for the sake of uniformity with the Assam Report, and is submitted by Dr. Grant, who was in charge for nine months of the year. Dr. Richards officiated as Superintendent during the remaining three months.

2. The new Inland Emigration Act I of 1882, which came into force in January 1882, and was thus in operation during very nearly the entire period under report, has effected some important changes in the law. While retaining safeguards against irregular recruitment, and the improper treatment of emigrants on their journey to the employer's estate and during the term of their engagement, it seeks to facilitate emigration to the tea districts by providing for an increase in the number of registering officers in the recruiting districts; by permitting garden-sirdars to recruit any number of persons, whereas they were formerly restricted to 20; by severing all connection between them and contractors; and by authorizing the employment of local agents to supervise the operations of garden-sirdars, or, under special license, to recruit emigrants themselves and despatch them to the labour districts without the assistance of sirdars. The term for which contracts may be made has also been extended from three to five years, and no restriction whatever is imposed on free emigration. The labourer may now proceed to the tea districts either as a free emigrant, taking work on an ordinary contract, or entering into a contract under the Act after his arrival, or as an emigrant recruited and registered under the Act. In the first case he is in no way subject to the Act; in the second he is subject only to such of its provisions as refer to the carrying out of the labour contract; and in the third he is completely under the Act from the date of his recruitment until the expiration of his engagement. The extension of the railway system, which has taken place in recent years, has much diminished the need for a stringent emigration law in the present day, and with further improvement in the means of communication, and the consequent shortening of the journey between Assam and the districts from which the emigrants are drawn, the continuance of any special law at all will probably be found unnecessary after the lapse of a few years. An important step in the promotion of rapid communication with the Assam Valley will shortly be taken by the establishment of a daily steam service between Dhubri and Dibrugarh, Messrs. Macneill and Company, who have taken the contract on a subsidy, have engaged to accomplish the voyage between these places regularly in four days.

3. The following tabular statement gives the total number of emigrants and their dependents who were registered and forwarded through Calcutta and Goalundo during the last two years:—

YEARS.	REGISTERED FOR TRANSMISSION THROUGH LICENSED DEPÔTS.						Class C coolies recruited by sirdars and registered to proceed to the labour districts of Assam, Cachar, and Sylhet, independently of the contractors' depôts.	Total number registered.
	Class A coolies recruited by licensed recruiters on behalf of contractors.			Class B coolies recruited by certificated garden-sirdars authorized to recruit more than 20, and to transmit them through contractors depôts.				
	Fid Calcutta for Assam, Cachar, Sylhet, and Chittagong.	Fid Goalundo for Cachar Sylhet.	Total.	Fid Calcutta for Assam, Cachar, Sylhet, and Chittagong.	Fid Goalundo for Cachar Sylhet.	Total.		
1881	5,833	882	6,415	1,018	274	1,292	1,087	8,794
1882	5,926	2,029	7,955	443	1,007	1,450	1,457*	10,902

It has for some years past been considered desirable to discourage, as far as possible, recruitment through the agency of contractors, and promote in its place the general employment of garden-sirdars; and the provisions of the new law, permitting the appointment of local agents, were introduced especially to further this object. From the preceding statistics, however, it appears that the recruitment of coolies through contractors has not diminished during the past year. There has indeed been a decrease in the number of contractors, eight only having held licenses at the close of the year against 10 at the commencement and there was also a decrease of 15 in the number of their recruiters; but the actual number of emigrants recruited by them was larger than in the previous year. It is true that there has been an increase of over 600 in the number of certificated garden-sirdars, but they recruited a far smaller number of labourers than might have been expected. It is not to be supposed that these sirdars were mostly idle, and there is therefore ground for thinking that the system of voluntary aided emigration, which was brought to notice by the Commissioner of Chota Nagpore last year, may have received a stimulus from the exertions of these newly licensed garden-sirdars. Until, however, the Lieutenant-Governor has before him the statistics of registration in Assam of free emigrants under sections 111 and 112 of the Act, it is impossible to verify this surmise, and the Superintendent of Emigration will therefore be instructed to place himself in communication with the Assam authorities with a view to ascertaining the extent to which this sort of emigration has gone.

Dr. Grant brings the fact to notice that the percentage of licenses cancelled for misconduct rose from ·90 in 1881 to 2·61, a result which he attributes to increased competition among recruiters, arising from continued difficulty in obtaining the number of labourers required, and consequent temptation to resort to irregularities. The malpractices, however, cited in the report, while they fully shew the necessity of still maintaining an official check over the proceedings of these recruiters, do not support Dr. Grant's views regarding the growing scarcity of emigrants. Misbehaviour on the part of recruiters will probably be removed by continued attention to employing men of good character, and visiting breaches of the law with adequate punishment. The number of licenses granted to local agents by the end of the year was 48; but as the first license was not taken until August, no opinion can as yet be formed of the working of this system. Out of a total of 2,329 garden-sirdars who received certificates during the year, 1,074 were placed under the control of local agents. An increase of 608 took place in the number of these recruiters, but one certificate only was cancelled against three in the previous year.

4. The returns summarised in the preceding paragraph shew an increase of activity in recruiting operations during the year, the total number of emigrants and their dependents registered being 10,902 against 8,794 in 1881. Of these, 6,409 were registered for transmission through the Calcutta depôts, 3,036 for transmission through the Goalundo depôts, and 1,457 to proceed in charge of garden sirdars independently of the depôts. The chief centres of registration were—Burdwan (1,803), the 24-Pergunnahs (1,584), Furreedpore (656), Bankoora (299), Midnapore (255), and Beerbhoom (254), in Bengal; Shahabad (1,288), Monghyr (878), the Sonthal Pergunnahs (775), Gya (339), and Bhagulpore (210), in Behar; and Hazaribagh (752), Manbhoom (616), Lohardugga (534), and Singbhoom (218), in Chota Nagpore. Of the remaining 441 emigrants, 190 were registered in the North-Western Provinces, and the rest in Rajshahye, Nuddea, Patna, Durbhunga, and Cuttack. The places of registration afford, however, no criterion of the locality to which the emigrants belong, registration being in a vast number of cases effected in a different district from that in which the emigrant has his home. This is particularly the case with regard to the registrations in the 24-Pergunnahs, Burdwan, and Furreedpore, as shewn in Statement VIII appended to the report. Of 1,519 persons registered in the first district for transmission through contractors' depôts, only 14 belonged to the district, the rest having come from all parts of Bengal and Behar, from various districts of the North-Western Provinces and Oudh, and from Madras. Labourers gravitate towards Calcutta in search of work, and before they reach the capital, or while there, are induced to emigrate. In Burdwan only 173 persons were contributed by the district

itself, out of 1,346 registered; and in Furreedpore not one of the 656 persons registered was a resident of the district. The whole of the latter evidently consisted of emigrants who came, or were brought, to Goalundo for registration. The Lieutenant-Governor will be glad to have in the body of the report in future full details of the localities which supply the emigrants of the year. Information on this point is furnished in Statement VIII of the present report, but not in a complete form.

5. The 6,409 emigrants registered for transmission through the Calcutta depôts were reduced by 150, or 2·34 per cent, before their arrival at the depôts, the loss being due to the detention of 27 persons, the discharge of 8, and the desertion of 57 at the mofussil depôts, and the death of 1 and the desertion of 52 persons on the journey. These figures compare favourably with those of the preceding year, when 292, or 4·43 per cent, of the registered emigrants did not reach the depôts. The total number of emigrants accommodated at the depôts during the year, inclusive of 146 remaining from 1881, and 2 infants born in depôt, was 6,407. Of these, 102 were rejected, 389 were discharged, 492 deserted, and 4 died of cholera and 8 from other causes, making a total of 995 casualties; and of the remainder, numbering 5,412, 5,141 were despatched to Goalundo, and 20 to Chittagong, leaving 251 in depôt at the close of the year. The sanitary arrangements of the depôts are reported to have been satisfactory, and the Medical Inspector remarks that, though the actual number of deaths, altogether 8, was somewhat higher, the actual number of sick was lower than in the preceding year. Of the 8 deaths, 4 resulted from cholera. The rejections of emigrants were far fewer than in 1881, and this is no doubt correctly attributed to the fact that the Medical Inspector is no longer required to ascertain the labourer's physical fitness for work. The desertions and discharges, however, shew a very large increase, which is not fully accounted for by the explanation that in some cases coolies, especially old returned emigrants from the colonies, offer themselves for registration with the intention of merely securing a free passage to Calcutta. The Lieutenant-Governor desires that this subject may be more fully investigated by the Superintendent, and noticed at greater length in the next report.

6. Of the 3,036 emigrants registered for transmission through the depôts at Goalundo, 36 were detained at the mofussil depôts, 72 deserted, 13 died, and 164 did not arrive, the number actually received being thus reduced to 2,751. Similarly, the number despatched from the Calcutta depôts was reduced to 5,139 by one death and one desertion on the journey. The total arrivals at Goalundo during the year were therefore 7,890, and the addition to this of 52 remaining from the previous year, and 1 infant born in depôt, raised the total number accommodated in the depôts to 7,943. Out of these, 84 deserted, 23 died, 13 were released from their engagements, and 15 were rejected, leaving 7,808 available for despatch to the labour districts. The number actually embarked was 7,789, and 19 remained in depôt at the close of the year. The percentage of deaths, desertions, and detentions among the emigrants registered for despatch direct to Goalundo was smaller than in the previous year, but enquiry is necessary regarding the 164 emigrants who failed to reach Goalundo. The Superintendent should ascertain and report whether, as suggested by Dr. Richards, they proceeded direct to Dhubri, or, if not, what became of them. The instances of gross neglect of emigrants on the journey to Goalundo and Dhubri, which have lately been brought to the Lieutenant-Governor's notice, render it essential that an explanation should be obtained of every case in which an emigrant disappears on the way from the recruiting to the labour district. As regards the casualties at Goalundo itself, there was an increase in the percentage under all heads except rejections. The increase was specially marked in desertions.

7. In addition to the 7,789 contractors' coolies 30 coolies, collected by garden-sirdars also embarked at Goalundo. Of the total number (7,819), 3,689 proceeded to Assam, and 4,130 to Sylhet and Cachar. The Assam emigrants travelled by licensed steamers, which made 66 trips, carried an average of 56 persons on each occasion, and made passages averaging 16 days. The

greater prevalence of cholera during the year unfortunately caused a higher rate of mortality on these voyages than in the preceding two years, but this result seems to have been in no way attributable to any defects in the general arrangements of the steamers. The total mortality was 27, consisting of 21 cases of cholera and 6 deaths from other causes; but of the cholera cases no less than 19 occurred in a single trip, when the disease was very prevalent in the districts through which the vessel passed.

8. The Sylhet and Cachar emigrants travelled by country boats, the number for the former district being 1,228 and for the latter 2,902. The desertions and deaths on the way amounted to 137, or 3·31 per cent., against 78, or 2·63 per cent. in 1881, the difference between the two years lying almost entirely in the number of deaths from cholera. There were 101 such deaths in the past year, as compared with 51 only in 1881. The disease is said by Dr. Richards to have been principally contracted in the narrow rivers of Sylhet.

9. Of the 1,457 coolies registered to proceed to the labour districts in charge of garden-sirdars, 30 were conveyed to Assam by steamers from Goalundo, while 817 started from Kooshtea and other places for Sylhet, and 610 for Cachar. The casualties among the Sylhet batches were 5, and among the Cachar batches 21.

10. The operations of the year may, in conclusion, be thus summarised. The total number of emigrants and their dependents originally registered was 10,902, and this number was raised to 11,103 by the addition of 198 persons remaining from the previous year, and three infants born in depôt during the year. After allowance, however, for casualties of all kinds, amounting to 1,749, or 15·75 per cent., 9,354 were actually available for the labour districts, of whom 9,084 were landed there, the rest remaining in depôt at the close of the year. Of the 9,084 who reached the labour districts, Assam received 3,658, Cachar 3,398, Sylhet 2,008, and Chittagong 20. In 1881, the registrations were 8,794 in number, and there was a balance of 254 emigrants from the previous year, making a total of 9,048. From this number 1,156, or 17·19 per cent, were lost through casualties, and only 7,296 reached the labour districts, the rest remaining in depôt at the end of the year. Both the original registrations and the number of coolies landed in the labour districts were thus larger in the past year, and if it be considered that many emigrants proceeded to the labour districts without being registed under the Act, it will appear that emigration from these provinces to Assam is growing in magnitude.

11. The thanks of the Lieutenant-Governor are due to both Dr. Grant and Dr. Richards for their efficient work during the year.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Officiating Secretary to the Govt. of Bengal.

ADMISSION OF FEMALES TO THE CALCUTTA MEDICAL COLLEGE.

No. 418T.—G, dated Darjeeling, the 29th June 1883.

From—A. P. MACDONNELL, Esq., Offg. Secy. to the Govt. of Bengal, General Dept.,

To—The Director of Public Instruction.

I AM desired by the Lieutenant-Governor to acknowledge the receipt of your letter of the 4th instant, on the subject of admitting females to the classes of the Calcutta Medical College, and in reply to communicate to you the following instructions and remarks.

2. The question of the admission of females to the Medical College classes was first raised in 1876, and it then met with a favourable reception from Sir Richard Temple, who was Lieutenant-Governor. Subsequently, in 1879, the matter was again discussed; but on neither occasion had the discussion any practical results. Last year the Director of Public Instruction brought the question before the Council of the Medical College in connection with a wish which had been expressed to him by the parents of some young ladies that their daughters might be permitted to attend the medical classes. Mr. Croft advocated the admission of female students to the College classes; and, influenced by the advantages which, in his opinion, a body of qualified female doctors would confer on the community, even urged on the Council the propriety of admitting them on a reduced educational standard. Under the rules framed by the Senate of the Calcutta University, which are now in force, to qualify for admission to the Medical College, young men must pass the First Arts Examination. Mr. Croft recommended the admission of female students to the same privilege on their passing the Entrance Examination. The College Council, however, refused sanction to the admission of females on those terms; and when it was afterwards proposed to waive any exceptional favour to lady competitors in the way of preliminary examination, and to admit them on the same terms as males, the Council affirmed its previous decision, and resolved not to admit females on any terms to the classes of the Medical College. This resolution of the Council you now report for the orders of Government.

3. The Lieutenant-Governor has considered the important question thus submitted to him, and has examined the opinions recorded upon it by the members of the Medical College Council. He regrets to say that in none of the opinions, except those recorded by Drs. Coates, Harvey, and Anderson, can he find any facts which bear examination, or any reasoning which stands the test of criticism. All the force of facts and argument lies on the side of those gentlemen who favour the admission of females to the Medical College classes; and therefore, even had Mr. Rivers Thompson not formed, independently of this reference, a strong opinion on this subject, he would be bound to approve of that course which, on the papers before him, is recommended by an overwhelming weight of argument. But the admission of females to medical education is a matter on which the Lieutenant-Governor had already formed a clearly affirmative judgment, and he has therefore had less hesitation in overruling the decision of the Council of the Medical College than, looking to the weight which must ordinarily attach to the decision of such a body, he otherwise might have had.

4. On this question, looked at from the standpoint of general policy, as well as of individual freedom, there is not, in Mr. Rivers Thompson's opinion, any room for doubt as to the action which Government should take. It is indeed, in the Lieutenant-Governor's judgment, a subject of great reproach to the Bengal Presidency, in which education has made such wide progress, that it should be so far behind other provinces in matters regarding the medical education of native ladies; and this reproach is the more appreciable in that the backwardness of Bengal in this respect would seem to be due, not so much to the prejudice of native parents and guardians (which might in the present circumstances of India be only natural) as to the attitude which the Medical College Council have thought fit to assume. Already these provinces have suffered from the Council's failure to take a broad and unprejudiced view on this question; for the Lieutenant-Governor

learns to his regret that some Bengali ladies, fully qualified by educational attainments for admission to the College, have had to betake themselves to the more liberal Presidency of Madras, there to prosecute those medical studies from which the Council of the Calcutta Medical College had excluded them. It is, in Mr. Rivers Thompson's opinion, clearly opposed to the public good, as well as to legitimate private interests, that such a state of things should continue, and that the educational system of Bengal, progressive in other respects, should be illiberal and retrograde in this. Illiberality here has great and numerous evil consequences. It encourages zenana prejudices; it strengthens the barriers of caste; and it suppresses the natural and reasonable aspirations of Indian ladies to enter a profession which would find, in India of all countries in the world, a wide sphere of action and of beneficient service. Every day that passes widens our knowledge of the fact that among the native community there are women in every position of life who would prefer death to treatment by a male physician, and the misery caused by neglected, and unskillfully treated illness must be widespread and most lamentable. There is but one way by which this suffering can be relieved, and that is by the medical education of females; for in the present conditions of Indian life it would be useless to wait till opposition, based upon prejudices (if such they can be called), is removed. The Lieutenant-Governor therefore considers it his duty to support this movement; and he looks on the objections which have been made to it, on the ground of the difficulty of teaching mixed classes, or the alleged inaptitude of females for the profession of medicine, as unsubstantial and obsolete. Experience gained in Europe, in America, and in Madras, has shewn that mixed classes can be taught without any bad results; while the aptitude of women for the study and profession of medicine is, in the Lieutenant-Governor's opinion, no longer open to discussion or doubt. Even if the aptitude of women for the profession of medicine were still an open question, it would be an inadequate objection here, for the fitness or unfitness of women to practice medicine can only be proved by experience. The issue therefore is, shall it be put to that proof in Bengal? The ladies who apply for admission to the College will be the only losers if they fail in the trial: the community will be the great gainers if they succeed. For his own part the Lieutenant-Governor has no doubt they will succeed far beyond the expectations of their most sanguine supporters, and he looks forward to a not distant time when Calcutta hospitals shall be partly officered by lady doctors. And if the success of the principle be established in the capital, there is no reason why our medical schools in the provinces should not afford opportunities for a more general extension of the policy, with incalculable advantage to the country.

5. As regards the proposal to lower, in favour of females, the educational standard of admission to the Medical College, the Lieutenant-Governor is entirely of your opinion that it should be negatived. Mr. Rivers Thompson would open the College doors wide to students of both sexes; but he would not specially favour either sex. Did the power of reducing the educational standard which qualifies for admission to the College rest with him, and not, as it does, with the Senate of the University, the Lieutenant-Governor would certainly abstain from exercising it, for he knows of no profession in which a liberal preliminary education, training the faculties of observation and thought, is more needed than in the profession of medicine. Mr. Rivers Thompson therefore thinks it would be conferring a fatal gift on the cause of female medical education to expose it to the risk of practical failure by withdrawing the necessity for that solid foundation of general knowledge on which the superstructure of technical information can alone be safely built. In conclusion, I am to say that, in now declaring females fully admissible to the classes of the Calcutta Medical College, the Lieutenant-Governor is confident that he can count on the loyalty and zeal of the Professors to bring his policy on this question to a successful issue.

6. All arrangements, in regard to separate seats, screens, and waiting-rooms for females, which it has been suggested may be necessary in order to give effect to these orders, can be safely entrusted to the discretion of the Principal, Dr. Coates.

Dated Calcutta, the 4th June 1883.

From—G. BELLETT, Esq., Offg. Director of Public Instruction,
To—The Secretary to the Government of Bengal, General Department.

I HAVE the honour to forward copies of the letters and documents named in the margin, and to solicit the orders of Government on the subject of the admission of females to the classes of the Medical College.

This office No. 2823, dated 5th May 1882, to the Principal, Medical College.
Letter No. 204, dated 10th June 1882, from the Principal, Medical College.
Letter No. 472, dated 31st October 1882, from the Principal, Medical College.
Letter No. 108, dated 12th May 1883, from the Principal, Medical College, in original.
Letter No. 125, dated 18th May 1883, from the Principal, Medical College.

2. In doing so, I beg to append a short account of what has taken place with regard to the question.

3. A little more than a year ago, on the 5th May 1882, Mr. Croft addressed to the Principal of the Medical College a letter, No 2823. In this letter he asked for the opinion of the Principal and Council of the College as to the admission of females to the Medical College classes, and urged that they should be admitted on the ground of the great alleviation of suffering which would probably result if there were a body of qualified practitioners to whose admission to zenanas there would be no objection, as well as on the ground that if the Medical College classes were thrown open to females, a career of usefulness would be provided for those ladies, native and others, who are now passing the University examinations. Mr. Croft proposed to recommend to the University the admission of female candidates to the examination for L.M.S, if they have passed the Entrance examination.

4. Mr. Croft's suggestion was laid before the Council of the Medical College, and at a meeting of the Council, at which five members only were present, resolutions were passed by a majority of four adverse to the proposition, and recommending that, if medical education for women was found to be necessary, a separate college for women be established, while expressing the opinion that such education was not extensively demanded, and that an extension of the existing training in midwifery would be sufficient to meet the requirements of the case.

5. In communicating these resolutions to this office, the Officiating Principal of the Medical College appended the opinions of individual members of the Council, and from these it appears that on one point, viz. that of lowering the qualification for entrance to the college, the whole Council was unanimously adverse.

6. Some members of the Council objected to medical instruction to women altogether; others to instruction given to mixed classes. The need for lady doctors was denied by some, while others asserted the general unfitness of the sex for the practice of this profession. The single supporter of Mr. Croft's suggestion was the Officiating Principal, Dr. Harvey (Dr. Coates, the Principal, who is a strong supporter of the scheme, being on leave), and I beg to refer you to Dr. Harvey's note, which winds up the collection of opinions for what seems to me to be a very satisfactory answer to all the arguments adverse to the scheme.

7. On the 12th September, after Dr. Coate's return from leave, Mr. Croft forwarded the resolutions and opinion of the Council to the Principal for his opinion. Dr. Coates, in his answer, relied to a certain extent on the regulations of the University, which, under a misapprehension, he deemed to be of such force as to compel him as Principal to admit lady students. But he passes on to state the unanimous opinion of those connected with medical schools in Switzerland whom he had consulted, which were to the effect that "the presence of ladies in class-rooms had a refining effect on all present." And after stating his willingness to give a separate waiting-room and dissecting-rooms for the use of lady students, and his opinion that it did not rest with the Council to decide whether or no there is the demand for lady doctors, which is asserted to exist, he concludes by calling attention to a letter from the Principal of the Madras Medical College, which he encloses.

8. In this letter the Principal states that the Professors find no difficulty in lecturing to mixed classes, and that no signs of demoralization in consequence of the mixed classes had been observed.

9. When Miss Bose applied for admission to the Medical College, there was no bar in the form of want of qualification, she having taken her B.A. degree; and on her applying to me for permission to admit her, and on his stating that he believed the strong feeling of the Council to be against the lowering of the qualification, I suggested that the Principal should lay Miss Bose's case specially before the Council.

10. The result was, as you will perceive, only a reiteration of their unwillingness to admit female students on the part of the majority of the Council.

11. The question, then, on which I solicit the orders of Government is whether the opinion of the majority of the Council of the Medical College is to carry sufficient weight to exclude those ladies who are otherwise qualified from entering the Medical College. It seems to me that the arguments which the opponents of the admission of females have advanced have been disposed of by the statements of Dr. Coates and Dr. Harvey, the evidence of the Professor in the Swiss medical schools, and the letter of the Principal of the Madras Medical College.

12. The necessity for trained medical women is, I cannot doubt, completely established; and if there be this necessity, a path of honourable and profitable employment is open to such a class, if called into existence.

13. With regard to the lowering of the qualification, Mr. Croft was of opinion, as shown in his letter No. 2823, that for females it would be sufficient qualification if it were required that they should have passed the Entrance examination. It is with considerable reluctance that I state my dissent from Mr. Croft's opinion, but I think that in this matter the unanimous opinion of the Council is entitled to great weight. According to the rules now in force no student is permitted to enter the college unless he has passed the F.A. examination. The object of insisting on this is to ensure that the student's knowledge of English and general intelligence should be such as to ensure his being able to follow with understanding the lectures delivered.

14. I am inclined to think that the passing of the Entrance Examination does not sufficiently ensure this knowledge and intelligence, and I am doubtful whether it would be for the advantage of the female pupils themselves that they should start with a lower qualification than their male fellow-students.

15. This, however, is a matter of opinion, and, as I have already said, I unwillingly differ from Mr. Croft on the matter.

16. I may add that I feel some doubt as to whether the governing body of the University would agree to the change, which would, in consequence, have to be made in the University Regulations.

17. In conclusion, I beg to solicit that early orders may be passed on the subject, as the session of the Medical College begins on the 15th of this month.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 30th June 1883.

No.		District, and date of return		Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.					
		Western Districts.			
Burdwan Div.	1	Burdwan,	June 30 '83	3 37	Weather—rainy, with high wind. Ploughing and transplanting going on throughout the district. Public health fair, except in the town of Burdwan.
		Culna	...	0·67	
		Cutwa	...	0 61	
		Raneegunge		3 00	
	2	Bankoora,	„ 30 „	1·02	Weather—cloudy and rainy with storms. Prospects of crops favourable. *Aus* paddy being transplanted in some places. Indian-corn being sown. Public health good.
		Bishenpore	..	0·81	
		Mahara	..	4 23	
		Khatra		3·12	
	3	Beerbhoom	„ 30 „	1 64	Weather—cool and showery. High wind in latter part of week. Ploughing and sowing of rice crop in progress. *Til* being cut. Prices slightly higher. General health satisfactory.
		Rampore Haut	..	2·54	
	4	Midnapore,	„ 30 „	2 79	Weather—cloudy and rainy with strong wind during the last two days. Agriculture making good progress. Public health good.
	5	Hooghly,	„ 30 „	0·91	Weather—cloudy, with high wind. Prospects of all crops good in the Sudder and Jehanabad sub-divisions, and improving in Serampore. General health good.
		Howrah	July 2 „	2·78*	Gale of wind on Thursday night (28th) from north followed by two days' showery weather Jute reported damaged by floods along Damoodar *Aus* paddy growing. Sowing of *aman* going on. Price of rice high.
		Colocberia	...	2 50	
		Central Districts			
Presidency Div.	6	24-Pergunnahs,	July 2 '83	3 49*	Weather—cloudy; attended with occasional showers of rain. Transplanting of *aman* paddy going on in low lands. Early crops doing well. Prospects good. Public health generally good.
	7	Nuddea,	June 30 „	0·59	Weather—rainy, cloudy and cool. Crops doing well. Fever unchanged; cholera has abated.
		Kooshtea	..	2·25	
		Meherpore	.	0·74	
		Chooadanga	..	1·66	
		Ranaghat	..	0·90	
	8	Khoolna,	„ 30 „	3 03	Weather—cloudy, with many showers Prospects favourable. Ploughing going on, and some *aman* rice has been sown. Public health good.
	9	Jessore,	„ 30 „	1·34	Weather—cloudy and rainy. Rice crop doing well. *Til* being reaped Prospects favourable. Public health good, except in Bongong sub-division where deaths from fever still continue.
		Jhenida	...	0 29	
		Magura	..	1·84	
		Narail	..	1·82	
		Bongong	..	0 65	
	10	Moorshedabad,	„ 30 „	2 27	Weather—much cooled down; a strong east wind blowing with drizzling showers at times. State and prospects of crops favourable. *Bhadoi* thriving well, and *aman* sowing still continues. Public health on the whole good.
Rajshahye and Cooch Behar Divs.	11	Dinagepore,	June 29 '83	3·45	Weather—cloudy and rainy. Prospects of *bhadoi* and sugarcane good. Jute slightly injured in Rajarampore thana by excessive rain.
	12	Rajshahye,	„ 30 „	1·12	Weather—cloudy and slight rain. Gales of wind for two days. Crops doing well. *Til* crop appears an average one.
		Nattore	..	Nil	
		Nowgong	..	0·84	
	13	Rungpore	„ 30 „	3 63	Weather—seasonable. Prospects of *aus* rice and jute good. *Kaon* and *cheena* being reaped. Transplantaing of *aman* rice has begun Cholera somewhat prevalent in some parts of the district.
		Kurigram	...	3 07	
		Gaibanda	...	7 94	
		Nilphamari	...	5·44	
	14	Bogra,	„ 30 „	0·98	Weather—continues cool and rainy. Sowing of *aman* continues, *Til* and *kaon* are being reaped. Public health good, except in four villages in Bogra thana where cholera has been reported.
	15	Pubna,	„ 30 „	1·26	Weather—warm and cloudy with strong easterly wind. Crops progressing well throughout the district.
	16	Darjeeling,	„ 30 „	5·05	Weather—seasonable All crops doing well. There is still a little cholera both in the Terai and hills.
	17	Jalpigoree,	„ 30 „	13 16	Weather—seasonable. Prospects generally fair. From two thanas crops are reported backward owing to heavy rain.
		Cooch Behar, up to 27th.	„ 29 „	12 45	Heavy rain during early part of week, then a partial heat with occasional showers. Weather close and warm. Prospects of jute improved, *Biris* rice harvest going on slowly. *Aman* being transplanted. Cholera abating, but still bad in places.
		Dinhatta up to 24th	..	3 45	
		Mathabhanga up to 23rd.	..	13 49	
		Mecklignnge up to 24rd	..	14 02	
		Eastern Districts			
Dacca Div.	18	Dacca	June 30 '83	2·34	Weather—windy and cloudy Harvesting of *til* and *aus* paddy continues. Sowing of *aman* paddy going on. Jute and sugarcane thriving.
		Manickgunge	...	2·42	
		Munshigunge	..	0 46	
		Na ngunge	..	1 46	
	19	Furreedpore,	„ 30 „	1·30	Weather very high winds during the last three days; very gloomy with frequent showers. State and prospects of jute, paddy, sugarcane, &c., good. Public health very fair.
		Goalundo	...	1·55	
		Madaripore	...	2·45	
	20	Backergunge,	„ 28 „	2 73	Weather—seasonable. *Aus* crop doing well. Cultivation of *aman* going on rapidly. General health good.
	21	Mymensingh,	„ 29 „	0 89	Weather—warm, with cloudy sky and occasional heavy showers; high east wind since evening of 28th. State and prospects of crops slightly improved. Rivers risen very much during the week. General health good, except that cholera continues in Sherpur town.
		Jamalpore	...	1 15	
		Kishoregunge	...	1 37	
		Attea	...	1 97	
		Netrokona	...	2 34	

* For week ending 30th June..

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL—*concld.*				
Eastern Districts.—concld.				
Chittagong Divn.	22	Chittagong July 3 '83	7·42	Weather—seasonable. Transplanting of *aus* and sowing of *amun* going on Prospects fair. Prices steady. Fever and cattle-disease bad in Cox's Bazar. Cholera not yet abated.
	23	Noakholly, June 28 „	3·-9	Weather—variable; generally cloudy; rain scanty; at times very hot. *Aus* paddy ripening and *amun* paddy being transplanted generally.
	24	Tipperah, „ 29 „	2·04	Weather—rainy. State and prospects of crops good. Public health generally good.
		Brahmunbaria ..	0·34	
		Chandpore ..	1·75	
	25	Chittagong Hill Tracts „ 26 „	1·35	Heavy showers throughout the week. *Jhum* doing well. Cotton crop will be short, many of the young plants having been damped off.
		Hill Tipperah, „ 27 „	0·76	Weather—warm. Lands being prepared for transplanting of *amun* paddy. *Moong* and sugarcane looking bright. Public health good.
BEHAR				
Patna Divn.	26	Patna, June 30 '83	1·62	Weather—hot. Sowings of *bhadoi* and paddy crops are being pushed on in some places *Makai* has commenced to germinate. A few cases of cholera reported from Barh and Behar sub-divisions.
		Barh ..	1·46	
		Behar ..	1·91	
	27	Gya „ 30 „	0·53	Weather—overcast, with high winds and showers. Rice sowings are being briskly pushed forward *Murwa* is being transplanted. Millet and coarse grains largely sown Sugarcane promises well. Cholera very prevalent and cattle-pox reported over a large area.
	28	Shahabad, „ 30 „	3·85	Weather—cool and moist in the east of the district, hot and dry at Bhaboosh in the west. East wind. Prospects of crops favourable, except at Bhaboosh, where more rain is wanted.
		Buxar ..	1·77	
		Bhaboosh ..	0·4	
	29	Durbhunga, „ 30 '83	1·32	Weather—cool and cloudy with high wind from north-east. The present fine weather following the rain is most favourable for *makai*, *murwa* and other *bhaloi* crops. Low land *moong* much injured; also low land indigo in some factories. Transplanting of paddy going on vigorously. Prices stationary. Cholera disappearing everywhere. Health generally good
	30	Mozufferpore, „ 30 „	2·64	Weather—cool, with east wind. All crops looking well. *Bhadoi* and *aghan* sowings in progress. Early rice looks promising Cholera has ceased in Hajeepore sub-division. General health much improved in Sudder and Seetamurhee sub-divisions.
		Hajeepore ..	0·52	
		Seetamurhee ...	1·90	
	31	Sarun, „ 30 „	3·36	Weather—hot and close, generally cloudy. Sowings of *makai*, *kodo*, and *rahar* going on. Transplanting of *murwa* has commenced. Indigo prospects good.
		Sewan ..	4·61	
		Gopalgunge ...	1·49	The rain has done much good to the crops in field. Sporadic cases of small-pox still reported from Gopalgunge, otherwise public health good. Prices stationary.
	32	Chumparun „ 30 „	Nil	Weather—hot and cloudy. Rain has fallen which will facilitate agricultural operations. Sowings of *bhadoi* crops commenced. Indigo prospects good. Public health satisfactory
Bhagulpore Divn.	33	Monghyr, June 30 '83	1·19	Weather—cool and seasonable. Preparation of lands going on rapidly. Sowing of Indian-corn commenced in some parts. Prospects generally promising. Public health good.
		Begusarai ..	3·57	
		Jamui ..	3·49	
	34	Bhagulpore, „ 30 „	1·13	Weather—in first part of week hot and sultry, but latterly cool; strong easterly winds. In north of district heavy rain, especially in Muddehpoorah, where 10·20 inches were registered in one day (25th instant.) Prospects good, except in Muddehpoorah, where floods have damaged the young paddy. Fresh seed is being sown. Health good.
	35	Purneah, „ 30 „	1·17	Weather—fine, with strong easterly wind. Prospects of crops very good. Indigo is a little damaged. Health fair.
		Kissengunge ..	13·01	
		Arrarcah ..	11·96	
	36	Maldah, „ 30 „	1·11	Rainfall scanty. Weather showery and sultry for first four days of the week, since then sky overcast, and a very strong easterly wind blowing. Rivers rising. Standing crops doing well. Public health generally good.
	37	Sonthal Pergha. „ 30 „	0·91	Weather—cloudy, showery and unsettled. *Bhadoi* and winter rice sowings in hand Transplanting going on in the eastern low lands. A little small-pox in Deoghur.
		Deoghur ..	1·29	
		Rajmehal ...	2·63	
		Jamtara ...	0·84	
		Pakour ...	2·13	
		Godda ...	0·33	
ORISSA				
Orissa Divn.	38	Cuttack, June 29 '83	3·64	Weather—cool and cloudy with heavy rain on the 28th. Young plants of *beali* and *sarad* rice growing well; the former being harrowed in some places. Common rice selling at from 24 to 28 seers per rupee. Public health good.
	39	Pooree, „ 28 „	0·80	Weather—showery, with strong south-westerly breeze. *Sarad* sowings continue in some places, elsewhere puddling has commenced. Cotton being gathered. Common rice selling at from 25 to 42 seers per rupee. Public health good.
		Khoorda ...	1·16	
	40	Balasore, „ 29 „	3·33	Weather—cloudy and rainy. Prospects of crops good. Sowing and ploughing going on. Sugarcane progressing well. Public health generally good.
CHOTA NAGPORE.				
South-West Frontier Agency.				
	41	Hazaribagh, June 29 '83	1·21	Weather—cloudy. Good rain reported throughout the district. Sowing of paddy and *bhadoi* crops going on. General health good.
	42	Lohardugga, „ 30 „	1·7	Weather—rainy. Prospects of crops favourable. Public health good.
		Palamow ..	0·4	
	43	Singbhoom, „ 29 „	1·44	Weather—seasonable. Rainfall has been general and sufficient for present requirements. Everything doing well. Agricultural prospects favourable. General health good.
	44	Manbhoom, „ 30 „	1·00	Weather—rainy and cool. Sowings progressing everywhere. Rice seedlings promise well. Indian-corn, *moong*, *rahar*, &c., being sown on uplands. Sugar cane flourishing. Public health good.
		Govindpore ..	0·54

Explanation of Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky [illegible] stations, rainfall," the normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divi- from that district, (*b*) the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

for the week ending 29th June 1883.

Rainfall of week at observing station.	Of week. Normal mean for district.	Of week. Average for district.	Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 15th May. Mean for district.	Since 15th May. Normal mean.	Since 15th May. Variation.	Average number of rainy days during the week.	Normal number of rainy days of week.	Representative station.	DISTRICT.	METEOROLOGICAL DIVISION.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 29TH JUNE 1883.

The chief feature of the meteorology of the past week has been the formation of another cyclonic vortex, which has given heavy rain to Orissa and the adjacent districts of South-West Bengal. At the beginning of the week under review pressure was increasing, and considerably above the average. This accompanied a partial break in the rains; in other words, although ordinary monsoon winds continued, rainfall was local rather than general in character. Behar and North Bengal continued to receive fairly general rain. But in Orissa, South-West Bengal, and more especially in East Bengal, the rainfall was confined to local showers of short duration and generally limited in amount. This continued until Monday afternoon. On Tuesday morning the first indications were shewn of the commencement of the formation of a cyclonic vortex near the head of the Bay. The logs of ships already received shew that for one or two days previously weather had been squally, with strong monsoon winds and heavy rain over the centre and north of the Bay. The cyclonic vortex formed near the Sandheads and continued almost stationary until Friday morning, when it began to move to the westward. It crossed the Balasore coast about midnight, and was to the north of Cuttack, probably in the hill district of Northern Orissa at 10 A M. of Saturday. The first effect of its formation was to diminish the wind amount and rainfall in Bengal and Orissa. Skies, however, began to cloud over in Orissa and South-West and East Bengal on Wednesday, and fairly general rain commenced over that area on Wednesday afternoon and continued for the remainder of the week. The rainfall was excessive in Orissa, more especially the central districts, and heavy in the south-western districts of South-West Bengal with the continuance of the indraught. Skies were less clouded in North and Central Bengal and North Behar, and the rainfall there during the last three days of the week was small in amount and local in character.

The variations in the elements of meteorological observations have, as a consequence, been considerable. The mean pressure of the week is above the average by small amount, except for Orissa and the south-west districts of South-West Bengal, where the defect ranges from zero to—·05″. The mean temperature of the week was generally below the average by small amounts, averaging 1° for the Province. The highest temperature registered during the week was 97·2 at Gya. The wind was variable in direction in South-West Bengal, Orissa, and Chutia Nagpur, in consequence of the influence of the cyclonic disturbance. In East Bengal south-east winds have prevailed, and in North Bengal and Behar easterly winds. The indraught to the cyclonic vortex increased from Tuesday until Friday evening, when unusually strong winds were blowing in South-West Bengal and Orissa. The greatest velocity of the wind at Saugor Island—40 miles per hour—from 3 P M to 5 P M.

The following table gives a summary of the temperature and rainfall data for the past week :—

Meteorological District.	Temperature.						Rainfall								
			Average for week.				Of week.			Rainy days.			Since 1st of month		Since 15th May.	
	Highest observed during week.	Lowest observed during week.	Of highest of each day.	Of lowest of each day.	Of mean for each day.	Average mean of week above (+) or below (−) normal mean week.	Average.	Normal average.	Variation.	Average number for week.	Normal average number for week.	Variation from week.	Average.	Normal average.	Average.	Normal average.

The rainfall of the past week has been very unequally distributed. Excessive rain was recorded in Orissa (more especially the northern districts) during the passage of the cyclonic disturbance across it. Heavy local falls of rain have occurred in the Purneah and North Bhagulpore districts of North Behar, the Julpigori district of North Bengal, and the Chittagong and Noakholly districts of East Bengal.

The rainfall has been in defect in all other districts. The deficiency is most marked in the central districts of North and East Bengal, and appears to be due mainly to lightness of the showers, as the number of rainy days is slightly in excess of the average over the Province.

Saturday, 23rd June.—The barometer had fallen rather rapidly during the past 24 hours in Orissa, East and South-West Bengal, and risen slightly in North Bengal and Behar. Pressure exceeded the normal by amounts varying from ·05″ at Calcutta to ·11″ at False Point. Temperature was increasing, and was normal or slightly in excess, except in South

and Central Behar, where the mean of the preceding 24 hours was 3° below the average. Light winds prevailed at the head of the Bay. Winds were normal in direction over the Province, but feebler than the average. The air was moister in Behar, Chutia Nagpur, and the northern districts of North Bengal, where skies were also overcast, and fairly general rain fell. Local showers occurred in Orissa, South-West and East Bengal. They were generally very light. Maliara (in Bankoora) received 3·76 inches, Burdwan 2·53 inches, and Kandy (in Moorshedabad) 2 9 inches.

Sunday, 24th June.—Pressure had altered very slightly, but somewhat irregularly during the previous 24 hours. Temperature continued to increase, and was now either normal or slightly above the average. Light to moderate southerly winds prevailed at the head of the Bay, and gave light monsoon winds over the Province. The air was considerably drier in Behar and Chutia Nagpur, and the sky less clouded than on the 23rd, except in North Bengal, where it was overcast. Heavy rain was falling in the northern districts of North Bengal Julpigoree registered 6·56 inches, and Buxa 5 33 inches. Light local showers fell in East and South-West Bengal. Orissa received a few heavy showers. Bhuddruck (in the Balasore district) registered the largest fall, 3·35 inches. No rain occurred in Behar or Chutia Nagpur.

Monday, 25th June.—Pressure had increased over the Province, and was unusually high. It differed from the normal by amounts ranging from ·09″ at Durbhunga to ·19″ at Saugor Island. Temperature was slightly above the average. Light winds continued at the head of the Bay. Northerly winds were blowing in North Bengal in the morning. A considerable increase of humidity had again occurred in Behar. Skies were overcast in East and North Bengal and in Behar. Heavy rain fell in North Bengal and the eastern districts of North Behar. Muddapore and Soopool (in North Bhagulpore) registered 10·2 and 5 3 inches respectively, and Arrareah and Kissengunj (in Purneah) 7 04 inches and 5·25 inches respectively. Elsewhere light to moderate local showers were received.

Tuesday, 26th June.—Pressure began to give way over the Province The fall was greatest at the head of the Bay, in the north-west of which an area of barometric depression and of cyclonic circulation began to form. Temperature increased slightly in Orissa and South-West Bengal, where the mean temperature of the preceding 24 hours was 3° above the average. Winds were light at the head of the Bay, and were backing through east to north. The air was very humid in North Bengal and Behar. The sky was less clouded, except in North Bengal, where it was overcast. The rainfall was unusually small in amount over Orissa, South-West and East Bengal, in consequence of the indraught to the cyclonic disturbance already established. Heavy general rain fell in the northern districts of North Bengal. Cooch Behar received 5·74 inches, Behar also obtained general rain The largest amounts were registered in the Purneah and Shahabad districts.

Wednesday, 27th June.—Pressure continued to diminish rapidly. The fall of the barometer was greatest in South-West Bengal The cyclonic vortex was more distinctly marked and was apparently to the south of Saugor Island and near the Sandheads. Temperature was normal in Orissa, slightly in excess in Bengal, and from ·1° to 3° below the average in Behar and Chutia Nagpur. Winds were everywhere light. In South-West Bengal and Orissa they ranged in direction between north east and north-west, and indicated convergence to the cyclonic disturbance at the head of the Bay. The air was less damp in Behar and North Bengal than on the 26th. The sky had clouded over in Orissa and the adjacent districts of South-West Bengal and Chutia Nagpur Elsewhere it was free from cloud.

Light to moderate rain fell in Orissa, South West Bengal and in East Bengal. A few light showers were recorded in North Bengal and North Behar, and light general rain in the Southal Pergunnahs and Chutia Nagpur. The heaviest falls registered were 2·5 inches at Agartola and 2 25 inches at Chandbali.

Thursday, 28th June—Pressure had again given way over the whole Province. The fall of the barometer was large everywhere and was greatest in the 24-Pergunnahs and Balasore. These changes intensified the cyclonic vortex, the position of which was unchanged Pressure was now below the normal by amounts ranging from ·05″ at Patna to ·25″ at Calcutta Temperature varied very slightly from the normal except in Orissa, where it was 2½° below the average. The air motion was much stronger than on the 27th, and was mainly dependent on the cyclonic disturbance. In South and South-West Bengal winds ranged between east and north-east. They were north at Balasore, and west south-west at False Point Light easterly winds prevailed in North Bengal, Behar, and Chutia Nagpur. Skies were overcast, and the air very humid in South Bengal and Orissa. The indraught from the north to the vortex had diminished considerably the amount of cloud and the humidity of North Bengal and Behar.

Moderate to heavy general rain fell in Orissa Moderate rain was received in the whole of South-West Bengal and East Bengal Light local showers fell at the majority of stations in North Bengal and at a few Behar stations. False Point recorded the large amount of 8·04 inches.

Friday, 29th June—A rapid fall of the barometer in South-West Bengal and Orissa had accompanied a further intensification of the cyclonic vortex, which was in almost the same position as it had been during the previous 48 hours. Pressure had increased by moderately large amounts over the remainder of the Province, and varied from the normal within wide limits ranging from ·01″ at Durbhunga to ·45″ at Saugor Island. Temperature had fallen very rapidly. The mean of the previous 24 hours was from 5° to 10° below the average in Orissa, 3½° in South-West and East Bengal, and 1½° in Chutia Nagpur and Behar. Winds

were unusually strong. Little change has taken place in the direction of the winds, which continued to indicate convergence to a centre near the Sandheads. The air was almost saturated with moisture in East and South-West Bengal, and in Orissa where skies were overcast. In all other parts of the Province, except the western districts of North Behar, no sky was thickly clouded.

Orissa received excessive rain. Amounts exceeding 5 inches were registered at several stations. Pooree recorded 9·44 inches. South-West Bengal recorded general rain heaviest in the south-western districts. Contai recorded the largest amount, 3·76 inches. The rainfall was also general in East Bengal, and was excessive in the Chittagong and Noakhally districts. A few light local showers of little importance were recorded in North Bengal and Behar.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

METEOROLOGICAL OFFICE, BENGAL,
The 3rd July 1883.

VITAL STATISTICS OF THE FIRST CLASS MUNICIPALITIES IN BENGAL FOR THE WEEK ENDING 16TH JUNE 1883.

DURING the week ending 16th June, the first class Municipalities in Bengal returned the birth and death-rates of 14·7 and 27·3 per 1,000, respectively, from among their population of 1,329,680 against 16·0 and 32·0 per 1,000, respectively, in the preceding week ending 9th June, showing a small decrease in the birth ratio with a large decrease in the death ratio. The highest birth and death-rates were returned by the following Municipalities :—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Comillah	30·8	Mozufferpore	62·0
Burdwan	29·0	Durbhanga	49·6
Chuprah	25 4	Patna	38 9
Durbhanga	23·6	Gya	38·3
		Purneah	34·6
		Comillah	30 8
		Bhagulpore	30 8
		Arrah	28·7
		Suburbs of Calcutta ..	28·3
		Chuprah	26 4
		Santipore	25·9
		Serampore	25·5
		Kishnaghur	25·0

The mortality from the several death-causes was as follows :—

	Ratio per 1,000 during weeks ending	
	16th June.	9th June.
Cholera	5·6	7·9
Small-pox	·4	·7
Fever	11·7	13·5
Bowel-complaints	3·1	4·6
Injury	·3	·3
Other causes	6·2	5 2

indicating that, in comparison with the preceding week, the severity of cholera, small-pox and fever had on the whole declined considerably.

While small-pox prevailed most severely only in Gya and fever in Purneah, cholera exhibited its utmost virulence in the following towns :—

	Ratio per mille.
Mozufferpore	24·3
Durbhanga	20·5
Arrah	11·9
Gya	10·9
Chuprah	10·7
Patna	7·1
Suburbs of Calcutta	5·4
Howrah	3·9

It will be noticed that the area of greatest suffering from the abovenamed diseases this week was the same as that in the preceding week.

The highest and lowest death-rates in relation to *Religion* and *Age* are shown below :—

According to Religion.	Ratio per mille.	*According to Age.*	Ratio per mille.
Hindus	28·9	Infants (under 1 year) ..	196·1
Mahomedans	24·1	Old men (60 years and upwards)	46·1
Christians	18·9	Children (1 and under 5 years)	43·5
		Adults (of 10 and under 15 years)	15·3

F. W. A. DEFABECK,
Officiating Sanitary Commissioner for Bengal.

The 2nd July 1883.

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 16th June 1883.

The total fall from 1st January to 30th June 1883		18·02
The average fall of the corresponding period for 24 years, S. G. Office		21·47

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, p passing temporary showers, lr lightning reflection, / strong wind.

JOHN ELIOT,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 2nd July 1883.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 1731A.

GENERAL.—*The 23rd June* 1883.—Baboo Pran Kumar Dass, Temporary Deputy Collector, Gya, is appointed to perform the functions of a Collector under Act VII (B.C.) of 1880 in that district.

The 28th June 1883.—Surgeon-Major George King, Superintendent of the Royal Botanical Gardens, Calcutta, and Government Quinologist, is allowed leave for two months and twenty-eight days, under section 71, chapter V of the Civil Leave Code, with effect from the afternoon of the 9th July next.

Mr. L. J. R. Brace, Curator of the Herbarium of the Royal Botanical Gardens, Calcutta, is appointed, in addition to his present duties, to have charge of the Royal Botanical Gardens, during the absence, on privilege leave, of Dr. George King, or until further orders.

Mr. J. Gammie, Head Gardener of the Government Cinchona Cultivation, Darjeeling, is appointed, in addition to his present duties, to have charge of the Cinchona Plantation, during the absence, on privilege leave, of Dr. G. King, or until further orders.

The 30th June 1883.—Baboo Upendra Chunder Mookerjee, Officiating Deputy Collector, Fenny, Noakholly, is vested with the powers of a Collector under Act X of 1870 in that sub-division.

Baboo Gopal Chunder Mookerjee, Deputy Magistrate and Deputy Collector, Arrareah, Purneah, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

Assistant Surgeon Preonath Bose.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 9th July 1883.—In modification of the notification dated the 13th February 1883, published in the *Calcutta Gazette* of the 14th idem, Part I, page 176, the Lieutenant-Governor is pleased, under section 16 of Act VI of 1871, to fix Berhampore, the sudder station of the district of Moorshedabad, as the place at which the Court of the Munsif of Lalbagh shall, until further orders, be held; and under section 18 of the aforesaid Act to fix the local limits of the jurisdiction of the said Court as described below. The jurisdictions of the other Munsif's Courts of the district shall also be as shown against each below.

These arrangements have taken effect from the 14th March 1883.

MUNSIFS.	THANAS.
Berhampore (head-quarters at Berhampore).	Sujagunge. Gorabazar. Kalyangunge. Gokarna. Hariharpara. Nowada. Barwa. Daulatbazar.
Azimgunge (head-quarters at Azimgunge).	Goas. Jellinghee.
Lalbagh (head-quarters at Berhampore).	Bhagwangola. Shahanagar. Manullabazar. Assanpur. Sagardighi.
Jungypore (head-quarters at Jungypore).	Dewansarai. Raghunathgunge. Mirzapur. Sooti. Shamshergunge.
Kandi (head-quarters at Kandi).	Bharatpore. Khargaon. Kandi.

Note.—Mohimapur and Budrihat, which were mentioned as thanas in the notification dated the 19th January 1880, are in reality dependent outposts—the former subordinate to Thana Shahanagar, and the latter to the independent outpost of Sagardighi.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 5th July 1883.—Rule 17 of the Rules for the regulation of the Departmental Examinations of Junior Members of the Covenanted Civil Service, the Subordinate Executive Service, &c., contained in the notification of the 21st March 1883, has been amended as follows:—

"A Covenanted Civil Servant must pass the examination in local laws, regulations and rules, in treasury and local fund accounts and departmental revenue accounts, and in both languages by the higher standard. He will be required to pass by the lower standard in accounts, as well as in the vernacular of the district in which he is serving."

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 4th July 1883.—Whereas a notification dated the 1st March 1883, declaring the Lieutenant-Governor's intention to confirm the bye-law reproduced below, which has been framed by the Commissioners of the Suburban Municipality, under section 256, Act V (B.C.) of 1876, was published at page 212, Part I of the *Calcutta Gazette* of the 7th idem, and whereas no valid objection has been raised to the measure, the Lieutenant-Governor, in the exercise of the powers conferred on him by sections 314 and 315 of the said Act, hereby confirms the said bye-law, and sanctions the penalty which has been provided by the Commissioners for its infringement.

"No hut or other building, the external roof or walls of which are made of grass, leaves, mats, or other inflammable materials, shall be erected, renewed, or thoroughly repaired within the limits of the municipality, except with the sanction of the Commissioners.

Any person infringing this bye-law shall be liable to a fine not exceeding Rs. 20, and to a daily fine not exceeding Rs. 5 for continued infringement."

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 6th July 1883.—It is hereby notified that, in the exercise of the power conferred on him by section 314, Act V (B.C.) of 1876, the Lieutenant-Governor intends, on the recommendation of the Commissioners of the Kishnaghur Municipality, made at a meeting, to confirm the following bye-law, which has been framed by the Commissioners under section 313 of the Act, unless good reasons to the contrary are shown within one month from the date of this notification:—

"Whenever, under section 256, a limit has been fixed by the Commissioners within which the external roofs and walls of houses shall not be made of inflammable materials, any person acting in contravention of the said order shall be liable to a fine not exceeding Rs. 20."

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 7th July 1883.—In exercise of the powers conferred on him by section 3 of Act I of 1882 (the Inland Emigration Act), the Lieutenant-Governor is pleased to appoint Baboo Shyamapada Chowdry, Senior Deputy Magistrate of Hazaribagh, exercising the powers of a Magistrate of the first class, to perform the functions of a Magistrate under that Act.

NOTIFICATION.

The 30th June 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 25).

INDIA—WEST COAST—BOMBAY PRESIDENCY.

GULF OF CUTCH.

Beyt or Bate (Sainia) new light.

THE Agent to the Governor-General at Baroda has given notice that a new lighthouse on the highest, and nearly the central, part of Sainia island, at the entrance to Beyt harbour, has been erected, and that the light was exhibited therefrom on the 13th May 1883.

The light is a *fixed* white light, elevated 71 feet above the sea, and should be visible in clear weather from a distance of 13 miles. The building is a circular tower of stone masonry, and is 65½ feet high from base to vane.

A *red* ray is also shown from this light to cover the danger called the *Chinri Reef* over a sector of 30 degrees from the bearings of S. 37° 30′ W. to S. 67° 30′ W.

The illuminating apparatus is dioptric, or by lenses of the fourth order.

Position, as determined by G. T. S., latitude 22° 29′ 18″ N., longitude 69° 04′ 41″ E.

The light is intended as a guide to the harbour of Beyt, and for vessels crossing the mouth of the Gulf of Cutch.

The bearings are *Magnetic*, and are given from the *ship, not* from the *light*.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, 27th June* 1883.

[Third Publication.]

NOTIFICATION.

The 20th June 1883.—It is hereby notified, under section 19 of the Indian Forest Act (Act VII of 1878), that the following tract of land in the Hazaribagh district, which, in a notification dated the 19th October 1882, published at page 896 of the *Calcutta Gazette* of the 1st November 1882, it was proposed to constitute a reserved forest, shall, from the 1st July next, be a "Reserved Forest" under the said Act:—

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Hazaribagh ...	Koderma ...	An addition to the Koderma forest reserve.	*North.*—From the northern point of the present forest reserve, along the Gya district boundary, to a point about half a mile north-west of Kurhuria. *West.*—A demarcated line along the foot of the Doorbasha hill in an easterly direction to a point about one mile north-east of Bishneeteekur; then due south to the Phutlahi nadi; then in a westerly direction to the Gya district boundary, and along that boundary to a point on the Fileya nadi, about one mile east of Bishonpore; then up that nadi for about half a mile; then a demarcated line nearly due west to the Binda nadi; then up the Binda nadi to a point half a mile north-west of the village Bara Khooda. *South.*—A demarcated line due east to the Saganwa Seemur nadi; then up that nadi to post 147 of the present forest reserve boundary. *East.*—The forest reserve as at present demarcated.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

DECLARATION.

The 4th July 1883.—Whereas it appears to the Lieutenant-Governor that land is required to be taken up by Government at the expense of the Hooghly Municipality for a public purpose, viz. for constructing a public latrine in the village of Bag Keotah *alias* Mullick Joinder Bag, within the Hooghly Municipality, pergunnah Arsha, zillah Hooghly: it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 cottahs 7 chittacks of standard measurement, is required. It is bounded on the north by Manick Chunder Madock's land; on the west by Hari Mohon Shaha's jumma land; on the east by the chur land within the river Hooghly, and on the south by the road leading from Shahagunge main road to the river.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 1732A.

The 28th June 1883.—Under section 12 of the European Vagrancy Act, IX of 1874, Mr. H. N. Gladstone is appointed to be a member of the Committee of Management of the Government Workhouse, Calcutta, *vice* Captain C. J. Wilkinson, resigned.

The 30th June 1883.—Baboo Radha Nath Sen, B.L., is appointed to act temporarily as a Munsif in the district of Moorshedabad, and to be ordinarily stationed at Jungypore, with effect from the date on which he joined his appointment.

Baboo Khetter Mohun Mitter, Officiating Deputy Magistrate and Deputy Collector, Rungpore, is vested with the powers of a Magistrate of the second class.

The 2nd July 1883.—Baboo Medni Prosad Sing, Deputy Magistrate and Deputy Collector, Patna, is vested with the powers of a Magistrate of the first class, and with powers under section 110 of the Code of Criminal Procedure.

The 3rd July 1883.—The undermentioned gentlemen are appointed to be Honorary Magistrates for the sudder bench of Burdwan, and are vested with the powers of a Magistrate of the third class:—

Baboo Mohendra Nath Pandit. | Baboo Annoda Persad Mullick.

The 4th July 1883.—Mr. N. Warde-Jones, Temporary Deputy Magistrate, Rampore Hat, Beerbhoom, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

The 5th July 1883.—Mr. B. Dé, Officiating Joint Magistrate and Deputy Collector, Hooghly, is vested with powers under section 133 of the Criminal Procedure Code.

The District Judge of Moorshedabad is appointed, under section 15 of Act XI of 1865, to officiate temporarily as Judge of the Court of Small Causes of that district, in addition to his own duties, with effect from the 1st instant, during the absence, on deputation, of the permanent Small Cause Court Judge of the district, or until further orders.

The 6th July 1883.—Mr. W. Grindlay, Assistant Magistrate and Collector, Durbhunga, is vested with the powers of a Magistrate of the first class, and with powers under sections 110, 133, 186, 191, and 524 of the Criminal Procedure Code.

The 9th July 1883.—Mr. G. A. Grierson, Officiating Joint Magistrate and Deputy Collector, Patna, is vested with the powers of a Magistrate of the first class, and with powers under sections 133 and 260 of the Code of Criminal Procedure.

Mr. L. P. Shirres, Assistant Magistrate and Collector, Patna, is vested with the powers of a Magistrate of the second class.

Baboo Kristo Dhun Chowdry, Munsif of Jamalpore, Mymensingh, is appointed to be a Munsif in the district of Rungpore, and to be ordinarily stationed at Gaibanda.

Baboo Dinesh Chandra Roy, First Munsif of Gaibanda, Rungpore, is appointed to be a Munsif in the district of Mymensingh, and to be ordinarily stationed at Jamalpore.

GRANT OF LEAVE TO MUNSIFS.—*The 6th July* 1883.—Baboo Koilash Chandra Mozumdar, First Munsif of Jehanabad, in the district of Hooghly, is allowed leave for one day, under rule 2, section 72, chapter V of the Civil Leave Code, in extension of the leave granted him on the 15th May last

Moulvie Syud Abdool Karim, late Munsif of Palamow, in the district of Lohardugga, is allowed leave for five months, under section 127, chapter X of the Civil Leave Code, in extension of the leave granted him on the 30th March 1883.

The 7th July 1883.—Baboo Gobindo Chandra Bysack, First Sudder Munsif of Rungpore, on transfer to Mymensingh, is allowed leave for one month, under rule 1 (*a*), section 72, chapter V of the Civil Leave Code, with effect from the 3rd July 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 25th June 1883.—It is hereby notified, under the provisions of section 15 of Act V of 1861, that the villages of—

1. Madartoli,
2. Hugolpatti,
3. Kataltoli,
4. Betmore,
5. Charackhola,
6. Koroitolla,
7. Lemoos,
8. Putimara,
9. Jamritolla,
10. Golbonia,

in the Perozepur sub-division, in the district of Backergunge, being in a disturbed and dangerous state, owing to the existence of disputes regarding the possession of lands and collection of rents, the Lieutenant-Governor has sanctioned the retention of a special police force of one head constable and four constables for a further period of one year, commencing from the 1st July 1883, to be quartered upon the said ten villages for the purpose of preserving the peace.

2. The total cost of the force, which is shown below, will be assessed and levied from the inhabitants of the villages in proportion to their respective means—

	Rs.	A.	P.
1 Head Constable at Rs 25	25	0	0
4 Constables at Rs. 9 each	36	0	0
Total monthly cost ...	61	0	0
For twelve months	732	0	0
Contingencies at 10 per cent	73	8	0
Pensionary charges	91	8	0
Clothing charges	20	0	0
Repair of barracks	50	0	0
Boat establishment for four months from July to October...	140	0	0
Total cost ...	1,106	11	0

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

The 5th July 1883.

No. 248.—*Leave.*—Mr. G. J. Sherman, Store-keeper, Tirhoot State Railway, is granted three months' privilege leave, with effect from 1st July 1883, or such date as he may avail himself of the same.

The 9th July 1883.

No. 250.—Mr. F. D. Kiernander, Assistant Traffic Superintendent, Northern Bengal State Railway, is granted three months' privilege leave, with effect from 1st July 1883, or such date as he may avail himself of the same.

IRRIGATION.

The 9th July 1883.

No. 251.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the diversion of the Haripal road at Nasseebpoor, in the villages of Bhanderdoho and Pooroosuttompoor, pergunnah Singhoor, zillah Hooghly, it is hereby declared that for the above purpose two plots of land measuring, more or less, 5 beegahs of standard measurement, of which one plot is bounded on the north and south by other lands of Bhanderdoho and Pooroosuttumpoor, on the west by the Haripal road, and on the east by the lands acquired for the junction channel between Kana Nuddee and Saraswati; and the other plot is bounded

on the north, south, and east by other lands of Bhanderdoho, and on the west by the lands acquired for the junction channel between Kana Nuddee and Saraswati, are required within the aforesaid villages of Bhanderdoho and Pooroosuttumpoor.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. C. LEVINGE,
Secy. to the Govt. of Bengal, P. W. D.

The 10th July 1883.

No. 252.—*Appointment.*—Mr. L E. H. Yates, Assistant Locomotive Superintendent, is appointed to officiate as Locomotive Superintendent, Northern Bengal State Railway, during the absence of Mr. A. W. Rendell, on three months' privilege leave, with effect from the forenoon of the 16th May 1883.

W. DEW. PEEL,
Under-Secy. to the Govt. of Bengal, P. W. D.

The 10th July 1883.

No. 253.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up at the Government expense for a public purpose, viz. for the construction of a feeder road from Shikarpore to Bhajunpore in the villages of Shikarpore, Guzrimari, Fakirdip, Dangapara, Totaigunge, Sonnasibari, Bholagunge, and Kaliamoni in pergunnah Baikontopore, district Jalpaiguri, it is hereby declared that strips of land measuring, more or less, sixty-five beeghas three cottahs and thirteen chuttacks of standard measurement, is required in the aforesaid villages of Shikarpore, Guzrimari, &c., &c.

This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

J. M. HEYWOOD, *Lieut.-Col.*, R.E.,
Offg. Joint Secy. to the Govt. of Bengal, P. W. Dept.

(Fourth Publication.)

IRRIGATION.

Draft of the Revised Water-rate Rules for the Orissa Canals.

The 18th June 1883.

No. 283.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following revised rules proposed to be passed in supersession of rules 5 and 31 passed under Notification No. 105 of the 26th July 1880, and published in the *Calcutta Gazette* for the 28th July 1880, Part I, pages 643 to 651.

RULE 5.—The rates chargeable per acre for the different descriptions of crops have been fixed up to the 1st of April 1888, and are as follows :—

	Flow.			Lift.		
For the rice crop.	Rs.	A.	P.	Rs.	A.	P.
I.—For the whole irrigable or rice cultivated area of any village if applied for up to the expiration of sanctioned rates	1	8	0	1	0	0
II.—For any fractional area of a village or for other term	3	0	0	2	0	0
For cold-weather crops.						
III.—Dalwa rice	1	8	0	1	0	0
IV.—For cotton, tobacco, huldi, ginger, wheat, vegetables, indigo, and all garden produce grown in villages, the rice lands of which are leased under rate I ..	1	0	0	0	10	0
V.—For the above produce when grown in villages the rice lands of which are not leased under rate I ..	2	0	0	1	8	0
VI.—For linseed, oilseed, dâl, and all pulses grown in villages, the rice lands of which are leased under rate I ..	0	8	0	0	5	0
VII.—For the above produce when grown in villages, the rice lands of which are not leased under rate I ..	1	0	0	0	10	0
For perennial crops.						
VIII.—For sugarcane	6	0	0	4	0	0

IX.—The charge for filling tanks will be Re. 1 per 10,000 cubic feet of water used.

RULE 31.—The dates of payment of water-rates shall be as follows :—

For rice ..	1st instalment ..	Two-thirds of the water-rate ..	1st January.
Ditto ..	2nd ditto ..	One-third ditto ..	1st May.
Sugarcane ..	....	....	1st June.
Dalwa rice and cold-weather crops ..		....	1st August

N.B.—The Lieutenant-Governor reserves the right of withdrawing the permission to pay water-rates on rice in two instalments, and of requiring payment in one instalment, payable on such date as he may fix, should an alteration in this respect be at any time considered desirable.

J. M. HEYWOOD, *Lieut.-Col.*, R.E.,
Joint-Secy. to the Govt. of Bengal, P. W. Dept.

[Second Publication.]

IRRIGATION.

The 2nd July 1883.

No. 244.—Notification.—Notice is hereby given that the Lieutenant-Governor of Bengal proposes, under the provisions of section 6 of Act II (B.C.) of 1882, to declare that clause *b* of section 76 of that Act shall take effect over a tract of country extending for one mile from each bank of the rivers or portions of rivers specified below. The erection of any new embankment, or any addition to an existing embankment, or the obstruction or diversion of any watercourse within the tract above defined, without the previous permission of the Superintendent of Embankments, is prohibited.

G. BELLETT, *Registrar.*

SENATE HOUSE, *the 27th April* 1883.

Department Public Works Half-yearly Examination.

THE half-yearly examination of candidates for promotion and employment in the Public Works Department will be held at the Government Engineering College, Howrah, at 10 o'clock on Monday, the 6th August 1883, and the following days. Applications, with fees, for admission to the examination are required to be filed before the 15th of July 1883. Candidates for the grade of accountant, who are not in Government service, should be under 25 years of age, and must prove to the satisfaction of the Principal that they are under that age.

The following are the centres of Examination sanctioned by the Government of India as stations where candidates for fourth grade accountantships are to appear for examination:—

Ajmere, Allahabad, Durbhunga, Ghadechi, Howrah, Indore, Lahore, Lucknow, Mount Abu, Nagpore, Poona, Rangoon, Rawal Pindi, Saidpore, Secunderabad, Sukkur, Simla, and Shillong.

Candidates for the Accountant's examination are therefore requested to select one of the places mentioned above.

S. F. DOWNING,
Principal, Government Engineering College, Howrah.

SHIBPORE, *the 18th June* 1883.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 736B.

NOTICE is hereby given that the Eighth Sale of Opium, the Provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 2nd August 1883, at 11 A.M., and will comprise 4,450 chests, viz:—

	Chests.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information :—

NOTIFICATIONS.

Simla, the 3rd July 1883.

No. 1864.—The following appointments are made in the Financial Department :—

Mr. J. E. Cook to be Deputy Accountant-General, North-Western Provinces and Oudh, but to officiate until further orders as Deputy Accountant-General, Bengal.

Mr. Stephen Jacob, B.C.S. (on furlough), to be Deputy Accountant-General, Bengal, in class II of the Enrolled List of the Financial Department.

The following Addendum to the Codes of the Financial Department is published for general information :—

The 4th July 1883.

No. 1826.

C. L. C.

Page 163.

Section 72, Rule 2.

Add the following to the Note under the Rule :—

When applying for privilege leave under the ordinary rules, a Sessions Judge should append to his application a certificate that he remained at his station on duty during the Court vacation. If he has not remained at his station on duty during the whole term of the vacation, he should state in the certificate the date on which he left his station and the date on which he returned to duty. In the case of a Sessions Judge who has been absent from his station for a portion of the vacation, a period equal to the number of days of his absence should be deducted from his privilege leave.

The 6th July 1883.

No. 1926.—The Notification of this Department, No. 666, dated the 4th May 1883, is hereby cancelled, and the following issued in substitution thereof :—

Whereas is appears to the Governor-General in Council desirable that precautions should be taken to prevent the importation of impure explosives into British India, His Excellency in Council, in exercise of the powers vested in him by section 19 of the Sea Customs Act, VIII of 1878, is pleased, as a temporary measure, pending legislation on the subject, to prohibit the bringing or taking by sea or land into British India of dynamite and of all analogous preparations of nitro-glycerine, unless—

(*a*) the Custom-house authorities are satisfied on the report of the Chemical Examiner or of some other chemist appointed in this behalf by the local Government that the explosives comprised in the consignment are free from exudation, and satisfy the "heat test" applied by Her Majesty's Inspectors of Explosives in England; or

(*b*) that the consignment is covered by a certificate of one of Her Majesty's Inspectors of Explosives in England shewing that samples were taken from bulk before shipment and satisfied the tests applied by such Inspectors.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 249.

Dated the 9th July 1883.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Dacca, Furreedpore, Backergunge, and Mymensingh, for the cess year 1881-82, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secretary to the Govt. of Bengal,
P. W. Dept.

Abstract of a Report by the Chairman of the District Road Cess Committee, Dacca, on the Committee's operations for the cess year 1881-82.

The Cess Act has been worked without difficulty. The members of the District and Branch Committees have taken interest in and done their work well, with the exception of those who did not attend a single meeting.

All the original works proposed for the year under review were undertaken and completed, with the exception of the road from Singpara to Sreenuggur, and that from Mirpoor towards Balliarpoor. Ordinary annual repairs were carried out on all the existing roads, and they are reported to be in fair order.

Village works, both in the shape of original works and repairs, were executed by the District Committee and the Branch Committees of Manickgunge and Moonshegunge out of the the allotment for village roads, which was supplemented in certain cases by private donations.

Great efforts were made in planting out fresh lengths of road with young fruit-trees and in nursing and protecting those previously planted. During the year under report 1,500 trees were planted and about 5,000 others tended.

The different establishments under the Road Committee have worked well and given satisfaction in the discharge of their respective duties.

K. C. ROY,

Vice-Chairman.

Abstract of a Report by the Chairman of the District Road Cess Committee, Furreedpore, on the Committee's operations for the cess year 1881-82.

THE road cess was levied at the maxium rate in this district during the year under report. The total revenue fell short of the amount estimated in the budget by more than Rs. 7,000, and there was a heavy unrealized balance of about Rs. 21,000 at the close of the year. An increase of about Rs. 4,160 in the demand has resulted, however, from the revaluations, the realization of which will take effect during the current cess year, and a further increase may probably be expected next year.

The majority of the members of the District Commitee took a moderate interest in the general administration of the fund, and their attendance was generally satisfactory.

The attendance of the members of the Branch Committees of Goalundo and Madaripore was also fair.

Due attention was paid by the District and the Branch Committees to the construction and repairs of village roads. The total allotment for this purpose was Rs. 8,139, and the total expenditure amounted to Rs. 7,227, which is more than what had been spent on village roads in the two preceding years. Besides the above expenditure, Rs. 1,136 were advanced to villagers in the sudder sub-division for repair of six village roads in that sub-division.

No new trees were planted during the year, but those planted in previous years were protected and maintained.

Since the passing of the new Cess Act a proposal for opening steamer communication between Burrisal and Goalundo was for a long time under the contemplation of the Committees of the Furreedpore and Backergunge districts. But whilst they agreed in recognizing the importance of the proposal, they differed widely as to its details; and after a great deal of correspondence with various steamer companies it was found that the cost would be exorbitant and quite disproportionate to the Committee's means and to the advantage likely to be secured. The Backergunge Committee has, moreover, receded from the original plan, and decided to organize a service by way of Khoolna, and the proposal has accordingly been dropped by the Furreedpore Committee.

The different establishments under the Committee are reported to have done their work moderately well.

H. B. MOOKERJEE,
Vice-Chairman.

Abstract of a Report by the Chairman of the District Road Cess Committee, Backergunge, on the Committee's operations for the cess year 1881-82.

THE cess was levied at half rates during the year, and the net collections amounted to Rs. 1,06,483.

The sub-divisional officers have done good work in their respective sub-divisions as Chairmen of Branch Committees.

The following original works were completed during the year :—

Gourandi road.
Mirzakalu ,,
Tushkhali ,,

New metalling was also undertaken on portions of five roads, and two khals were opened for traffic in the district. All the roads have received surface and slope repairs, and been mantained, with one or two exceptions, in thoroughly good order.

A sum of Rs. 24,279 has been expended on village communications, and 635 fruit trees have been planted on the sides of district roads during the year.

Steamer communication between Burrisal and Goalundo has not yet been opened. The Committee tried their utmost to make settlement with one or the other of the navigation companies and private parties, but have not yet been able to come to a satisfactory arrangement.

The different establishments under the Committee have worked on the whole satisfactorily.

No. 6.—Part I.

BACKERGUNGE DISTRICT ROAD FUND.

Abstract of a Report by the Chairman of the District Road Cess Committee, Mymensingh, on the Committee's operations for the cess year 1881-82.

THE road cess has been in actual operation in this district since October 1875, and the working of which is popular and much appreciated by the people in general. The cess on lands has been levied at the maximum rates ever since the Road Cess Act has been introduced into the district, and the collections for the year under this head amounted to Rs. 1,57,120.

All the members of the District and Branch Road Cess Committees, with the exception of those who did not attend a single meeting, appear to have taken interest in the performance of their work.

Certain important original works have been completed during the year, and all the existing roads properly maintained to facilitate traffic in the district.

A sum of Rs. 35,305 was expended during the year on the construction and maintenance of village communications in the Sudder, Attea, Kishoregunge, and Jamalpore sub-divisions. The amount spent for planting indigenous fruit-bearing trees on both sides of district roads was Rs. 1,694, which is nearly six times as much as was expended in the previous year.

The percentage cost of all the establishments under the Road Committee is Rs. 21·64, which is in excess of that of the previous year by Rs. 6·80, this excess being attributable to the appointment of the Divisional Superintendent of Road Cess Works.

The different establishments employed under the Committee have worked well, and given satisfaction in the discharge of their respective duties.

No. 6.—Part I.

W. H. M. GUN,
For Chairman, Road Cess Committee.

No. 333R, dated Dacca, the 26th February 1883.

From—N. S. ALEXANDER, Esq, Officiating Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department.

UNDER the provisions of section 179 of the Cess Act (IX of 1880, B C.), and in conformity with the instructions contained in your office circular No. 973A, dated 14th September 1880, I have the honour to submit herewith the annual accounts and reports of the road cess funds for the several districts of this division, except Furreedpore, for the cess year 1881-82, accompanied by some brief remarks of mine The accounts and the report for Furreedpore have not yet been received, in spite of repeated reminders from this office.

Collections.—In Backergunge and Mymensingh the actual collections exceeded the estimate, while in Dacca they fell short of it; the amount was, however, sufficient to meet the outlay for the year.

Original works.—The progress made in Dacca in the construction of original works has been satisfactory. In Backergunge it compares favourably with that in the previous year, but the Committee have not succeeded in carrying out the programme of the year.

In Mymensingh the amount (Rs. 52 904) expended under this head was very small in comparison with the outlay (Rs. 99,715) in the previous year, but it was not far off the amount estimated for in the budget.

Repairs.—With a few exceptions the existing district works were repaired and kept in good order during the year. The reasons for not carrying out repairs on certain roads have been given in the district reports. The expenditure under this head was the largest in Mymensingh, where the amount spent on this account exceeded the outlay on original works. It would seem, therefore, that the Committee has this year paid more attention to the repairs of the existing roads than to the construction of new works.

Village communications.—The construction of, and repairs to, village communications made satisfactory progress in all the sub-divisions, except the sudder sub-division of Dacca, where very little was done under this head. The Chairman's particular attention was drawn last year to this important matter, but to no effect. I have again drawn his attention to it, and trust the matter will receive due attention in future.

The large expenditure under the head of village communications, and fact of voluntary contributions having been made by the inhabitants of certain villages, are convincing proofs that this class of works, as done by Committees, is popular, and appreciated by many.

General.—In the opinion of the Chairman the expenditure during the year on the opening out of water channels in the Backergunge district was unduly small, considering the great necessity for such works in his district; but it appears to me that considerable attention was paid to this matter by the Committee, for a sum of Rs. 11,000 has been spent under this head.

It seems to me highly desirable, now that work on the Dacca and Mymensingh State Railway has been commenced, that feeder roads should be constructed, where necessary, for the purpose of opening out the traffic of the country through which the line is to pass. A proposition has been made by me that the rules made by the Government of India, prohibiting

the borrowing by committees of money for other than remunerative works, should in this instance be relaxed, and that the Mymensingh and Dacca Committees be permitted to borrow certain sums for the purpose of *at once* carrying out the work of constructing feeder roads. This subject is still under the consideration of Government.

The income derived from the road cess in the districts of the division does not suffice for the cost of carrying out, within a reasonable time, certain works which are of the greatest importance, such as—

Dacca

Dasorah to Meerpore road.
Dacca to Toke road (grading the road through the forest).
Ketrasingh to Silumpore road, &c., &c., &c.

Furreedpore.

Metalling, repairing, and bridging the Paugsha road.
Metalling the Rajbari road.
Madaripore road, &c., &c, &c.

Backergunge.

Dhamura cut.

Mymensingh.

Tanguil to Nagarpore road.

The Government have since offered to contribute a portion of the cost of such works, and estimates and plans have been submitted to Government for orders.

Planting of trees.—The amount expended on the planting of trees on the sides of the roads were sufficient for the purpose. In Backergunge the disbursement on this account was certainly small, but I concur with the Chairman, Road Cess Committee, in the opinion that the planting of trees need not be carried out on an extensive scale in his district. In Eastern Bengal, generally, the planting of trees along roads is productive of more mischief than good. No really good fruit trees can be grown, and the result is merely to keep roads perpetually damp, and to ensure a good jungle on both sides.

Steamer.—The steamer communication proposed to be opened between Furreedpore and Backergunge has had to be abandoned for the present, for reasons stated in my No. 201R, dated 15th ultimo, and annexures, to your address.

Abstract of particulars regarding meetings.—The number of meetings held by the Perozepore and Patuakhally Branch Committees in Backergunge, and by the Jamalpore Branch Committee in Mymensingh, fall short of the number required by law No explanation has been furnished as to this by the first two committees, while that given by the Chairman of Jamalpore is hardly sufficient. The attention of the Chairman of these committees has been drawn to the illegality of holding less than four meetings at least in a year.

Dacca.
District Committee.
Manickgunge Branch Committee.
Backergunge.
All the Branch Committees.
Mymensingh.
District Committee.
Attea and Kishoregunge Branch Committees.

The percentage of the average attendance of members of the District and Branch Committees noted on the margin is very small, and shows a great want of zeal on the part of the majority of the members. I have asked the Chairmen concerned to request the members to be more regular in their attendance in future.

No 529R, dated Dacca, the 16th May 1883.

From—N. S. ALEXANDER, Esq., Officiating Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department.

IN continuation of this office No. 333R, dated 26th February last, and with reference to your office No 1274R C, dated 11th ultimo, I have the honour to submit herewith the annual accounts and report of the Road Cess Fund for the district of Furreedpore, for the cess year 1881-82, with a few remarks on the same.

2. The progress made during the year has not been very satisfactory. A sum of Rs. 37,873-6-0 only has been spent on works, as compared with Rs. 63,508-10-4 in the previous year.

3. Due attention appears to have been paid by the committees to the construction of village roads, as well as to the excavation of tanks. But the expenditure on the repair of village roads falls considerably short of the allotments made in the budget. I have requested the Chairman to see that proper attention is paid to the maintenance of the existing roads, which should not be allowed to deteriorate,

4. The percentage (70 3) of average attendance of members of the Madaripore Branch Committee is satisfactory, and indicates that the members take considerable interest in the work entrusted to them. The low percentage of attendance at the Sudder and the Goalundo sub-divisions (34 64 and 43 75 respectively) is unsatisfactory. The members appear to have been remiss in their attention to the work.

5. No trees were planted on the sides of the roads during the year. It appears, however, from the report that the Committee directed their attention to the protection of those already planted in previous years. I approve of the policy adopted by the Committee In my opinion the planting of trees on roadsides is of little use in Eastern Bengal generally it rather tends to cause damage to the roads and to accumulate jungle.

6. The unusual delay in the submission of the accounts and report for the Furreedpore district is due to their non-receipt from the Chairman of the Road Cess Committee until the 25th ultimo. I have called upon the Chairman to submit an explanation of the very great delay that has been allowed to occur in their submission.

LAND SALE NOTICES

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates in the district of Dinagepore will be put up to public and unreserved sale at the Collector's office of that district on the 26th day of July 1883 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 28th day of March 1884.

If the rents are not paid in accordance with this notification, the provisions of the law will be immediately enforced in every case.

Calcutta Collectorate, No. 4, Bankshall Street, the 4th April 1883. G. M. GOODRICKE, Collector.

NOTICE.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

1. OFFERS are invited from private firms or companies desirous of taking over the steam transport service now kept up by Government on the Sone Canals.

2. Copies of the following documents relating to the service may be had on application to the Under-Secretary in this Department, Writers' Buildings, Calcutta, or to the Superintending Engineer, Sone Circle, Arrah, Shahabad :—

I.—Description of the steamers employed.

II.—General rules under which the service is now conducted, shewing also the fares charged and distances run.

III.—Detailed statement shewing the receipts and working expenses of the service during the year 1882-83.

3. The tolls leviable, under Act V (B.C.) of 1864, on boats or steamers plying in the Sone Canals are shewn in a notice published in the *Calcutta Gazette* for the 18th January 1882, Part I, page 59. They are in amount as follows :—

	Per 100 maunds of displacement. Rs. A. P.
Arrah Canal—	
Debree to Arrah railway bridge	2 3 0
Buxar Canal—	
Bedadi to railway, Buxar	2 0 0
Patna Canal—	
Baroon to railway, Khagoul	2 15 0

4. The purchase of the steamers now employed on the canals must form an integral part of any tender. The descriptions of the steamers referred to in paragraph 2 of this notice are believed to be correct, but persons proposing to tender should examine the boats for themselves, as no errors of description will be admitted as a reason for cancelling a tender.

5. Reduced rates of tolls may, for a period not exceeding one year, be stipulated for; but in that case the fixed intervals at which the steamers will run must be mentioned in the tender, and the maintenance of an effective service will be required as a condition of the concession.

6. The Government will, so long as a service is regularly carried on, cease from carrying passengers by boat or steamer, or goods not required for Government works.

7. No exclusive concession can be granted, the canals being open to all boats, whatever the motive power, on payment of the tolls prescribed by law.

8. It is proposed to make over the service, should a tender be accepted, from the 1st of October next, but a later date may be named.

9. All tenders must be addressed to the Secretary to the Government of Bengal in the Public Works Department, and must be accompanied by a receipt from the officer in charge of the Third Calcutta Division, or from some Executive Engineer for Rs. 500 earnest-money, to be forfeited if the person tendering fails to carry out the offer made. Tenders will be received up to the 1st of September next.

10. The highest or any tender will not necessarily be accepted.

J. M. HEYWOOD,

Joint-Secy. to the Govt. of Bengal,
P. W. Dept.

Commissioners for making Improvements in the Port of Calcutta.

Seebpore, the 2nd July 1883.

Notice.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

THE Eastern Main and Patna Canals, which were closed for silt clearance, as per notice published at page 195, Part II of the *Calcutta Gazette* of the 28th February 1883, have been reopened on the 1st instant.

C. W. ODLING, Under-Secretary.
Calcutta, the 9th July 1883.

Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 14th November 1883 A.D., corresponding to the 29th Kartick 1290 B.S., and continue up to the 25th December 1883. Tradesmen, dealers, and others may buy and sell there during these six weeks.

A. W. PAUL, Magistrate of Dacca.

Notice.

AN examination will be held at the Court of the Second Sudder Munsif of Sylhet, on 1st August 1883, under the new rules prescribed by the Chief Commissioner of Assam, dated the 20th December 1882, for the appointment of a sheristadar for the said court, on a salary of Rs. 40 rising Rs. 60 by biennial increments of Rs 2.

"Suitable candidates" presenting themselves for examination will be examined in the following subjects:—

1. English } Reading, writing, and speaking,
2. Bengali } including translation and composition.
3. Arithmetic.
4. Law—Civil Procedure Code, Limitation Act, Court Fees Act, General Stamp Act, Small Cause Court Act, Rent Law, Registration Act, and High Court Circulars (Civil).
5. Account keeping.

"Suitable candidates" under the said rules should apply, on or before the 15th July next, to the Second Sudder Munsif of Sylhet, forwarding certificates of character, with copies of other testimonials as required by the rules.

A similar examination is notified to be held at the Sudder Munsif's Court of Cachar on the 7th July next. Candidates presenting themselves for the said examination need not necessarily appear again at Sylhet, but the claims of those who pass creditably in the Cachar examination will be taken into consideration on their applying to the undersigned with copies of their testimonials before the fixed date.

SYAM KISHORE SEN,
Offg. Second Sudder Munsif, Sylhet.
Sylhet, the 22nd June 1883.

Notice.

THE tenants of Government estate Sahehan Bagicha are hereby informed that revised pottahs specifying the area, rent, and instalments in which it is payable will be granted to them on application, and that they will be allowed to redeem the rent on payment of 30 times the annual amount payable.

C. C. STEVENS, Collector.

24-Pergunnahs Collectorate, the 22nd June 1883.

Bishnauth Tea Company, Limited.

NOTICE is hereby given that a dividend, on account of season 1882, at the rate of 6 per cent. on the paid-up capital of the Company, has been declared payable on 5th proximo. Warrants will be issued to registered shareholders on application.

By order of the Board,

WILLIAMSON, MAGOR & Co., Secretaries.

Calcutta, the 29th June 1883. (1310—4)

Oriental Jute Manufacturing Co., Ld., in Liquidation.

NOTICE is hereby given that in pursuance of the provision of the Indian Companies Act, 1882, section 183, a general meeting of the Oriental Jute Manufacturing Company, Limited, will be held at the registered office of the Company, No. 6, Commercial Buildings, Calcutta, on Thursday, the 19th day of July 1883, at 4 o'clock in the afternoon, when the Liquidators will lay before such meeting an account shewing their acts and dealings and the manner in which the winding-up has been conducted during the preceding year.

Dated this 13th day of June 1883.

For W. A. BROWNE, Liquidator.

(1255—3) Oriental Jute Mfg. Co., Ld.

New Beerbhoom Coal Company, "Limited."

PROCEEDINGS of the Twentieth Ordinary General Meeting of the Shareholders held at the office of the Company, No. 1, Hastings Street, on Wednesday, 4th July 1883, at noon.

PRESENT:

R. A. Turnbull, Esq., Chairman.

E. N. Grace, Esq. | W. C. Morgan, Esq.
A. L. McIntosh, Esq. | S. V. Falle, Esq.
Jogendro Natha Mallik, Esq.

T. H. Cowie, Esq., Q.C.,
General C. H. Blunt, C.B.,
H. C. Erskine, Esq.,
General A. Tucker, C.B.,
Col. J. W. M. Anderson,
} By this attorney D. L. Cowie, Esq.

The advertisement calling the meeting having been read and the report of the Directors with statement of accounts for the half-year ending 30th April 1883 having been submitted and taken as read—

It was proposed by T. H. Cowie, Esq., Q.C., by his attorney D. L. Cowie, Esq.—

Seconded by W. C. Morgan, Esq.—

and carried—

That the Directors' report and accounts for the half-year ending 30th April 1883, which have been printed and circulated among the shareholders, be adopted and passed.

AN Extraordinary General Meeting of Shareholders will be held at the registered office of the Company, No. 100, Clive Street, Calcutta, on 13th July 1883, at noon, for the purpose of altering the Articles of Association.

By order,

(1281—3) GEORGE HENDERSON & Co., Secretaries.

Statutory Notice to Creditors.

IN pursuance of section 42 of Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of Sir Edward Fitzgerald Campbell, late of West Grinstead, in the county of Sussex, Baronet, who died at West Grinstead aforesaid, on the 23rd day of November 1882, should send in their claims to the undersigned on or before the 1st day of October next, after which date no claims will be admitted, and the assets of the Indian estate will be remitted to England for distribution.

W. K. EDDIS, Administrator.

Calcutta, the 7th July 1883. (1321—1)

Notification.

TO be peremptorily sold by the Registrar of the High Court in its Ordinary Original Civil Jurisdiction in his sale-room in the Court-house, on Saturday, the 28th of July next, at the hour of 12 o'clock at noon, pursuant to a decree and order of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction made in suit No. 513 of 1881 (wherein Sreemutty Kistoramoney Dossee is plaintiff and Albert Birmingham Miller, Official Assignee of Bengal and assignee of the estate and effects of Nolitmohun Doss, an insolvent, and Sreemutty Surnomoyee Dossee, widow of Rooploll Mullick, deceased, are defendants), and dated respectively the 12th day of May 1882 and 26th day of January 1883, the following properties:—

Lot 3.—All that lower-roomed messuage, tenement, or dwelling-house, together with the piece or parcel of land and ground belonging thereto, and on part whereof the same is erected and built, containing according to the pottah for the same, dated the 25th July 1854, granted to Radhanauth Ghose by the Collector of Calcutta, 10 cottahs 4 chittacks and 28 square feet situate, lying, and being in Gopeemohun Bose's Lane, in the said town of Calcutta, and on the south side of the said street, and bearing therein the assessment Nos. 14 and 13, formerly numbered 7 and 7-1, and bounded on the south and east by the tenanted land belonging to Bissonauth Muttyloll; on the west by the tenanted land belonging to Khettermohun Doss; and on the north by the said Gopeemohun Bose's Lane.

Lot 4.—All that lower-roomed messuage, tenement, or dwelling-house and a piece or parcel of land or garden ground measuring 6 bighas and 9 cottahs or thereabouts, situate, lying, and being at Soorah in the 24-Pergunnahs, and which piece of land is butted and bounded on the north by the Balliaghattah Road; on the south by Prosono Coomar Tagore's garden, formerly Mr. Lawrence's garden; on the east by Mr. Henry Pawney's garden; and on the west by a house and premises the property of Dookheenee Abdaree, being in the registration district of 24-Pergunnahs and sub-district of Sealdah.

Lot 5.—All that piece or parcel of land containing by estimation 20 bighas or thereabouts situate at Sulkeah, pergunnah Borro, in the registration district and sub-district of Howrah, distinguished as Mokamhattee; and bounded on the north by land belonging to Lallooah; on the south by a public lane; on the east by a dwelling-house and land lately the property of Samcankhan and Gopee Mullick; and on the west by land belonging to Doorga Churn Naug.

The abstracts of title and conditions of sale may be seen at the Registrar's Office in the High Court and also at the office of Messrs. Watkins and Watkins, plaintiff's attorneys, at No. 2, Old Post Office Street, Calcutta, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Watkins and Watkins, *Plaintiff's Attorneys.*

Calcutta, High Court, Original Side, the 22nd June 1883. (1322—1)

Lost Interest Warrant.

NO. 72269, dated 24th February 1883, for Rs. 26-14-2, issued in the name of Sasi Bhushan Mukerjee, as broken and anticipation interest from 30th June 1882 to 31st October 1882 on Note No. 041827, 4 per cent. loan of 1854-55, for Rs. 2,000. (1288—3)

Lost or Stolen in Transit by Post.

THE upper halves of the Government Promissory Notes Nos. 002205 and 016139 of the 4 per cent. of 1832-33—1835-36, for Rs. 500 and Rs. 1,000, respectively, originally standing in the name of the Opium Agent, Benares. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

H. RIVETT-CARNAC, Opium Agent, Benares.
Ghasipur, North-Western Provinces. (1280—3)

"Lost" on 28th June 1883.

THE Government Promissory Note No 163257 of the 4 per cent. of 1866 for Rs. 500, originally standing in the name of Kanye Loll Sein, and lastly blank endorsed by Prosad Das Boral on 2nd June 1883 in favour of the undersigned proprietor by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietor.

BUNKU LAL DHUR.
8, Roop Chand Roy's Street, Calcutta. (1316—3)

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

Calcutta, the 26th August 1875.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883:—

No. 14 of 1883.

A Bill to amend the Cattle-trespass Act, 1871.

WHEREAS it is expedient to amend the Cattle-trespass Act, 1871; It is hereby enacted as follows:—

Power for Local Government to transfer functions of District Magistrate and Local Government to local authority and direct that surplus receipts be credited to local fund.

1. The Local Government may, from time to time, by order notified in the local official Gazette—

(*a*) transfer to any local authority, within any part of the territories under its administration in which the Cattle-trespass Act, 1871, is in operation, all or any of the functions of the Local Government and the Magistrate of the district under sections four, five, six, seven, twelve, fourteen and seventeen, and clause (*a*) of section eighteen, of that Act, within the local area subject to the jurisdiction of the local authority; or I of 1871.

(*b*) direct that the surplus accruing in any district under section eighteen of that Act shall be placed to the credit of such local fund or funds as may be formed for any local area or local areas comprised in that district,

and may from time to time, in like manner, cancel any order made under this section.

Definitions.

2. In this Act—

"Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area; and

"local fund" means any fund under the control or management of a local authority.

STATEMENT OF OBJECTS AND REASONS.

BY the Central Provinces Local Self-government Act, 1883, (I of 1883), certain functions which under the Cattle-trespass Act (I of 1871), are to be performed by the Local Government or the Magistrate of the District are transferred to the local authorities constituted under the first-mentioned Act, and the surplus proceeds arising under section 18 of the Cattle-trespass Act are directed to be carried to the local funds which are placed under the control of the local authorities. Provisions to the same effect are embodied in the Bill now pending in the Legislative Council of the Lieutenant-Governor of Bengal for the amendment of the system of Local Self-government in that province and in the Bills now pending in the Legislative Council of the Governor General for the amendment of the system of Local Self-government in the North-West Provinces and in the Panjáb. But doubts have been entertained whether, inasmuch as these provisions amount to an amendment of the Cattle-trespass Act, which is an Act of the Governor General in Council, their enactment would not be beyond the powers of a local legislature such as the Legislative Council of the Lieutenant-Governor of Bengal. It has therefore been thought desirable to amend the Act in such a way as to enable Local Governments to make the requisite changes by executive order

2. The following extracts from the Cattle-trespass Act will explain the nature of the powers which it is proposed by the Bill to confer on Local Governments:—

"4. Pounds shall be established at such places as the Magistrate of the District, subject to the general control of the Local Government, from time to time directs.

"The village by which every pound is to be used shall be determined by the Magistrate of the District.

"5. The pounds shall be under the control of the Magistrate of the District; and he shall fix, and may from time to time alter, the rates of charge for feeding and watering impounded cattle.

"6. The Magistrate of the District shall also appoint for each pound a pound-keeper:

"Provided that, in the Presidency of Fort St. George, the heads of villages, and, in the Presidency of Bombay, the police pátils, or (where there are no police pátils) the heads of villages, shall be *ex-officio* the keepers of village-pounds.

"Every pound-keeper appointed by the Magistrate of the District may be suspended or removed by such Magistrate.

* * * * * * * *

"7. Every pound-keeper shall keep such registers and furnish such returns as the Local Government from time to time directs.

"12. For every head of cattle impounded as aforesaid, the pound-keeper shall levy a fine according to the following scale:—

* * * * * * * *

"All fines so levied shall be sent to the Magistrate of the District through such officer as the Local Government from time to time directs.

* * * * * * * *

"14. If the cattle be not claimed within seven days from the date of their being impounded, the pound-keeper shall report the fact to the officer in charge of the nearest police-station, or to such other officer as the Magistrate of the District appoints in this behalf.

* * * * * * * *

"If the cattle be not claimed within seven days from the date of the notice, they shall be sold by public auction by the said officer, or an officer of his establishment deputed for that purpose, at such place and time and subject to such conditions as the Magistrate of the District by general or special order from time to time directs:

"Provided that if any such cattle are, in the opinion of the Magistrate of the District, not likely to fetch a fair price if sold as aforesaid, they may be disposed of in such manner as he thinks fit.

"17. The officer by whom the sale was made shall send to the Magistrate of the District the fines so deducted.

"The charges for feeding and watering deducted under section sixteen shall be paid over to the pound-keeper, who shall also retain and appropriate all sums received by him on account of such charges under section thirteen.

"The surplus unclaimed proceeds of the sale of cattle shall be sent to the Magistrate of the District, who shall hold them in deposit for three months, and, if no claim thereto be preferred and established within that period, shall, at its expiry, dispose of them as hereinafter provided.

"18. Out of the sums received on account of fines and the unclaimed proceeds of the sale of cattle, shall be paid—

"(*a*) the salaries allowed to pound-keepers under the orders of the Local Government;

"(*b*) the expenses incurred for the construction and maintenance of pounds, or for any other purpose connected with the execution of this Act;

"and the surplus (if any) shall be applied, under orders of the Local Government, to the construction and repair of roads and bridges and to other purposes of public utility."

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 15 OF 1883.

A Bill to amend the Native Passenger Ships Act, 1876.

VIII of 1876. WHEREAS it is expedient to amend the Native Passenger Ships Act, 1876, with a view to provide for the better regulation of the passenger traffic between British India and ports in the Red Sea; It is hereby enacted as follows :—

Preamble.

Short title. 1. This Act may be called the Native Passenger Ships Act, 1883;

Commencement. and it shall come into force on such day as the Governor General in Council directs by notification in the *Gazette of India*.

XII of 1876. Addition to section 11 of the Native Passenger Ships Act, 1876. 2. After clause (*e*) of section 11 of the Native Passenger Ships Act, 1876, the following clause shall be added :—

"(*ee*) in the case of any ship sailing to any port in the Red Sea, that she is propelled principally by steam, and, if she is carrying more than one hundred passengers being Natives of Asia or Africa, that she has on board a medical officer licensed in accordance with rules to be made under this Act."

Substitution of new section for section 26 of the same Act 3. For section twenty-six of the same Act, the following section shall be substituted :—

Bond where ship clears for port in Red Sea "26. In the case of every ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port clearance for any such ship shall not grant the clearance unless and until the owner, agent or master of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

"(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

"(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor General in Council may, from time to time, make under section forty-six."

Amendment of section 27 of same Act. 4. In section twenty-seven of the same Act, for the word "thirty" the word "sixty" shall be substituted.

Addition to section 28 of the same Act. 5. To section twenty-eight of the same Act the following words shall be added :—"and the authority empowered to grant the same may refuse to grant a bill of health in the case of any ship on board of which the requirements of the rules made under section 46 are not complied with."

Addition of new sections after section 28 of same Act. 6. After section twenty-eight of the same Act, the following sections shall be added :—

Certain ships to carry medical officer. "28A. Every ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being Natives of Asia or Africa shall have on board a medical officer licensed in accordance with rules to be made under this Act.

Certain ships to be propelled by steam. "28B. Every ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

Power for Governor General in Council to issue notification requiring medical inspection in case of certain passengers "28C. *(1)* The Governor General in Council may, from time to time, by notification in the *Gazette of India*, direct that no passenger of such class as may be specified in the notification shall be received

on board any ship sailing from any port in British India to any port in the Red Sea unless and until he has obtained a certificate from a medical officer to be appointed by the Local Government in this behalf, to the effect that he has been examined by that officer and is not suffering from any dangerously infectious or contagious disease, and is in a fit state of health to undertake the voyage to the port in the Red Sea for which he is bound.

(2) The Governor General in Council may cancel or alter, either in whole or in part, any notification which may at any time be issued under this section.

Addition of new sections after section 38 of same Act.

7. After section thirty-eight of the same Act, the following sections shall be added.—

"38A. If the master of any such ship as is referred to in section twenty-seven, or any medical officer in charge of any such ship, wilfully breaks, or omits or neglects to obey, any rule with regard to those ships made under section forty-six, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

"38B. If any ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28A, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master of certain ships sailing without medical officer.

"38C. The owner and master of any ship sailing from or to any port in British India to or from any port in the Red Sea and not principally propelled by steam shall be punished with fine which may extend to five hundred rupees, or with imprisonment which may extend to three months, or with both.

Penalty on owner and master of certain ships not propelled by steam.

"38D. If the master of any ship, while a notification under section 28C is in force, knowingly receives on board his ship any person in contravention of that notification, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to five hundred rupees for each person so received, or with both."

Penalty on master receiving passenger in contravention of a notification under section 28C.

8. After clause (*b*) of section forty-six of the same Act, the following clause shall be added:—

Additions to section 46 of same Act.

"(*bb*) the licensing and appointment of medical officers in cases where they are required, under this Act, to be carried";

and after clause (*e*) of the same section the following clauses shall be added:—

"(*ee*) the functions of the master, medical officer (if any) and other officers of the ship during the voyage;

"(*eee*) the access of intermediate or between decks passengers to the upper deck.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Native Passenger Ships Act, VIII of 1876, with a view to provide for the better regulation of the pilgrim traffic between British India and Arabia. This traffic has formed the subject of correspondence between the Secretary of State, the Government of India and the various local maritime Governments in India. A careful consideration has brought the Government to the conclusion that the importance of the pilgrim traffic makes its detailed regulation imperative, and that, to secure uniformity of procedure, and thereby avoid the friction which must inevitably follow divergence between rules separately framed by different States, it is desirable that, in all the more important points, a common understanding should be come to among the Governments who are chiefly interested in the proper management of that traffic. The establishment of a practical coincidence between the general provisions of the local Turkish regulations and those of the law of India—the country which at present furnishes the largest number of pilgrims to the Hedjaz—can only be effected by diplomatic correspondence between the British and Turkish Governments. But, since experience has shown that the provisions of the Indian law as it at present stands are insufficient to meet the peculiar exigencies of this traffic, and that in some respects they require revision, it seems desirable, before attempting to bring about an assimilation of the British and Turkish laws, to make such amendments of our own law as are necessary to put it in a satisfactory state.

2. The Indian law on this subject is contained partly in the provisions of the Native Passenger Ships Act, 1876, and partly in those of the rules framed under that Act. With a view to the amendment of the latter, the Government of India has already submitted to the Secretary of State a copy of a draft set of rules, which have been framed on the model of those regulating the transport of emigrants from India to the English and French colonies, and which it proposes to issue under the Native Passenger Ships Act, 1876, as rules regulating the conveyance of Native passengers between the ports of India and of the Hedjaz. With a view to the amendment of the former, the present Bill has been prepared.

3. Section 2 adds to section 11 of the Native Passenger Ships Act, 1876, a provision requiring the certificate given under that section to contain in the case of a ship sailing to the Red Sea a declaration that she is propelled principally by steam, and when the ship carries more than 100 Native passengers a declaration that she has on board a licensed medical officer. The effect of this will be that such ship will not be able to obtain a port-clearance (see section 8) unless they comply with the requirements.

4. Section 3 amends section 26 of the Act, by requiring the bond given under that section to be conditioned for the observance of the provisions of the Act and of such rules with regard to Native passenger ships sailing to the Red Sea as the Governor General in Council may make under section 46 of the Act. The object of this amendment is to enable the Government of India to enforce the observance of its rules beyond the limits of its jurisdiction.

5. The substitution (by section 4 of the Bill) of 60 for 30 as the number of passengers which must be on board a ship in order that section 27 of the Act may apply follows as a necessary consequence of the provision that all ships are to be propelled by steam (see section 2 of the Act).

6. Section 5 empowers the authorities at Aden to refuse a bill of health to a ship if the requirements of the rules are not complied with.

7. The sections (28A, 28B and 28C) which section 6 adds to the Act require every ship sailing to or from the Red Sea and carrying more than 100 Native passengers to have a licensed medical officer, and every Native passenger ship sailing to or from the Red Sea to be propelled principally by steam, and empower the Governor General in Council to issue a notification directing that no passenger of such description as may be specified in the notification shall be received on board any such ship until he has obtained a certificate from a prescribed medical officer certifying that he is not suffering from any infectious or contagious disease, and is in a fit state of health to proceed to the port to which he intends to proceed.

With regard to section 28A, the Government has no doubt that the presence of a medical officer on board will serve to diminish many of the hardships from which pilgrims now suffer, especially if he is by rule made responsible for seeing that the sanitary and dietary arrangements on board are properly managed, and if he is liable to be disqualified for any breach of duty on his own part. It may not always be possible to secure Muhammadan medical men for this service, but endeavours will be made to supply officers of that persuasion in preference to others. Section 28B speaks for itself. Section 28C may have to be enforced, at the instance of the European powers, as a precaution against the possible introduction of epidemic disease by Indian pilgrims into Arabia.

8. Section 7 imposes penalties for breaches of the requirements of the Bill.

9. Lastly, by section 8, certain words are added to section 46 of the Act to enable the Governor General in Council to make rules to regulate the licensing of medical officers and the functions of those officers and of the officers of the ship generally, and ensure to the passengers free access to the upper deck.

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 17 OF 1883.

A Bill for the protection of Inventions exhibited in the Exhibitions of India.

WHEREAS it is expedient that such protection as is hereinafter mentioned should be afforded to the inventors of new manufactures who are desirous of exhibiting them at Exhibitions to be held in India; It is hereby enacted as follows :—

Preamble.

Short title.

1. This Act may be called the Protection of Inventions Act, 1883;

Commencement.

and it shall come into force at once.

Act to be read with Act XV of 1859.

2. It shall be read with and taken as part of Act XV of 1859 (*for granting exclusive privileges to inventors*).

Inventions exhibited when to be deemed new though publicly used or made publicly known.

[cf. 33 & 34 Vic., c. 27, s. 2.]

3. If, within six months from the time of the opening of an International Exhibition, a person, being the inventor and exhibitor of any manufacture exhibited at that Exhibition, petitions the Governor General in Council under Act XV of 1859, for leave to file a specification of his invention, the circumstance that the invention has at any time after the opening of the Exhibition been publicly used or made publicly known shall not prevent the invention being deemed to have been at the time of presenting the petition a new invention for the purposes of the said Act.

Meaning of term "International Exhibition."

[cf. 33 & 34 Vic., c. 27, s. 3.]

4. In this Act, "International Exhibition" means the International Exhibition to be held in the year one thousand eight hundred and eighty-four at Calcutta, and any Exhibition to be held in India which the Governor General in Council may, upon the application of any persons desirous of holding the Exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill has been prepared in view of the forthcoming International Exhibition which it is proposed to hold in Calcutta next cold weather. It has been brought to the notice of Government that the want of some such protection as the Bill affords might probably deter inventors of unpatented inventions from sending them, and thus prevent the exhibition of some interesting exhibits.

2. It has been found necessary in England, and also, it is believed, in the Australian colonies, to legislate on this subject.

The Bill is drawn on the model of the Protection of Inventions Act, 1870 (33 & 34 Vic., cap. 27), but necessarily differs from it in details, inasmuch as the system of protection to inventions in force in this country differs from that in force in England in many respects, and, among others, in permitting an inventor to use his invention, or allow others to use it, publicly for a year without losing his right to protection. The effect of the Bill, if it becomes law, may be shortly stated to be that, if an inventor exhibiting his invention applies within six months from the opening of the exhibition for leave to file a specification, the circumstance of the invention having been publicly used or publicly made known after the opening of the exhibition will not affect his rights.

3. To prevent the necessity for similar legislation in the case of other exhibitions which may hereafter be held, section 4 of the Bill defines the term "International Exhibition" as meaning, not only the contemplated "International Exhibition" to be held at Calcutta, but any exhibition to be held in India which the Governor General in Council may, upon the application of any persons desirous of holding the exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

APPENDIX TO

The Calcutta Gazette.

,, 22nd	263	16mo. ..	1st ...	500	ditto ...	0 10 0	Nabakánta Chattopádhyáya Bikrampur.	The compiler says that he has in this volume collected numerous Brahmo songs composed by different members of the different sections of the Brahmo Samaj after the death of Raja Ram Mohan Roy. Most of these songs hitherto remained scattered in such a way as to make their compilation needful and desirable on their own account and in the public interest.	1822
Feb., 20th	12	12mo. dy.	1st ..	1,000	ditto ..	0 1 0	Prafulla Chandra Gánguli, Kumárkháli.	Of the nature of *Bául* songs ..	1823
Jan., 24th	123	8vo. ...	1st ..	500	ditto ...	0 12 0	Brahmo Samaj Mission Office, 6, College Square, Calcutta.	Contains a narrative of all the interesting incidents in the life of Jesus Christ and of all his actions as a religious teacher, and an exposition of the moral and religious principles which were preached by him. The author writes from the standpoint of the New Dispensation of the Church of Babu Keshab Chandra Sen, and his interpretation of the mission and acts of Jesus Christ therefore differs from that which is ordinarily given by Christian writers.	1824
1882									
Nov, 15th	204	8vo. ..	1st ...	1,040	ditto ..	1 8 0	Gopál Chandra Mukharji, 40, Sankar Háldar's Lane, Calcutta.	This is a memoir of the late Prince Consort, compiled principally from Mr. Theodore Martin's English work The life of the Prince Consort is considered by the author to have been one of remarkable practical benevolence and social usefulness, and as he occupied a very proud position in society, his gentle and beneficent career is related in the hope that it will be studied with advantage by both men and women. The author has not described the political aspect of the Prince's career	1825
Dec, 30th	38	8vo. ..	1st ..	500	ditto ...	0 4 0	Girish Chandra Sen, 6, College Square, Calcutta.	This is the first of a projected series of memoirs of great religious leaders The volume under notice contains a memoir of Abraham based on some Persian works. The publication of these memoirs is owing to and has for its object the development of Babu Keshab Chandra Sen's new theory of religious dispensation.	1826
,, 3rd	48	12mo. ..	2nd ...	1,000	ditto	0 8 0	Bihárilál Dhar and Brother, Calcutta.	A well-known story from the Mahabharat related in the form of dialogue for all-educated readers. The dialogues are interspersed with songs.	1827
,, 15th	44	12mo. ...	2nd ...	1,500	ditto	0 6 0	Umesh Chandra Bhattácháryya, 115, Chitpur Road, Calcutta.	A work of the same nature as the last mentioned one.	1828

1882.	Pages.					Rs A. P.			
Dec., 21st	92	8vo ...	1st ...	300	Printed	0 9 0	Jogendra Náth Sányál, Calcutta.	The story of the exile of Ram on the eve of his coronation is related in this work in a melodramatic form The author explains in an Assamese preface that this is one of a number of dramas already written by him with the view of creating a taste for the Bengali language and literature among the people of Assam. He appears to have drawn largely from Valmiki in the composition of this work. The story of Sitá's exile is also related by the author.	1830
1883.									
Jan., 18th	128	12mo ..	3rd ...	1,000	ditto ...	1 0 0	Manomohan Basu, 202, Cornwallis Street, Calcutta.	The well-known pathetic story of King Harish Chandra is related in this work in a dramatic form.	1831
1882									
Dec., 5th	38	16mo ...	1st ...	250	ditto ...	0 4 0	Rabindra Náth Tagore, 6, Dwáraká Náth Tagore's Lane, Calcutta.	This is an opera in which is described the pathetic story of the slaying of the blind hermit's son by King Dasaratha. The author has not strictly followed Valmiki and has also introduced characters which are not to be found in Valmiki's poem	1832
Nov., 20th	98	12mo ..	1st ..	500	ditto ...	0 8 0	Harimohan Mukharji of Ráhutá	The hero, Bijaya Sinha, a friend of the agricultural class, is obliged to take refuge in a forest with his beloved wife on practising Tantric jog and offers his services to the Viceroy of India who is ineffectually struggling against a Russian Queen of England, and is made something like a semi-independent king of Bengal. Absence of widow-marriage, degraded and lifeless condition of Bengal.	1833
Dec., 2nd	24	12mo	1st ...	1,000	ditto ...	0 2 0	Mathuránáth Chatterji, 164, Mániktalá Street, Calcutta.	Describes some of Krishná's sports with the milkmaids of Brindában Written specially for the Calcutta stage.	1834
Nov., 30th	23	12mo ...	1st ...	1,000	ditto .	.....	.... .	Of the same nature as the last mentioned work, the subject-matter of the two works being almost identical.	1835
1883.									
Jan, 25th	72	8vo ..	5th ...	1,000	ditto ...	1 0 0	Chárú Chandra Mitra and others, Calcutta.	This drama contains a picture of the kind of life which is usually led by those young married Bengalis who reside at the houses of their fathers-in-law.	1836
Feb, 15th	20	8vo ...	1st ...	200	ditto ...	0 4 0	.....	Describes the story of a princess who has been unjustly exiled by her husband and with whom she is reunited in an unexpected manner.	1837
Jan., 1st	67	12mo ...	1st ..	1,000	ditto ..	0 8 0	Prasanna Kumár Bhattácháryya, Káhetpárá, Zillah Dacca.	Written with the view of describing some of the moral evils which spring from Kulin polygamy. The plot, however, includes much irrelevant matter.	1838
1882.									
Dec., 16th	49	8vo rl. ..	1st .	250	ditto ..	Nil	His Highness the Maharajah of Burdwan.	Describes the story of the self-immolation of Satí at the sacrifice performed by her father Daksha It is thought that the representation of that story on the stage would produce a healthy effect on society by offering a bright example of conjugal love and devotion on the part of women.	1839

1883. Jan., 24th	29	12mo dy.	1st ...	500	ditto ...	0 2 6	Lálchánd Náth, 20, Chakraber, Bhowanipore.	In this small volume are collected 114 prescriptions for the treatment of several diseases. These prescriptions are not taken from any pharmacopœia, Hindu or European, but are mostly such as have been dictated by common sense, and found efficacious by trial. They are often of an empirical nature, and as the knowledge of many of them is possessed only by non-professional men, who, from pecuniary or other motives, manifest great unwillingness to communicate it to others, compilations of this kind are believed to be particularly useful and valuable.	1907

1882.	Pages.					Rs. A. P.			
Dec., 15th	108	12mo ...	1st ...	500	Printed	1 0 0	Kedáreswar Sányál, Calcutta.	This is a collection of poems, some of which are poems of the affections. According to the author love pervades all nature and other. Some of the pieces possess a didactic import and in some others great grief is expressed for the present author during a Himalayan residence accounts for the name of the book.	1929
Nov., 20th	35	12mo ...	1st ...	250	ditto ...	0 3 0	Nimáyi Charan Gánguli, 12, Pataldánga Street, Calcutta.	This is a translation in Bengali verse of the first book of Young's *Night Thoughts*.	1930
„ 15th	16	16mo ...	1st ...	1,000	ditto ...	0 1 0	Bihárilál Mitra, 13, Madhu Ráyá's Lane, Calcutta.	A poem of a somewhat sentimental nature.	1931
1882. Dec., 3rd	64	8vo ...	1st ...	500	ditto ...	0 3 0	Abdul Aziz, Nasirábád.	Small poems on a variety of subjects. Some of the poems are of a lyrical cast and contain expressions of grief for the present degraded condition of India. The author, though a Musulman, writes Bengali like an educated Hindu.	1932
Nov., 4th	12	12mo ...	1st ...	400	ditto ...	0 1 0	Atul Chandra Chatterji.	This pamphlet seems directed chiefly against the style of criticism which is generally adopted in regard to Bengali poetical publications in the Bengali periodical entitled the *Bhárati*. The critical style of the Bengali weekly newspaper entitled the *Bángabasi* is also condemned.	1933
„ 30th	12	12mo ...	1st ...	1,000	ditto ...	0 1 0	Hari Mohan Mukharji, Ráhutá.	An indecent old-fashioned story related in an indecent style with the view of shewing that woman excels man in cunning and ingenuity.	1934
1883. Jan., 9th	107	12mo ...	1st ...	300	ditto ...	0 8 0	Jnánendra Chandra Ghosh, Calcutta.	Poems on a variety of subjects. A tone of piety and moral purity pervades most of the pieces. The author's sympathies are broad, and humility and tenderness seem to be the principal characteristics of his thought.	1935
1882. Nov., 27th	70	12mo ...	1st ...	1,000	ditto ...	0 10 0	Nrisinha Kumár Ghosh, Calcutta.	The *Tarjá* is a species of literary warfare prevailing in this country. It consists of two hostile parties proposing questions to each other for solution. The questions generally relate to minute and recondite points in Hindu mythology, and have to be answered as soon as they are put, and without any previous knowledge of what they would be. The party which fails to return quick and correct replies is considered *hors de combat*, and has to retire in disgrace under a shower of very low abuse from the victorious party. The replies are given in verse, interspersed with songs. The *Tarjá*, at one time a very popular amusement in this country, is now falling out of fashion. The word itself seems derived from the Sanskrit root तर्ज, *tarja*, which means to rebuke or threaten.	1936

Jan., 10th	48	12mo ...	...	3,000	Printed	0 3 0	.....	This is also an old and authoritative Baisnab work. It dwells on the nothingness and transitoriness of earthly life, the necessity of making human life real by devoting exclusive attention to spiritual concerns, the pleasure and peace of mind and moral courage which may be secured by faith in Krishna, &c.	1983
1882.									
Nov., 28th	20	12mo ...	2nd ...	3,000	ditto ...	0 3 0	Umesh Chandra Bhattáchárya, 115, Chitpur Road, Calcutta.	Contains a popular metrical account of the power and influence of the planet Saturn—according to Hindu astrologers, a very malignant star—over the fortunes of men It is commonly believed in this country that the angry star can be propitiated by reciting such accounts of his prowess as are given in this book.	1984
„ 22nd	132	12mo ...	1st ...	1,000	ditto ...	0 9 0	.....	Contains the ordinary accounts of Krishna and Rádhá.	1985
Dec., 11th	135	12mo ...	1st ...	2,000	ditto ...	0 7 0	.....	This work has been noticed at length in the catalogue for the fourth quarter of 1879 (*see* non-educational Bengali book. No. 222).	1986
1883.									
Jan., 1st	28	8vo ...	2nd ...	500	ditto ...	0 4 0	Girish Chandra Sen, 72, Upper Circular Road, Calcutta.	.....	1987
1882.									
Nov., 29th	32	8vo ...	1st ...	1,000	ditto ...	0 4 0	Grish Chandra Sen, 6, College Square, Calcutta.	.....	1988
1883.									
Jan., 1st	32	8vo ...	1st ...	1,000	ditto ...	0 4 0	ditto ...	.....	1989
„ 8th	10	8vo ...	1st ...	500	ditto ...	0 0 3	.....	This is the first of a series of Anti-Christian tracts. The author argues that that book cannot be the word of God which, like the Bible, is full of obscene and self-contradictory passages. The book, too, in which Satan appears triumphant over God, should be regarded as the word of Satan and not of God.	1990
Feb., 5th	16	8vo ...	1st ...	500	ditto ...	0 0 6	.....	This is the second tract of the series. It is stated that in this tract is given a translation and adaptation of Mr. John E. Remsburg's "Decline of Faith," and most intellectual men of Europe and America do not believe in Christianity and that conversions to Christianity panied with a real knowledge and understanding of the new faith, do not imply the progress of the Christian religion.	1991
Jan., 5th	183	12mo ...	1st ...	1,000	ditto ...	0 4 0	.....	This is a translation of Dr. Jardine's book "What to Believe."	1992
„ 4th	28	32mo ...	2nd ...	3,000	ditto ...	0 0 3	Calcutta Tract and Book Society, 23, Chauringhi Road, Calcutta.	.....	1993
„ 12th	52	16mo ...	1st ...	5,000	ditto ...	.....	Calcutta Auxiliary Bible Society, 23, Chauringhi Road, Calcutta.	.....	1994
1882.									
Dec., 11th	168	12mo ...	...	3,000	ditto ...	.....	ditto ...	.....	1995
1883.									
Jan., 13th	96	8vo ...	1st ...	1,000	ditto ...	0 4 0	Rev. J. W. Thomas, Baptist Mission Press, Calcutta.	An annotated version ...	1996

The nature of this publication is thus explained by the author—"I have endeavoured in the following pages to write a succinct history of the taluqdari settlement in Oudh. My principal object has been to narrate the history in the very words of the great statesmen and administrators who have been the authors of the settlement. My materials have been principally derived from Parliamentary Blue Books, official reports and returns, and other State papers. I have not hesitated to use the exact language of the documents, in my earnest wish to give a clear and authoritative exposition of the fundamental principles upon which the taluqdari system is based."	307
„ 28th	16	4to ...	1st ..	500	ditto ...	...	Hon'ble Sir Richard Garth, Kt., Q.C., Calcutta.	Too well-known to require notice	308

,, 13th	13	8vo dy.	1st ...	300	ditto ...	0 2 0	ditto ...	Contains the substance of a lecture delivered at the Bethune Society by Sir J. B. Phear, when a Judge of the Calcutta High Court. A theoretical explanation is given of the rise of the Indian village system and the different Indian castes, and the growth and development of the idea of property in land connected with that system is contrasted with the growth and development of the same idea in Europe.	315

Jan., 25th	250	8vo ...	1st ...	1,000	ditto ...	2 0 0	Bámácharan Gupta, 35, Meer Jaffier's Lane, Calcutta.	This directory relates to Bengal, the N.-W. Provinces, the Panjab, Oudh, Assam, British Burmah, &c., and contains, "among other useful and general information, lists of merchants, agents and traders, members of the covenanted and uncovenanted services, alphabetical lists of European and Native residents of Calcutta and the mofussil." This is perhaps the first directory published in English by a native gentleman.	342
Feb., 19th	43	8vo ...	1st ...	1,600	ditto ...	1 0 0	Calcutta Central Press Co., Ld.	The author says that his object in writing this pamphlet is "to shew the dominant position India occupies as the source of supply of wheat to Europe; the ease with which the greater part of the English grain trade could be diverted from America to India; and the advantages, both to the English manufacturer and to the Indian ryot, that would result from India becoming the sole source of supply of wheat to the United Kingdom."	343
1882.									
Nov., 30th	186	8vo ...	1st ...	2,000	ditto ...	3 0 0	Balarám Mallik, Alipore.	The object of this work, according to the author, "is to put before Englishmen a sketch of what Hindu life really is," and also to persuade his countrymen "to undertake the task of reforming their family system."	344

BOOKS.									
1883.	Pages.					Rs. A. P.			
Jan., 22nd	20	8vo ...	1st ...	200	Litho-graphed	*Nil.*	Banayárilál, Ratanpur, Chuprah.	Contains an account of the proceedings of a meeting of a Society called the Káyastha Dharma Sabhá, established at Chuprah for the benefit of the Káyastha community of Behar. The erection of a temple for the worship of Chitragupta has been at present decided on as one means of benefiting and stimulating the progress of that community.	74
Mar., 12th	28	8vo dy. rl.	1st ...	500	ditto ...	0 4 0	Maulvi Mohammad Abdulla, Burdwan.	It is the object of the writer to show that, according to the principles of the Mahomedan religion, it is wrong not to marry widows or encourage widow-marriage. Much stress is also laid on the fact that Hindu opinion is now ranging itself on the side of widow-marriage.	75
Jan., 8th	40	8vo ...	2nd ..	2,000	ditto ...	0 4 0	Tazuddin Mohammad, Calcutta.	A fairy at the Court of Indra fell in love with a young man of a princely rank, whereat the god grew so incensed that he caused the latter to be imprisoned. Thereupon the fairy went about roaming as a *Yogini* or female religious devotee, and in that character pleased Indra with her songs. At her request, the delighted god released her lover, after which she revealed herself to Indra.	76
Feb., 21st	12	.....	1st ...	1,000	ditto ...	0 1 6	Juhur Ali, Calcutta.	With reference to the question much discussed among Musulmans, whether or no the followers of Mohammad ought to show reverence for his memory by standing up when he is the subject of a serious talk among them, the author decides that they ought to stand up.	77
„ 15th	328	.....	1st ...	250	ditto ...	1 12 0	Mohammad Hashim, Arrah.	A work of religious interest for Musulmans generally, and especially for the Sunni sect.	78
BOOKS.									
1883.									
Feb., 15th	69	12mo dy.	1st ...	2,000	Printed	0 4 0	.....	An elementary treatise on practical agriculture "intended specially for village schools and pathsalas." The subjects treated of are agricultural implements, soils, manures, crops, rotation of crops, and agricultural cattle. The author has obtained a prize of Rs. 100 offered by the Commissioner of Orissa for the best treatise on the subject of this work.	133
Jan., 1st	46	12mo ...	1st ...	.....	ditto ...	0 6 0	.....	This is an elementary history of Orissa from the time of the Jajáti-kesari Kings to the present. The principal events in the history of that country are described in easy language, and the description of each period and dynasty includes an account of the condition of the people, the state of commerce, arts, and literature, &c. A map of Orissa, and pictures of the temples at Puri and Bhubaneswar, are given. To each chapter is appended a set of questions for the pupil's exercise.	134

duty of the Brahmo Samaj to correct those who are going astray. But the Brahmo Samaj does nothing except sermons are for those who are virtuous or already reformed. The vicious must be caught by other means than

1882. Dec., 25th	24	8vo ..	1st ...	666	ditto ..	0 12 0	Bidhubhushan Mitra, 66, Patuátolá Lane, Calcutta.	One writer praises the Durga Puja festival on account of its humanising influence, and says that practically there is not	778

much difference between idolatry and mental worship, inasmuch as both imply an ascription of acts and qualities to the deity, with only a difference in the manner of ascribing them. The ignorant and the uncultured are incapable of worshipping mentally, and idolatry is therefore better for them. The idolatrous Hindu peasant is a far more estimable character than the Christian English sailor.

1883. Feb., 24th	32*	8vo ...	1st ...	666	ditto ...	0 12 0	ditto ...	The writer of one of the papers endeavours to shew that the most ordinary men among Hindus possess a much higher and	779

more profound and beautiful conception of God than the most cultured Europeans. In support of his view, the writer quotes the well-known song composed by an ordinary Baisnab,—"Bhebo mari ki sambandha tomár Sane, &c."

DRAINAGE OF THE KRISHNAGHUR MUNICIPALITY.

No. 721T—M, dated Darjeeling, the 29th June 1883.

From—COLMAN MACAULAY, Esq., Secretary to the Government of Bengal, Municipal Department,

To—The Commissioner of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. 29MM, dated the 14th ultimo, submitting a copy of a letter from the Chairman of the Krishnaghur Municipality, in which he reports that local subscriptions have been promised to an amount of Rs. 15,000 only towards the cost of the scheme for the improvement of the drainage of the municipality by excavating the bed of the Unjona khal. To meet the total cost of carrying out the project, which has been estimated at Rs. 1,15,000, the Municipal Commissioners request that a grant-in-aid of Rs. 50 000 be sanctioned from the Provincial Revenues, and that the balance of Rs. 50,000 be advanced to them as a loan to be repaid in 15 years. You are of opinion that the amount of local subscription promised is not creditable to the public spirit of the inhabitants, and you consider that such an appeal to the liberality of Government is out of place on the part of the Municipal Commissioners and the residents of the town, who have shown so little real desire to carry out a sanitary measure of vital importance to their well-being. You are therefore unable to recommend the proposal.

2. In reply, I am directed to say that the Lieutenant-Governor is unable to accept the proposals of the Krishnaghur Municipality. The contribution which they propose to make towards the cost of the project is altogether insufficient, and is incommensurate with the urgency with which the prosecution of this work was pressed upon the Government by the residents of the town and of

the district on the occasion of the Lieutenant-Governor's last visit to the station. Out of the estimated cost of the work, which appears to be very necessary for the sanitary improvement of the town and its neighbourhood, the Lieutenant-Governor promised to give, as a Government subsidy, half a lakh of rupees if the people were prepared to raise by subscriptions an equal amount, and to contribute the balance of Rs. 15,000 from the municipal resources. Mr. Rivers Thompson is prepared to abide by this promise, but he cannot go beyond it in view of the claims of other places upon Government, and the impossibility of burdening the public resources with any larger charge on behalf of the residents of Nuddea. If they cannot raise the required half lakh of rupees by subscription amongst themselves, the Municipal Commissioners should go into the open market for a loan. This is the course which has been adopted by the municipalities of Burdwan, Bhagulpore, and other places for the introduction of important municipal improvements, and there are no grounds for treating Krishnaghur exceptionally.

No. 29MM, dated Alipore, the 14th May 1883.

From—J. Monro, Esq., Offg. Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

With reference to this office letter No. 166Ct.MM, dated the 29th January last, I have the honour to forward herewith copy of a letter No 394LF, dated the 3rd instant, from the Magistrate of Nuddea, furnishing certain information on the subject of the improvement of the river Unjona.

2. The outcome of the protracted discussion regarding the clearing out of the bed of the Unjona amounts to this, that the amount of local subscriptions promised is Rs. 15,000, that the cost of land will be nil, as that item will be defrayed by the landholders, and that the balance of one lakh is to be contributed by Government in the shape of a free gift of Rs. 50,000 and a loan of half a lakh.

3. This result is to my mind most disappointing in a place like Kishnaghur, which claimed such a prominent place amongst those towns which desired the boon of self-government. On the first occasion on which an opportunity has been afforded to the municipality of showing their public spirit, that body shows an unmistakeable inclination to abstain from all appearance of taxation to carry out a work of primary importance, and virtually makes an appeal *ad misericordiam* to Government.

4. I have not the names of the subscribers before me, and cannot therefore say how far the people themselves have come forward to carry out a work which all admit to be of vital importance to their well-being.

5. As regards the land (most of which belongs to the Nuddea Raj), it is questionable whether the Court of Wards has the power so to alienate lands. This point has recently been raised in another case, and it is doubtful whether we can legally make such a grant of land belonging to a ward's estate.

6. With regard to the loan proposed, the municipality say that they can afford to pay it off in 15 years. Nothing is said as to how they propose to defray the interest, or how they intend to create a sinking fund with which to wipe off the principal. It seems rather to be assumed that the loan will be given without interest, otherwise I fail to understand how it is proposed to pay off a loan of Rs. 50,000 bearing ordinary interest in 15 years by instalments of Rs. 4,000 per annum. If it is proposed that Government should give this loan without interest, then this scheme resolves itself into an application to Government for an annual gift of Rs. 2,000, calculating interest at 4 per cent.

7. It is also to be observed that the Municipal Commissioners do not propose to tax themselves in any way to pay for this boon. They merely propose to set aside Rs. 4,000 of their present limited and insufficient income, and curtail expenditure. That they will be able to do this without starving other departments and reducing other branches of their administration to a state of inefficiency, I very gravely doubt.

8. I cannot recommend Government to assent to the proposal as at present made. It seems to me that such an appeal to the liberality of Government is out of place on the part of those who have shown so little real desire to carry out an important sanitary work, except at other people's expense. I think it would be an extremely liberal offer if Government were to grant a

sum equal to what the people themselves subscribe, leaving them to find the balance by a loan raised in the public market, as has recently been done by the Burdwan Municipality. For this loan the municipality would have to pay, and I see no reason why Krishnaghur should have a scheme intended to benefit the town without payment.

No. 394LF, dated Krishnaghur, the 3rd May 1883.

From—W. V. G. TAYLER, Esq., Magistrate of Nuddea,
To—The Commissioner of the Presidency Division.

WITH reference to your No. 18MM, dated the 21st ultimo, regarding the improvement of the river Unjona, I have the honour to inform you that a sub-committee appointed by the municipality of Krishnaghur for the purpose of raising subscription for the Unjona excavation by their earnest appeal to the inhabitants have got promises to subscribe to the extent of Rs. 15,000. They have not attempted to realize the amount, because, as the carrying out of the scheme, involving as it does the outlay of more than a lakh of rupees, depends entirely upon the assistance which the Government is willing to give, it would be premature to realize the subscriptions unless the scheme be really undertaken. They have, however, every reason to believe that the amounts subscribed will be paid as soon as a favourable reply is received from Government.

2. The lands in the bed of Unjona principally belong to the estate of the Maharaja of Nuddea, and the manager on behalf of the Court of Wards has signified his consent to its appropriation for the purpose of the canal. The owners of the tanks, which are also situated within the bed, are also willing to make a similar concession, so that, if the scheme be undertaken, it is almost certain that no compensation will be claimed by the land-owners.

3. The Municipality of Krishnaghur will be able, by curtailing their expenses on other heads, to contribute annually the sum of Rs. 4,000 in order to liquidate a debt of Rs. 50,000, provided this amount be advanced as a loan by the local Government. This loan they propose to pay off in 15 years.

4. There will be still a deficiency of about Rs. 50,000 if the excavation be undertaken in the manner recommended by the Superintending Engineer. The Municipal Commissioners are unable to see their way towards raising such a large sum. They therefore pray that the amount may be given by the Government as a free gift for the purpose.

5. The Municipal Commissioners hope that the Commissioner of the Presidency Division will be pleased to lay these facts before His Honor the Lieutenant-Governor of Bengal, and to recommend that Rs. 50,000 be advanced as a loan, and Rs. 50,000 be granted from the provincial funds for the improvement which the Municipal Commissioners believe will add materially to the health and cleanliness of the town.

ANNUAL REPORT ON THE ADMINISTRATION OF CIVIL JUSTICE IN THE SONTHAL PERGUNNAHS FOR 1882.

RESOLUTION.

JUDICIAL.

Darjeeling, the 30th June 1883.

READ—

The Annual Report on the Administration of Civil Justice in the Sonthal Pergunnahs for 1882.

Read also—

The Reports for 1880 and 1881, and the orders of Government recorded thereon.

The following statement shews the progress of litigation in the Sonthal Pergunnahs during the past three years:—

	Instituted.			Disposed of.			Pending.		
	1880.	1881.	1882.	1880.	1881.	1882.	1880.	1881.	1882.
Suits for money or moveable property ...	...	7,088	7,350	6,027	7,367	7,333	921	617	635

Execution suits for money or moveable property	..	4,070	4,448	3,077	3,999	4,032	537	904	719
Rent execution	5,403	2,753	3,383	2,334	2,603	3,125	306	424	515
Title do.	. .	200	130	..	201	145	. . .	29	46
Total ...	16,397	19,015	20,313	15,924	18,966	20,336	2,559	2,607	2,461

Owing to the change in the form of the returns introduced in 1880, a regular comparison of the results of three consecutive years cannot be made until the receipt of the report for the current year. Nor can the results even then be strictly accurate, as it was only in September last that, under the orders of Government, final instructions were issued regarding the adoption of a uniform system of classification of revenue and title suits.

2. As compared with the preceding year, the number of suits for money or moveable property was 7,350 as against 7,086. The principal increase was in suits on bonds. The increase is attributed to the break in the rainfall in July and the two following months, to the anxiety of the people in consequence, and the inferiority of the rice crop which resulted from the break. The number of rent-suits instituted during 1882 was 4,545 as compared with 4,307 in the preceding year. The number of suits for arrears of rent in the Pakour sub-division increased from 46 in 1881 to 162 during 1882. The increase was due, it is said, to the Pakour zemindar, who is the owner of half the sub-division, having "gradually accepted and acted on the settlements with his tenants from whom he had hitherto kept aloof."

3. The Commissioner observes that the majority of the suits appearing hitherto under the head of rent-suits were really *jot* suits, that is suits in which the "tenants, for the time virtually proprietors, contended among themselves for possession of disputed plots." An interesting extract is given from the report of Mr. Oldham, the Deputy Commissioner, in which he explains the remedy which has been found for the sale of tenancy and ryoti rights which had sprung up as an effect of the settlement operations. Mr. Oldham points out that, under the action of the courts under Regulation III of 1872, the cultivators, when they required a loan, were able to mortgage their holdings at fair rates, when it seemed advantageous to sell them outright. The effects are thus described by Mr. Oldham:—"The first results with the unquestioned rise in credit seemed favourable enough; but a very short interval sufficed to show that, where the borrowers were all Sonthals or members of the other primitive races, and the lenders were all keen-witted Bengalis and Beharis, and land was the security, that security was fast passing from the hands of its original clearers and cultivators into those of the creditors; while in most instances the original tenant was left as a labourer on the soil of which he had been, for a short period, and by the operation of an unexpected and fatal gift, the proprietor. And the last, and perhaps worst, feature of this change has been seen in those cases where it broke up altogether the old community, and where the village headman and his assessors have been deprived of power because of the intrusion of some foreigner, who has become master of large portions of the village land, and in whose debt they themselves deeply lie." Mr. Oldham then points to the contrast between the state of affairs where, in consequence of these transactions, there had been the "attending disruption of the communities, the loss of the village chief's position and the degraded status of the tribesmen," and the state of affairs in the Government estate—"regarded as the model zemindari of the district—where the integrity of the communes and the position of the tenantry have been maintained by prohibiting any transfers of land whatsoever, and by the exclusion of the Bengali and Behari land-speculating class." Every attempt has now been made, and with satisfactory results, to supervise closely all cases in which it is sought to favour the irresponsible treatment of his holding by a mere cultivator, and it is now sought to enlist, or at least to allow an opportunity for, the interference of the rent receiver or the landlord. Another important change has been effected in the execution of decrees, it being now held that the "zemindar," to whom notice of the attachment of the land in execution must be given, is not necessarily the proprietor who pays the Government revenue, but the "rent-receiver," and when the latter objects, the parties are required "to establish or contest the right to sell by separate suit." Sub letting has also, it is said, been rendered ineffective by the courts refusing to allow the recovery of rent at a higher rate than that fixed by the settlement. In order also to define the position of the village headman, who could not be prosecuted criminally for embezzling collections, and who appeared to be able to alienate his *nij jote*, it was ruled during the past year that "as the existence of substantial *nij-jote* is the landlord's sole security for payment by the headman, no encumbrance of it since the settlements, or short of a Sonthal occupancy right (section 18, Regulation III of 1872) will prevail against the landlord, should the latter have to sell it for arrears, and the Deputy Commissioner will be ready to dismiss as inefficient any headman whose *nij-jote* had so been sold." These changes will, it is hoped, prove beneficial. Their effects on the suits during the current year should be carefully noted and recorded in the report which will be submitted after its close. The results, though the natural results of a power suddenly placed in

the hands of an ignorant people, are scarcely conducive to the objects of a settlement which contemplated the establishment of a strong peasant proprietory; and if the measures adopted by the local authorities do not tend to check the evil, it would be for consideration whether the rules in force in the Government estate against the right of transfer should not be generally enforced. It is impossible, at least, to deal with Sonthals as with more advanced communities.

4. The number of cases disposed of during the year was 20,336 as compared with 18,966 during the preceding year, and 15,924 during 1880, the number of cases pending at the close of the year being 2,461 as compared with 2,607 pending at the close of 1881, and 2,559 at the close of 1880. The increase in the amount of work done, and the decrease in the amount of arrears, is satisfactory.

5. The total number of appeals from decrees of civil courts for disposal during the year was 778 as compared with 634 in the preceding year. Of these 125 were rejected and 16 were dismissed in default, or were not prosecuted. Of the remaining 637, the original decisions were confirmed in 259, modified in 12 and reversed in 80; 242 cases were remanded and 44 were pending at the close of the year. To the Commissioner's court 57 appeals, including 3 revenue appeals, were presented; of these 6 were rejected, in 15 cases the original orders were upheld, in 7 reversed, and the remaining 29 were pending at the close of the year.

6. The Deputy Commissioner refers to the small receipts in the civil courts in proportion to the number of suits instituted in the Sonthal Pergunnahs, as compared with other parts of Bengal, and thinks that, though some obvious reasons exist, which in part account for the difference, it must be conceded that the courts do not receive their full dues owing to the absence of pleaders. He adds—"The scrutiny of valuation is left to the courts alone, and, however great their vigilance, it cannot be so great as that resulting from the rivalry of professional law agents." He also remarks that a great cause of difference in the receipts is the process system in force in the Sonthal Pergunnahs, and the procedure under which parties can serve their own processes free of cost. The question does not appear to the Lieutenant-Governor to be of much importance where there are the countervailing advantages secured by the special procedure and rules adopted in a backward tract of country like the Sonthal Pergunnahs. At the same time, though the scrutiny by the courts cannot, on account of the pressure of business, be as complete and accurate as that of legal practitioners, ready and anxious to find a flaw in the case of the opponents, still much might, the Lieutenant-Governor considers, be done with care and attention, and the Commissioner should impress on all officers in the Pergunnahs the necessity for a closer examination of the papers. It would do much to make this scrutiny effective if the Deputy Commissioner would himself examine some of the records from time to time to assure himself that the interests of the stamp revenue are not neglected.

7. The Lieutenant-Governor has much pleasure in again recording his appreciation of the manner in which Mr. Oldham performed his duties during the year, and regrets his unavoidable departure from a district of the conditions and circumstances of which he had gained an intimate knowledge. He also notices with satisfaction the favourable remarks on the conduct of the officers subordinate to the Deputy Commissioner. A copy of the remarks regarding the officers mentioned will be forwarded to the Appointment Department of this office.

ORDER—Ordered that a copy of this Resolution be forwarded to the Commissioner of Bhagulpore for information and guidance.

Ordered also that a copy of paragraph 7 of this Resolution, and of paragraphs 25 and 26 of the Report, be forwarded to the Appointment Department of this Office for information.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Secretary to the Government of Bengal.

FINANCIAL DEPARTMENT—FINANCE.

Darjeeling, the 3rd July 1883.

RESOLUTION.

THE Lieutenant-Governor has already, in separate Resolutions, passed orders upon the estimates under the various heads of Provincial Services for 1883-84, and upon the estimates of such funds as are incorporated in the General Imperial Accounts. After these orders were issued, the Government of India, in its Financial Statement for 1883-84, prescribed certain modifications in the form of the estimates which it is incumbent upon the Local Government to follow. It is not necessary to explain at length the various changes made in the classification of the heads of receipts and charges, but opportunity will be taken to recast the revised estimates for 1882-83, and the estimates for 1883-84, in the form prescribed. It will not be convenient to follow the new classification in the accounts of the year 1881-82, nor is it desirable to disturb those accounts, as 1881-82 was the last year of the period for which the financial contract of 1877 had been made, and its accounts have already been closed.

ACCOUNTS FOR 1881-82.

2. The Accountant-General's final report on the accounts of 1881-82 has not yet been submitted. The preliminary issue shews the following results compared with the estimates for the year :—

	Estimate, 1881-82.	Regular estimate, 1881-82.	Actuals, 1881-82.
	Rs.	Rs.	Rs.
PROVINCIAL—			
Opening balance	49,01,000	49,91,000	49,91,000

Proper	3,68,28,000	3,73,03,000	3,76,22,000
Allotment from Imperial to Provincial	38,10,000	83,84,000	83,69,000
Contributions from Local to Provincial	2,000	2,000	1,39,000
Inter-provincial adjustments ...	.....	.....	.....
Total ...	4,06,40,000	4,56,89,000	4,61,30,000
GRAND TOTAL ...	4,55,41,000	5,06,80,000	5,11,21,000
EXPENDITURE—			
Civil	2,67,41,000	2,61,19,000	2,62,92,000
PUBLIC WORKS—			
Interest	37,69,000	33,71,000	33,61,000
Railways	26,40,000	32,16,000	30,34,000
Irrigation and Navigation ...	40,00,000	37,61,000	36,60,000
Other Public Works	67,50,000	66,31,000	66,87,000
Total ...	1,71,59,000	1,69,79,000	1,67,42,000
Contribution to Local Funds ...	1,95,000	3,33,000	3,66,000
Closing balance	14,46,000	72,49,000	77,20,000
GRAND TOTAL ...	4,55,41,000	5,06,80,000	5,11,21,000

3. In the Resolution of the 18th April 1882, it was shewn that the year 1881-82 had actually opened with a credit balance of Rs 49,91,000; that the revenues under all heads might, during the year, amount to Rs. 3,73,03,000; that the Imperial allotments, including the special grant

of Rs. 28,50,000 made in pursuance of the new contract, and the restoration of Rs. 20,00,000, which had been contributed to the Imperial Treasury in the previous two years, would be Rs. 83,84,000; that the total expenditure during the year would probably not exceed Rs. 4,34,31,000, leaving a credit balance at the close of the year of Rs. 72,49,000. The actual result has been more favourable than this estimate by Rs 4,71,000. The expenditure of the Public Works Department fell short of the estimate by Rs. 2,37,000; a sum of Rs. 1,39,000, representing the balance of the Estates Improvement Fund, has been added to the Provincial Services balance; and the receipts of the Public Works Department increased by Rs. 3,09,000. Against this there was a decrease of Rs 15,000 under Imperial allotment; the sum of Rs. 2,000, estimated for contribution from local funds for the services of executive officers of the Public Works Department for supervising district works, has not been realized; the grants to Local Funds have increased by Rs. 33,000; and the operations of the Civil Department shewed a net result worse by Rs. 1,64,000, as exhibited in the following table:—

	Better.	Worse
	Rs.	Rs
Excise	.....	1,29,000
Customs	15,000	...
Salt	.....	9,000
Opium	.. ...	13,000
Stamps ... ... — ...	34,000	...
Registration	.....	2,000
Minor Departments	.....	20,000
Law and Justice	.....	1,33,000
Police	42,000	.....
Marine	24,000	.....
Education	... ..	56,000
Medical	17,000	.....
Stationery and Printing	57,000	.....
Interest on Promissory Notes	1,000	.. ...
Miscellaneous	75,000	.....
Public Works by Civil Officers	12,000	...
Refunds	.....	39,000
Land Revenue	.	5?,000
Assessed Taxes	4,000	....
Administration	14,000	....
Total ...	.....	1,64,000

4. The accounts furnished by the Accountant-General shew that the Provincial balance on the 31st March 1882 was Rs. 75,43,000, which was less than that shewn above by Rs. 1,77,000. This amount represents the debit of Rs. 1,77,000 on account of Census operations. The Government of India, in the Home Department, has, however, in letter No. 34, dated 4th May 1883, accepted this charge as Imperial. The Provincial balance was therefore Rs. 77,20,000.

Revised Estimate, 1882-83.

5. Hitherto the estimates of the year about to expire, which are presented at the time of the preparation of the budget for next ensuing year, have been termed the "Regular" estimates. The term is a technical one, and its meaning may not be clear to all. The Government of India sees no reason for the continuance of the word, when another word, which any one can understand, is available, and has directed that the word "Revised" shall be used instead of "Regular."

6. The financial year, which has just expired, was the first year of an important advance in the policy of decentralization. A new contract has been entered into, under which the interest of the Provincial Government has been extended to Land Revenue, Forests, and Assessed Taxes—heads of revenue hitherto reserved as Imperial. A consideration of the revised estimates for 1882-83 will shew approximately what has been the position of the province in the first year of the contract.

A revised estimate, based on the actuals of eight months, and in some instances of ten months, was submitted to the Government of India with letter No. 539, dated the 17th February 1883. Later information has induced the Lieutenant-Governor to modify these estimates to a certain extent.

7. The following statement shews the estimates for the year 1882-83 as originally framed, the revised estimates as submitted to the Government of India, and the estimates as now modified:—

Receipts.	Original estimate, 1882-83	Revised estimate, 1882-83.	Revised estimate, 1882-83, as now modified.	Expenditure.	Original estimate, 1882-83.	Revised estimate, 1882-83.	Revised estimate, 1882-83, as now modified

Receipts.

8. *Land Revenue.*—The amount of percentage of Land Revenue assigned to Bengal under the new contract was originally fixed at 32·2284. In consequence of the re-transfer of the S. S. *Undaunted* from the Imperial to the Provincial Marine, and of the cemetery charges having again been made provincial, the Government of India at first added ·1742 and ·0214, respectively, to the percentage already assigned. It has since, however, been ruled that the original percentage of Land Revenue shall not be changed during the currency of the Provincial contract, and that effect shall be given to all transactions which would otherwise necessitate an alteration of the proportion by transfer of lump sums in reduction of, or in addition to, the amounts determined by the fixed proportion under the head of Land Revenue, from or to Imperial to or from Provincial. The amounts, therefore, which under this ruling have been added to the share of Bengal on account of the *Undaunted* and "Cemetery charges" are Rs. 65,000 and Rs. 8,000, respectively. The latest return from the Comptroller-General shews that the total Land Revenue of the Province may have amounted to Rs. 3,83,75,000, and a percentage of 32 2284 on this sum amounts to Rs. 1,23,67,000. The 10 per cent. on collections from Government estates, which is to be appropriated to the management and improvement of these estates, will probably have amounted to Rs. 3,78,000. The receipts from the duty on Shajehanpore rum realized in the North-Western Provinces, and other inter-provincial transactions adjusted through the clearing account of the Comptroller-General, may have realized in favour of this Government a sum of Rs. 1,10,000. The Provincial receipts under Land Revenue will then be—

	Rs
Share calculated at the percentage (32 2284)	1,23,67,000
On account of S. S. *Undaunted*	65,000
Ditto of cemetry charges	8,000
Ten per cent collections from Government estates	3,78,000
Inter-provincial adjustments	1,10,000
Total ...	1,29,28,000

From this, however, must be deducted the amount of net savings effected in the Customs Department owing to the abolition of the bulk of the import duties. The savings in the cost of establishment during the year 1882-83 may have amounted to Rs. 1,50,000, but the additional charge for pensions, gratuities, and bonuses thrown on the Provincial Government on account of the retirement of the Customs officers may probably have amounted to about one lakh. A part of this would have, in any case, ultimately fallen on the Provincial revenues. A large portion, however, is an extraordinary charge which does not form an ordinary incident of the liability for superannuations. A representation on this subject will be made to the Government of India as soon as full information is available. Meanwhile the reduction on account of Customs establishment will be taken at Rs 70,000, and the revised estimate of the Provincial share of Land Revenue will be placed at Rs. 1,28,58,000.

9. *Salt.*—The Provincial receipts under this head consist only of "Rents of warehouses," "Fines and Forfeitures," and "Miscellaneous fees, &c." These receipts were originally estimated at Rs 1,39,000. Larger receipts were realized from the Sulkea Golahs than were at first anticipated, and the revised estimate stands at Rs. 1,64,000.

10. *Stamps.*—The original estimate of total stamp receipts for 1882-83 was Rs. 1,20,00,000, the same as the revised estimate for the preceding year. The actuals of 1881-82 were Rs. 1,20,24,000, and the revised estimate was, on later information, placed at Rs. 1,24,00,000. The latest returns tend to shew that the actuals may not have amounted to more than Rs. 1,22,13,000. Half of this belongs to Bengal, and the estimate as now modified stands at Rs. 61,07,000.

11. *Excise*—The Lieutenant-Governor originally fixed the estimate for 1882-83, exclusive of duty on Shahjehanpore rum, at Rs. 1,00,00,000. From the indications afforded by the district returns during the year, it was anticipated that the revenue would not amount to more than Rs. 97,50,000. The actuals, however, were probably not less than Rs. 97,89,000, and half of this amount, or Rs. 48,94,000, will stand as the revised estimate for 1882-83.

12 *Provincial Rates*—The Provincial portion of the estimate under this head includes—

(1) The proceeds of the Public Works Cess.
(2) Rates for the management of Wards' and Attached Estates.
(3) Four annas rate per cent. on Wards' estates for treasury establishments.

The increase of Rs. 25,000 in the revised estimate, compared with the original estimate for 1882-83, is due to larger receipts from Public Works Cess in consequence of the revaluations in certain districts having been completed. The revised estimate stands at Rs 36,03,000.

13. *Customs.*—The only Provincial items under this head are "Warehouse and wharf rents," "Fees for regis ration of cargo-boats in Chittagong," and certain other "Miscellaneous items." The receipts in 1881-82 were Rs. 86,000, and the original estimate for 1882-83 was placed at Rs. 85,000. The receipts may not have reached this estimate. The wharf rents have decreased owing to the abolition of the import duties. The revised estimate stands at Rs. 73,000.

14. *Assessed Taxes.*—The Accountant-General, in submitting the budget for 1883-84, estimated that the total receipts by the end of 1882-83 might amount to Rs 16,00,000. The estimate was considered too sanguine, and it was reduced to Rs. 15,75,000. The latest returns tend to show that the totals will probably not have exceeded Rs. 15,20,000. The Provincial share will stand at Rs. 7,60,000.

15. *Forest.*—The receipts for 1882-83 were originally estimated at Rs. 7,00,000. An increase in revenue was anticipated from larger sales of timber and other produce to consumers in the Sunderbuns, and in consequence of the commencement of forest operations in the Angul and Khoordah forests in Orissa The revised estimate was placed at Rs 7,34,000. The Government of India has reduced the estimate to Rs. 7,20,000, which has been accepted by the Lieutenant-Governor

16. *Registration.*—The original estimate of revenue under this head, including revenue record-room receipts, was Rs. 10,11,000 There has been a tendency of the receipts to expand, and the estimate was raised to Rs. 10,34,000

in the Resolution of the 17th January 1883. The receipts will probably have amounted to Rs. 10,40,000 by the end of the year. The Provincial share will stand at Rs. 5,20,000.

17. *Law and Justice.*—The original estimate was Rs. 17,10,000, of which Rs. 9,06,000 appeared under the head of Law and Justice (Proper), and 8,04,000 under Jails. There has been a considerable falling off in the receipts from "General fees, fines, and forfeitures;" and there has also been a decrease under "Court-fees realized in cash," owing to the more extended use of court-fees stamps. The total receipts under Law and Justice (Proper) may not have amounted to more than Rs. 8,25,000. The revised estimate of total receipts under Law and Justice is Rs. 16,25,000.

18. *Police.*—The estimate, as now modified, amounts to Rs. 4,86,000, against Rs. 5,46,000 originally estimated. The decrease is specially under "Fees, fines, and forfeitures."

19. *Marine.*—The estimate under this head was raised from Rs. 8,23,000 to Rs. 9,01,000. There has been a considerable increase in pilotage receipts, and the estimate will be further raised to Rs. 9,51,000.

20. *Education.*—The latest figures shew that the estimate under this head should be fixed at Rs. 5,22,000.

21. *Medical.*—The estimate, as now modified, shews a decrease of Rs. 8,000 compared with the original estimate. There has been a falling off in "Hospital receipts;" and the "Proceeds of cinchona febrifuge sold by Civil Surgeons," which were formerly included under this head, have now been transferred to the cinchona account under the next following head.

22. *Scientific and other Minor Departments.*—The actual receipts under this head in 1881-82 were Rs. 1,97,000, and the original estimate for 1882-83 was placed at Rs. 1,91,000, of which Rs. 1,75,000 was estimated from cinchona febrifuge. The demand for this drug from the medical departments has diminished. The Government of Madras receives preparations made in England from bark sent from its own plantations, and the Bombay and Calcutta depôts are overstocked with preparations sent out from England. It is anticipated that the receipts from this source will not have exceeded Rs. 1,50,000. The total receipts will then stand at Rs. 1,65,000

23. *Interest.*—The Provincial receipts consist of the proceeds of the invested capital of the Education Department, and the interest on arrears of Public Works cess realized under the provisions of section 45 of the Cess Act IX of 1880. The interest on the Government securities held by the Education Department averages about Rs. 16,000 a year, and that on account of Public Works cess was originally estimated at Rs. 5,000, but may have come up to Rs. 25,000. The total receipts will stand at Rs. 41,000.

24. *Superannuation.*—This is one of the budget heads made Provincial in the new Financial Contract. The increase of Rs. 3,000 in the revised estimate is due to the subscriptions of the members of the Civil Service who have arrived in India since 1881-82, and who are not allowed to subscribe to the Civil Fund

25. *Stationery and Printing.*—The revised estimate will be increased from Rs. 1,35,000 to Rs. 1,47,000, with reference to the latest figures received from the Accountant-General.

26. *Miscellaneous.*—In the new Financial Contract all receipts recorded under this head, except "Gain by exchange on Imperial transactions," "Premia on bills," "Unclaimed bills-of-exchange," and extraordinary unclassified items exceeding Rs. 10,000, were made Provincial. The total receipts were originally estimated at Rs. 6,43,000. The receipts will probably have amounted to Rs. 6,88,000, as shewn in the revised estimate. This figure will accordingly stand.

27. *State Railways* (*XXV*).—The gross earnings of State Railways, which have been classed as Productive Public Works, are shewn under this head. The Government of India has reduced the revised estimate from Rs. 35,29,000 to Rs. 35,28,000. The estimate of the Government of India will stand.

28. *Irrigation and Navigation* (*direct receipts—XXVII*).—The revised estimate of Rs. 12,00,000 under this head has been accepted by the Government of India. Later information shews that the estimate may be raised to Rs. 13,00,000.

29. *State Railways* (*XXXI*).—The receipts from railways not classed as Productive Public Works are shewn under this head. At present the Sonarpore-Diamond Harbour branch of the Calcutta and South-Eastern Railway and the Kawnia-Dhurla Railway are included under this category. The Government of India has accepted the revised estimate of Rs. 1,49,000 under this head.

30. *Irrigation and Navigation* (*XXXIII*).—The receipts from rivers and canals not classed as Productive Public Works are included under this head The revised estimate of Rs. 7,02,000 under this head has been accepted by the Government of India.

31. *Civil Buildings, Roads, and Services.*—The estimate of Rs. 7,02,000 under this head has been raised to Rs. 7,16,000. The revised estimate has been accepted by the Government of India.

32. *Contribution.*—The amount shewn under this head in the original estimate represented the accumulated balance of the Estates Improvement Fund, which was to be amalgamated with the Provincial Services. The actual balance amounted to Rs. 1,39,000, and has been incorporated in the Provincial Account of 1881-82.

EXPENDITURE.

33. *Refund and Drawbacks.*—The original estimate under this head was Rs. 6,22,000; but in accordance with the new classification, only the refunds under the revenue heads are to be entered here, the refunds of receipts by the Civil Department being incorporated with the service heads of expenditure. The revised estimate under this head stands at Rs 1,27,000.

34. *Land Revenue.*—Under the new scheme the Imperial Government has only retained under this head the same percentage on the cost of surveys and settlements as has been retained of land revenue, the rest being made Provincial. In the Resolution of the 18th April 1882, the grant under this head for 1882-83 was fixed at Rs. 30,84,000. The charges for the management of Government estates were estimated at Rs. 2,50,000 These charges may have exceeded the estimate by Rs. 50,000. The Lieutenant-Governor would raise the estimate to Rs. 31,00,000.

35. *Salt.*—The original estimate under this head has been reduced by Rs. 2,000 in the revised estimate.

36. *Stamps.*—The revised estimate shews a decrease of Rs. 13,000 compared with the original estimate. The greater part of the decrease occurs under "Stamp paper supplied from central stores."

37. *Excise.*—The estimate, as now modified, is less than the original estimate by Rs 1,000 only.

38. *Provincial Rates.*—This head in the Provincial estimate is blank, as the charges for the collection of Public Works cess, for which a sum of Rs. 46,800 is annually paid to the District Road Committees, are adjusted under the head "Contribution to Local Funds."

39. *Customs.*—The original estimate of this Government was Rs. 7,05,000. The Government of India, in consideration of the anticipated reductions in the Customs establishment owing to the abolition of the import duties, reduced the estimate to Rs. 5,69,000, and this figure was adopted in the Resolution of the 18th April 1882. The Accountant-General's last return tends to shew that the entire expenditure will have amounted to Rs. 5,57,000, and this amount will stand as the revised estimate for 1882-83.

40. *Assessed Taxes.*—The entire cost of collection will probably not have exceeded Rs. 96,000. Half this amount, or Rs. 48,000, will stand as the revised estimate for 1882-83.

41. *Forest.*—The revised estimate under this head, as passed by the Government of India, is Rs. 4,00,000. The Provincial share amounts to Rs. 2,00,000.

42. *Registration.*—The original estimate of Provincial expenditure has been reduced by Rs. 1,000.

43. *General Administration.*—The revised estimate, as now modified, shews an increase of Rs. 39,000 over the original estimate of Rs. 14,68,000. There is an increase of Rs. 19,000 under Tour expenses, Rs. 11,000 in Board's office, and Rs. 8,000 under Civil Secretariat. There is also an increase under "Staff and household of the Lieutenant-Governor," a part of which is due to

the higher rate of pay of the present Private Secretary, which was sanctioned in letter from the Government of India, Finance and Commerce Department, No. 2872, dated the 27th March 1882.

44. *Law and Justice.*—The grant under this head, excluding "Refunds," was estimated by the Government of India at Rs. 93,69,000. The expenditure on jail manufactures, for which Rs. 9,00,000 was provided in the budget, will not have exceeded Rs. 6,50,000. The refunds amount to about Rs. 1,40,000. The revised estimate may be placed at Rs. 92,65,000.

45. *Police.*—The original estimate under this head was Rs. 45,81,000. The revised estimate inclusive of "Refunds," amounting to Rs. 15,000, stands at Rs. 45,44,000.

46. *Marine.*—The original estimate amounted to Rs. 8,28,000, and the revised estimate, including "Refunds," to Rs. 8,66,000. There has been a large expenditure on account of building and repair of ships and under "Pilotage establishments." The estimate will be raised to Rs. 9,09,000.

47. *Education.*—The increase in the estimate, as now passed, compared with the original budget provision, is due partly to the debit under this head of the boarding charges of the students of the Civil Engineering College at Howrah, which were formerly included in the budget of the Public Works Department, and partly to larger expenditure under "Direction" and "Inspection."

48. *Medical.*—The "Medical Establishment (Proper)" has been made Provincial from the commencement of the year 1882-83. The total expenditure was estimated at Rs. 14,26,000. When the revised estimate was submitted to the Government of India, it was anticipated that the entire expenditure would not be more than Rs. 13,73,000. The expenditure under "Hospital and dispensaries" and "Grants for medical purposes" has, however, been smaller than was anticipated, The estimate, as now modified, stands at Rs. 13,55,000.

49. *Scientific and other Minor Departments.*—The actual expenditure in 1881-82 was Rs. 3,26,000, and the revised estimate for 1882-83 was placed at Rs. 3,29,000, against Rs. 3,06,000, the grant originally provided under this head. No provision was made in the original estimate for the completion of the census operations, the expenditure on which is reported to have amounted to Rs. 26,000. There has been larger expenditure under "Botanical Gardens" and "Exhibitions and Fairs," against savings in the cinchona allotment. The estimate has been raised to Rs. 3,40,000.

50. *Superannuation.*—As stated above, this is one of the budget heads made Provincial in the new Financial Contract. The charges were originally estimated at Rs. 10,28,000, and will probably have amounted to Rs. 11,80,000. The increase is for the most part due to the premature retirement of Customs officers under the reduction scheme.

51. *Stationery and Printing.*—The original grant under this head was Rs. 10,04,000. The latest return tends to show that the expenditure may not have exceeded Rs. 9,65,000. This will stand as the last estimate for 1882-83.

52. *Miscellaneous.*—The original estimate under this head was Rs. 2,92,000, and miscellaneous refunds were taken at Rs. 3,38,000. The total expenditure will probably have amounted to Rs. 6,54,000, and this will be taken as the last estimate for 1882-83.

53. *State Railways* (33).—The working expenses of those railways only which are classed as Productive Public Works are included under this head. The Government of India has increased the revised estimate under this head, amounting to Rs. 19,33,000, by Rs. 33,000. The increase is for the Northern Bengal and Patna-Gya lines. The Lieutenant-Governor accepts the estimate of the Government of India.

54. *Irrigation and Navigation* (39).—The revised estimate of the irrigation canals, amounting to Rs. 10,72,000, has been passed by the Government of India. Later information, however, shews that this amount will be exceeded, and the estimate will be increased by Rs. 50,000.

55. *Interest.*—The original estimate of interest charges as advised by the Accountant-General, Public Works Department, was Rs. 39,55,000. The reduction of the rate of interest from 4½ per cent. to 4 per cent. reduced this estimate to Rs. 35,16,000. The Government of India, however, increased the estimate of these charges to Rs. 35,62,000. This estimate was allowed to stand. The revised estimate provided for Rs. 35,55,000, which the Government of India

has reduced to Rs. 35,45,000 This includes interest on the capital of Rs 60,000 laid out on the Ranighat-Bhugwangola line in 1881-82, and on Rs. 1,00,000, which was to have been expended in 1882-83. As, however, the Provincial Government is not required to pay interest on these amounts, the estimate of the Government of India has been reduced by Rs. 5,000. The estimate will stand at Rs. 35,40,000.

56. *State Railways* (42).—This head is intended to comprise all expenditure on capital account, on tramways, railway surveys, and railways not classed as Productive Public Works. The revised estimate amounted to Rs. 17,54,000, from which, however, the provision of Rs. 47,000 for administrative charges had been omitted. The Government of India has accordingly raised the estimate to Rs. 18,01,000, which will stand

57. *State Railways* (43).—The revised estimate of working expenses of State Railways, which were not classed as Productive Public Works, amounted to Rs. 1,25,000. This has been accepted by the Government of India.

58. *Irrigation and Navigation.* (46).—The revised estimate, amounting to Rs 24,00,000, under this head, has been accepted by the Government of India, and will stand.

59. *Civil Buildings, Roads, &c.*—The revised estimate was made up as follows :—

							Rs.
Public Works in charge of Public Works Department					..	...	60,25,000
Ditto	ditto	Civil Department		...	...	...	40,000
Refunds	...	...	...	...	...	...	9,000
					Total	...	60,74,000

The expenditure by the Civil Department has probably not exceeded Rs. 36,000, and the grant of Rs. 62,212, made for acquiring lands for the site of the new civil station of Khoolna, has not yet been appropriated. The payments are likely to be made during the current year, and will be met from the grant fixed for that year. The estimate for the past year will stand at Rs. 60,08,000.

60. A sum of Rs. 13,50,000 was provided in the budget as a reserve for grants for local purposes during the year, and a sum of Rs 1,36,000 for contribution to the Imperial Treasury on account of anticipated savings in the Customs Department. The savings in the Customs Department are now adjusted through "Land Revenue." The grant to Local Funds, including a contribution of Rs 4,000 to the Burial Board, will not probably have amounted to more than Rs. 2,88,000. This amount will accordingly be taken as the revised estimate.

61. In the Resolution of the 18th April 1882, it was estimated that the year 1882-83 had opened with a credit balance of Rs. 72,49,000; that the total amount available for expenditure would be Rs. 4,74,05,000; that expenditure on all accounts would amount to Rs. 4,65,92,000; and that the year would close with a credit balance of Rs. 8,13,000. It has been shown above that the year 1882-83 actually opened with a credit balance of Rs. 77,20,000; that the receipts will probably have exceeded the estimate by Rs 4,31,000; and that the expenditure will have fallen short of the total grant by Rs. 8,39,000. The closing balance of the year is therefore Rs. 25,54,000, which is better than the original estimate by Rs. 17,41,000.

Budget Estimate, 1883-84.

62. The budget estimate for 1883-84 is as follows :—

							Rs.
Revenue	...	...	..	...	...	...	4,22,41,000
Expenditure	...	...	...	...	...	...	4,39,06,000
					Deficit	...	—16,65,000

The revenue for 1883-84, including the allotment of Rs. 3,00,000 from the Famine Relief Fund towards the expenditure on the Orissa Coast Canal, is Rs. 16,74,000 more than that of 1882-83, according to the revised estimate as finally adopted; while the expenditure for 1883-84 is estimated at Rs. 17,85,000 less than that for 1882-83, according to the same estimates.

The following are the estimates of Provincial Revenue and expenditure for the current year:—

Revenue.	Original estimate of Government of Bengal.	Estimate of Government of India.	Estimate as now modified.	Expenditure.	Original estimate of Government of Bengal.	Estimate of Government of India.	Estimate as now revised.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.
Opening balance ...	20,66,500	24,84,000	23,96,000	3.—Refunds	1,13,000	1,09,000	1,13,000
				5.—Land Revenue	30,93,000	30,96,000	31,84,000
I.—Land Revenue ...	1,27,37,000	1,21,83,000	1,21,91,000	7.—Salt	21,000	21,000	21,000
III.—Salt	1,59,000	1,59,000	1,59,000	8.—Stamps	2,15,000	2,15,000	2,15,000
IV.—Stamps	62,50,000	62,00,000	62,50,000	9.—Excise	1,39,000	1,19,000	1,39,000

Revenue.

63. *Land Revenue.*—The total land revenue for the year 1883-84 has been estimated at Rs. 3,79,88,000 or Rs. 44,000 more than the actuals of 1881-82, and Rs. 3,87,000 less than the estimate for 1882-33 as finally adopted. The Provincial share of land revenue was originally estimated at Rs. 1,27,38,000. No provision was made in the estimate for inter-provincial adjustments other than those for Shahjehanpore rum, and no deduction was made for savings in the Customs establishment. The estimate, as now adopted, has been obtained as follows:—

	Rs.	Rs.
The Provincial share, calculated at the percentage (32·2284)	.....	1,23,16,000
10 per cent. on collections from Government estates ...	.....	3,88,000
Inter-provincial adjustments	.....	1,08,000
Additional charge for pensions of officers of the Customs Department	.....	25,000
		1,28,37,000
Deduct—		
Contribution to Imperial for extension of meteorological observations	17,000	
Savings in Customs establishment	2,29,000	
		2,46,000
Total ...		1,25,91,000

65. *Salt.*—The revenue in the last year was swelled by abnormal receipts in the Sulkea Golahs. The estimate for the current year provides for a total receipt of Rs. 1,59,000, against Rs. 1,47,000, the actuals of 1881-82, and a decrease of Rs. 5,000 compared with the last estimate for 1882-83.

66. *Stamps.*—The Government of India has reduced the estimate of total revenue under this head from Rs. 1,25,00,000 to Rs. 1,24,00,000 with reference to the receipts of the past year, which have probably amounted to Rs. 1,22,13,000. The receipts during the first two months of the current year

shew an increase of Rs. 1,57,000 over the receipts of the corresponding period of the past year. Looking to the continued development of this branch of the revenue, and to the extended use of court-fee stamps, the Lieutenant-Governor would adhere to the original estimate of Rs. 1,25,00,000. The Provincial share will accordingly be taken at Rs. 62,50,000.

67. *Excise*.—The growth of the excise revenue in Bengal during the last four years has been as follows:—

	Rs.		Rs.
1879-80 ...	... 72,07,000	1881-82 ...	... 93,74,000
1880-81 ...	.. 85,53,000	Revised estimate, 1882-83	... 97,89,000

The increase in 1880-81 was Rs. 13,46,000, in 1881-82 Rs. 8,21,000, and in 1882-83 Rs. 4,15,000. The increase during the first two months of the current year, compared with the receipts of the corresponding period of the past year, as shewn in the district returns, amounts to Rs. 1,29,000, and though there has been a considerable reduction in the number of outstills, there are indications of a sustained increase in consequence of favourable settlements. The estimate for the current year will be taken at a round sum of Rs. 1,03,00,000, and the Provincial share at Rs. 51,50,000.

68. *Provincial rates*.—The revenue under this head shows a moderate but steady tendency to increase. The new Cess Act IX (B.C.) of 1880 came into operation in October of that year. The receipts from Public Works cess in 1880-81 aggregated Rs. 34,63,000, and in 1881-82 Rs. 34,84,000. In view of the revaluations in progress, a sum of Rs. 35,25,000 was estimated for 1882-83. The receipts will probably have aggregated Rs. 35,50,000. As it is expected that the revaluations now in progress will be brought to a close before the end of 1883-84, a sum of Rs. 36,00,000 has been estimated for the current year. The other receipts included under this head have been taken at Rs. 52,000. The total estimate stands at Rs 36,52,000.

69. *Customs*.—The Provincial receipts are estimated at Rs 65,500, against the original estimate of Rs. 85,000 for the past year. The decrease is due to smaller receipts anticipated from warehouse rents.

70. *Assessed Taxes*.—The last estimate of license-tax receipts for 1882-83 amounts to Rs. 15,20,000, against Rs. 16,39,000, the actuals of 1881-82. The decrease is due for the most part to reduction of receipts from penalties, a large portion of which could not be expected to recur during the year. There is a tendency of the receipts to increase during the current year. The estimate stands at Rs. 15,50,000, which has been accepted by the Government of India. One-half of this is Provincial.

71. *Forest*.—The Government of India has reduced the local estimate under this head from Rs. 8,80,000 to Rs. 8,00,000. The reduction appears specially in the estimate of the Kurseong and Singbhoom divisions, and under the head of bamboos. The Provincial share amounts to Rs. 4,00,000.

72. *Registration*.—The original estimate under this head was Rs. 10,42,000. The Government of India has reduced it by Rs. 31,000, and has adopted the estimate originally sanctioned for the past year. The estimate of this Government provided for an increase of Rs. 31,000, because it was anticipated that the registration of a large number of Indigo contracts and of documents connected with the settlement operations in Durbhunga would be effected during the current year, and it was considered that the receipts from searching fees under the rules of the High Court were likely to increase. The last estimate of the past year amounts to Rs. 10,40,000. The estimate of Rs. 10,42,000 will be retained for 1883-84. Half of this amount is Provincial.

73. *Law and Justice*.—The total receipts for 1883-84 under Law and Justice (Proper) have been estimated at Rs. 8,75,000, against Rs. 9,06,000, the first estimate for the past year. The decrease is owing to a certain extent to the more extended use of court-fee stamps, and to a consequent reduction in the amount paid as fees. An increase of revenue from this source has been provided in the Stamp budget. The original estimate of the Inspector-General of Jails placed the sale proceeds of jail manufactures at Rs. 12,43,000. These included receipts for goods supplied to the jails and departments coming under Law and Justice, which could not, under existing orders, be credited in the accounts. The estimate under the head of Jails amounts to

Rs. 9,35,000. The gross estimate under Law and Justice will be at Rs. 18,10,000.

74. *Police.*—The actuals in 1881-82 amounted to Rs. 5,23,000, and the revised estimate stood at Rs. 4,86,000. The estimate for the current year is Rs. 6,25,000. An increase is anticipated under "Recoveries on account of village police," and a provision of Rs. 65,000 has been made on account of "Deductions from policemen for clothing." These recoveries have not hitherto been shewn in the general accounts, but have been deducted from the pay of the police, the net pay only being charged in the accounts.

75. *Marine.*—The estimate under this head amounts to Rs. 8,95,000, against Rs. 8,28,000, the original estimate for 1882-83. The estimate has been accepted by the Government of India, and will stand.

76. *Education.*—The total receipts of the Education Department for 1883-84, exclusive of the interest on Government securities belonging to that Department, are estimated at Rs. 6,18,000, against Rs. 5,22,000 for the past year. The estimate for the current year includes a sum of Rs. 65,000 on account of contributions from municipalities for educational purposes. Some increase is also anticipated under "Fees and fines of schools and colleges." The estimate, which has been accepted by the Government of India, will stand.

77. *Medical.*—The receipts are estimated at Rs. 1,37,000, against Rs. 1,36,000, the actuals of 1881-82, and will stand.

78. *Scientific and other Minor Departments.*—The public enquiry for cinchona febrifuge still continues to increase, but the demand from medical depôts has diminished. The total receipts in 1881-82 were Rs. 1,97,000, and the revised estimate for 1882-83 amounts to Rs. 1,65,000. The estimate for 1883-84 has been taken at Rs. 1,71,000.

79. *Interest.*—The estimate amounts to Rs. 41,000, the same as the revised estimate for the past year.

80. *Superannuation.*—The receipts are estimated at Rs. 79,000, against Rs. 74,000 for the current year. The increase is under the head of contributions for pensions and gratuities. The number of officers employed on duties outside the Government service has increased, but the rate of contribution has been reduced by the Government of India.

81. *Stationery and Printing.*—The receipts are estimated at Rs. 1,27,000, against Rs. 1,12,000, the original estimate for 1882-83. The increase is under "Sale of Stationery" and "Other Press Receipts." The revised estimate for 1882-83 amounts to Rs. 1,47,000.

82. *Miscellaneous.*—The receipts in 1881-82, exclusive of the sale-proceeds of durbar presents, were Rs. 7,01,000. The receipts formerly taken under "Other items" are now for the most part credited to the several departmental heads under orders of the Comptroller-General. The estimate for the current year is Rs. 6,82,000.

83. *XXV.—State Railways.*—The following table compares the estimates for 1883-84 with the revised estimate for 1882-83 :—

	Revised estimate, 1882-83.	Estimate of Local Government, 1883-84.	Estimate of India, 1883-84.
	Rs.	Rs.	Rs.
Northern Bengal ...	... 22,00,000	24,00,000	23,00,000
Tirhoot ...	... 7,00,000	12,30,000	12,30,000
Patna and Gya ...	... 3,90,000	3,50,000	2,50,000
Calcutta and South-Eastern ...	1,68,000	1,25,000	1,25,000
Nalhati ...	... 70,000	72,000	70,000
Total	... 35,28,000	41,77,000	39,75,000

The traffic on the Northern Bengal Railway continues to expand, the improvement being chiefly due to a steady growth in jute and tobacco traffic. An increase of Rs. 2,00,000 was provided by the Public Works Department, but the Government of India would reduce this to Rs. 1,00,000. Having regard to the progressive increase in the receipts of this line during the past few years, the Lieutenant-Governor thinks that the higher figure is well within the mark. The estimate of the local Government will be retained.

The extensions to Jhinjarpore and Motihari of the Tirhoot Railway have recently been opened, and with this addition to the open mileage it is

expected that the increase of Rs. 5,30,000, allowed for in 1883-84, will be realized.

The Government of India has reduced the estimate of receipts from the Patna-Gya Railway by one lakh. The net receipts are estimated at Rs. 3,20,000, of which one-fifth is payable to the East Indian Railway Company under the terms of the working agreement, leaving a balance of Rs. 2,56,000 to be credited to Government for this. This amount will accordingly be taken as the estimate for the current year.

The estimate of the Calcutta and South-Eastern Railway for 1883-84 shews a decrease of Rs. 43,000 compared with the revised estimate for 1882-83. This is owing to the return of the rolling-stock previously hired to the Patna and Gya Railway. The receipts from this source now cease.

The Government of India has placed the estimate of the Nulhati Railway at Rs. 70,000, the same as the revised estimate for the past year. As some increase is anticipated, the original estimate of this Government, amounting to Rs. 72,000, will be retained.

84. *XXVIII.—Irrigation and Navigation.*—The Government of India has accepted the local estimate of Rs 12,00,000 under this head. The receipts during the past year will probably have amounted to Rs. 13,00,000, and there is no reason to suppose that the receipts during the current year will be less than those for the past year. The estimate will be raised to Rs. 13,00,000.

85. The Government of India has accepted the local estimates under XXXI, State Railways; XXXIII, Irrigation and Navigation; and XXXV, Civil Buildings, Roads and Services. The estimates will stand at Rs. 2,45,000, Rs. 7,81,000, and Rs 7,84,000, respectively.

EXPENDITURE.

86. *Refunds.*—The difference of Rs. 4,000 under this head between the estimate of the Government of India and that of the Local Government represents the Provincial share of the rents payable to the superior landlords on account of the subordinate tenures in the escheated estates of Gya. This amount was added after the budget had been passed, and has probably not been included in the estimate of the Government of India. The local estimate of Rs. 1,13,000 will stand.

87. *Land Revenue.*—The estimate, as originally sanctioned by this Government, was Rs. 30,93,000. The total cost of surveys and settlements was estimated at Rs. 1,00,700, and the Provincial share at Rs. 61,800. The Government of India has raised this estimate by Rs. 10,000, and the Provincial share by Rs. 3,000. A reference has been made to the Government of India as to the inadequacy of the allotment made in the new contract to cover the charges which will be thrown on the Provincial Revenues according to the classification recently prescribed. Pending the result of this reference, the estimate of this Government will be retained. An addition of Rs. 60,000 will, however, be made under this head to cover the increase in the allotment for the charges on account of Government estates, which has been granted to meet the requirements of local officers. The total estimate will stand at Rs. 31,53,000.

88. *Salt.*—The estimate amounts to Rs. 21,000, against Rs. 18,000 for the past year. The increase is chiefly due to large provision being made for petty construction and repairs of the Chittagong golahs.

89. *Stamps and Excise.*—The local estimates of expenditure under *Stamps* and *Excise* have been accepted by the Government of India, and will stand at Rs. 2,15,000 and Rs. 1,39,000 respectively, against the revised estimate of Rs. 2,12,000 and Rs. 1,34,000 for the current year.

90 *Customs.*—The estimated expenditure for 1883-84 amounts to Rs. 4 96,000, shewing a decrease of Rs. 2,09,000 compared with the original estimate of Rs. 7,05,000 for the current year. The decrease is due to reductions in the Customs establishments owing to the abolition of the import duties.

91. *Assessed Taxes.*—A provision of Rs. 1,00,000 is made for the collection of license-tax during 1883-84. The same amount was fixed for 1881-82 and 1882-83. The expenditure on this account is equally divided between the Imperial and Provincial Governments. The Provincial share amounts to Rs. 50,000.

92. *Forest.*—The Government of India has passed the estimate under this head for a round sum of Rs. 5,00,000, against Rs. 5,20,000 adopted by this Government. A reorganization of the subordinate forest establishment has since been sanctioned at an annual cost of Rs. 90,000, against Rs. 72,600 provided in the budget, and the excess expenditure will have to be met from savings. The estimate of the Government of India will stand.

93. *Registration.*—The Provincial expenditure under this head is estimated at Rs 3,12,000, against Rs. 3,15,000 for the past year. The reduction is mainly due to changes made in Chittagong and Arrah, under which the sub-registrars of those places, who were formerly in receipt of Rs. 200 per mensem each, are now paid partly by fixed salaries and partly by commission.

94. *Administration.*—The actual expenditure in 1881-82 amounted to Rs. 14,72,000. The estimate of the Local Government for 1883-84 was Rs. 14,89,000, and this has been raised by the Government of India to Rs 14,90,000. The increase in 1883-84 is partly under "Secretariat Establishment" and partly under "Examiner of Local Accounts," the Government of India having sanctioned additional establishments for the extension of the system of local audit. The revised estimate for the past year is Rs. 15,07,000. There has been reduction in the Customs Department of the Board's Office. The estimate for 1883-84 will be Rs. 14,89,000.

95. *Law and Justice.*—The Government of India has adopted the estimate of the Accountant-General as originally submitted to this Government. This estimate made no provision for the pay of an additional Subordinate Judge for the new district of Khoolna, or for the personal allowance of Rs. 100 per mensem of the four Subordinate Judges now in the grade of Rs. 600, and getting Rs. 100 extra each. On the other hand, his estimate of charges for the service of judicial processes was reduced, and the hospital charges of "Central Jails" were increased with reference to the probable requirements of the year. The Lieutenant-Governor would retain the estimate of Rs. 96,45,000 as originally passed.

96. *Police.*—The estimate of police charges, including refunds, amounts to Rs. 47,78,000 against the original estimate of Rs. 46,81,000 for the past year. The large increase is mainly due to the amalgamation of the municipal with the regular police, and to additional provision for the Chittagong Frontier Police.

97. *Marine.*—The actual expenditure in 1881-82 was Rs 10,55,000. The revised estimate amounts to Rs. 9,09,000, and the estimate for 1883-84, including refunds of Rs. 6,000, to Rs. 8,56,000. The large decrease in 1882-83 and 1883-84 is due to the transfer of the Port approaches and the False Point light-house to the Port Commissioners. The revised estimate for the past year also includes a large expenditure for ship-building, which it is expected will not recur in 1883-84. A grant of Rs. 6,000 has been made to the Balasore Port Fund, which will be adjusted under this head. The estimate will stand at Rs. 8,62,000.

98. *Education.*—The original grant for 1882-83 was Rs. 29,60,000. The revised estimate amounts to Rs. 30,11,000, and the Accountant-General's estimate for 1883-84 provides for a total expenditure of Rs. 31,94,000, which includes an additional provision of one lakh for primary education over the grant for the past year. A sum of Rs. 2,000 has been added to the Accountant-General's estimate for travelling expenses of Inspectors of Schools, Rs 2,000 for a building grant to the St. James' Boys' School, and Rs. 5,000 to the grant for primary education in Government estates. The estimate, as passed by the Local Government, amounts to Rs. 32,03,000, and will stand.

99. *Medical.*—The actual expenditure in 1881-82 was Rs. 10,75,000. The revised estimate of the past year amounts to Rs. 13,55,000, and the estimate for 1883-84, including refunds of Rs. 8,000, to Rs. 14,02,000. The large increase in 1882-83 and 1883-84 is due to the transfer to Medical Establishment Proper, from Imperial to Provincial, the cost of which is estimated at Rs. 4,70,000. Against this increase there has been a decrease under hospitals and dispensaries, owing to the transfer to municipalities of the hospitals and dispensaries situated within municipal limits.

100. *Scientific and other Minor Departments.*—The estimate under this head amounts to Rs. 3,66,000 against the original estimate of Rs 3,06,000 for

the past year. A provision of Rs. 11,000 has been made on account of the proposed extension of the cinchona plantation to the trans-Teesta portion of the Darjeeling district. A provision of Rs. 60,000 has been made for the International Exhibition to be held in Calcutta in the middle of 1883-84. The estimate of Rs. 3,66,000 for the current year will stand.

101. *Superannuation.*—The charges for 1883-84 were originally estimated by the Accountant-General at Rs. 12,16,000, against the original estimate of Rs. 10,28,000 for the past year. A sum of Rs. 50,000 was provided for marine pensions, which were formerly adjusted under the head of Imperial Marine. The provision has been struck out, as the marine pensions were not made Provincial in the new contract. The revised estimate for 1882-83 amounts to Rs. 11,80,000. The increase is mainly due to the premature retirement of Customs officers. The charges for bonuses and gratuities will not be so large as in 1882-83, and the total estimate has been placed at Rs. 11,67,000.

102. *Stationery and Printing.*—The difference of Rs. 9,000 between the estimate of the Government of India and that of this Government represents the amount by which the Local Government reduced the Accountant-General's estimate of the cost of printing for the Opium Department at private presses. The Board of Revenue reported that there was no necessity for this provision, and it was struck out. The local estimate of Rs. 9,51,000 will stand.

103. *Miscellaneous.*—The Government of India has entered Rs. 3,74,000 as the estimate under this head, made up as follows:—

	Rs.
Imperial	45,000
Provincial	3,09,000
Local	20,000
Total ...	3,74,000

The Provincial expenditure amounts to Rs. 3,09,000, and to this has been added Rs. 3,38,000 on account of miscellaneous refunds. The grant will stand at Rs. 6,47,000.

104. *State Railways* (36).—The details of the estimates under this head, compared with the revised estimate for 1882-83, are as follow:—

	Revised estimate, 1882-83.	Estimate, 1883-84.	
		Local Government.	Government of India.
	Rs.	Rs.	Rs.
Northern Bengal	10,60,000	11,49,000	11,00,000
Tirhoot	4,65,000	6,71,000	7,30,000
Patna and Gya ...	2,60,000	.....	.....
Calcutta and South-Eastern ...	1,18,000	91,500	92,500
Nulhati	62,500	61,000	62,500
Total ...	19,65,500	19,72,500	19,85,000

An increase of Rs. 89,000 was provided in the estimate of the Northern Bengal Railway to cope with the larger traffic expected, and also to provide for extensive renewals of sleepers found to be necessary. The Government of India has reduced the anticipated increase of expenditure to Rs. 40,000.

The large addition made in the estimate of the Tirhoot Railway is due to the additional lengths of line recently opened to traffic.

No provision has been made for the Patna-Gya Railway, as it will be worked by the East Indian Railway Company. A reduction of expenditure is anticipated in the Calcutta and South-Eastern Railway.

105. *Irrigation and Navigation* (39).—The Government of India has adopted the local estimate of Rs. 10,84,000.

106. *Interest.*—As explained above, the Local Government is not liable for interest charges on the capital expended and to be expended on the Ranaghat-Bhugwangola line. The estimate of the Government of India, amounting to Rs. 37,89,000, will be reduced by Rs. 9,000.

107. *State Railways Capital Account* (42).—The difference of Rs. 15,000 under this head between the estimate of the Government of India and that of Bengal is due to the refund of Rs. 15,000, advanced from Provincial Funds in 1882-83, for the Tarakessur railway survey. The estimate of the Government of India will be adopted.

108. *Subsidized Railways* (14).—The provision of Rs. 70,000 made under this head is for the cost of the land which will be taken up in 1883-84 for the Baidyabutty-Tarakessur Railway.

109. *Civil Buildings, Roads, and Services.*—The grant under this head is raised to Rs. 44,62,000.

110. *Contribution.*—A sum of Rs. 7,50,000 was originally reserved for contributions to municipal and other local funds. It is doubtful if so large a provision will be required in the current year, and the estimate will be reduced to Rs. 5,00,000.

111. *Incorporated Local Funds*.—The following table shews in one view the actual receipts and expenditure of the Incorporated Local Funds during 1881-82, the revised estimates for 1882-83, and the estimates for 1883-84 :—

	Actuals, 1881-82.	Revised estimate, 1882-83.	Estimate of Local Government, 1883-84.	Estimate of Government of India, 1883-84.

The revised estimates for 1882-83, as shown above, have been framed with reference to the latest figures of the year received from the Accountant-General. This estimate shews that the receipts in the past year, including the grants-in-aid from Provincial Funds, may have amounted to Rs. 46,42,000, and the expenditure to Rs. 46,17,000. There was thus a surplus of Rs. 25,000, instead of a deficit of Rs. 1,65,000 as estimated in the Resolution of 18th April 1882. For 1883-84 the Government of India has accepted the estimates of receipts and expenditure as originally submitted by the Accountant-General. The Lieutenant-Governor, with reference to the actuals of 1881-82, raised the estimate of miscellaneous receipts of the District Road Fund by Rs. 20,000, and reduced those from the 1 per cent road cess by Rs. 2,000. The estimate, as passed by this Government, will accordingly stand.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

PROPORTION IN WHICH THE PAY OF MEDICAL OFFICERS IN CHARGE OF MUNICIPAL DISPENSARIES, SUBSIDIARY JAILS AND SUB-DIVISIONS, IS TO BE PAID BY GOVERNMENT AND MUNICIPALITIES.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 4th July 1883.

RESOLUTION.

In the Resolution of the Financial Department, dated the 20th February 1882, by which municipalities were relieved of all charges on account of police, and were, on the other hand, required to bear the cost of maintaining dispensaries situated within municipal limits, no orders were passed to define what proportion of the pay of a medical officer, who was in charge both of a municipal dispensary and of a sub-division and lock-up, was to be considered a charge against the dispensary. Experience has shown that in almost every case the charge of a municipal dispensary can be conveniently united with that of a sub-division, without detriment to the work of either, and that it is unnecessary to maintain two medical officers at the head-quarters of a sub-division—one, the servant of the municipality, in charge of the municipal dispensary; and the other, the servant of Government, in charge of the sub-division and subsidiary jail. By amalgamating the two appointments, the salary which one of these officers would have drawn is saved, and the question arises as to the proportions in which the saving should be divided between Government and the municipality.

2. A medical officer holding the dual appointment is entitled to draw—(1) his grade pay; (2) any special allowances to which he may be entitled under the rules on account of the dispensary, sub-division, or subsidiary jail. The additional allowances present no difficulty. A dispensary allowance would be paid by the municipality; while those for the sub-division and jail would be borne by Government. Hitherto, however, no fixed rule has existed as to the incidence of the grade pay. This is sometimes borne wholly by Government, sometimes wholly by the municipality, and sometimes in varying proportions by both. The Lieutenant-Governor considers that this anomalous state of things should not be allowed to continue, and that some definite principle should be laid down to regulate the proportions in which the charge should be shared between Government and the municipality.

3. The Lieutenant-Governor has consulted the Surgeon-General and district and divisional officers on the subject. The Government undertakes, as a part of the medical administration of the province, to maintain a civil medical officer at the head-quarters of every sub-division, irrespective of any arrangements that may be made by municipalities for the charge of their dispensaries. When the services of an officer of this class are in part lent to any municipality, it would not be unreasonable to require that a corresponding part of his salary should be paid by the Municipality. The Lieutenant-Governor, however, desires to treat local Government bodies with the utmost liberality in his power. He has therefore resolved that, when any municipality desires to utilize for the charge of its dispensary the services of the medical officer provided by the Government for the charge of the sub-division, it shall be entitled to avail itself of those services on payment of the usual dispensary allowance only, and shall not be required to bear any part of the medical officer's grade pay. On the other hand, however, it would manifestly be unjust that, in such a case, Government should be expected to post to any sub-division a medical officer of higher qualifications than are needed for the proper discharge of the Government work alone, *i.e.*, for the medical charge of the subsidiary jail and sub-division, apart from the municipal dispensary. The Surgeon-General is of opinion that the requirements of an ordinary sub-division will be adequately met by appointing a civil hospital assistant of the lowest class. The Lieutenant-Governor therefore directs that the pay of an officer of this class shall be considered to be the standard pay of a sub-divisional charge, and shall be borne wholly by Government. In some sub-divisions, however, exceptional circumstances will probably render it necessary to provide an officer of higher qualifications. In all such cases, the class of an officer to be appointed will be settled authoritatively, and his pay will be borne entirely by Government. Thus, if a civil hospital assistant of the third class is sufficient for the requirements of both the sub-division and the municipal dispensary,

his entire salary will be borne by Government, the municipality being only required to pay his dispensary allowance. Similarly, where an officer of a higher class than a third class hospital assistant is appointed to the sub-division on the part of Government, the municipality will not be called upon to make any contribution towards his grade pay, if his qualifications are such as to meet their requirements.

4. On the other hand, cases will probably arise in which the charge of a municipal dispensary may require, for its proper conduct, an officer of higher professional qualifications than is needed for the medical charge of the sub-division and subsidiary jail apart from the dispensary. In such a case the Lieutenant-Governor will be prepared to appoint to the dual charge an officer of the Government establishment of such qualifications as the municipality may desire, provided that his services can be made available on the condition that the municipality are prepared to pay the whole difference between his grade pay and that of the standard Government medical officer sanctioned for the sub-division, besides paying him the usual dispensary allowance.

5. The Surgeon-General will be requested to prepare at once, in consultation with the local civil and medical officers, a list of all the sub-divisions in the province, classified according to the grade of medical officer they require for the Government work alone; and the proportions of the charge on account of the medical officer's pay to be borne by Government and the local municipality respectively will in each case be determined in accordance with the principle now laid down. This principle will also be applied, *mutatis mutandis*, in the case of any sub-division at the head-quarters of which there is a dispensary in class I of the rules, which is maintained otherwise than by a municipality, and the supporter of which is desirous of availing himself of the services of the Government civil medical officer in charge of the sub-division

ORDER—Ordered that a copy of the above Resolution be forwarded to the Surgeon-General for information and guidance.

Ordered also that a copy of the above Resolution be forwarded to all Commissioners of Divisions for information and for communication to all municipalities in their divisions.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 7th July 1883.

No.	District, and date of return	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts		
BURDWAN DIVN. 1	Burdwan, July 7 '83	0·06	Weather—cloudy, with drizzling showers at intervals. In the Cutwa subdivision agricultural operations have been retarded for want of rain. Insufficient rain is also reported from Culna. In other parts of the district, ploughing and transplanting are in progress and prospects are fair.
	Raneegunge ...	3·	
	Culna ...	0·72	
	Cutwa ...	1·48	
2	Bankoora, „ 7 „	3·11	Weather—hot, cloudy, and rainy; very favourable for cultivation. *Biri kalai* is being sown. Both early and late rice are being transplanted. Prospects of crops are promising. Public health good.

Explanation—indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 6TH JULY 1883.

At the commencement of the past week a cyclonic vortex, which had been forming for several days previously near the Sandheads, began to move to the westward. It crossed the Balasore coast a little before midnight of Friday, and advanced across the North Orissa Hills into the Central Provinces on Saturday morning, whence it drifted slowly across the head of the Peninsula to Guzerat, and finally disappeared near the coast of the Arabian Sea. Strong southerly winds blew across the Bengal coast on Saturday. They diminished in strength on Sunday, and were feeble on Monday. Temperature hence increased over the whole of the Province, and winds became light and variable in North Bengal and over nearly the whole of Behar.

In consequence of the weakness of the Bay of Bengal monsoon winds on Monday, westerly dry winds from the North-Western Provinces advanced down the Gangetic valley on that day, and were established for a short time on Tuesday over Chutia Nagpur and South Behar. Another cyclonic vortex began to form at the same time near the head of the Bay. Its existence was first indicated on Tuesday morning by the setting in of northerly winds at Saugor Island and Balasore. This cyclonic vortex turned out to be very much smaller and feebler than the vortex of the preceding week. It formed near the coast of the Sunderbuns, probably south of the Mutlah and near the Sandheads. It was stationary on Tuesday and Wednesday, and began to move slowly westwards on Thursday evening towards the Balasore coast, which it crossed on Saturday evening. Hence in every respect, except intensity, it was almost identical in its features and motion with the storm of the previous week. It gave moderately heavy rain to Orissa and the southern districts of South-West Bengal, and moderate rain to the southern districts of East Bengal. The indraught to this and the previous cyclonic vortex from North Bengal has been attended with diminished rainfall over the whole of Central Bengal. The rainfall in Nuddea, Furreedpore, Dacca, Mymensingh, Pubna, Bogra, Maldah, Rajshahye, and Rungpore has hence been unusually small in amount during the past week. Behar and Chutia Nagpur continue to receive satisfactory rain.

The variations from the normal of the elements of meteorological observation have as usual during periods of cyclonic disturbance been considerable and irregular. The mean pressure for the week is slightly below the average for stations in Orissa and the adjacent districts of South-West Bengal and above it elsewhere excepting Chittagong. The mean temperature of the week was below the average, except in South Behar. The average deficiency slightly exceeded 1° in Orissa, Bengal and Chutia Nagpur. The excess in the case of South Behar was mainly due to the high temperature which prevailed for a short time on Monday and Tuesday when dry westerly winds were blowing. High maximum temperatures were recorded at that time, the highest being 99·2° at Gya and 98·9° at Buxar. South-easterly winds have prevailed during the week in East Bengal, North Bengal and Behar. Winds have been variable in South-West Bengal, North Orissa, and Chutia Nagpur over which northerly winds of indraught to the cyclonic vortex continued from Tuesday until Friday morning.

The following table gives a summary of the temperature and rainfall data of the past week for each of the seven meteorological divisions of the Province :—

Meteorological District.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above (+) or below (−) normal mean week.	Of week.			Rainy days.			Since 1st of month.		Since 15th May.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number for week.	Normal average number for week.	Variation from week.	Average.	Normal average.	Average.	Normal average.
Orissa ...	93·4	72·1	85·4	77·7	81·8	−1·3	5·30	2·47	+2·83	4·7	4·0	+0·7	19·24	10·40	21·17	12·33

The returns show that rain was very unequally distributed over the Province during the week. Orissa, the Midnapore, 24-Pergunnahs, Howrah, Hooghly, Jessore, and Khoolna districts of South-West Bengal, and Chutia Nagpur received abundant rain. It was deficient in every other part of the Province, excepting the Chumparun and Sarun districts of North Behar. The deficiency was most marked in North Bengal, where an average of only 22 per

cent of the normal rainfall was received. The following table shows the districts in which the deficiency was largest :—

District.	Average rainfall of week	Normal average of week.	Deficiency.	Ratio of actual to average rainfall.
Dacca	0·89	2·56	1·67	34 per cent.
Mymensing	0·61	3 03	2·39	21 „
Bogra and Pubna	0·74	2 64	1·90	28 „
Rajshahye	1·03	3·11	2·08	36 „
Dinagepore	0·44	3·26	2 82	14 „
Julpigori	0 62	4·21	3·59	15 „
Rungpore	0·71	3·74	3·03	19 „

Saturday, 30th June —Pressure had risen generally. The rise was very large in South-West Bengal, and more especially at Saugor Island. It had fallen only at Cuttack, Gya, and Hazaribagh, the fall being largest at the former station. These changes accompanied the westward motion of the cyclonic vortex which crossed the Balasore coast late in the evening of the 29th, and was at 10 A.M. of the 30th advancing across the North Orissa hills into the Central Provinces. The variations of the pressure from the normal were considerable, ranging from +·07 at Dacca to —·23″ at Cuttack. Temperature was below the average over the whole province. The mean temperature of the past 24 hours was 7° in defect in East Bengal, 5° in Orissa, 4° in South-West Bengal, 1° in Behar, and 5° at Hazaribagh. Unusually strong winds were blowing at the head of the Bay and in South Bengal. Southerly winds were now established over the whole of South Bengal. Easterly winds continued in North Bengal and Behar. The cyclonic circulation in Orissa and the adjacent districts of Chutia Nagpur and South-West Bengal was indicated by the prevalence of southerly winds at False Point, south-easterly winds at Calcutta, easterly at Burdwan, north-easterly at Hazaribagh, and westerly at Cuttack. The air was very moist and skies were overcast in East and South-West Bengal, Orissa, and Chutia Nagpur. The cyclonic disturbance gave general rain to East and South-West Bengal, Orissa, and Chutia Nagpur. The indraught to it continued to diminish very considerably the rainfall in North Bengal and Behar, where a few light local showers of no importance fell during the past 24 hours. The rainfall, due to the cyclone, was excessive in Orissa and the adjacent districts of South-West Bengal. Balasore received 5·64 inches, and Cox's Bazar 4·29 inches.

Sunday, 1st July.—Pressure increased briskly over the whole province during the past day. The rise of the barometer was greatest at Cuttack. The depression had moved westward into the Central Provinces, and the centre at 10 A.M. was near Seoni. Pressure was above the normal of the day by amounts ranging from ·01″ at Cuttack to ·1″ at Durbhanga. Temperature was increasing with the diminution of cloud. The mean temperature of the past 24 hours was 3½° below the average in Orissa, South-West and East Bengal. Moderately strong monsoon winds were blowing this morning across the Bengal coast. The direction of the air motion was determined by the cyclonic vortex in the northern districts of the Central Provinces. Winds were south-easterly in East and South-West Bengal, and easterly in North Bengal, Behar, and Chutia Nagpur The indraught to the vortex in the Central Provinces diminished considerably the amount of moisture in the air over Bengal. The sky was overcast at two stations in Behar, and was partially clouded over the remainder of the province. Light local showers of little importance fell in Orissa, South-West Bengal, East Bengal, and Chutia Nagpur. Little or no rain occurred in North Bengal or Behar.

Monday, 2nd July.—The barometer had risen in Orissa, Chutia Nagpur and South Behar during the previous 24 hours. It fell in other districts. The changes were nowhere large. Pressure was above the normal of the day at all stations, by amounts ranging from ·03″ at Saugor Island, to ·08″ at Cuttack and Durbhanga. Temperature was increasing, and was above the average, except in East Bengal. The mean temperature of the past 24 hours differed very slightly from the normal for the day except in South Bengal, where it was 2½° in excess. Light southerly winds were blowing at the head of the Bay today. Winds were light and variable in North Bengal. Strongish winds between south and east continued in South Behar and Chutia Nagpur. The air was generally drier, especially in Orissa, South Behar, and Chutia Nagpur Skies were much less clouded in Bengal, and were overcast in Chutia Nagpur and the Gya district, and over the Darjeeling hills. A few light showers of no importance occurred in Orissa, South-West Bengal, and South-East Bengal. No rain fell over nearly the whole of Northern Bengal, Behar, and Chutia Nagpur.

Tuesday, 3rd July.—Pressure had increased generally by small amounts, and was above the normal, by amounts which ranged from ·03″ at Chittagong to 14″ at Hazaribagh. Temperature increased rapidly with the continuation of the partial break in the rains. The mean of the past 24 hours was 4° above the average in Northern and Central Behar, 2½° in Orissa, and 1° in South-West Bengal and Chutia Nagpur. Winds were light and irregular. Westerly winds had extended during the previous 24 hours from the North-West Provinces into South Behar and Chutia Nagpur. In the north-west angle of the

Bay, the winds had shifted round to north-west, indicating the commencement of a cyclonic whirl at the head of the Bay. Winds varying in direction between south and east, prevailed in East and North Bengal, and North Behar. The westerly winds in South Behar and Chutia Nagpur caused a considerable decrease in the humidity. Skies were overcast at a few stations in Orissa and South-West Bengal Elsewhere they are clear or lightly clouded Fairly general rain was received in South-West Bengal and in Chutia Nagpur. Purulia registered 3 4 inches and Contai 2 89 inches. Local showers fell in East Bengal and the Chumparun, Patna, and Gya districts. Elsewhere little or no rain fell.

Wednesday, 4th July.—The barometer had fallen at the great majority of stations, rather rapidly in East Bengal, and more slowly in other districts. Pressure was below the normal at Chittagong, and above it at all other stations. The most important feature was the establishment of an area of slight barometric depression in the Sunderbuns and the adjacent part of the head of the Bay to the south of Jessore. Temperature was normal in South-West Bengal, Chutia Nagpur, and the southern districts of South Behar, and above it in other districts. The mean temperature of the past 24 hours was 1° above the normal in East Bengal, and from 2½° to 4½° above it in North and Central Behar. Winds were mainly dependent on the barometric depression in South Bengal. In Eastern Bengal they were south-easterly or easterly. In Orissa, Chutia Nagpur, and at the more western stations in South-West Bengal, they ranged in direction between north-north-west and west-north-west. Winds were variable and light in North Bengal and North Behar. The air was considerably damper in South Behar and Chutia Nagpur The sky had clouded over again in Orissa and South-West Bengal, and was also thickly clouded or overcast in South Behar and Chutia Nagpur. It was nearly free from cloud in the western districts of North Behar. Rain fell in every division during the past 24 hours. General and moderately heavy rain was received in South-West Bengal and Chutia Nagpur. The rain showers were lighter in East and North Bengal and in South Behar, and the rainfall more local in character. Dum-Dum received 4·25 inches during the 24 hours preceding 6 P.M., Satkhira 3·85 inches, Saugor Island 3 82 inches, and Busseerhat 3·29 inches.

Thursday, 5th July.—Pressure gave way rapidly over the provinces during the preceding 24 hours. The fall of the barometer averaged a tenth of an inch and was greatest at Balasore (·15″) and at Saugor Island (·13″). Pressure was now below the normal by amounts which ranged from 002″ at Hazaribagh to ·02″ at Chittagong and Calcutta. The depression was more clearly marked. The centre of the cyclonic circulation on the 5th was near the coast of the Soonderbuns south of Jessore, and in nearly the same position as on the 4th. Temperature had decreased and was below the average, except at Dacca. The mean temperature of the past 24 hours was from ½° to 1½° below the normal, except at Calcutta, where the deficiency was 5½°. Winds indicated cyclonic circulation about a centre near the west of South Bengal. They were south-easterly in East Bengal easterly in North Bengal, north-easterly to northerly in North Behar, north-westerly in South Behar and Chutia Nagpur, and south-westerly at False Point and Gopalpore. Winds were stronger in Bengal and Chutia Nagpur, but were very feeble in Behar, where calms were registered at several stations. Humidity had increased considerably in Orissa, North and Central Behar and North Bengal The sky was overcast in Orissa, South-West Bengal, East Bengal. Behar and Chutia Nagpur, and thickly clouded in North Bengal, general rain fell in Orissa, South-West Bengal (except the Burdwan and Moorshedabad districts), East Bengal, Behar and Chutia Nagpur. The rainfall was heavy in Orissa, more especially the Pooree district. Pooree received 4·28 inches and Khordah 4·14 inches. It was light to moderate in South-West Bengal and East Bengal, and no heavy rainfalls were received. The rainfall in Behar was very general, and was well distributed, the majority of the amounts registered varying between one and two inches. The day was almost rainless in North Bengal.

Friday, 6th July.—Pressure had decreased at the great majority of stations. The fall of the barometer was small, except in Orissa and the adjacent districts of the south-west Provinces This fall brought into greater prominence the barometric depression at the head of the Bay. The centre was moving slowly westwards parallel to the west of the Soonderbuns towards the Orissa Coast. Pressure was below the average by amounts which ranged from ·02″ at Patna to 15″ at Saugor Island. Temperature was below the average, except at Burdwan and Dacca. The mean temperature of the past 24 hours was 4½° below the normal in Orissa, and 2½° in Behar and Chutia Nagpur Winds were generally stronger than they were on the 5th, more especially at the head of the Bay. They continued to indicate cyclonic circulation of moderate intensity The air was unusually dry in East Bengal. It was very damp in Chutia Nagpur, South Behar, and Orissa. The sky was overcast in Orissa, Chutia Nagpur and South Behar. The cloud amount in North Bengal was small Rain had fallen over nearly the same areas as during the previous 24 hours. Moderately heavy rain was falling in Orissa. False Point recorded the largest amount—3 36 inches. General rain was again received in Behar and Chutia Nagpur. Bettiah received 2·5 inches and Chupra 2 3 inches. Showers fell at the great majority of the sub-divisional stations in South-West Bengal. The rainfall was unusually light in North and East Bengal, but more especially in the former.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

METEOROLOGICAL OFFICE, BENGAL,
The 10th July 1883.

MORTUARY STATISTICS OF THE DISTRICTS IN BENGAL FOR THE MONTH OF MAY 1883

The subjoined table discloses that, during the abovementioned month, 88,391 persons died among a population of 64,553,682 living in the area under registration in Bengal, excluding the district of Lohardugga, from which no return was received up to date. These figures yield a death-rate of 16·32 per 1,000, against 17·76 per 1,000 in the preceding month, and 20 88 per 1,000 in the corresponding month of 1882. Males died at the rate of 18·36 per 1,000, and females at 14·52 per 1,000, and the proportion per cent. of male to female deaths was 124. The corresponding sexual returns of the preceding month were—male deaths 20·16 per 1,000; female deaths 15·48 per 1,000; ratio per cent. of male to female deaths 127.

The several death-causes presented the mortality shown below: —

	Ratio per mille	
	In May	In April
Cholera	2 40	2 04
Small-pox	21	·24
Fever	10 68	12 36
Bowel-complaints	·72	·72
Injury	36	·21
Other causes	1 80	2·04

indicating that, in comparison with the preceding month, the mortality from cholera had increased to a small extent, and that from fever had abated sensibly, while the fatality from small-pox and bowel-complaints maintained the same ratios.

The incidence of small-pox, fever, and bowel-complaints was, on the whole, normal in every district, except with regard to fever in Burdwan and Nuddea, where this disease prevailed rather severely. Cholera, however, proved conspicuously fatal in the undermentioned districts It is noticeable that in the districts of Bankura, Birbhum, Hughli, Jessore, Rajshahye, Bogra, Pubna and Maldah, which are said to be very well, if not thoroughly, protected by vaccination, no deaths occurred from small-pox:—

	Ratio per mille		Ratio per mille		Ratio per mille
Julpaiguri ...	12 72	Jessore	3 96	Rajshahye	3 00
Nuddea	9 60	Durbhanga ...	3 96	Tipperah ...	3 00
Shahabad ...	6 84	Balasore	3 96	Mozufferpore ...	3 00
Maldah ...	5 52	Patna ...	3 72	Howrah ...	2 88
Mymensing ...	4 68	Rungpore	3 24	24-Pergunnahs ...	2 76
Murshidabad	4·08	Backergunge ...	3 24		

The *Classes* or *Nationalities* into which the population of the registrative area is divided, presented the following death-rates, as contrasted with the rates of the preceding month:—

	Ratio per mille.	
	In May	In April
Christians	19 20	15 00
Hindus	16 20	17 52
Mahomedans	16 92	18 72
Budhists	11 88	11·04
Other races	13 68	12·84

These figures represent a decrease in the mortality among Hindus and Mahomedans and an increase among the other denominations, particularly among Christians, in comparison with the death-rates of the preceding month

Referring to mortality in relation to *Age*, infants under one year furnished a death-rate of 82·44 per 1 000 of the living, against 91 92 per 1,000 in the preceding month, and old men of 60 years and upwards of 33·84 per 1,000, against 39·72. The mortality under the rest of the groups of ages columned in the table, ranged from 23 40 per 1,000 among those aged 50 to 60 years to 8·16 per 1,000 among those of 10 and under 15 years, the corresponding proportions in the preceding month being 27·12 and 8 40 among those of the corresponding ages, respectively.

F. W A DEFABEGA,

Offg Sanitary Commissioner for Bengal.

The 7th July 1883.

Statement showing the Results of the Registration of Deaths in the Districts in Bengal for the month of May 1883.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 7th July 1883.

F. W. A. DEFABECK,
Offg. Sanitary Commissioner for Bengal.

MEMORANDA.

THE subjoined table exhibits the vital statistics of the first class municipalities in Bengal for the week ending 23rd June 1883. The figures submitted in this table indicate—

(1.) That the birth and death-rates amounted, respectively, to 21·2 and 28·4 per 1,000 of population, as opposed to the birth and death-rates of 14·7 and 27·3 per 1 000, respectively, in the preceding week ending 16th June, showing that both the birth ratio and the death ratio were higher during the week under review.

(2.) That the following municipalities returned the largest proportions of births and deaths during this week:—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Patna	62·3	Mozufferpore	62·0
Burdwan	25·9	Durbhanga	55·1
Bhagulpore	23·5	Gya	44·4
Comillah	23 1	Purneah	41·6
		Patna	35 4
		Comillah	34·7
		Bhagulpore	32 6
		Jessore	30·6
		Poori	30·0
		Darjiling	29 6
		Kishnaghur	28·8
		Chuprah	28 3
		Suburbs of Calcutta ..	27·1

(3.) That the mean rates at which the several death causes mentioned in the table proved fatal, in comparison with the rates of the preceding week, were:—

	Ratio per 1,000 during week ending 23rd June.	Ratio per 1,000 during week ending 16th June.
Cholera	4·5	5·6
Small-pox	·4	·4
Fever	11·7	11·7
Bowel complaints	4·5	3·1
Injury	·4	·3
Other causes	6·9	6 2

indicating that there were an increase in the death-rate from bowel-complaints, a decline in that from cholera, equal mortality from small pox and fever, and no material difference in fatality resulting from the other diseases.

(4.) That, individually considered, the greatest suffering from cholera and fever occurred in the undermentioned municipalities, the other diseases exhibiting no special local severity:—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.
Mozufferpore	21 9	Comillah	30 8
Gya	15·0	Purneah	27·7
Durbhanga	12·6	Mozufferpore	21·9
Chuprah	6 8	Gya	21·2
Suburbs of Calcutta ..	6 4	Kishnaghur	20·0

(5.) That referring to mortality with reference to *Class* or *Nationality*, Christians died this week in the highest proportion, Hindus in the next degree, and Mahomedans at the lowest rate; and that there occurred only one death among the Budhists, the casualty being recorded in the Darjiling Municipality.

(6.) That with regard to mortality referable to *Age*, infants, as usual, perished in the largest number, (199 5 per 1,000), and next to them children of one and under five years, (60 per 1,000); that the aged also returned a high mortality, (49·3 per 1,000); but that the lowest suffering occurred among adults of 10 and under 15 years, (12 6 per 1,000).

F. W. A. DEFABECK,

The 9th June 1883. *Officiating Sanitary Commissioner for Bengal.*

Statement showing the Results of the Registration of Births and Deaths in the First Class Municipalities in Bengal during the week ending 23rd June 1883.

The total fall from 1st January to 7th July 1883 ...	...	21·26
The average fall of the corresponding period for 24 years, S. G. Office ...	...	24·58

The mean pressure, temperature &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, t thunder, d drizzling rain, lr lightning reflection.

JOHN ELIOT,

For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA,
The 9th July 1883.

The results of observations at the Alipore Observatory are not rigorously comparable with he registers of past years (at the Park-street Observatory). The barometer is about 3 feet ıigher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of emperature is also greater at Alipore, and the mean temperature apparently about 0·5° greater; ınd finally, the thermometer, which has furnished the record of temperature at the Surveyor-ieneral's Office during the last 20 years and upwards, is found to read 0·6° higher than the Kew tandard thermometer, which is the standard of reference at the present Observatory.

N. B.—In the monthly abstract for April 1883 read 0·840, instead of 0·835, as the mean vapour tension during the month; and in that or May 1883 read 76 per cent., instead of 75 per cent. as the mean humidity, and 0 944 instead of 0·935 as the mean vapour tension during the month.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 1788A.

GENERAL.—*The 7th July* 1883.—Moulvie Mobaruck Ali, Officiating Deputy Magistrate and Deputy Collector, Sarun, returned to duty on the forenoon of the 23rd June last.

The 9th July 1883.—The orders of the 2nd ultimo, granting seven weeks' privilege leave to Babu Tara Prosad Chatterjee, Deputy Magistrate and Deputy Collector, Bishenpore, Bankoora, and appointing Babu Girendro Nath Chatterjee, Officiating Deputy Magistrate and Deputy Collector, Bongong, Jessore, now at Nuddea, to have temporary charge of the Bishenpore sub-division, are cancelled.

The 12th July 1883.—Mr. H. Gillon, Joint Magistrate and Deputy Collector, Gya, is appointed to act as District and Sessions Judge of Shahabad, during the absence, on leave, of Mr. J. Tweedie, or until further orders.

The 14th July 1883.—Mr. G. Toynbee, Joint Magistrate and Deputy Collector, is posted to the sudder station of the Purneah district.

Babu Peary Mohun Bannerjee, Deputy Magistrate and Deputy Collector, Midnapore, is transferred to Balasore, and is posted to the sudder station of that district.

Mr. C. N. Bannerjee, Deputy Magistrate and Deputy Collector, on leave, is posted to the sudder station of the Midnapore district.

The 17th July 1883.—Moulvie Syed Anwar Ahmed, Temporary Sub-Deputy Collector Buxar, Shahabad, is allowed leave for two months, under sections 127, rule 1, and 139 chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 29th June last.

Babu Khetter Mohun Mookerjee, Deputy Magistrate and Deputy Collector, Hooghly, is allowed leave for one month, under section 71, chapter V of the Civil Leave Code, with effect from the date on which he may avail himself of it.

Babu Protap Chunder Chatterjee, Deputy Magistrate and Deputy Collector, Balasore, is allowed leave for one month and twenty-two days, under section 71, chapter V of the Civil Leave Code, with effect from the 11th instant.

ECCLESIASTICAL.—*The 9th July* 1883.—The Revd. Jacob Missra, a Minister of the Free Baptist Denomination, Midnapore, is granted licenses under clause 3, section 5, and clause 5, section 5, of Act XV of 1872, authorizing him to solemnize marriages between persons one or both of whom is a Christian or Christians, and to grant certificates of marriage between persons who are Native Christians.

REGISTRATION.—*The 5th July* 1883.—Munshi Kafil-uddin Ahmed, Rural Sub-Registrar of Shazadpore, in the Pubna district, is appointed to be Rural Sub-Registrar of Dulai, in that district, *vice* Baboo Bholanath Adhikari, dismissed.

Babu Durga Kant Sen is appointed to be Rural Sub-Registrar of Shazadpore.

The 6th July 1883.—Munshi Abdur Rahim is appointed to be Rural Sub-Registrar of Syedpore, in the district of Furreedpore, *vice* Babu Dwarka Nath Sen, transferred.

The 9th July 1883.—Mr. W. C. Muller, Deputy Magistrate and Deputy Collector, Burdwan, is appointed to be also Sudder Sub-Registrar of Burdwan, with effect from the 1st June 1883, *vice* Babu Gopal Chunder Sen, retired.

EDUCATION.—*The 12th July* 1883.—Babu Bepin Behary Gupta, Assistant Professor, Rajshahye College (class IV of the Bengal Subordinate Educational Service), is transferred temporarily to the Presidency College.

OPIUM.—*The 7th July* 1883.—Mr. F. J. R. Field, Temporary Assistant Sub Deputy Opium Agent, Motiharee, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the 15th instant.

Mr. R. W. Blair, Assistant Sub-Deputy Opium Agent, Benares Agency, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the 20th instant.

The 10th July 1883.—Mr. H. Hastings, Assistant Sub-Deputy Opium Agent, Benares Agency, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the 28th instant.

JAILS.—*The 12th July* 1883.—In supersession of the order of the 12th May 1883, Mr. E. W. Payne, Assistant Superintendent of Jails, Bhagulpore, is allowed leave for two months and nineteen days, under section 71, chapter V of the Civil Leave Code, with effect from the 10th instant.

MEDICAL.—*The 10th July* 1883.—Assistant Surgeon Poorno Chunder Purkait, a Supernumerary at the Presidency Jail, is appointed to have charge of the charitable dispensary at Burdwan, during the absence, on leave, of Assistant Surgeon Kishoree Mohun Ghose, or until further orders.

ECONOMIC MUSEUM.—*The 13th July* 1883.—The Lieutenant-Governor accepts the resignation tendered by Babu Kali Das Bagchi of his appointment as Secretary to the Nuddea Economic Museum Committee.

ZOOLOGICAL GARDENS.—*The 17th July* 1883.—The following gentlemen are appointed to be members of the Committee for the Management of the Zoological Gardens at Alipore :—

Mr. C. E. Buckland, C.S. | Mr. J. Henderson.

MUNICIPAL.—*The 7th July* 1883.—The following gentlemen are re-appointed to be Commissioners of the Chittagong Municipality :—

Hajee Nasu Maloom. | Mr. G. F. Mill.

ROAD CESS.—*The 13th July* 1883.—Babu Bepin Behari Mukerji, Deputy Magistrate and Deputy Collector, is appointed to be Vice-Chairman of the Jessore District Road Cess Committee, *vice* Babu Rajani Nath Chatterjee, transferred.

The following notifications are re-published from the *Assam Gazette*:—

No. 175.—*The 5th July* 1883.—On the report of the Central Examination Committee, the Chief Commissioner directs the publication, for general information, of the result of the half-yearly examination of Assistant Commissioners, Extra Assistant Commissioners, and Sub-Deputy Collectors, held on the 7th May 1883 and the following days:—

NOTIFICATION.

The 13th July 1883.—Whereas a notification dated the 16th April 1883 was published at page 339, Part I of the *Calcutta Gazette* of the 25th idem, declaring the intention of the Lieutenant-Governor to confirm certain bye-laws framed by the District Road Cess Committee of Nuddea, under section 180 of the Cess Act, IX (B.C.) of 1880, and whereas no objections have been raised to those bye-laws, it is now notified for general information that they are confirmed.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th July 1883.—Whereas a notification was published in the *Calcutta Gazette* of the 25th April last, declaring the intention of the Lieutenant-Governor, on the recommendation of the Commissioners of the Baidyabatty Municipality, made at a meeting, to extend the provisions of sections 256 to 263 (both inclusive) of the Bengal Municipal Act, V (B. C.) of 1876, to that municipality, and whereas no objection has been raised to the proposed measure within one month from the publication of the notification within the municipality, the Lieutenant-Governor, in the exercise of the powers conferred on him by section 234 of the Act, sanctions the extension, and directs that it shall take effect from the 15th August 1883.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 14th July 1883.—The following notice is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 29.)

RED SEA.

Shoal off St. John's Island.

THE Political Resident of Aden has notified, that information has been received from the master of the S. S. *Gulf of St. Vincent* relative to a shoal lying near the fairway in the Red Sea.

The *Gulf of St. Vincent*, when proceeding down the Red Sea on the 24th June 1883, passed a reef (which, it is stated, is not shown on the Admiralty Chart) lying 45 miles S E. of St. John's islands.

The reef, which has very little water upon it, is about a mile long in a S E ½ S and N W ½ N (Magnetic) direction, and $\frac{1}{8}$th of a mile in width.

The bearings place the reef in latitude 23° 9′ 30″ N, longitude 36° 55′ 30″ E.

Mariners passing through the Red Sea are hereby cautioned to give this reef a wide berth.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 11th July* 1883.

[First Publication.]

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 9th July 1883.—In modification of the notification dated the 13th February 1883, published in the *Calcutta Gazette* of the 14th idem, Part I, page 176, the Lieutenant-Governor is pleased, under section 16 of Act VI of 1871, to fix Berhampore, the sudder station of the district of Moorshedabad, as the place at which the Court of the Munsif of Lalbagh shall, until further orders, be held; and under section 18 of the aforesaid Act to fix the local limits of the jurisdiction of the said Court as described below. The jurisdictions of the other Munsif's Courts of the district shall also be as shown against each below.

These arrangements have taken effect from the 14th March 1883.

MUNSIFS.	THANAS.
Berhampore (head-quarters at Berhampore).	Sujagunge. Gorabazar. Kalyangunge. Gokarna. Hariharpara. Nowada. Barwa. Daulatbazar.
Azimgunge (head-quarters at Azimgunge).	Goas. Jellinghee.
Lalbagh (head-quarters at Berhampore).	Bhagwangola. Shahanagar. Manullabazar. Assanpur. Sagardighi.
Jungypore (head-quarters at Jungypore).	Dewansarai. Raghunathgunge. Mirzapur. Sooti. Shamshergunge.
Kandi (head-quarters at Kandi).	Bharatpore. Khargaon. Kandi.

Note.—Mohimapur and Budrihat, which were mentioned as thanas in the notification dated the 19th January 1880, are in reality dependent outposts—the former subordinate to Thana Shahanagar, and the latter to the independent outpost of Sagardighi.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 17th July 1883.—Under section 4 of Act VII of 1871 (the Indian Emigration Act) the Lieutenant-Governor approves of the appointment of Monsieur Pierre Charriol to act as Emigration Agent at Calcutta for the French Colonies, during the absence, on leave, of Monsieur E. Charriol.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th July 1883.—Whereas a notification dated the 1st March 1883, declaring the Lieutenant-Governor's intention to confirm the bye-law reproduced below, which has been framed by the Commissioners of the Suburban Municipality, under section 256, Act V (B.C.) of 1876, was published at page 212, Part I of the *Calcutta Gazette* of the 7th idem, and whereas no valid objection has been raised to the measure, the Lieutenant-Governor, in the exercise of the powers conferred on him by sections 314 and 315 of the said Act, hereby confirms the said bye-law, and sanctions the penalty which has been provided by the Commissioners for its infringement.

"No hut or other building, the external roof or walls of which are made of grass, leaves, mats, or other inflammable materials, shall be erected, renewed, or thoroughly repaired within the limits of the municipality, except with the sanction of the Commissioners.

Any person infringing this bye-law shall be liable to a fine not exceeding Rs. 20, and to a daily fine not exceeding Rs. 5 for continued infringement."

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

GULF OF CUTCH.

Beyt or Bate (Sainia) new light.

THE Agent to the Governor-General at Baroda has given notice that a new lighthouse on the highest, and nearly the central, part of Sainia island, at the entrance to Beyt harbour, has been erected, and that the light was exhibited therefrom on the 13th May 1883.

The light is a *fixed* white light, elevated 71 feet above the sea, and should be visible in clear weather from a distance of 13 miles. The building is a circular tower of stone masonry, and is 65½ feet high from base to vane.

A *red* ray is also shown from this light to cover the danger called the *Chinri Reef* over a sector of 30 degrees from the bearings of S. 37° 30′ W. to S. 67° 30′ W.

The illuminating apparatus is dioptric, or by lenses of the fourth order.

Position, as determined by G. T. S., latitude 22° 29′ 18″ N., longitude 69° 04′ 41″ E.

The light is intended as a guide to the harbour of Beyt, and for vessels crossing the mouth of the Gulf of Cutch.

The bearings are *Magnetic*, and are given from the *ship, not* from the *light*.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, 27th June* 1883.

PORT OF AKYAB OR ARAKAN.

Buoy marking sand off Flat Island.

THE Port Officer, Akyab, has notified that on the 6th June 1883, a new (first class) buoy, painted *black*, had been moored on the tail of the sand running from Flat Island, in Akyab port, to indicate the extension which has taken place there.

The buoy lies in 17 feet of water at low-water ordinary springs, distant half a mile South of the old position of the lower black buoy and on the following bearings:—

Savage island lighthouse	..	..	..	S 7° W.
Point flagstaff	..	..	..	S 29° W.
Jail creek	..	..	..	West.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 19th June* 1883.

DECLARATION.

The 7th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Deoghur Municipality for a public purpose, viz. for the opening of a road in the town of Deoghur, sub-division Deoghur, district Sonthal Pergunnahs, it is hereby declared that for the above purpose a piece of land measuring, more or less, 11½ gundahs of standard measurement, is required. The land is bounded on the north by Kali Dutt Dwary's pirti land; on the south by Kali Dutt Dwary's, Sham Lal Jha's, and Sree Kumar Jha's houses and a public footpath; on the east by the Siva Gunga lane, and on the west by Mana Lal Dutt Jha's pirti land and a public lane.

This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

A plan of the land can be inspected in the office of the Sub-Divisional Officer of Deoghur.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 10th July 1883.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. for the extension of the Ishapore Gunpowder Factory, in the village of Ishapore, pergunnah Kalikata, zillah 24-Pergunnahs, it is hereby declared that for the above purpose a strip of land measuring about 101 beegahs 12 cottahs and 12 chittacks, more or less, bounded on the north and west by the present Government Ishapore Gunpowder Factory lands, on the east by the Barrackpore and Kanchrapara Ferry Fund Road, and on the south by a portion of Asmutulla Shekh's land, Jitoo Mistry's bamboo garden, Foizuddin Shekh's house, Joogeepara road, Jodu Joogy's house, Ishan Ghose's garden, Kedar Neogy's land, Madhob Ghose's tank and garden, part of Palpooker, part of Bidyadhor and Mohesh Neogy's house, Broja Neogy's house, and Grish Chunder Neogy's garden, is required within the aforesaid village of Ishapore.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

Babu Dabendra Lall Shome, Munsif of Pooree, in the district of Cuttack, is allowed leave for two months, under section 127, chapter X of the Civil Leave Code, in extension of the leave granted to him on the 19th June 1883.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 5th July 1883.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Moulvie Mahomed, Deputy Magistrate, Mymensingh, to take down evidence in criminal cases in the English language.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 5th July 1883.—It is hereby notified that Bholanath Adhikari, Rural Sub-Registrar of Dulai, in the Pubna district, who has been sentenced to 14 months' rigorous imprisonment on conviction of offences under sections 457, 354, and 323 of the Indian Penal Code, is dismissed from the Registration Department, and is further declared incapable of serving Government again in any capacity.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION

The 7th July 1883.—It is hereby notified that the Lieutenant-Governor sanctions the extension of the provisions of section 34 of Act V of 1861 to the town of Meherpore, in the district of Nuddea.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th July 1883.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Sant Pershad, Deputy Magistrate of Mozufferpore, to take down evidence in criminal cases in the English language.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 11th July 1883.—It is hereby notified for general information that, under the provisions of section 269 of the Code of Civil Procedure (Act XIV of 1882), the Lieutenant-Governor has made the following rule for the maintenance and custody of live-stock while under attachment under a decree or order of the Court of Small Causes, Calcutta:—

Rule.—Live-stock attached under a decree or order of the Court of Small Causes, Calcutta, may, while under attachment, be sent for maintenance and safe custody, at the decree-holder's expense, to such place as the Chief Judge may from time to time direct.

N B—Notwithstanding the extension of section 269 of the Code of Civil Procedure to the Court of Small Causes, Calcutta, the rules for the maintenance and custody, while under attachment, of live-stock and other moveable property, which were published in the *Calcutta Gazette* of the 16th April 1879, do not apply to it, but apply exclusively to Courts in the mofussil.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 10th July 1883.—Under section 29 of the Bengal Civil Courts Act, VI of 1871, the Lieutenant-Governor vests each of the undermentioned officers with the jurisdiction of a Judge of a Court of Small Causes for the trial of suits cognizable by such a court up to the amount of Rs. 50 within the limits of his local jurisdiction.

Babu Prosunno Kumar Ghose, Munsif of Jungipore, in the district of Moorshedabad.
" Karunamy Banerjee, Sudder Munsif of Purneah.
" Probode Chundra Dutta, Munsif of Busirhat, in the district of the 24-Pergunnahs.
" Har Kumar Roy, Munsif of North Sylhet, in the district of Sylhet.
" Ramjadub Talapatro, Munsif of Azimgunge, in the district of Moorshedabad.
" Soshee Bhusan Sen, Munsif of Muradnuggur, in the district of Tipperah.
" Purna Chundra De, Munsif of Hosseinpore, in the district of Mymensingh.

EDUCATIONAL NOTICE.

IT is hereby notified that the seven junior scholarships allotted to the Chota Nagpore Division under orders of Government have been distributed as follows on the result of the current year's examination.

2. The two second grade scholarships will be awarded to the candidates who stand highest in order of merit in the divisional list, irrespective of districts.

3. The five third grade scholarships will be distributed among the different districts of the division as follows :—

Lohardugga District.

Ranchi Government School ...	...	...	...	1
Palamow ditto ...	...	...	...	1
Manbhoom district ...	...	...	...	1
Singbhoom ditto ...	...	...	...	1
Hazaribagh ditto ...	...	...	...	1

4. If any of these five third grade scholarships is not attained by any of the boys of the schools or districts to which it is allotted, then it may be given to the boy who has passed the best examination in the division among those who have not obtained scholarships.

J. F. K. HEWITT, *Commissioner of Chota Nagpore.*

COMMR'S OFFICE, RANCHEE, *the 10th July* 1883.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 736B.

NOTICE is hereby given that the Eighth Sale of Opium, the Provision of 1881-82, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 2nd August 1883, at 11 A.M., and will comprise 4,450 chests, viz :—

	Chests.
Opium manufactured at the Patna Factory, consisting of 219 lots and four chests of 75° consistence and 225 lots and one chest of 76° consistence	2,225
Opium manufactured at the Ghazipore Factory, consisting of 445 lots of 72° consistence	2,225
Total ...	4,450

2nd. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1882, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd. The latest dates for deposit and clearance will be the 7th and 17th August 1883, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 7th August 1883, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 17th August 1883.

4th. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year, about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Thursday, 2nd August 1883...	2,225	2,225	4,450
„ Monday, 3rd September „ ...	2,225	2,225	4,450

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following Extraordinary, issued by the Government of India, Department of Finance and Commerce, is republished for general information :—

NOTIFICATION.

ACCOUNTS AND FINANCE.

Simla, the 13th July 1883.

No. 2050.

The Governor General in Council has determined to borrow Two Hundred and Fifty Lakhs of Rupees, being the amount required for the public service.

The following Notification is therefore published :—

FOUR PER CENT. LOAN.

His Excellency the Right Hon'ble the Governor General in Council has resolved to borrow Two Hundred and Fifty Lakhs of Rupees for the public service in the following manner.

2. Promissory Notes will be issued for the said amount in Form A annexed to this Notification, being the form of the notes of *The Four Per Cent. Loan of 1865*, of which Loan the notes to be now issued will form a part. All the conditions which apply to notes of *The Four Per Cent. Loan of 1865* will apply to the notes to be now issued.

3. Tenders for the whole or any part of the said amount of Two Hundred and Fifty Lakhs of Rupees will be received by the Comptroller General from this date to noon of Tuesday, the 14th August 1883. Tenders must be in sums of 500 Rupees or multiples of 500 Rupees.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Four Per Cent. Loan, 1883.*" If the tenderer is not resident in India, he must name an agent resident in India to whom a letter of allotment may be issued if any part of the loan is allotted to such tenderer.

5. Each tender must be accompanied by a receipt from one of the Banks of Bengal, Madras, or Bombay, or one of their Branches, or from an Officer in charge of some public Treasury, or by a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, or Bombay, or by* Government Promissory Notes, standing in the name of or endorsed to the tenderer or the person making the deposit, for not less than one-hundredth, or, if the tender

* *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. If the allotment is not fully taken up, this deposit of one or two per centum will be forfeited; and if one or more Government Promissory Notes have been deposited, such note or notes will be appropriated by the Government and cancelled; otherwise, if the deposit is in cash, it will be either refunded to the tenderer after his tender has been completely paid up, or, on his application, taken in part payment, completing the amount due upon his tender. A cash deposit may, after acceptance of the tender in support of which it is made, be replaced by a Government Promissory Note, as aforesaid.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

7. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms, as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders, will be rejected as null and void.

8. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

9. Tenders will be opened, publicly, by the Comptroller General at the Currency Office, No. 1, Dalhousie Square, Calcutta, at noon on Tuesday, the 14th August 1883; but the contents of the tenders will not be disclosed otherwise than as provided in clause 11.

10. Tenders at the recorded minimum rate, and at rates above the recorded minimum rate, will be accepted in the order of the rates tendered, beginning with the highest rate; the amount allotted at the lowest rate at which tenders are accepted, will be divided amongst those who have tendered at this rate, in proportion, as nearly as may be found convenient, to the amounts of their tenders: provided that no allotment will be issued if the amount distributable on any tender is less than R350.

11. To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him, will be issued as soon as possible after the 14th August 1883; and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted, for general information, at the Head Offices of Banks of Bengal, Madras, and Bombay.

12. If the allotment made on any tender is less than R3,000, then the whole of the allotment-certificates will be made payable upon Tuesday, September 25th, 1883.

Otherwise the whole amount of each allotment will be divided into three instalments, as follows:—

Instalment I—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon Tuesday, August 28th, 1883:

Instalment II—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon Tuesday, September 25th, 1883:

Instalment III—The balance, payable upon Saturday, October 20th, 1883

and allotment-certificates will be issued for each instalment separately.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of R500.

13. Any allotment-certificate will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations, provided that if any payment is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

14. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of one of the Banks of Bengal, Madras, or

Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate.

15. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, Promissory Notes of such values as he may desire (each note being in even hundreds and not less than R500), bearing interest from November 1st, 1883, and he will also receive interest at four per cent. per annum from the dates on which he may have made payment till the last day of October 1883.

(*b*) Or he may, at his option, by paying interest at the said rate from 1st May 1883, to the dates on which he may have made payment, obtain Promissory Notes as above, bearing interest from 1st May 1883.

16. The holder of a paid-up allotment-certificate may also, on special application, obtain, on the same terms and conditions as are mentioned in section 15, clause (*a*), Promissory Notes with coupons attached, or stock certificates (Form B) with coupons attached, and payable to bearer, in accordance with the Loan Notification of this Department, dated 27th June 1881 (*i.e.*, *The Four Per Cent. Loan of 1881*, forming part of *The Four Per Cent. Loan of 1st May 1865*). In such cases the first coupon issued will be that which falls due on 1st May 1884.

By Order,

D. M. BARBOUR,

Secretary to the Government of India,
Department of Finance and Commerce.

FORM A OF PROMISSORY NOTE (see Clause 2).

Fort William, the 1st of May 1865.

Promissory Note No. *Government Rupees* *at four per cent. of 1865.*

The Governor General of India in Council does hereby acknowledge to have received from
the sum of Government Rupees Five Hundred as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan, by paying the said sum of Government Rupees Five Hundred, to the said ,
his Executors, or Administrators, or his or their Order, on demand, at the General Treasury at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees Five Hundred from the 1st November 1883 (Eighty-three), at the rate of four per cent. per annum, by half-yearly payments, at the General Treasury of Fort William, to the said
, his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

FORM B OF COUPONED CERTIFICATE.

India Four Per Cent. Rupee Loan, 1865.

Redeemable at any time after three months' notice in the "Gazette of India."

Certificate

R 000 No.

This is to certify that the bearer of this certificate is entitled, under the Notification of the Government of India of the 27th June 1881, to Government Rupees
India Four Per Cent. Rupee Loan, 1865, payable Three Months after Notice, which may be published in the *Gazette of India* at any time.

No. , R

Calcutta, 1st November 1881.

The coupons attached to this Certificate, as well as the principal sum herein named, are payable to bearer at the Government Treasury at Calcutta only.

FORM C OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (X) *of The Four Per Cent. Loan, 1883*, advertised in the Notification published in the *Gazette of India Extraordinary*, dated the 13th July 1883, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the Bank of† (or at the† Branch of the Bank of† ; or into the Public Treasury at† , as the case may be)—

* Or Cheque or Government Promissory Note.

† Here enter the name of Bank, Branch Bank or Treasury.

The first instalment, not exceeding 35 per cent., on or before Tuesday, 28th August 1883.

The second instalment, not exceeding 35 per cent., on or before Tuesday, 25th September 1883.

The balance, on or before Saturday, October 20th, 1883.

Or, if the amount allotted to me be less than R3,000, then the whole amount on or before Tuesday, 25th September 1883.

‡ Here insert C. D.'s address, which must be in India. This paragraph should only be inserted if A. B. does not reside in India, or if, residing in India, he wishes the allotment communicated to an agent.

Any allotment made to me may be communicated to *C. D. at* ‡

NOTE (1)—*A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount; thus, "One hundred and two," or "One hundred," or "Ninety-nine;" not "Two per cent. premium," or "Par," or "One per cent. discount."*

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:—

Filling up Tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office, on application to the Durwan on duty,—at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay: and will also be supplied to the principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of Tenders.

(3) For all tenders presented to him in his Office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number, and initialled by himself or an assistant specially deputed for the purpose.

Return of deposit in case of non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General. The deposit will then be returned to the bearer, in exchange for the receipt.

(5) Deposit upon tenders presented personally, as described in No. 3 above, will be returned only in this way, and will not be sent by post, or otherwise. Deposits upon other unsuccessful tenders will be returned by post, or by the hands of a clerk.

Accepted Tenders.

(6) It will be observed that instead of the hitherto-used form of allotment letter, the Comptroller General will issue allotment certificates to successful tenderers. These certificates will be for the following amounts R500, R1,000, R2,000, R5,000, R10,000, R20,000, R50,000, R1,00,000, making up the full value accepted; and will be, substantially, of the following form:—

This is to certify that, in accordance with the terms of Notification No. 2050, dated 13th July 1883 (Gazette of India Extraordinary, *dated 13th July 1883*), *the above-named tenderer has engaged to take up R2,000 of the 4 per cent. loan of 1883, at the rate above mentioned, on or before September 25th, 1883, and that on the said payment being completed, he is entitled, on endorsing and delivering up this certificate, to receive a promissory note or notes or stock certificate of the Government of India for R2,000, bearing interest from November 1st, 1883.*

CALCUTTA,
13th July 1883.

J. WESTLAND,
Comptroller General.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, JULY 18, 1883.

PART II.

Advertisements.

[N B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of the Sonthal Pergunnahs will be put up to sale at the Dumka Collectorate on Friday, the 28th September 1883, corresponding with 13th Assin 1290 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of the purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Collector's Office, Khoolna, the 13th July 1883. W. CLAY, Collector.

NOTICE.

PUBLIC WORKS DEPARTMENT, IRRIGATION BRANCH.

1. OFFERS are invited from private firms or companies desirous of taking over the steam transport service now kept up by Government on the Sone Canals.

2. Copies of the following documents relating to the service may be had on application to the Under-Secretary in this Department, Writers' Buildings, Calcutta, or to the Superintending Engineer, Sone Circle, Arrah, Shahabad :—

I.—Description of the steamers employed.

II.—General rules under which the service is now conducted, shewing also the fares charged and distances run.

III.—Detailed statement shewing the receipts and working expenses of the service during the year 1882-83.

3. The tolls leviable, under Act V (B.C.) of 1864, on boats or steamers plying in the Sone Canals are shewn in a notice published in the *Calcutta Gazette* for the 18th January 1882, Part I, page 59. They are in amount as follows :—

	Per 100 maunds of displacement. Rs. A. P.
Arrah Canal—	
Dehree to Arrah railway bridge	2 3 0
Buxar Canal—	
Bedadi to railway, Buxar	2 0 0
Patna Canal—	
Baroon to railway, Khagoul	2 15 0

4. The purchase of the steamers now employed on the canals must form an integral part of any tender. The descriptions of the steamers referred to in paragraph 2 of this notice are believed to be correct, but persons proposing to tender should examine the boats for themselves, as no errors of description will be admitted as a reason for cancelling a tender.

5. Reduced rates of tolls may, for a period not exceeding one year, be stipulated for; but in that case the fixed intervals at which the steamers will run must be mentioned in the tender, and the maintenance of an effective service will be required as a condition of the concession.

6. The Government will, so long as a service is regularly carried on, cease from carrying passengers by boat or steamer, or goods not required for Government works.

7. No exclusive concession can be granted, the canals being open to all boats, whatever the motive power, on payment of the tolls prescribed by law.

8. It is proposed to make over the service, should a tender be accepted, from the 1st of October next, but a later date may be named.

9. All tenders must be addressed to the Secretary to the Government of Bengal in the Public Works Department, and must be accompanied by a receipt from the officer in charge of the Third Calcutta Division, or from some Executive Engineer for Rs. 500 earnest-money, to be forfeited if the person tendering fails to carry out the offer made. Tenders will be received up to the 1st of September next.

10. The highest or any tender will not necessarily be accepted.

J. M. HEYWOOD,

Joint-Secy. to the Govt. of Bengal,
P. W. Dept.

Commissioners for making Improvements in the Port of Calcutta.

High Court, Calcutta, the 13th July 1883. (1336—1)

Notification.

THE Corporation of the Town of Calcutta are prepared, with the sanction of the Lieutenant-Governor of Bengal, under the provisions of section 334 of Act IV (B.C) of 1876, to receive tenders for a Debenture Loan for (3,00,000) three lakhs of rupees on the security of the water-rate, imposed and levied under the said Act, to be expended in meeting the cost of preparatory works in connection with the scheme for increasing the water-supply for the town.

2. Debentures will be issued for the said amount bearing interest at the rate of 4½ per cent. per annum, payable on the 1st February and 1st August of each year, and having a currency of 20 years.

3. The form of the debenture bonds will be that given in the seventh schedule of the aforesaid Act.

4. No debenture will be issued for any sum less than rupees (500) five hundred, and above that amount debentures will be issued only for even sums of rupees (100) one hundred.

5. Subscriptions will be received by the Bank of Bengal, and debentures will be issued as soon as possible in exchange for the receipts.

6. Tenders for the whole or any part of the above-named sum of Rupees (3,00,000) three lakhs will be received by the Secretary to the Corporation up to 2 o'clock P. M. of Wednesday, the 25th July 1883.

7. Each tender must be made out in the form annexed to this notification, and enclosed in a sealed cover superscribed "Tender for Municipal Loan for 1883-84."

8 Tenders will be opened at the Municipal Office on Wednesday, the 25th of July 1883, at 2 o'clock P. M., a minimum rate having been previously fixed.

9. Each tender must be accompanied by Government Promissory Notes or Currency Notes equivalent to 2 per cent. of the amount tendered.

10. The deposits on tenders which may not be accepted will be returned on application, and will be forfeited if an allotment after being made is not taken up.

11. In case of two or more tenders at the same rate (being not below the minimum) a *pro rata* allotment will be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each such tender. It is desirable that the tender, or at least the name of the person making the tender, and the amount and rate tendered should be written in English.

C. W. HOPE, Acting Secy. to the Corporation.

12th July 1883.

FORM OF TENDER.

I HEREBY tender for ( ) Rupees of the loan advertised in the Notification published in the *Calcutta Gazette*, dated 18th July 1883, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees annas* for every hundred Rupees allowed me.

* Fractions of one anna not allowed.

2. I enclose Government Promissory Notes or Currency Notes for Rs. and engage, if my offer be accepted, to pay to the account of the Municipality at the Bank of Bengal, Calcutta, on or before Tuesday, the 31st July next, the amount of the accepted tender.

N.B.—A separate tender must be made at each rate tendered, and a separate deposit must accompany each tender. In order to avoid mistakes, it is desirable that the tenderer's name, at least the name of the person making the tender, and the amount and rate tendered, should be written in English.

(1341—1)

Serampore Municipality.

DEBENTURE LOAN OF Rs. 20,000.

THE Commissioners have obtained the sanction of the Government of India, under section 7 of Act XI of 1879, "The Public Works Loan Act," to raise a loan of the above sum in the open market on the security of the rates, taxes, and fees levied by them under Act V of 1876 (B.C.), Regulation VI of 1879, Act I of 1871, Act V of 1866, Act V of 1861, Act II of 1867, Act IV of 1873, and Act VI of 1878.

Tenders are hereby invited, and will be received up to 1st October 1883, for the whole or any part of the abovenamed sum.

Negotiable debentures will issued of Rs. 500 each, and the loan will be repayable by equal half-yearly instalments with interest at 4½ per cent. on the 1st April and 1st October, commencing on the 1st April 1884.

Parties tendering are required to pay into the sub-divisional treasury, to the credit of the Commissioners, 2 per cent. of the amount tendered by way of security.

Tenders to be made in prescribed form which may be had on application at the office of the Commissioners, and to be enclosed in sealed covers marked, "Serampore Municipality Market Loan."

The amount of the accepted tender or tenders to be paid in one instalment within one month from date of acceptance of tender.

The time for opening tenders will be duly intimated in writing to the tenderers.

F. R. S. COLLIER, Chairman.

(FORM OF TENDER.)

I do hereby tender for rupees of the loan advertised for in the *Calcutta Gazette*, dated the 18th July 1883, and agree to pay for the same subject to the conditions specified at the rate of rupees for every hundred allowed to me.

I enclose a deposit receipt of the Sub-divisional Treasury Officer for Rs. by way of security, and do hereby bind myself, if my tender be accepted, to pay to the credit of the Commissioners at the sub-divisional treasury office the whole sum tendered for by me before the 31st October 1883.

(FORM OF DEBENTURE.)

SERAMPORE MUNICIPALITY.

No. , dated 1883.

By virtue of the authority given by the Government of India under section 7 of Act XI of 1879, "The Public Works Loan Act," we, the Commissioners of the Municipality of Serampore, in consideration of the sum of Rs. 500 paid to us by of promise to repay in equal half-yearly instalments to the said or his heirs or assigns the said sum of Rs 500 after the date hereof, together with interest thereon at the rate of 4½ per cent. per annum payable half-yearly on the 1st April and 1st October.

Chairman.

(1331—6) Commissioners.

Notification.

IN supersession of the notification published at page 231, Part II, of the *Calcutta Gazette* of the 7th March 1883, the following is published for general information.

Under the provisions of section 2 of Act VI of 1876 (the Chota Nagpore Encumbered Estates Act) Babu Adhur Kali Mukherjee is appointed to be the Manager, and the management is vested in him with retrospective effect from the 9th May 1879, the date when Jobraj Singh succeeded to the property of Churamon Singh, late Tekait of Doranda, whose property was declared, in notification published in the *Calcutta Gazette* of 21st May 1879, to be vested in the Deputy Commissioner of Hazaribagh, of the undermentioned immovable property of Tekait Jobraj Singh of Gadi Doranda, in the district of Hazaribagh, and of any property, both movable and immovable to which the said Tekait is entitled in his own right, or which he may have inherited, or which he was entitled to redeem, or which may be acquired by or devolved on him or his legal heir during the continuance of such management.

Gadi Doranda with Mejhladih and Bhandari including 719 bighas 18 cottahs of land, formerly cultivated by the late Tekait Churamon Singh and his family.

(1344—1) J. F. K. HEWITT, Commissioner.

In the matter of the Indian Companies Act, 1866, and of the Medla Tea Company, Limited.

NOTICE is hereby given that the Hon'ble Mr. Justice Pigot, one of the Judges of Her Majesty's High Court of Judicature at Fort William in Bengal, has fixed Thursday, the 26th day of July 1883, at 11 o'clock in the forenoon, at the Court House in Calcutta, as the time and place for the appointment of an official liquidator of the abovenamed Company in the place and stead of William Minlove Walton appointed by order dated the 12th day of March 1881.

Dated this 26th day of June 1883.

By order,

(1333—1) R. BELCHAMBERS, Registrar.

"AT a meeting of shareholders of the Dessai and Parbuttia Tea Company, Limited, held at the registered office of the Company, No. 100, Clive Street, Calcutta, at noon, on 13th July, it was resolved *nem. con.* that the articles of association be altered, as per previous advertisement.

W. L. THOMAS, Chairman.

"WITH reference to the foregoing an extraordinary general meeting of shareholders will be held at noon on 10th August at the registered office of the Company, No. 100. Clive Street, Calcutta, to confirm the resolutions passed at the above meeting."

By order,

GEORGE HENDERSON & Co.,

(1340—1) Secretaries.

Notification.

On Friday, the 13th day of July instant, it was ordered that the matters of the petition of the said insolvent be heard on Wednesday, the 5th day of September next, and that the said insolvent do then attend to be examined before the said court.

Insolvent in person. (1345—2)

In the matter of CHARLES HOLMES LEWIS, an assistant at Badham Brothers, and residing at No. 36, Kopalitollah Lane in Calcutta, an insolvent.

Notice that the petition of the said insolvent, seeking the benefit of the Act, XI Vic. Chap XXI, was filed in the office of the Chief Clerk on Friday, the 13th day of July instant, and by an order of the same date the estate and effects of the said insolvent were vested in the Official Assignee.

Insolvent in person. (1346—1)

In the matter of MICHAEL EMANUEL SEVASTAPULO, an insolvent.

On Tuesday, the 10th day of July instant, it was ordered that the matters of the petition of the said insolvent be heard on Wednesday, the 5th day of September next, and that the said insolvent do then attend to be examined before the said court.

H. C. Chick, Attorney. (1347—2)

In the matter of MICHAEL EMANUEL SEVASTAPULO, residing at No. 33, Scoterkin's Lane in the town of Calcutta, formerly carrying on business as produce broker at no 106, New China Bazar in Calcutta, under the style of Sevastapulo & Co., and lately in the employ of Mr. P A. Masson, as assistant, but now without employment, an insolvent

Notice that the petition of the said insolvent, seeking the benefit of the Act, XI Vic Chap XXI, was filed in the office of the Chief Clerk on Tuesday, the 10th day of July instant, and by an order of the same date the estate and effects of the said insolvent were vested in the Official Assignee.

H. C. Chick, Attorney. (1348—1)

In the matter of DAVID JOSEPH ROBINSON, an insolvent.

On Wednesday, the 6th day of June last, by an order of this court the said insolvent was adjudged entitled to his personal discharge under the Act, XI, Vic Chap XXI, as to all persons named in his schedule as creditors or claiming to be creditors respectively.

Insolvent in person. (1349—1)

In the matter of BANKYMADUB CHATTERJEE, an insolvent

Notice that an application for an *ad interim* protection order has been this day made by the said insolvent and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Wednesday, the 25th day of July instant, at the hour of 10 o'clock in the forenoon.

☞ "Any creditor of the said insolvent, desirous of opposing such application, must appear before the said court at the time and place aforesaid."

Bissonauth Dutt, Attorney. (1350—1)
Chief Clerk's Office, the 17th day of July 1883

Insolvency Notice.

In the Court for the Relief of Insolvent Debtors at Calcutta.

Estate Rackhal Chunder Banerjee.

NOTICE is hereby given that the Hon'ble the Commissioner of the Insolvent Court will sit to adjudicate on the proof of claims in the above matter on Wednesday, the 1st proximo, at 11 o'clock.

JOHN ELIOT, M.A., *Meteorological Reporter to the Govt. of Bengal.*

Calcutta, the 26th August 1875.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	„ 45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

Meteorological Office, Bengal, the 3rd July 1883.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trubner & Co., Ludgate Hill, London. Price five shillings.

ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATION IN BENGAL AND THE ANNUAL REPORT OF THE QUINOLOGIST FOR THE YEAR 1882-83.

FINANCIAL DEPARTMENT—AGRICULTURE

Calcutta, the 10th July 1883.

RESOLUTION.

READ—

The Annual Report of the Government Cinchona Plantation in Bengal for the year 1882-83, and the Annual Report of the Quinologist for the same year.

The result of the planting operations of the year shows a decrease of about 50,000 cinchona trees on the returns of 1881-82. This is due to the uprooting of a large number of the *Calisaya* and hybrid varieties which were found to possess bark of poor quality. Some 160,000 red bark trees were also uprooted in the ordinary rotation, and were replaced by the yellow bark and hybrid varieties. Nearly all the land within the existing cinchona reserve suitable for the cultivation has now been planted out, and the Superintendent accordingly applied, in October last, for permission to plant out with *Ledgeriana* and the hybrid variety a tract of land in the trans-Teesta portion of Darjeeling which had been reserved for Government cinchona cultivation. Both these species have been proved by repeated analyses to be very rich in quinine, while most of the yellow bark or quinine-yielding trees on the existing plantations at Mungpoo are quite young, and the whole stock is not sufficient to furnish, even when mature, enough bark to employ the factory profitably for more than a few weeks in the year. There is in fact no plantation of these trees actually

in existence, while the nurseries have a magnificent stock of nearly half a million plants of the best sorts of yellow bark trees which would be lost unless the seedlings were speedily planted out. The proposal for forming the new plantation was readily approved by Government, and measures have since been taken for planting out the reserve with a number of the best kinds of *Ledgeriana* and hybrid cinchonas.

2. In the Resolution recorded upon the proceedings of last year, it was remarked that there were several distinct forms of the hybrid variety, and analyses were given of the samples of bark of four of these forms. During the year under review the Superintendent had analyses made of four more of these forms, and the results obtained from all the eight hybrids are compared in the following table:—

	No. 1.	No. 2.	No. 3.	No. 4.	No. 5.	No. 6.	No. 7.	No. 8.
Crystallised sulphate of quinine	2·67	1·48	1·83	0·97	2·12	2·04	6·12	3·99
" " of cinchonidine	2·94	2·85	2·93	1·94	2·34	2·26	2·46	3·33
" " of quinidine	traces.	traces.	traces.	traces.	traces.	traces.	traces.	traces.
Cinchonine (alkaloid)	0·72	0·57	0·52	0·80	0·33	0·08	0·55	0·37

Dr. King points out that hybrid No. 4 is very poor in quinine, and it was the trees of this sort that were uprooted during the year. No. 7 appears to be exceptionally rich in quinine, and the plantations of this variety might with advantage be extended.

The total number of cinchona trees of all sorts at the close of the year was 4,711,168, namely red (*Cinchona Succirubra*) 3,713,200, yellow (*Calisaya Ledgeriana*) 662,998, hybrid unnamed variety 304,378, and other kinds 30,592.

3. It is satisfactory to observe that the crop of the year is the largest that has yet been harvested on the plantations. It amounted to 396,980 pounds of dry bark, of which 372,610 pounds were of *Succirubra*, 22,120 pounds of *Calisaya* and *Ledgeriana*, and 2,250 pounds of hybrid bark. By far the largest portion of the produce was made over to the factory for conversion into cinchona febrifuge, while about 41,800 pounds of yellow and red barks were sent at the request of the Secretary of State to London to be there converted into various forms of febrifuge and returned to this country for trial by the Medical Department.

4. The expenditure on the plantations amounted to Rs. 80,739-6-2 against the budget allotment of Rs. 82,225. Of this expenditure Rs. 17,548-3-9 was incurred on the newly opened trans-Teesta plantation, and on the young plantation at Sittong. This sum is chargeable to capital account. The balance, amounting to Rs. 63,191 2-5, which was spent on the old plantation, and includes charges on account of packing and carriage of bark sent to England, is chargeable as working expenses.

5. It is disappointing to notice the continued failure of *Carthagina* bark, notwithstanding that the utmost care has been taken of the plants and every endeavour made to grow them at various elevations and with various exposures. Only three plants were alive at the close of the year. An attempt has been made by the Superintendent to introduce the *Remija* plant, which is a genus botanically allied to cinchona. It is said to be less particular than cinchona as to soil and climate, and produces a quinine-yielding bark under the name of *Cuprea*. This bark forms a very large proportion of the quantity of quinine bark imported into Europe. Although the first attempt to grow the plant in the Mungpoo plantations has not been quite successful, Dr. King entertains hopes of successfully acclimatizing it, when he is able to procure a more adequate supply of seed. The Lieutenant-Governor will await the result of the experiment with much interest. The surplus seed of the *Calisaya Ledgeriana* was as usual distributed during the year gratuitously amongst applicants.

6. Dr. King has eventually succeeded in obtaining an analysis of the bark renewed on *Succirubra* trees that had their original bark removed by the shaving process introduced by Mr. Moens, the distinguished Director of Cinchona Cultivation to the Dutch Government. It appears that this process consists in shaving off the greater part of the bark of a living tree to the height of from eight to ten feet from the ground, care being taken to leave everywhere a sufficiently thick layer of bark to cover the wood. This method has had a

fair trial on the Sikkim plantations, and the result has, beyond doubt, been favourable, as the bark renews perfectly What, however, remained to be seen was whether the renewed bark was as rich in medicinal alkaloids as the original. It was with the object of determining this question that the analysis above referred to was undertaken during the year. The results are thus described by Dr. King: "The bark renewed rather slowly, but the analysis shows that it is very rich both in quinine and cinchonidine; and there can be no doubt that in countries where red bark trees are perfectly at home, and where their continuance in good health and vigour for a long series of years can be absolutely counted on, this shaving process must be a very excellent one."

7. An interesting feature in the operations of the year is the low cost at which the febrifuge was turned out. The price of the febrifuge necessarily fluctuates from year to year, but in no former year has it been so low as Rs. 8-8 a pound. This satisfactory result is attributed chiefly to the larger percentage of the alkaloids (2·73) extracted from the bark used in manufacture. The issues, however, fell below those of 1881-82, though they were a little in advance of those for 1880-81. The following table compares the distribution in the past three years:—

	1880-81.	1881-82.	1882-83.
	lb. oz.	lb. oz.	lb. oz.
To Medical Depôt, Calcutta	3,000 0	3,386 0	2,000 0
Ditto, Bombay	2,000 0	1,000 0	1,000 0
Ditto, Madras	500 0	800 0	350 0
To Colonial Government, Mauritius ...		.....	150 0
To Surgeon-General for District Medical Officers of Bengal ...	.....	995 4	803 12
To Inspector-General of Jails for jails and lock-ups, Bengal	.. ..	14 12	26 12
Sold to the public	3,150 11	4,680 0	4,560 12
Given as samples	3 2	2 9	10 0
Total ..	8,653 13	10,878 9	8,901 4

The issues to the public were 120 pounds below those of 1881-82, and not in excess of that year as stated in the Superintendent's report. The stock of febrifuge in hand on 31st March 1883 amounted to 2,962¼ pounds, which, though greater than that with which the year opened, is by no means too large a reserve to meet emergencies.

8. The revenue derived from the sale of the febrifuge, seed, plants, and bark amounted to Rs. 1,52,807-1-0—

	Rs	A.	P.
By sale of febrifuge, seed, plants, and bark to the public ...	80,577	9	0
By credits from the Medical Depôt of Calcutta ...	33,766	0	0
Ditto ditto ditto of Bombay ...	16,500	0	0
Ditto ditto ditto of Madras ...	5,775	0	0
Ditto from Colonial Government of Mauritius ...	2,475	0	0
Ditto from the Surgeon-General, Bengal ...	13,271	8	0
Ditto from the Inspector-General, Jails ...	442	0	0
Total ...	1,52,807	1	0

The operations of the year resulted in a profit of Rs. 66,284-9-5, which is equal to a dividend of 6½ per cent on the capital outlay. This is exclusive of the cost of a considerable quantity of the bark sent to the Secretary of State which has not been taken into account. It must, moreover, be borne in mind that these profits do not represent the whole of the gain of the year. The cost of an equal quantity of quinine at Rs. 96 per pound would have been Rs. 4,01,328. The cost of the febrifuge used was Rs. 68,988-8. There was thus a saving of Rs. 3,32,340. The total saving effected since the opening of the factory by the substitution of the febrifuge for sulphate of quinine amounts to Rs. 23¼ lakhs, which is more than twice the amount of the cost of the plantations.

9. Considerable attention was given during the year to the improvement of the process of manufacture. The present system is admittedly wasteful, in that it fails to convert into febrifuge the whole of the alkaloids which the bark contains, while there is no doubt that, by the adoption of a different and more costly process of manufacture, a still larger percentage of the

medicinal alkaloids could be extracted. It is not, however, equally certain whether the febrifuge so obtained could be turned out at a less cost per pound. The whole subject of the course to be adopted in the disposal of the raw produce of the plantations is still under the consideration of Government.

10. The thanks of the Lieutenant-Governor are again due to Dr. King, whose management of his department leaves nothing to be desired. Dr. King has reported very favourably of the services of Mr. Gammie, and the Lieutenant-Governor entirely concurs in the praise accorded to him. The other assistants of the Department are also well spoken of.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE METEOROLOGICAL DEPARTMENT DURING THE YEAR 1882-83.

REVENUE DEPARTMENT—MISCELLANEOUS.

Calcutta, the 17th July 1883.

RESOLUTION.

READ—

The Report of the Meteorological Reporter to the Government of Bengal, on the Administration of the Meteorological Department during the year 1882-83.

THE Lieutenant-Governor desires to thank Mr Eliot for his interesting report. Mr. Eliot has not only adequately described the changes recently introduced for extending the observations of the department and for improving the weather report, but he has also furnished a full account of the work done during the year. As Mr. Eliot's report is, therefore, of more than usual interest, the Lieutenant-Governor thinks it desirable that it should be published; and this Resolution will be mainly confined to a brief statement of the previous history of the department, with the view of completing the information contained in the report.

2. Up to the year 1865 the only regular observatory in Bengal was that attached to the Surveyor-General's Office in Calcutta, at which observations had been recorded hourly since 1853. An attempt was made in 1847 to obtain statistics of temperature and rainfall at all sudder stations, and returns were furnished for several years, but they were found to contain such grave discrepancies as to be useless for all practical purposes. The destruction of life and property caused by the great Calcutta cyclone of the 5th October 1864 brought prominently to notice the necessity of bestowing greater attention on the study of the meteorology of the country, and in April 1865 the Lieutenant-Governor, Sir Cecil Beadon, appointed a Committee, with Mr. H. F. Blanford as Honorary Secretary, to establish a system of telegraphic reports, such as would serve to apprise the shipping of Calcutta of the approach of cyclonic disturbances.

The Committee accordingly established six observing stations,* and started the publication of daily weather reports of the observations telegraphed from those stations, together with the observations taken at Calcutta, and others received from the Madras observatory and a private observer in Ceylon.

* *viz* Saugor Island.
Cuttack.
Chittagong.
Akyab.
Dacca and Darjeeling.

3. The preliminary arrangements of the system inaugurated by the Committee having been completed, it became necessary to entrust the further control of the work to a special officer, and in April 1867, Mr. Blanford was appointed Meteorological Reporter to the Government of Bengal, and the executive duties of the Committee were transferred to him The system continued to expand, additional stations were established, and further steps were taken for securing an efficient system of storm-signals and warnings for the town and shipping of Calcutta.

4. In 1871, in order to familiarise the local officers with the use of statistics, and with the observation of facts which every district officer ought care fully to watch in a country where such a surprise as the famine of 1866 was possible, Sir George Campbell prescribed the punctual submission of a weekly return of the state of the weather and prospects of the crops. The variations of rainfall and weather, and other statistics relating to the agriculture of the Province were regularly published in the *Calcutta Gazette*, and it was due to these returns that the want of rain in 1873 attracted timely notice, and that early measures were taken to meet the famine which followed it in 1874.

5. The work of the Meteorological Department received a further expansion in 1880 by the introduction, under the authority of the Government of India, of a scheme of Marine Meteorology. In furtherance of the work connected with this branch of the Department, data regarding the weather on Indian seas are now collected through the medium of Hooghly pilots, and, where available, the logs of vessels coming into the Port of Calcutta. An attempt to collect such data through masters of vessels was made in 1868, but the attempt did not succeed, and it was finally given up in 1875. The present system, however, gives promise of better results, as many of the returns received from the captains of incoming vessels are found to contain meteorological data of great value.

6. The further measures which have now been taken for extending and improving the usefulness of the meteorological reports are detailed in Mr. Eliot's report. Up to the close of 1882-83 meteorological observations were taken at 21 observatories, and rainfall returns were received from 164 stations, but under the new system there will be 21 additional observatories, and 156 additional rainfall recording stations. All portions of the province will thus be brought under daily observation; and it is to be hoped that the facts which will by this means come upon record will enable a sufficient foundation to be laid for a trustworthy system of economic meteorology for Bengal. An improvement has also been made in the form and size of the *daily weather reports*, and these are now available at moderate charges for the information of the public.

ORDER.—Ordered that this Resolution, with a copy of the Meteorological Report for 1882-83, be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Offg. Secretary to the Government of Bengal.

ADMINISTRATION REPORT OF THE METEOROLOGICAL REPORTER TO THE GOVERNMENT OF BENGAL FOR THE YEAR 1882-83.

DURING the official year 1882-83, meteorological observations were taken regularly at one first class observatory, seven second class observatories, and twelve third class observatories in the provinces of Bengal and Assam. An additional third class observatory was established at Tura in the Garo Hills in the month of March 1883

During the year a series of changes was sanctioned by the Bengal and India Governments for extending the work of observation of the department, and for improving the publication of the meteorological data collected by the department for the information of the Government of Bengal, district officers, and the general public. As these changes very considerably extend and modify the department under my charge, it appears desirable to place on record a full statement of the reasons for the changes, and an account of the circumstances under which they were made.

The origin of the proposals was a demi-official letter which I received from the Secretary to the Government of Bengal, Revenue Department, Mr. A. P. MacDonnell, on the 11th of August. In this he pointed out that the meteorological information published in the Gazette was not sufficient for the wants of the Bengal Secretariat, and asked if I could not arrange to publish weekly in the Gazette the meteorological observations taken over the province during the preceding week, together with a statement in which the more important meteorological features of the week should be clearly and prominently brought to the notice of Government and district officials. The attention of the Government of Bengal was particularly directed to the meteorology of Bengal and the working of the Bengal Meteorological Department at this time by the unusual lightness of the rains in Northern and North-Eastern Bengal. It was so serious at one time as to suggest the probability of a partial failure of the crops. The daily reports issued by the Meteorological Reporter to the Government of India gave very little information respecting this part of Bengal, and threw no light on the meteorological conditions of the district. The returns sent in to me by post and tabulated in the ordinary routine of the work of a small office did not shew until later that, although the rainfall was deficient and abnormal in character, this was due mainly to lightness of the rain showers and not to any diminution in the number of rainy days or in the amount of cloud. I replied to Mr. Secretary MacDonnell's letter on the 13th of August, admitting that the Bengal Meteorological Department was, in comparison with similar Meteorological Departments in European countries and the United States, very much behind hand in utilizing and publishing for the public benefit the meteorological data it collected. I pointed out that this part of the work of the department, "Economic Meteorology" as it might be termed, appeared to me to be of primary importance in India, and added that I should be willing, if the means were placed at my disposal, to use my utmost efforts to propose and establish an effective provincial meteorological system which should collect, tabulate, and publish, at frequent intervals, the results of the observations taken throughout the province at a sufficient number of stations to represent its more important meteorological conditions and changes adequately, together with a comparison of the current atmospheric conditions in Bengal with the normal meteorological conditions of the province, and to trace out, so far as I could, the connection between these variations in the elements of meteorological observation with the variations in the distribution of rainfall throughout the year. I also indicated roughly the more important changes it would be necessary to make in order to establish and develop a provincial system of meteorological observation which should keep the Government fully informed of the present meteorological conditions of the province and their variations from the normal conditions. Mr. Secretary MacDonnell replied demi-officially to this on the 29th of October, stating that I had correctly estimated and described what was required to improve the meteorological information supplied by my department, and that the Lieutenant-Governor approved the objects aimed at, and the general outline of the proposals I had suggested to secure these objects, and requested me to come up to Government

officially on the matter, and submit my proposals with the necessary fulness, and to state the modifications it would be necessary to introduce into the existing establishment and practice of the department.

I spent a part of the College cold-weather vacation in collecting information, and finally submitted my proposals to the Government of Bengal on the 29th of December. The following extracts (with some slight modifications and change of verbal expression) will indicate the objects aimed at, and the character of the proposals:—

"The Meteorological Departments in India ought to carry out two objects differing considerably in character and value. The first is that of contributing a share towards the advancement of meteorology as a science, *i.e.* of the determination of the exact relations which subsist between the various atmospheric conditions and changes and the effective causes or actions. India is the only tropical country which possesses a fairly complete and satisfactory meteorological system for this purpose. It also presents, from its geographical position, many unique meteorological conditions and features of great scientific interest and value. It is thus qualified to play a very important part in the progress of scientific meteorology. This it can do by collecting and publishing accurate observations, taken under suitable conditions, and also by discussing them in a scientific manner and distributing the results of its investigations to meteorologists over the world. This appears to me to be the work to which the Meteorological Reporter to the Government of India and his scientific assistant (lately appointed) are mainly devoting themselves, and to which they make the local reporters subservient. It is evident that it is immaterial whether the relations they are in search of are determined from observations of a day or a century ago, provided they are known to be accurate and reliable, and the investigations are exact. Rapidity in the collection and discussion of the observations is obviously not desirable, and might be dangerous as leading to hasty and perhaps erroneous conclusions.

"The second object of the Meteorological Department is less important from a scientific aspect, but is of supreme importance economically in a country like India, which is dependent for its prosperity almost entirely upon its agricultural resources and productions, and where the fluctuations of rainfall are so great as to subject a large part of the country to the occasional occurrence of prolonged drought and intense famine. This second branch of meteorological work in India is to publish, for the information of the Government, and all others directly interested in it, frequent statements of the present meteorological conditions of the country and its variation from the average conditions, and, so far as is possible, anticipations of any impending important atmospheric disturbance. This it can only do by the rapid and continuous collection, tabulation, and discussion of the observations taken at the various reporting stations. This continuous consideration of the weather, as it is at the present moment, will alone furnish the experience, methods and instincts necessary to consider it as the invariable antecedent of the weather to come. This will gradually lead up in the case of Indian meteorological enquiry to the true test and the ultimate aim of every science—prevision more or less perfect. An early step in such a direction, for example, would be to previse the general character of the distribution of the monsoon rains from the atmospheric conditions of the preceding hot-weather months. This which may be termed "economic meteorology" in opposition to the first or "scientific meteorology," is of as great importance to the Local Governments as to the Imperial Government. It is included in the programme of the Meteorological Reporter to the Government of India. The publication of his daily weather report supplies sufficient information to satisfy the present requirements of the Government of India. But this report is published at too frequent intervals for the guidance of officials in Bengal, the remarks are very brief and general, and are especially defective in the most important point, viz. the distribution of rainfall in each province, more especially during the south-west monsoon, and are practically of no great value for the information and guidance of the Government of Bengal. This branch of meteorological work in India was the subject of special recommendation by the Famine Commissioners, as is shown by the following quotation (*vide* Report, Part I, paragraph 40):—

"'Within the last few years a very satisfactory system of meteorological observations has been established all over British India, and in our opinion it is of primary importance that it shall be maintained in complete efficiency, and shall so far be strengthened and improved, as to ensure the early and punctual supply of information to the Executive Governments, and to the officials in all departments concerned with the agriculture of the country, or the preparations required to meet famines, as to the actual progress of the periodical seasons of rain in all parts of the provinces for which those Governments or officers are respectively responsible. So far as it may become possible, with the advance of knowledge, to form a forecast of the future, such aids should be made use of, though with due caution.'

"This early and punctual supply of meteorological information is moreover, as General Strachey pointed out to me a few years ago, that part of meteorological work which the Local Governments ought not merely to encourage, but to promote, and which is more especially the province of the Local Reporters as opposed to the Imperial Reporter.

"The work proposed to me to carry out is identical in its general character with that stated by the Famine Commissioners to be one of the most important duties of the Meteorological Department, viz. the early and punctual supply of accurate meteorological information to the Executive Government and district and other officials. The extensions that I desire to submit to the Government of Bengal have this solely for their object. They provide for the daily submission of observations taken at 10 A. M. at 38 stations distributed throughout the province, and of rainfall returns from about 156 additional stations, and for their rapid continuous reduction, tabulation, and discussion in the Bengal Meteorological Office. The complete rainfall returns of the province I propose shall in future be considered at the same time and in conjunction with the meteorological observations. This will be effected by linking to each meteorological observatory the adjacent rainfall recording stations. By this mode of treatment I hope to determine all the more important meteorological features of each district, which will thus be represented by a group of one or two observing stations and several rainfall stations. In this way, more especially, the amount, distribution, and variation from the mean, of the rainfall throughout the province, can be approximately gauged week by week, month by month, or season by season, and be recorded in the speediest and most exact manner for the information of Government.

"The present meteorological system established in Bengal appears, with the above objects in view, to be defective in the following respects :—

"1*st*.—The stations are too few in number to represent adequately the province of Bengal. They are in all fourteen stations for the whole of Bengal, Behar, Chutia Nagpore, and Orissa, including an area of 205,000 square miles. Of these stations two—False Point and Saugor Island on the seaboard—are maintained solely in connection with the Calcutta Storm Signal Service. The province of Bengal, occupying an area nearly twice as large as the British Islands, is represented meteorologically, for agricultural and economic purposes, by only twelve stations. The weekly agricultural and weather report of the British Island, published by the English Meteorological Office, is based on the meteorological returns of 66 stations, and I am informed that even that number of stations is considered insufficient. In making this comparison, I do not wish to assert that observing stations should be as thickly spread in India, as in England, to give the same extent of information of weather conditions and changes. The weather in Bengal is undoubtedly much more uniform than in the British Islands. Irregularities of atmospheric conditions are also usually of a much simpler and more persistent character. Even taking these facts into consideration, it appears to me that Bengal is by no means sufficiently represented by its present twelve meteorological stations.

"2*nd*.—The present observatories are by no means equally distributed throughout the province. Large and important districts, from an agricultural point of view, are almost, if not entirely, unrepresented. The most glaring example of this is Northern Bengal. The whole of the Bengal plains to the east of Purneah and to the north of Berhampore, Jessore, and Dacca, comprising, I believe, the entire jute-producing districts of India, does not

possess a single observatory. The more eastern districts are to a certain extent represented by Dhubri and Silchar. It appears, however, not too much to assert that Northern Bengal as a whole is unrepresented in our meteorological system at the present time. Similarly, the whole of the southern districts of Chutia Nagpore, and the Midnapore and Balasore districts, are outside the range of observation of the existing stations.

"*3rd.*—The present system of twelve stations, which, even if it were in perfect order, would be insufficient to represent Bengal, is really, in consequence of a third defect, less efficient than it appears. Native observers, in consequence of their imperfect scientific instincts, and of the very slight scientific training given in Indian schools and colleges, are frequently inaccurate. And even if they have been carefully trained, many of them are liable to lapse into careless and erroneous methods. Frequent inspection at unexpected times, and more especially when the returns themselves indicate errors, more or less continuous, is an absolute necessity. Yet this, under the present system, is an impossibility in Bengal. I am bound down to Calcutta without a day's intermission for practically ten months of the year by the combination of my college duties, my storm signal and daily weather report work, and by the charge of the India Weather Office during the absence of the Reporter to the Government of India in Simla. I can only leave Calcutta on inspection duty for a short period during the cold season. Defects, observational or instrumental, may hence be prolonged for months, and even years, without detection. This defect is a very serious one. Each succeeding year's tour of inspection impresses it upon me more strongly.

"*4th*—The present mode of collecting, reducing, and discussing the meteorological observations is dilatory and unsatisfactory. If the sole object of the department were the collection and publication of accurate observations for the information of European Meteorologists, it would be unobjectionable. As pointed out by the Famine Commissioners, early and exact meteorological information is at all times valuable to the Government and district officers of Bengal, and occasionally it is a pressing necessity; and yet it is hardly too much to state that the Bengal Reporter can furnish to the Provincial Government fuller and later information of the meteorology of any portion of the British Islands than he can of the greater part of Bengal. It is not necessary to state fully the causes of this. It is sufficient to state that the present system has tended to centralization rather than to development; hence it is the Government of India that has mainly profited by the recent changes. The Provincial Government of Bengal is not as yet furnished with the early and punctual supply of meteorological information which it requires.

"The proposals aim at the removal of the defects enumerated in the preceding paragraphs, and at the carrying out of the object proposed:—

"*1st.*—By the establishment of additional observatories.

"*2nd*—By the extension of the work of inspection.

"*3rd.*—By the increase of my office establishment.

"*4th.*—By frequent publication of returns.

"I propose in future meteorological reports and discussions to divide Bengal into seven areas, each of which will be a fairly homogeneous area, and differ from the others in its meteorological features, more especially the amount and distribution of its rainfall. Each of these areas will be represented by three to seven observing stations, giving all the meteorological features, except rainfall, with sufficient fulness for present purposes. The rainfall will be determined by these observing stations and the 156 additional rainfall recording stations, three to five of which will be linked to each observing station so as to enable the rainfall of the district represented meteorologically by the observing station to be approximately determined.

"The seven meteorological areas I propose are—

"*1st*—Orissa.

"*2nd*—South-West Bengal, including the Burdwan and Presidency Divisions.

"*3rd*—East Bengal, including the Dacca and Chittagong Divisions.

"*4th*—North Bengal, including the Rajshahye and Cooch Behar Divisions.

"5*th*—North Behar, including the districts of Behar north of the Ganges.

"6*th*—South Behar, including the districts of Behar south of the Ganges.

"7*th*—Chutia Nagpore.

"In order to assign an adequate number of observing stations, it will be necessary to increase the present number very considerably. This I propose to effect through the agency of the Public Works Department, which has been most freely offered for the extension. I am informed by Major Neill, Assistant Secretary, Public Works Department, that observations are taken at Buxar, Arrah, and Dehree, and that they could be taken at a large number of stations by overseers. These men are specially qualified by their training in surveying to read such instruments as the barometer, and would make valuable observers.

"The following are the stations which I have selected from the list given me by Major Neill where observatories could be established and the work of observation properly carried on through the agency of the Public Works Department:—

Motihari.	Rungpore.
Ranchi.	Dinagepore.
Chyebassa.	Serajgunge.
Balasore.	Mymensingh.
Midnapore.	Furreedpore.
Ranceegunge.	Commillah.
Nya Doomka.	Noakholly.
Bhagulpore.	Burrisal.
Julpigori.	Rampore Boalia.

Chupra.

"These, with the two stations of Buxar and Dehree, would give 21 additional observatories. This extension will necessitate the immediate erection of 19 observing sheds.

"The Public Works Department, in making the offer of the services of these overseers as observers, did not contemplate that they should receive any remuneration, and I am not therefore prepared to urge upon Government its absolute necessity. On the other hand, a small monthly allowance will not only give them a tangible interest in their meteorological work, but also furnish me with some hold upon them for the proper performance of their meteorological duties. There would thus be a reasonable probability of the additional observations being fairly trustworthy and accurate, and equal in value to those taken at our present observatories. My past experience shows that this would almost certainly not be the case if this additional work (not a part of their recognized duties) were imposed upon them without any remuneration. The monthly allowances would be granted conditional upon the punctual and accurate performance of their meteorological duties during the month, as tested by the returns received from them in my office. As the work would be less than at our present third class observing stations, I would suggest that these fourth class observers be granted allowances of ten rupees monthly. This will necessitate a yearly grant of Rs. 2,520. If these proposals be sanctioned, they will, I believe, give the department the increased power of observation, which appears to me necessary in the most effective and economical manner possible, and will remove almost entirely the first and second defects of the present system.

"As my meteorological duties are increasing year by year, I am unable to suggest any feasible plan which will enable me to inspect the observatories at any time throughout the year, whenever it may appear desirable or necessary. I would therefore suggest the appointment of a native inspector on Rs. 50 rising to Rs. 60 per mensem. It will be possible for this amount to obtain the services of a man who has been trained at the Seebpore or Roorkee Engineering College in the use of instruments, and has learnt to draw and chart neatly. He would supply a double want in the Bengal Office. Whenever the returns received indicated continued instrumental or observational defects at any station, he would be sent there to ascertain the causes of the errors, and thus enable me to remove them without unnecessary delay. When in Calcutta, he would be employed in preparing the various charts that

will be required to enable me to prepare the weekly reports. He would also be very useful during the first year of the extension in teaching the new observers of the Public Works Department their meteorological duties. As I do not propose to diminish my own work of inspection during the cold weather, which I consider indispensably necessary to the maintenance of the stations in a state of efficiency, it will also be necessary to provide for the travelling expenses of the native inspector. These, I estimate, will not exceed Rs. 400, which I would therefore ask Government to sanction in addition to his pay."

I have already stated that in future it appears to me desirable the rainfall returns should be considered and discussed in connection with the meteorological observations. The first essential for early publication of meteorological results is rapid transmission of the observations to the central office. Hence in all cases where it is possible, the 10 A.M. meteorological observations will be despatched to Calcutta by weather telegrams. At those observing stations where there is no telegraph office, the 10 A M. observations taken daily will be sent by the first dâk after each observation to Calcutta by means of postal cards. The observations will be reduced and tabulated in my office as they arrive. Of the 38 stations under the extended scheme, 29 can communicate by telegraph at the present time; and with the probable early extension of rail and telegraphic communication to Jessore, Burrisal, Mymensing, and Chutia Nagpore, the number will increase, so that in a few years a fairly complete daily weather report for the whole province may be prepared from the weather telegrams. The majority of the stations which can communicate with the central office by post only are in Eastern Bengal; and hence the information of that part of the province will be for some time more imperfect and behindhand than for the remainder of this province.

All rainfall-reporting stations will send in a daily return of rainfall by means of postal cards. They will also, in all cases, submit a weekly rainfall report by post-card as a check on the daily returns in which mistakes from carelesness or haste may occasionally arise, or which may, in a few cases, be lost in postal transmission.

Those sub-divisional stations which are at a greater distance than 48 hours dâk from Calcutta will telegraph either directly or from the nearest telegraphic station (for which special arrangements in each case will be made), with the object of completing the daily returns included in the weekly rainfall report to be published in future in the Gazette.

It will therefore be seen that I propose to receive the various returns in all cases direct from the observing officers, and not, as at present, in the case of rainfall returns through the medium of a superior officer, as, for example, the Collector, the Civil Surgeon, &c. The delays in the submission of the rainfall returns under the present system are in some cases excessive, and are due to the transmission from the recording officers through other officials not directly interested in the rapid collection of the information. Of course, if it be desired, there is no reason why the Collectors, Civil Surgeons, &c., should not receive a copy of the rainfall returns sent in direct to me. If this part of the scheme be adopted—and it is the only means I can suggest for effecting the continuous rapid transmission of the necessary returns to my office—it would be very desirable that the Government of Bengal should issue a circular to the sub-divisional and other rainfall-recording officers, requesting them to carry out fully and exactly the instructions I shall issue for the transmission of their rainfall returns, and if judged desirable and unobjectionable, permitting me to place myself in direct communication with them in order to call attention to probable errors of observations or delays in transmission.

From the 15th of May to the 15th of November, a period which includes the whole of the south-west monsoon rain in Bengal, it is proposed to publish a daily weather report containing the observations taken at 10 A.M. and transmitted by ordinary or urgent weather telegram to Calcutta, together with a short summary of the more prominent features of the weather, its deviation from the normal weather of that day by a comparison with the average pressure and temperature of the day, and the important changes of the previous 24 hours, with, by-and-bye, anticipations of the weather throughout the province during the next 24 hours.

This will be printed at the Secretariat Press by 6 P.M. each day, and sent by post to Government officers, district officers, and to certain officers of the Public Works Department. It is also proposed to publish weekly in the Gazette two meteorological returns. The first will give the averages or totals of the elements of meteorological observation at the 38 reporting stations, and the average rainfall of the districts, represented meteorologically by each station, together with the variations of the pressure, temperature, and rainfall from the means for the period. The second return will give the daily rainfall at all the sub-divisional stations for the preceding week, and from which the average rainfall of the districts given in the other return will be derived. A summary will also be given, generally, similar in character to the weekly agricultural-weather report issued by the English Meteorological Office. In this the important features of the weather will be brought to notice, and the distribution of rainfall with respect to time and place, and its variation from the normal rainfall, will be fully worked out.

In additon to this, it is also proposed to publish in the Gazette, for more general reference, the usual monthly averages of the elements of meteorological observation for the 38 observing stations, and the average rainfall of each district for the month, together with a short summary, stating briefly the more marked peculiarities of the meteorology of the month. A return will also be published in the beginning of every month, giving the daily rainfall of the 162 sub-divisional stations for the preceding month. This will be to a large extent a reproduction of the weekly rainfall returns, but it will contain all returns not received in time to be included in the corresponding weekly reports. Also any errors which may be detected during the month in the printed weekly rainfall returns will be eliminated, so that the monthly rainfall return will be the final, complete and corrected publication of the rainfall for the period in question.

Forms embodying these objects have been drawn up and submitted to the Government of Bengal. They have been accepted after a few modifications, and will be adopted for the present, and until experience of the working of the new scheme shews what improvements it may be desirable to make in them.

The extensions which I proposed supplemented the existing arrangements, and I had consulted with the Meteorological Reporter to the Government of India, who approved generally of the scheme. As the Meteorological Department is on the Imperial Establishment, it was necessary for the Government of Bengal to submit the proposals to the Government of India for sanction, and to indicate the sources from which the additional expenditure was to be met. This was done in Mr. Secretary MacDonnell's letter No. 294—68Mis F, dated the 29th January 1883, to the Government of India, Revenue and Agricultural Department, in which he stated that, "finding the present Bengal meteorological reports inadequate for the purpose of administration in this province, the Lieutenant-Governor called on Mr. Eliot to prepare and submit a scheme calculated to afford this Government that detailed information regarding the meteorological conditions of all parts of this province, of which it now feels the want. This scheme Mr. Eliot submits in the papers herewith forwarded, and the Lieutenant-Governor requests that His Excellency the Governor-General in Council may be moved to sanction the adoption experimentally of Mr. Eliot's proposals in this presidency. It will be observed that the proposals now submitted are purely supplementary of existing arrangements which they in no way modify, and may be at any time annulled without any disturbance of the latter. The entire cost of the improvements will fall on Provincial Revenues. I am to add that any conditions as to control, &c., the Government of India may think it, in the interests of the Imperial Meteorological Department, necessary to impose, will be readily accepted by this Government."

The Government of India replied that it was willing to accept these proposals, and sanctioned the scheme which had been prepared with so much care by the Meteorological Reporter to the Government of Bengal. It was further stated that "such control as may be necessary will, in the interests of the Imperial Meteorological Department, be most conveniently exercised by the Meteorological Reporter to the Government of India. In view of this object, the Government of India considers that the cost of the scheme should be treated as a contribution from Provincial to Imperial funds, and that provision for this additional expenditure should be made in the estimates of the Meteorolo-

gical Department of the Government of India, with effect from the 1st April 1883. Unless His Honor the Lieutenant-Governor has any objection to urge to this proposal, it will forthwith be carried into effect."

The extensions are now being effected as rapidly as circumstances will permit, and will be fully stated in next year's Administration Report.

Second Class Observatories.—These are seven in number, of which five are situated in Bengal and the remaining two in Assam. The following table gives the Superintendents and observers at these observatories during the past year :—

Stations.	Superintendents.	Superintendent's allowance.	Observers.	Observer's allowance.	Assistant observers.	Assistant observer's allowance.

(1) From 1st April to 15th September 1882, and from 28th October 1882 to 31st March 1883.
(2) Was in charge of the observatory from 16th September to 27th October 1882.
(3) On leave from 22nd July to 9th September 1882.
(4) 1st April to 1st December 1882.
(5) 2nd December 1882 to 31st March 1883.
(6) 1st April to 27th June 1882 when he was dismissed.
(7) 1st April to 27th June 1882.
(8) 28th June 1882 to 31st March 1883.
(9) Ditto ditto.
(10) 1st April to 18th October 1882.
(11) 19th October to 1st November 1882.
(12) 2nd November 1882 to 20th January 1883.
(13) 21st January to 31st March 1883.
(14) 1st April to 4th July 1882.
(15) 5th to 15th July 1882.
(16) 16th July 1882 to 31st March 1883.
(17) 1st April to 8th November 1882.
(18) 9th November 1882 to 31st March 1883.

* Received special allowance of Rs. 5 per month for good services.
† Received special allowance of Rs. 10 per month for good services.

Five of these observatories are furnished with self-registering anemographs. There were one or two breaks in the working of these instruments during the year, which are detailed in the following table :—

Stations.	Date of commencement of work.	Periods during which instrument was out of order during 1882-83.
Dhubri	18th March 1882	.....
Hazaribagh	15th April 1880	From 17 hours 30th April to 17 hours 31st May 1882. Seventeen hours 30th November to 10th hours 15th December 1882.
Chittagong	20th June 1879	1st April to 8th July 1882.
Saugor Island	9th February 1880 ...	9th January to 22nd February 1883.
Cuttack	11th April 1879	.....

Three of these observatories, viz. Bankipore, Hazaribagh, and Cuttack, were visited during the cold weather.

Hazaribagh was reported on unfavourably last year. This, which was formerly one of the most satisfactory of the Bengal observing stations, had fallen off solely in consequence of the indolence and carelessness of the observer. He was fortunately detected by the Superintendent in recording and sending to the Meteorological Office inaccurate and false statements, and was consequently dismissed from Government employment. The second observer was then appointed first observer, and appears to have done his work satisfactorily throughout the past year. The observatory was inspected on the 8th December 1882. No change has been made in the position of the shed during the past year 1882-83, or of the instruments since my last visit in December 1881. The shed was clean and in good order. The anemograph tower required some slight repairs to make it watertight. These have since been made.

The instruments were generally clean and in proper working order. The only instruments which were not perfectly satisfactory were the wet and grass minima thermometers. In both of these the columns were badly broken. The instruments had, I was informed, given much trouble in this respect for some time previous. They were ordered to be replaced by new instruments. The anemograph was not working when I inspected the observatory, in consequence of the clock requiring cleaning. I found, however, that this instrument had been sadly neglected by the previous observer, and that it had not been in proper working condition for some months in consequence of two defects, both affecting the wind direction. The instrument had evidently not been cleaned or oiled for months. The gearing of the wind vane had consequently become rusted to such an extent as to make the vane immovable under the action of any wind of ordinary strength. The chain connecting it with the recording part of the instrument had also lengthened slightly, and was badly adjusted, and too slack to work properly. These defects were repaired, and the observer taught how to oil it and to take it to pieces. Full instructions were also given to him to oil and clean it at regular intervals. The defective condition of the anemograph was, I found, mainly, if not entirely, due to the neglect and indolence of the previous observer. The observer and assistant observer read the instruments carefully and accurately. The present observer is intelligent, takes much interest in his work, and sends in his returns regularly. Hazaribagh thus promises to regain its former character as an observing station.

The Bankipore observatory was inspected on the 20th and 21st of December. No change has been made in the position of the instruments since Mr. Pedler's visit. The shed is in good order and has been protected by a fence. Strong ladders have been built to give ready access to the anemometer and wind vane on the roof of the building. The barometer was examined, and a long series of comparisons made by the observer and myself with two secondary standard barometers. The comparison seemed to indicate that the instrument has a variable index error, and that the amount of its error was on the average of the observations made during my visit somewhat less than that assigned to it by the original comparison at Alipore. It was therefore replaced by one of the standard instruments, and ordered to be returned to Calcutta for a careful examination and redetermination of its index error. All the instruments were, with the exception of the barometer, in good order, and very clean. This observatory has improved very much since Mr. Pedler's visit, and is now in a satisfactory state.

The Cuttack observatory was inspected on the 11th of January. This observatory has been under the charge of Mr. Smith, Telegraph Master, for the past 11 years. I found the observatory in the same thoroughly satisfactory condition as on my last visit two years previously.

The Cuttack, Dhubri, and Saugor Island observatories are the best of the second class observatories. I was unable to visit Dhubri during the year, but judging from the accuracy of the observations and the neatness of the returns, I am confident that it has improved considerably during the past year. The observer has, moreover, on more than one occasion, sent valuable series of observations taken during storms. As he has been observer for many years, and continues to shew increasing interest in his work, I have recommended him for the higher personal allowance of Rs. 10. Sibsaugor continues to work satisfactorily. Patna and Hazaribagh have both improved greatly, and may be

considered as having regained their former character. The second class observatories are thus generally in a satisfactory condition and the observers are performing their duties accurately and honestly.

Third class Observatories.—These were thirteen in number at the end of the year. Ten of them are in Bengal, one (Akyab) in Burma, and two (Silchar and Tura) in Assam. The Tura observatory was established during the year at the suggestion of the Assam Government, and promises to give useful information for the eastern half of the Garo Hill district.

Eleven of these are maintained solely by Government, one (Durbhunga) is supported by the Rajah of Durbhunga, and another (Demagiri) is a voluntary observatory established under rules sanctioned by the Government of India.

The following table gives the list of the third class observatories, with the Superintendents and observers of each, during the year 1882-83 :—

I was able to visit the whole of the third class observatories during the College cold-weather vacations, with the exception of Jessore, Silchar, and Akyab. No change was made during the past year in the character of the observations or the condition of the observatories. My opinion of them is unchanged. Some of them are quite equal to the second class observatories as regards the accuracy and value of their observations. In others occasional carelessness and neglect of the instructions laid down in the *Vade Mecum* diminish very considerably the value of the observations, and introduce an element of doubt into the results of their work.

The following accounts of the observatories which were visited during the cold weather are taken from my inspection reports :—

"I visited the Darjeeling observatory on the 16th and 17th of November The shed was in capital condition; the instruments clean and in good order,

and properly placed. The Casella's anemograph had been properly placed in position before my visit in November. The shed in which it is placed is on a fine open site on the top of a hill above St. Paul's School. When I was there the air was perfectly calm, so that I had no opportunity of seeing the instrument working under ordinary conditions. I examined it carefully and made several changes. It has been working since, and the observer, Mr. Moore, has spent much time, labour, and ingenuity in endeavouring to make it work successfully, but the results are not altogether satisfactory. The traces received lately are sufficiently distinct to enable them to be used for the determination of the elements of wind observation. So far as I can judge, the instrument is not a good one, and I should prefer to see it replaced by a Beckley's anemograph, which gives a continuous record. Experience appears to shew that the Beckley's is easier to work and less liable to derangement.

"The Purneah observatory was inspected on the 23rd, 24th, and 25th of December 1882. The shed is on the same site as it occupied on my last visit two years ago. I found that the foundations of a house for the jailor had been laid within a few feet of the observatory, and the building itself would be shortly erected. It was therefore necessary to give orders for the early removal of the observatory. A suitable site was selected where the conditions of exposure are almost identical with those of the present observatory. The shed itself was in fair order. No repairs had been made for some time in view of its removal to another site. The thermometers were all clean and in good order. The barometer was in the same room as two years ago. As the light in it is bad, I removed the barometer to an adjacent room at the same level, and where it is in good light. The barometer was carefully compared at the dâk bungalow by myself, and its index error was ascertained to be unaltered. The wind vane and anemometer are well placed. They were slightly stiff in consequence of not being oiled frequently enough. The anemometer was carefully oiled and cleaned, and the observer instructed how to keep it in proper condition. He read the anemometer somewhat imperfectly. This was partly due to his having overlooked the instructions in the *Vade Mecum*. He learnt quickly, and I hope the anometer observations at this station will in future be exact. The observer is intelligent and punctual in his work, in which he appears to take much interest. The observatory, on the whole, is in a satisfactory condition.

"Durbhunga was inspected on the 20th and 21st of December 1882. I arrived at the observatory at 4-7 P.M. by the dispensary clock, and found the observer there. On enquiring about the 4 P.M. observations, I was shewn the following entries for that day :—

	10h.	16h.	18h.
Barometer	30·130	29·030	
Attached thermometer ...	66 5	71	
Dry bulb	67	74	
Wet „	62	65	
Dry max.	.....	.....	74·8
„ min.	54·5	.....	
Wet „	53·5	.....	
Grass „	41·5	.....	
Sun max.	.....	.....	118
Anemometer	248·4	265·3	
Wind direction	22	22	

The observer was then asked to read the barometer, and stated that it was 29·980. I read it myself and found it to be 29·968. The reading entered in the form B, even if corrected to 30·030, was thus erroneous. The observer then endeavoured to excuse himself by asserting that he had been at the Magistrate's court and that an assistant had taken the readings. As it was unnecessary for me to ascertain more than I did (viz. that the observations at Durbhunga on this day, and probably, as indicated by the returns, for some time previous, had been taken in an exceedingly careless and irregular manner, and that little or no attention has been paid to the various instructions and orders issued from time to time for his guidance), I made no attempt to verify his statements. No excuse whatever can be admitted in extenuation of the offence of entering the observations as having been taken at the exact times noted, when, in reality, they have been knowingly taken at

some other entirely different hour. In addition to the evident mistakes in the 4 P.M. readings, observations purporting to be taken at 6 P.M. had been taken at or before 4 P.M.

The condition of the observatory indicated great carelessness on the part of the observer. The thermometers were in very fair order, except that they were generally somewhat dirty. The minimum wet bulb and ordinary wet bulb were covered with a thickish encrustation.

The wind vane worked slowly and heavily. This was accounted for by the fact that it had not been oiled for some months. The anemometer was excessively dirty, and was covered with dust inside and outside. No oil had been given to it for months. In consequence of the dust and want of oil, the instrument moved with much friction. It is evident that the anemometer observations have been of little value for some time past. The Durbhunga observer was informed that carelessness in observation, or laxity with regard to hours of observations, once clearly detected in an observer, throws a doubt for a long time over future observations, and that it would therefore take long for him to thoroughly re-establish a character for accurate work; and was informed that he would probably lose his personal allowance of Rs. 5 per mensem." I referred the matter to Mr. Blanford, explaining to him the peculiar condition of the observatory and the promise of the observer to do good honest work in future. He requested me to fine the observer ten rupees as a mark of his serious displeasure, and to warn him that the detection of my similar faults in the future will be certainly followed by the withdrawal of the personal allowance.

"Gya was inspected on the 11th and 12th of December 1882. No change has been made in the position of the instruments since my last visit, and the shed was in perfect order. The barometer was carefully examined, as the barometric observations had been unsatisfactory for some time. The readings for some months, as indicated by the observations at the neighbouring stations, had been much too high. A long and careful comparison made by myself at the dâk bungalow proved that no change had taken place in the index error of the instrument since its issue to Gya. I, however, found, when the observer was asked to take a reading of the instrument, that he immersed the fiducial point well into the mercury in the cistern, instead of setting it so as to touch exactly the mercurial surface. This error at once explained the high readings at Gya. I spent several hours in endeavouring to teach him to adjust the level of the mercury to the fiducial point, and in reading the instrument with fair results. The observer attributes his error in this respect, chiefly to failing sight. This was, however, not confirmed by the Civil Surgeon. It is therefore more probably due to carelessness, and he was warned on this point to be much more careful in future. The instruments were all in good order. The observer, I found, read the anemometer very imperfectly, and it was necessary to spend some time in training him to read it correctly. The condition of the Gya observatory, in consequence of these imperfections on the part of the observer, has been for some time far from satisfactory.

"Berhampore was inspected on the 28th of December 1882. The instruments have been housed in a new shed since my last visit. The shed is very neatly built and is in capital condition; the instruments were clean and in thoroughly good working order. This observatory is in almost every respect one of the best kept in Bengal, and reflects great credit on the observer, who is, I have every reason to believe, as accurate in his observations as he is interested in the neat appearance of his observatory.

"Burdwan was inspected on the 29th December. I found both the shed and instruments in perfect order. The observatory is in thoroughly satisfactory condition and continues to maintain its high character."

Dacca was inspected at the end of November. The shed is situated in the compound of the Telegraph Office in a fairly exposed position. It was in good condition, and the instruments clean and in excellent order. This observatory was last visited by Mr. Pedler in December 1878, when it was favourably reported upon.

The observatory at False Point has been located at the Jumboo Telegraph Office for the past four years. This office was closed on the 25th of April 1882. No previous intimation was given to me of this change. The observations

at False Point were then suddenly broken off, and I was unable for some time to make any arrangement for the re-establishment of the observatory. In August the light-house was connected by telephone with Cuttack. This enabled me to re-establish the observatory under its former conditions before its removal to Jumboo, and at the same time to preserve the advantage of telegraphic communication with Calcutta. It was not considered advisable to erect a shed until the cold weather. Mr. Workman, light-house keeper, took the greatest interest in its re-establishment at the light-house. He procured the instruments from Jumboo and placed the barometer in the lower room of the light-house and the thermometers temporarily in a verandah facing the north, and forwarded daily telegrams of the height of the barometer, wind, direction and force, rainfall, &c., from the 7th of August. I visited False Point in January, and in conjunction with Mr. Workman selected a suitable site for the new shed and for a pillar, on which to erect the wind vane and anemometer. This station is a very important one in connection with the Storm Signal Office, and it is to be regretted that the telephonic mode of communication usually fails during stormy weather. Mr. Workman informs me that he has frequently spent a couple of hours, shouting himself hoarse, in endeavouring to communicate with Cuttack during windy and stormy weather. If the Telegraph Department could arrange to improve the communications between the light-house and Hookeytollah or Cuttack, the False Point observatory would be, under its present conditions, one of the most satisfactory and important of my observatories.

Of the third class observatories Berhampore, Burdwan, Dacca, Darjeeling, and False Point take first rank for the accuracy and value of their observations. Purneah is now a fairly satisfactory observatory. Silchar and Jessore I was unable to visit during the past year, and can only judge of them by their returns. So far as they indicate, these two observatories have improved during the year, more especially Jessore, the returns from which have been nearly prepared and sent in with commendable regularity.

Durbhanga and Gya have been the most unsatisfactory of my stations during the past year. At Durbhanga the observer had allowed himself to fall into very careless habits and methods of observations, and I hope after the leniency shewn to him he will use every effort during the present year to submit accurate observations and keep his instruments in such a condition as to be fit for inspection at any moment.

Akyab has been also a somewhat unsatisfactory station during the past year. I recorded my opinion in the Administration Report for 1881-82 that it was not quite satisfactory, as frequent mistakes were made in the transmission of weather telegrams. It is an important station from its position on the Arracan coast. I regret to have again to record that numerous mistakes have been made in the preparation of the weather telegrams, due either to haste or carelessness. In the month of August last ten of the thirty telegrams despatched were erroneous in one or more particulars. The ordinary returns also frequently contain errors, and it is only too probable that the carelessness shewn in the preparation of the telegrams and ordinary returns extends to the work of observation itself. It contrasts most unfavourably in these respects with Cuttack, Dacca, and Saugor Island, at all of which Telegraph Masters are observers.

Rainfall-recording stations.—Regular rainfall returns have been received during the past year from 164 sub-divisional stations. During the past year two stations—Segowlie and Baripore—have ceased to send in returns, as they are no longer sub-divisions; on the other hand rainfall returns were received during a part of the year from three new stations—Netrokona, Banki, and Hookeytollah (False Point). The number of stations submitting rainfall returns at the end of the official year was 162.

These returns were submitted in the great majority of cases punctually, and the monthly return of rainfall throughout the provinces for each month of the past year, prepared from these returns, was published in the Gazette on the third or fourth week of the ensuing month.

Instruments.—The two following tables shew the number and kind of instruments that have been broken or lost or rendered unserviceable at the Bengal observatories during the year 1882-83, and of the instruments supplied

to the observatories to replace broken, deteriorated, or untrustworthy instruments.

Return of Instruments broken or otherwise injured at the Observatories in Bengal and Assam, 1882-83.

* Supplied for the first time.
† Old instruments returned for verification.
(a) For comparison.
(b) To start observatory.
(c) To replace old and worn-out instruments.
(d) One broken in transit.

Comparatively few instruments were broken during the year. At Gya the terrestrial radiation thermometer was broken to pieces by a stone thrown from a road outside the compound. An exposed grass radiation thermometer disappeared at Dhubri under circumstances which indicated that it had been probably stolen by coolies travelling up to the Assam tea gardens, a depôt for whom is within a few yards from the observatory. The instrument which was broken at Akyab is reported to have fallen by accident to the ground when it was being examined by the observer.

During my tour of inspection I condemned several instruments, more especially alcohol minimum thermometers, which frequently deteriorate rapidly in India, and ordered them to be replaced by new instruments. This, for example, explains the issue of thermometers to Hazaribagh, Berhampore, Patna,

and False Point. On the whole the instruments appear to have been carefully looked after during the past year.

A third table is added (for the first time) showing the instruments that have been returned by the several observatories for various reasons and made over to the store of the Meteorological Reporter to the Government of India.

Return of Instruments, &c., returned to store of the Meteorological Office, India, during 1882-83.

† Unserviceable and broken.
(a) Repairable.
(b) A stray instrument not issued from our store, but was found in the observatory store on inspection and brought down here.
(c) Out of order.
(d) Cracked.
(e) Of the old pattern.

No change was made during the year in the ordinary routine of the office. The following returns have been prepared during the year for publication in the *Calcutta Gazette*:—

1*st.*—Monthly summaries of the meteorological observations taken at twenty observatories in Bengal and Assam.

2*nd.*—Monthly statements of rainfall at 162 sub-divisional and other stations in Bengal, and in the same form as last year.

3*rd.*—A table shewing the monthly and total rainfall for the year 1882 at 162 stations in Bengal.

4*th.*—A table giving the average monthly and annual rainfall at 156 stations in Bengal, based on the rainfall returns up to 31st December 1882.

5*th.*—Comparison rainfall table for the year 1882, shewing the monthly and total variation of the rainfall of 1882 at 162 stations, from the mean rainfall given in the preceding table.

My time has been more fully occupied than usual during the past year, and I have thus had less leisure to devote to meteorological investigation apart from the ordinary routine of my work.

I have nearly finished an analysis of the storm of October 1882, which possessed several features of interest. It occurred during the October transition period when there is a tendency for any vortex that is formed in the Bay to develop into an intense and severe cyclone. Although it formed at the most dangerous period during pre-existing conditions, which are known to be favourable to cyclonic formation of the Bay, some condition or action was absent, or very feebly developed, which prevented the storm acquiring great intensity. It was due to, and accompanied a large shallow depression with, moderately high gradients on the outskirts of the storm area. The aqueous vapour condensation, judging from the appearance of the sky during the storm, seems also to have taken place at a comparatively low level. It was economically chiefly remarkable as giving the heaviest and most general burst of rainfall to Bengal during the south-west monsoon of 1882.

In several respects it resembled the storm of September 1878, the account of which I drew up last year, and which was published during the present year as the first paper in the second volume of the meteorological memoirs.

I also took up for discussion all the storms which occurred in the Bay of Bengal during the period 1875 to 1880, of which there are records in the office, with a view to determine the relations between storm occurrence in the Bay and the general character of the monsoon, and also, if possible, the distribution of south-west monsoon storms in the Bay with respect to time and place.

This I find will take longer to work out than I originally expected, but I hope to finish it in the course of the present year.

Storm signals.—In my last year's report I stated that I had submitted to the Government of Bengal proposals for the extension of the system of storm signals for warning the Port of Calcutta of the approach of cyclones. The original object of this part of the work of the Bengal Reporter was to forewarn the port of the approach of severe cyclones, such for example as those of 1864 and 1867, in order that captains of vessels, &c., might prepare for the advent of the attendant destructive storm-wave. Recent experience has, however, shown that, although severe cyclones accompanied by storm-waves are of comparatively rare occurrence at the head of the Bay, cyclonic storms of limited extent and intensity are, on the other hand, frequently formed during the rains, and are a source of danger to shipping entering or leaving the mouth of the river. The storm signals hitherto employed were only intended to give warning of the formation and approach of storms of the first kind; hence it became necessary, if the Department was to give warning of the advance of storms dangerous to shipping in or near the mouth of the river, as well as to shipping in the Port, to extend or modify the system of signals. This I did with the assistance of Mr. Elson, Master Pilot, in such a way as not only to differentiate between the intense cyclones of the transition periods, and the feebler cyclonic storms of the rains, but also to indicate roughly what part of the Bengal coast they are approaching and likely to cross. The Government of Bengal sanctioned the proposed signals on the 5th of August 1882.

The adoption of the new system of storm signals was duly notified in the *Calcutta Gazette* on the 9th August 1882. They were brought into operation almost immediately afterwards, and as soon as the new signals could be prepared and despatched to the signal stations. Signals giving warning of the existence of any dangerous storm near the head of the Bay will in future be hoisted for the information of the pilots, captains of vessels, &c., at Saugor Island, Mud Point, and Diamond Harbour. Signals will in future be hoisted in Calcutta only before the approach of a severe cyclone with a storm-wave of sufficient magnitude to be probably dangerous and destructive to shipping in the port. The storm signals in the port of Calcutta will be hoisted in the following positions:—

1*st.*—On the Port Commissioners' office.

2*nd.*—On a flagstaff at Seebpore, nearly opposite to the Fort.

3*rd.*—On the yardarm of a flagstaff near the Government Dockyard, Kidderpore.

No severe cyclone occurred in the Bay during the year 1882. Six cyclonic vortices formed near the head of the Bay, and advanced across the Bengal or Orissa coast into the interior. These were—

1*st.*—Storm of June 8th to 17th, which ushered in the south-west monsoon. The centre crossed the Orissa coast on the 10th.

2*nd.*—Storm of 16th to 23rd of July. This crossed the Bengal coast near the mouth of the Hooghly on the 19th.

3*rd.*—Storm of 5th to the 14th of September, which crossed the Orissa coast between False Point and Balasore on the 7th.

4*th.*—Storm of the 11th to 19th of September, which advanced across the Orissa coast on the 16th.

5*th.*—Storm of the 26th of September to the 3rd of October. This crossed the Orissa coast on the 28th.

6*th.*—Storm of the 12th to 17th of October, which formed near the coast of the Northern Circars, crossed the Ganjam and Orissa coast, probably between Gopalpore and Poorce early on the morning of the 15th, and then proceeded northwards into Northern Bengal.

Four of these storms, viz. 2, 4, and 5, although accompanied with moderately strong winds and a rough sea, did not appear to be of sufficient intensity to justify the hoisting of the storm signals. Warning singals were hoisted for storms Nos. 3 and 6. On the approach of the 3rd storm bad weather signal No. 7 was hoisted on the 7th September at 12-30 P.M., intimating that a small cyclonic storm was advaning to the east of the Hooghly. This was changed on the receipt of further information to storm signal No. 8 at 7-30 A.M. of the 8th. The signals were taken down at 2 P.M. of the 9th. During the sixth storm, signal No. 5, intimating the existence of a storm which would cross the west coast south of False Point was hoisted at 2 P.M. of the 14th; the signals were taken down at noon of the 16th.

Daily Weather Reports.—These have been published during the past year in the same form as during the previous. They were supplied to 27 subscribers and to 23 Government officials at the commencement of the official year, and to 29 subscribers and 30 Government officials at the end of the year. The receipts during the year from subscriptions have covered the cost of printing and distributing the reports. There was a small balance of Rs. 105 at the end of the year, which was kept in hand in order to meet any charges for repairs to the lithographic presses.

The report has hitherto been published on an awkward, large-sized sheet of inferior paper which has detracted considerably from its appearance. By reducing the size of the form considerably, I have been able to obtain paper of much better quality for the report and chart. Through the courtesy of the Superintendent of the Lithographic Department of the T. G. Survey, I was supplied with a neat chart and form from which to prepare the daily reports. The report will thus in future (from May 15th) be issued in a neater and more compact form. Although the number of subscribers has not increased much, I believe the report and chart are found to be of use. I should be glad to see the number of subscribers increased, so that the subscription could be reduced from Rs. 2 per mensem to Rs. 12 per annum.

Marine Meteorology.—A fair amount of work has been done in this during the past year. The Government of India sanctioned additions to the previous office establishment with effect from the 1st of April. The work proposed to be done under this head consisted of two parts. The first is the discussion of the observations taken on board vessels navigating the Indian seas, collected by the Board of Trade in England some years ago, and made over to the Indian Meteorological Office; and the preparation of charts embodying the information given by these observations of the pressure, winds, currents, &c., in the Bay of Bengal and Arabian Sea. During the early part of the year the barometric observations were taken up with a view to determine the amount and character of the diurnal oscillation in the Bay. The curves have been worked out for all the months, excepting December, and are ready for publication whenever it may be considered desirable to do so. Shortly after Mr. Dallas, Scientific Assistant, come down to Calcutta from Simla, he took over the work of tabulating and charting the data. Four additional clerks were engaged. The barometric and wind data for January were gone through and tabulated, and the results charted. The second branch of the work of the Department is the collection of current meteorological data of the Bay of Bengal from every possible available source. Forms were prepared in accordance with suggestions made by the Port Officer. A supply of these is included in the papers handed by all pilots to the captains of vessels entering the river on taking piloting charge. A large number of captains have complied with the request of the Department to furnish extracts of meteorological data in these logs for the Bay of Bengal and Indian Sea. Three hundred and forty-five sets of returns were filled up and sent in to this office. Many of these are of great value, and shew that accurate meteorological observations are taken on board a fair proportion of the ships navigating the Bay of Bengal. The information contained in these has been extracted and entered in books for permanent record in such a way that the information for any one day is collected together. The information they give is also being added to the daily weather charts for India, prepared in the India Meteorological Office. I have not had time to go through this information as fully as I should have wished, but the extracts I have considered indicate clearly the general truth of what I had previously

surmised, viz. that the weather in the whole extent of the Bay, excluding the Andaman sea, is fairly indicated by the observations taken at the coast stations, and that the progress of every important storm may be traced and followed with more or less exactness almost from its origin, from the shore observations.

In addition to this information, observations with verified instruments have been taken at 10 A.M. and 4 P.M. on board the light vessels near the mouth of the Hooghly. The following gives the dates from which returns have been received during the past year:—

Meteor	from May	1882.
Star	„ June	„
Comet	„ August	„
Mermaid	„ November	„

The observations taken on board these vessels are, I have every reason to believe, after careful examination, to be accurate and trustworthy. They are very valuable as extending our knowledge of the meteorology of this part of India to a distance of 40 miles beyond the coast seawards.

FINANCE.

The following statement gives the total cost to the State of the Bengal Meteorological Department during the year 1882-83:—

		Rs.	A.	P.	Rs.	A.	P.
Meteorological Reporter	..	3,600	0	0			
Office establishment	..	2,764	1	10			
Office rent	..	900	0	0			
Observers.. Telegraph Masters*	..	2,325	0	0			
Observers.. Native observers	..	3,480	0	0			
Messengers' allowances	..	78	0	0			
Superintendent's allowances	..	1,440	0	0			
					14,587	1	10
Central Office.							
		Rs.	A.	P.	Rs.	A.	P.
Contingent and office furniture	...	571	6	9			
Postage ...	...	507	9	0			
Telegraphic messages	...	9,646	4	0			
Travelling allowances	...	926	8	0			
					11,651	11	9
Observatories.							
Building and repairs ...	...	473	6	9			
Contingent ...	...	83	9	0			
					556	15	9
GRAND TOTAL	...	.....			26,795	13	4

The total is Rs. 2,155 in excess of last year. This is, however, due almost entirely to increase in the nominal charges for telegraphic messages and postage. The weather telegrams for the use of the Calcutta Storm Signal Service were despatched throughout the year as "urgent." This caused the large increment under that head. The increased correspondence and circulation of the Bay of Bengal daily weather reports to Government officials explans the increment under the head "Postage." Building and repairs were well within the budget allowance in consequence mainly of the large expenditure under this head last year.

The statement does not include the cost of instruments supplied to the observatories by the Indian Meteorological Department, nor does it include the cost of stationery supplied to the central office, or of printing the various forms required by the office, nor of printing the meteorological returns published in the Gazette or otherwise.

JOHN ELIOT, M.A., F.M.S.,

Meteorological Reporter to the Government of Bengal.

METEOROLOGICAL OFFCE, BENGAL,
The 30th May 1883.

Paid through the Telegraph Department.

RETURNS OF JOINT STOCK COMPANIES FOR 1882-83.

No. I.

Statement showing the name and number on the Register borne by each Joint Stock Company registered in the Calcutta Registry Office, with its object, nominal capital, and date of registration, during the year ending 31st March 1883.

P. GHOSH,

Registrar of Joint Stock Companies.

1st May 1883.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 14th July 1883.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
	BURDWAN DIVN.		
1	Burdwan, July 14 '83	0·91	Light showers at intervals; weather generally fine. Want of rain has retarded agricultural operations seriously. Transplanting is almost at a stand-still. Prospects unfavourable.
	Culna ...	0·72	
	Cutwa ...	0·34	
	Raneegunge ...	0·95	
2	Bankoora, „ 14 „	0·43	Weather—hot and cloudy with gales. The rainfall of the week was insufficient for the rice crop. *Til* and *boro* paddy being reaped. *Kang, kheri, kodo* and other hilly crops of the Sonthals are being sown. Prospects continue favourable. Public health good.
	Bishenpore ...	0·33	
	Maliara ...	0·82	
	Khatra ...	1·28	
3	Beerbhoom. „ 14 „	2·03	Weather—sultry. Transplanting of *aus* and *amun* crops going on. Propects satisfactory. A few cases of cholera in south of district.
	Rampore Haut „	1·32	
4	Midnapore, „ 14 „	0·61	Weather—cloudy with slight showers. Prospects of crops good, but more rain is wanted. Public health good.
5	Hooghly, „ 14 „	0·61	Weather—hot and cloudy. Owing to the scanty rain cultivation of *aus* rice is not going on Public health good.
	Howrah July 14 „	1·38	Weather—sultry till night of 11th, since which cloudy and showery. *Jute, aus* rice and sugarcane growing fast. *Amun* rice showing above ground.
	Oolooberia ...	0·83	
	Central Districts		
	PRESIDENCY DIVN.		
6	24-Pergunnahs, July 16 '83	1·82*	Weather—clear and hot in the beginning of the week, and cloudy and rainy in the latter part. Early crops doing well. Transplanting of *amun* paddy going on. Prospects good. Public health good
7	Nuddea, „ 14 „	.....	Weather—cool and cloudy with occasional rain. Crops doing fairly well. Mortality from fever somewhat increased.
	Kooshtea ...	1·99	
	Meherpore ...	0·36	
	Chooadanga ...	0·63	
	Ranaghat ...	0·52	
8	Khoolna, „ 14 „	0·77	Weather—cloudy and rainy. Transplanting of *amun* continues Prospects good. Public health continues good.
9	Jessore, „ 14 „	0·72	Weather—hot and cloudy with occasional slight rain. Want of rain is likely to injure the rice crop. More rain is urgently wanted. General health good.
	Jhenida ...	1·02	
	Magura ...	0·37	
	Narail ...	2·25	
	Bongong ..	0·90	
10	Moorshedabad, „ 14 „	0·48	Weather—hot and close, with occasional light showers. More rain much wanted for transplanting operations. Prospects of *bhadoi* favourable. Public health generally good.
	RAJSHAHYE AND COOCH BEHAR DIVN.		
11	Dinagepore, July 13 '83	0·26	Weather—hot and dry. Rain much wanted. *Bhadoi* is suffering, and transplanting of *amun* is being delayed. Rice selling at from 16 to 28 seers per rupee.
12	Rajshahye, „ 14 „	0·58	Weather—overcast, and strong east wind at times. Rain very much wanted for both *aus* and *amun* crops.
	Nattore ...	0·10	
	Nowgong ...	Nil	
13	Rungpore „ 13 „	0·80	Weather—hot. Prospects of standing crops fair. Transplanting of *amun* going on. Rain is urgently required. Cholera still somewhat prevalent.
	Gaibanda ...	1·54	
	Kurigram ...	0·95	
	Nilphamari ...	Nil	
14	Bogra, „ 14 „	3·81	Weather—most part of the week dry, and heat oppressive, but good rain in the latter end. Transplanting of *amun* continues. *Til, kaon* and *joli aus* ready for reaping. General health good, except some cases of fever reported from the police station of Bogra and outpost Dhunat.
15	Pubna, „ 14 „	2·10	Weather—cloudy with slight showers. Prospects of crops good. *Aus* paddy being gathered and first instalment of jute in the market. More rain wanted. Rivers falling considerably. Public health good.
16	Darjeeling, „ 14 „	1·93	Weather—brighter than usual for the season in the hills. All crops doing well. Cholera still hanging about.
17	Julpigoree, „ 14 „	1·86	Weather—abnormal and unhealthy; unusual breaks. Prospects of crops pretty fair. More steady rain is wanted. Both early and late rice are suffering in some parts of the district for want of steady rain. Cholera still lingers in town of Julpigoree and district.
	Cooch Behar, „ 14 „ up to 11th.	0·42	Weather—very hot and close. Early rice being cut. Prospects of jute fair. Rain wanted for late rice. Cholera abating.
	Dinhatta ...	0·58	
	Mathabhanga up to 7th. ...	0·76	
	Mecklignnge up to 7th ...	Nil	
	Eastern Districts.		
	DACCA DIVN.		
18	Dacca July 14 '83	1·56	Weather—hot and sometimes cloudy. *Roachia* and *sail* paddy and *kalai* and *moog* are being sown. *Aus* paddy and jute are being cut. Sugarcane and *amun* promising. A large quantity of jute in the Nawabgunge station has been destroyed by worms Prospects of *aus* paddy in that station is improving, the waters having fallen.
	Manickgunge ...	0·17	
	Munshigunge ...	0·34	
	Naraingunge ...	0·62	
19	Furreedpore, „ 14 „	0·77	Weather—very hot, generally gloomy and showery, but the real rains still hold off. State and prospects of crops still fair, but the need of rain is becoming rather urgent. There is some small-pox in thana Palong, and a good deal of fever about Furreedpore and elsewhere. In Goalundo public health generally good.
	Goalundo ...	0·54	
	Madaripore ...	1·67	
20	Backergunge, „ 12 „	0·90	Weather—high wind during the first three days of the week, and sultry afterwards. Crops doing well. General health good.
21	Mymensingh, „ 13 „	1·62	Weather—very oppressively warm owing to absence of rain; rivers also have sunk rapidly in consequence. *Aus* and jute have suffered from want of rain in the north-east of the district; elsewhere crops said to promise fairly. *Amun* being transplanted. General health fair.
	Jamalpore ...	0·53	
	Kishoregunge ...	0·76	
	Attea ...	0·56	
	Netrokona ...	3·30	

* For week ending 14th instant.

No.	District, and date of return.	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL—*contd.*			
Eastern Districts.—concld.			
Chittagong Div. 22	Chittagong July 17 '83	2·12	Weather—hot with occasional rain. Transplanting of *aus* almost over. Sowing of *amun* continues Prospects fair. Prices steady. Cholera and cattle-disease still reported.
23	Noakholly, „ 12 „	2·82	Weather—changeable:—often cloudy; at times clear and sultry; strong southerly wind sometimes prevailing. State and prospects of *aus* paddy fair. Transplanting of *amun* paddy in progress to some extent.
24	Tipperah, „ 12 „	0·51	Weather—unusually hot and occasionally showery. Prospects of crops generally good. Public health generally good.
	Brahmunbaria ..	0·71	
	Chandpore ...	1·70	
25	Chittagong Hill Tracts. „ 10 „	0·28	Weather—very close and warm; occasional light showers. *Jhoom* paddy doing well. Cotton crop short. Land being ploughed for rice.
	Hill Tipperah, „ 11 „	1·37	Weather—hot and occasionally rainy. *Amun* paddy is being transplanted. *Til* being reaped and *moog* being sown. Prospects of sugarcane fair. Public health good
BEHAR			
Patna Div. 26	Patna, July 14 „	0·57	Weather—hot. Sowing of *bhadoi* and paddy crops continues. *Rabar*, maize, and other crops germinating well. A few cases of cholera and small-pox reported from Behar sub-division.
	Barh ...	1·36	
	Behar ...	0·68	
27	Gya „ 14 „	Nil	Weather—extremely sultry. Want of rain beginning to be severely felt in some parts of the district. Generally, however, agricultural prospects good. Cholera is still very prevalent.
28	Shahabad, „ 14 „	Nil	Weather—too hot for the season. Break in the rains unfavourable to agricultural prospects. Prospect of rain today (14th). Out-turn of *cheena* estimated at 6 annas, and of *boro* paddy at 14 annas.
	Buxar ...	1·47	
	Bhabooah .	Nil	
29	Durbhunga, „ 14 „	0·10	Weather—high wind, with clouds, showers and sunshine; variable, excessively hot up to 12th. Accounts vary. Rain badly wanted in some places; in others all accounts good. Sudden flooding of low lands has done much harm. Health good. Prices rising slightly or stationary.
30	Muzufferpore, „ 14 „	0·34	A break in the rains lasted from the commencement of the week until the 12th, with strong sun and but little cloud. *Bhadoi* sowings almost completed.
	Hajeepore ...	0·51	
	Seetamurhee ...	1·34	Sowing and transplanting of *aghani* in progress. Absence of rain has retarded operations.
31	Sarun, „ 14 „	Nil	Weather—close and sultry. Heavy rain at the time of report. Prospects good.
	Dewan ...	1·46	Weeding going on briskly. *Makai* in progress. Rain much wanted. Sporadic cases of cholera and small-pox still reported.
	Gopalgunge ..	0·90	
32	Chumparun „ 14 „	Nil	Weather—hot and cloudy with east wind. Prospects of crops continue favourable. Agricultural operations in rapid progress. General health fair.
33	Monghyr, July 14 '83	0·28	Weather—steamy and cloudy at intervals. A break in the rains. Transplanting of winter rice retarded for want of rain. State and prospects of *bhadoi* crops still very good. Public health generally good.
Bhagulpore Div. 34	Bhagulpore, „ 14 „	0·15	Weather—very hot. *Murwa* and *aghani* paddy being transplanted in the north. *Bhadoi* crops promise well. More rain much wanted everywhere. Public health good.
35	Purneah, „ 14 „	Nil	Weather—very hot till to-day (14th). State and prospects of crops very good; but rain is rather wanted. Health fair. Fever bad in places.
	Kissengunge ...	3·69	
	Arrareah ...	0·54	
36	Maldah, „ 14 „	0·79	Weather—sultry; scanty rainfall; moderate easterly wind prevailing. Insufficiency of rain is materially affecting the standing crops. Prices of food-grains rising. Public health generally good.
37	Sonthal Pergha. ...	.....	Report not received.
ORISSA.			
Orissa Div. 38	Cuttack, July 13 '83	5·07	Weather—seasonable. *Beali* being weeded. In some places *sarad* being re-ploughed. Rice crops on low land in some parts of Jajpur and Kendrapara sub-divisions reported to have suffered slightly from floods during last week. Sugarcane, turmeric and *arhar* growing well. Common rice selling at from 20 to 24 seers per rupee. Public health generally good.
39	Pooree, „ 12 „	6·34	Weather—rainy. Much damage done to paddy crop in pergunnahs Rahang, Chabbiskud and Rameswar by recent flood. Rivers falling. Miscellaneous crops doing well. Several cases of cholera among pilgrims; otherwise public health good.
	Khoorda ...	7·11	
40	Balasore, „ 13 „	3·84	Weather—somewhat hot with occasional rain Ploughing and transplanting going on. Standing crops doing well. A few cases of cholera reported in the Bhadrack sub-division. Public health otherwise good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, July 13 '83	2·43	Weather—warm and cloudy. Sowing of *bhadoi* and early rice still continues. General prospects good. Health good.
42	Lohardugga, „ 14 „	3·88	Weather—showery. Prospects of crops satisfactory. A good deal of sunshine has done much good during the week. Epidemic cholera has broken out in Husanabad. Prices steady.
	Palamow	4·45	
43	Singbhoom, „ 13 „	3·61	Weather—hot and close; bright unclouded skies, and no rain during the greater part of the week. Everything progressing favourably. Prospects promising. General health fairly good.
44	Manbhoom, „ 14 „	1·25	Weather—rainy and stormy. More or less rain general throughout the district.
	Govindpore ..	0·63	Paddy, Indian-corn, and *biri*, *moog*, and other pulses on the ground doing well. Public health very good.

Published for general information.

blank. If some of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

JOHN ELIOT,
Meteorological Reporter to the
Government of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY FOR THE MONTH OF JUNE 1883.

JUNE is meteorologically the most important month of the year. It usually witnesses the establishment of the south-west monsoon over Northern India. The distribution of rain during the month generally indicates the chief features of the rains during the whole south-west monsoon period.

The south-west monsoon usually commences on the east coast of the Bay in the last week of May or the first week of June. It advances northwards sometimes as a wave of rainfall, and sometimes as a cyclonic storm. It is usually established in South Bengal during the first or second week of June, and if the conditions are normal, extends rapidly eastwards up the Gangetic valley to Behar during the second or third week of the month.

The circumstances and conditions accompanying its establishment are different in Bengal from what they are on the Bombay coast. The south-west monsoon current is merely a remarkably steady and prolonged sea wind due to conditions and actions similar in character to those which produce the sea breezes of the hot weather. Its strength and persistence are not to be measured by the average force of the wind which on the Bengal coast is less than the strength of the local sea breezes of the hot weather months, but by the extent of the sea area over which it prevails, and the height of the atmosphere which participates in the motion. The Bengal sea breezes of the hot weather months commence in March, and are confined to the immediate neighbourhood of the coast. They gradually extend further south during April and May. They affect comparatively a small height of the atmosphere. But blowing as they do into the low and extensive plains of Bengal, their influence is felt over the whole of Bengal, and increases with the increased extent of sea area over which they blow. They thus give frequent thunderstorms and rain to Bengal, the amount of which increases during April and May, but the distribution of which is the same in both months, as it depends mainly on the geographical configuration, &c., of the country in its relation to the same winds. On the Bombay coast the high range of the Western Ghâts do not permit any such continuous increase of action, as they form an almost complete barrier to the sea winds. Hence throughout the hot weather months the sea breezes at Bombay are confined to a very narrow belt of the coast, and affect a very small portion of the atmosphere as compared with the Bengal sea breezes. Hence also they very rarely give rise to storms or rain, and thus differ considerably from the corresponding sea winds in Bengal, although due to similar causes.

The development or transformation of the local sea winds of the hot weather months into the more important and extensive sea winds of the rains is very different in its character in the two cases In Bengal there is no large or sudden change. The humidity increases slightly, the sky becomes more clouded, and rain falls more frequently. In those parts of the Province only which are beyond the direct influence of the sea breezes (Behar and Chutia Nagpur) is the change a large and marked one. On the Bombay coast, on the other hand, it is a change from sultry weather, clear skies, and local winds to strong general winds, overcast skies and heavy rainfall. Hence in Bengal the change is a development of previous conditions, and it is rarely possible to assign a particular date for the commencement of the monsoon. It is on the other hand a transformation, a reversal of conditions on the Bombay coast, the date of which can be assigned exactly. In Behar it may be added the commencement of the south-west monsoon is usually shown by a steady of increase in the humidity of the air for some days previous to the occurrence of rainfall.

The Bombay branch of the monsoon current usually sets in about the middle of June, and advances slowly across Central India and the Central Provinces where it is generally not fully established until the end of the month. When it is fully established it meets in its eastward progress at an obtuse angle the current from the Bengal coast advancing up the Gangetic plain. Hence arises a very considerable amount of interaction, the extent and position of which depends on the varying relative strengths of the two currents. Consequently a large part of the Province of Bengal is, during nearly the whole of the rains subject to the influence of, and receives its rainfall from, both currents. This, however, rarely occurs before the end of June. Hence the rainfall of the month of June occurs under similar conditions to what it does in April and May, with the exception that the current is much stronger and deeper and more largely charged with aqueous vapour. Consequently the rainfall distribution of the month of June is similar to that of the preceding two months. The lines of equal rainfall run north and south, or parallel to the hill barrier of East and North Bengal, and the amount decreases rapidly from east to west.

It is an important fact that the rainfall during the south-west monsoon is not a steady action. It occurs rather as a series of pulsations or waves of aqueous vapour condensation and rainfall The intervals between the bursts of general rainfall are extremely favourable to the formation of cyclonic vortices at the head of the Bay, which advance landwards across the Bengal or Orissa coast, and give heavy and occasionally excessive local rainfall to the districts over which they pass. Hence the important meteorological features of the month are the character and date of the commencement of the south-west monsoon, the occurrence of cyclonic storms or disturbances, and the distribution of the rainfall.

Establishment of the South-West Monsoon – The monsoon commenced very feebly on the Aracan and Pegu coast in the last week of May, when moderate rain fell, and continued until the 3rd of June. The first considerable fall of rain with rough weather occurred on that coast on the 3rd and 4th. It increased in amount and extended northwards. At the

same time the humidity began to increase in Behar. Rainfall was fairly general over South Bengal during the second week of the month, more especially after the 11th. The rainfall extended over the whole Province during the next week. In Behar and Chutia Nagpur the rains were ushered in from the 15th to the 18th by a cyclonic disturbance of considerable intensity, which gave remarkably heavy rain.

Barometric depressions.—Two were formed during the month at the head of the Bay. The first was generated in the north-west angle of the Bay, quite close to the Balasore coast, and in the Balasore and Midnapore districts on the 13th and 14th. It gave moderately heavy rain to North Orissa and South-West Bengal, but was of little importance until the 15th, when it had advanced into South Behar. It then apparently began to draw large supplies of aqueous vapour from the monsoon current, which had by that time advanced into North Bengal and Behar. It moved across the Patna district into North Behar and passed into the northern part of the Purneah district, and gave excessive rainfall attended with heavy floods over a large part of Behar, more especially the Gya, Patna, Mozufferpore, Durbhunga, North Bhagulpore, Purneah, and Darjeeling hill districts. It broke up on the evening of the 19th or morning of the 20th in the Purneah district. The second depression and cyclonic vortex began to form on the 26th of the month. It followed a brief period of light winds and partial rainfall. Its existence was first indicated by the wind direction at Saugor Island on the morning of the 26th, when it was to the south-east of that station. It remained stationary until the 28th, during which period it gradually increased in intensity. It crossed the Balasore coast on the evening of the 29th, and passed across the North Orissa hills into the Central Provinces. It was chiefly remarkable for the very low barometer at its centre (29·1″) and for the very strong winds (almost of hurricane force) experienced by ships which passed through its eastern quadrant in the Bay.

Rainfall of month.—The average rainfall of the month exceeds 5 inches at all stations except Buxar, for which it is 4·7 inches. It varies from 5 to 10 inches at all stations (excepting Buxar) to the west of a curved line running through Rajmehal, Berhampore, Beerbhoom, Calcutta and Contai, and decreases from east to west. Between that line and a line running through Rungpur, Mymensingh, and Kishoregunj, along the western flank of the Tipperah hills, and through Chandpur and Patuakhally, the average rainfall varies from 10 to 20 inches in amount To the east of the latter line it exceeds 20 inches, and over the greater part of the Cooch Behar district, the Bhotan Duars and the Darjeeling hill district, and also in the Cox's Bazar district in South Chittagong, it exceeds 30 inches.

If the first day from which general monsoon rain occurred be accepted as the date of the commencement of the monsoon, the following give the dates for the Provinces for the present year :—

East Bengal ..	...	...	June	8th.
South-West Bengal	...	...	„	9th.
North Bengal	...	...	„	10th.
Orissa ...	...	...	„	10th.
Behar ...	...	...	„	14th.

The local distribution of rainfall for the month was very irregular. During the first week of the month, local showers were received in nearly every part of the Province. During the second week the monsoon current gave fairly general rain commencing from the east coast and advancing northwards and westwards. The depression which formed at this time gave very heavy rain during the third week over Orissa and the greater part of Chutia Nagpur and Behar. Light moderate rain also fell in Bengal. During the fourth week the second depression which formed passed over Orissa to which it gave heavy rain. Throughout the remainder of the Province rain fell almost daily as light showers, but the total amount in consequence of the indraught to the cyclonic draught was small.

The rainfall was less than 10 inches in amount over the north-western districts of Behar and Chutia Nagpur, and over a large part of Central Bengal, including the Moorshedabad, Rajshahye, Pubna, Buxa, Nuddea, South Burdwan, the greater part of the Presidency Division, North Jessore, Dacca, and the western half of the Mymensing district. In Central Bengal there were three centres of very slight rainfall—Manickgunge in the Dacca district, Nattore in the Nuddea district, and Ranaghat and Bongong in the Krishnaghur and Jessore districts. At each of these the rainfall was less than five inches in amount

Rainfall exceeding 20 inches in amount occurred over the Noakhally, Chittagong, Cox's Bazar districts, and also in the Cooch Behar, Julpigoree, North Purneah, and North Bhagulpore districts.

The rainfall was in excess over the whole of Orissa, the greater part of Chutia Nagpur, and the whole of Behar (excepting the Chumparun, Bettiah, Gopalgunge, and Bhoobooah districts, and part of the Southal Perguuas), the Julpigoree and Darjeeling districts. The excess exceeded 10 inches in the Behar, Muzafferpore, North Purneah and North Bhagulpore districts and the Darjeeling Hills, and also at Cuttack and Pooree and Chandbali in Orissa. The excess was also over 10 inches along the north-east coast from Cox's Bazar to Noakhally.

The rainfall was in defect over the districts referred to above, and also over near the whole of Bengal. The deficiency exceeding five inches over the greater part of Bengal to the east and north of a line running through Dinagepore, Rampore Bauleah, Krishnaghur,

Jessore, Midnapore, Chandbali, and Bhramanbariah. It exceeded 10 inches in part of the Cooch Behar and Rungpore districts, and the eastern half of the Mymensing district, including Mymensing and Kishoregunge.

The following table gives a summary of the rainfall and temperature data for the seven meteorological divisions of the Province:—

Meteorological District.	Temperature.						Rainfall.							
	Highest observed during month.	Lowest observed during month.	Average for month.			Average mean of week above or below normal mean month.	Of month.			Rainy days in month.			Since 15th May.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, p passing temporary showers, t thunder, lr lightning reflection.

JOHN ELIOT,

For Meteorological Reporter to the Government of India.

Explanation .Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If some of the returns are missing, the corresponding spaces in the total rainfall columns are left blank.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, 13TH JULY 1883.

It was stated in last week's report that a feeble cyclonic vortex had formed at the head of the Bay, and advanced slowly westwards during the latter part of the week. The centre was approaching and near to the Orissa coast at the end of last week. It crossed the Balasore coast late on Saturday evening and advanced over the North Orissa hills into the Central Provinces, where it apparently broke up on Monday after having given moderately heavy rain to South-West Bengal, Orissa, Chutia Nagpur, and the northern districts of the Central Provinces. The southerly winds which were established over Bengal on Saturday and Sunday, with the passage of the vortex across the Orissa coast, gave frequent light to moderate showers over the greater part of the Province. On Tuesday morning a rapid fall of the barometer at the stations on the east coast of the Bay, and a shift of wind at Akyab to north-east, indicated the commencement of the formation of another cyclonic vortex. It developed slowly on Wednesday, and commenced to move westwards on Thursday morning, advancing along a path some distance to the south of that of the two preceding vortices. Northerly winds set in over the north-west coast of the Bay on Wednesday morning, and gradually extended inland. The suspension of the southerly winds at this time, and the indraught from the north to the vortex, diminished humidity, and partially cleared the sky from cloud in North Bengal and Behar. Temperature also increased rapidly, and unusually high maximum day temperatures were registered in North Bengal and Behar, more especially on Thursday, after which temperature began to diminish. The westward advance of the vortex on that day began to give overcast skies and moderate rain to South Bengal and Orissa. The cloud amount increased considerably over the whole Province on Friday, and rain fell in every division. The vortex crossed the coast to the south of False Point near Gopalpore on Friday evening, when southerly winds were again established over the Province. They are now giving fairly general rain, more especially in East and North Bengal.

In consequence of the peculiar meteorological features of the week, little rain fell in Behar and North Bengal. Over the whole of that area the weather was that which is usually associated with a short break in the rains.

The variations from the normal conditions during the past week have been large. The average pressure was generally below the normal by small amounts except at the Orissa stations, where pressure was very low as contrasted with the remainder of the Province, in consequence of the passage across it of two cyclonic vortices. The deficiency at False Point was a tenth of an inch. Temperature was above the average except in Orissa. This was most marked in Behar and North Bengal, for which the mean temperature of the week was probably 2° above the normal. Winds varied considerably in force during the week, but were normal in direction except in South-West Bengal and Orissa, where they shifted with the position of the vortices. The sky has been on the average more than half covered with cloud except at Buxar, Motehari, and Chuprah, the most westerly stations in Behar, and at Bhagulpore.

The following table gives the usual summary of the temperature and rainfall data for each of the seven meteorological divisions of the Province :—

Week ending 13th July 1883.

Meteorological District.	Temperature						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Average for week. Of highest of each day.	Of lowest of each day.	Of mean for each day.	Average mean of week above or below normal mean week.	Of week. Average.	Normal average.	Variation.	Rainy days. Average number in week.	Normal average number.	Variation.	Since 1st of month. Average.	Normal average.	Since May 15th. Average.	Normal average.
Orissa	96·4	74·8	87·0	78·7	82·8	—1·2	2·20	2·06	+0·06	4·9	4·0	+0·9	6·64	5·07	25·96	15·26
South-West Bengal ...	94·6	77·0	85·9	78·6	84·3	0·0	0·99	2·56	—1·57	3·6	4·4	—0·9	2·99	4·78	17·23	17·64
East Bengal	94·2	75·6	85·2	76·1	83·2	+0·4	2·18	3·60	—1·52	4·6	5·1	—0·5	3·30	6·28	22·50	20·84
North Bengal	97·8	74·6	92·3	79·1	85·5	—	0·59	3·78	—2·79	2·4	4·3	—1·9	1·26	6·92	21·89	32·85

Chutia Nagpur	87·8	73·6	84·7	74·2	79·6	—0·2	2·06	2·94	—0·89	3·9	4·8	—0·9	5·89	5·20	16·00	16·33

The preceding table shews that Orissa is the only division which received abundant rain. In Chutia Nagpur and East Bengal the rainfall was slightly in defect. Over the rest of the Province the rainfall was very small in amount. In North Bengal and Behar it occurred merely as local and light showers, which on the average gave from 10 to 20 per cent. of the normal rainfall for the week. Over the same area the average number of rainy days during the week was only half, as contrasted with the normal number 3. Hence an almost complete break in the rains prevailed in that part of the Province during the week.

Saturday, 7th July.—Pressure fell rapidly in Orissa, and to a less extent in Chutia Nagpur and the adjacent districts of South-West Bengal. It increased over the remainder of the Province, the rise being largest in North Bengal. The rapid fall in Orissa was due to the slow westward movement of the cyclonic disturbance, the centre of which, at 10 A.M. was in the north-west angle of the Bay, and approaching to the North Orissa coast. It crossed the Balasore coast in the afternoon. The disturbance was a small one, but it originated in the same part of the Bay and marched along the same path as the vortex of the fortnight previous. Temperature was rising over the Province. The mean temperature of the past 24 hours was 4½° below the mean in Orissa, and 2° in Chutia Nagpur and South Bengal It was 2° above it in East Bengal The barometric depression at the head of the Bay continued to be fed by moderate winds of indraught. Winds were south-easterly in East Bengal, variable in North Bengal, easterly in Behar and Chutia Nagpur, and north-easterly to north-westerly in Orissa. The air was unusually dry over a large part of North Bengal and North Behar. The amount of cloud was generally less than on the 6th. Skies were overcast at the majority of stations in Orissa, South-West Bengal, Chutia Nagpur and the Gya district of South Behar.

Rain occurred chiefly in connection with the cyclonic disturbance and was fairly general in Orissa, the south-western districts of South-West Bengal and Chutia Nagpur. A few light showers of no importance fell in East and North Bengal. Tajpore in the Cuttack district received the heaviest amount—3 3 inches.

Sunday, 8th July.—Pressure was increasing rapidly in Orissa and in South-West Bengal. The changes elsewhere were small and unimportant. The cyclonic disturbance was now advancing and near to the North Orissa hills Temperature was generally slightly lower than on the 7th. Winds were normal in direction. The monsoon winds at the head of the Bay were feeble. Little change took place in humidity. The chief feature was low humidity in Eastern Bengal. The sky was overcast at a few stations, but was generally more than half clouded. General rain, light to moderate in amount, fell in Orissa, Chutia Nagpur and the adjacent districts of South-West Bengal. Light local showers also fell in the eastern districts of South-West Bengal, East Bengal and the northern districts of North Bengal. The rainfall was unusually light over the greater part of North and East Bengal.

Monday, 9th July—Pressure had increased at the great majority of stations. The rise was rather large in Orissa, but elsewhere the changes were small and of little importance. Pressure was generally below the average by small amounts. Temperature was again rising. The mean temperature was about 1° below the average in Orissa and South Bengal, and 2° below it in Chutia Nagpur and the Gya district. It was slightly above the average in South and Central Behar. The highest maximum temperature was 95·5° recorded at Chupra. Winds were generally normal in character. Light to moderate monsoon winds were blowing at the head of the Bay. The air was much damper in East Bengal and the sky was overcast at the majority of stations in East and North Bengal. It was almost free from cloud in South Behar. Light local showers of little importance fell in every division of the Province: they were slightly heavier and more general in North and East Bengal than elsewhere. A partial break in the rains commenced with the passage of the previous cyclonic vortex across the Orissa hills.

Tuesday, 10th July.—Pressure increased during the preceding 24 hours over the whole province by small amounts, except at Chittagong. A large fall at that station was the first sign of the formation of an area of low pressure off the Aracan coast. Pressure exceeded the normal by small amounts, except in Orissa and at Gya, where it was slightly in defect. Temperature was increasing steadily and was generally above the average by small amounts The mean temperature of the past 24 hours was 1° above the normal of the day in Behar. The highest maximum temperature of the day was 95·9° at Buxar. Winds were again lighter at the head of the Bay. They were generally unchanged in direction except that westerly winds had set in at Cuttack and False Point. They were probably due to the depression now forming. The sky was overcast at two or three stations in South Behar, and was almost cloudless in South-West Bengal and North Bengal. Light showers fell in every division during the preceding 24 hours. They were fairly general in North and East Bengal The heaviest reported fall was 4·46 inches at Buxa in the Bhootan Duars. Elsewhere the showers were very light and limited in extent and of little importance. Weather was fine with passing clouds and light local showers except in Behar, where no rain was falling.

Wednesday, 11th July.—Pressure was increasing in Behar, Chutia Nagpur, and at a few stations in South-West Bengal, and was now falling elsewhere. The changes were small except at Chittagong and Akyab, where the barometer was now falling rather rapidly The area of low pressure and cyclonic air motion of the Aracan coast was more clearly marked than on the 10th and was slowly developing into a feeble disturbance. Pressure was slightly above the average of the day, except in East Bengal and Orissa, where it was in defect. Temperature was increasing rather rapidly, more especially in Behar. The mean temperature of the past 24 hours varied from the normal of the day by amounts averaging ½° in Bengal and ½° in Behar and Chutia Nagpur The highest temperatures for this day were 98·9° at Buxar, 98°, at Patna, and 9·75° at Dehree. Winds were very light at the Head of the Bay and had shifted round to north-east at Balasore and False Point, and to north-west at Gopalpore. Light easterly winds prevailed generally in North Bengal and Behar. The air was drier, more especially in South Behar. The cloud amount was smaller also everywhere and was least in North Bengal and Behar. A few light showers of little import-

ance fell in Orissa, South-West and East Bengal, and in and near the Darjeeling Hills. The break in the rains now extended over the whole province.

Thursday, 12th July.—Pressure gave way over the whole province, most rapidly in Orissa and North and Central Behar. It was at 10 A. M. generally below the normal pressure of the day. The deficiency was greatest at False Point, where it was ·09". The cyclonic vortex, which began to form on Tuesday off the Aracan coast, now commenced to move westwards across the Bay towards the Orissa coast. Temperature was above the average except at the coast stations of Orissa and South-West Bengal, and had increased considerably in Behar. The mean temperature of the past 24 hours was 1° above the normal in East Bengal, 2° in South-West Bengal, and 4° in North and Central Behar. High maximum temperatures were recorded for the day in South Behar. Buxar registered a maximum temperature of 101·9° and Patna of 100°. Winds were very light over the whole Province. In South Bengal winds were easterly and on the Orissa coast they were northerly or north-north-westerly. The indraught to the vortex was thus extending, but was as yet very feeble from the north. In North Bengal and Behar light easterly winds prevailed. The extension of the cyclonic disturbance during the past 24 hours gave increased humidity and overcast skies to South-West Bengal and the Orissa coast. In the interior of the province the slight indraught to it continued to diminish the humidity and cloud amount. Rain fell only in connection with the cyclonic disturbance over Orissa, South-West Bengal, and East Bengal, and was generally moderate in amount. The break in the rains continued in Behar, North Bengal and Chutia Nagpur. The cyclonic vortex now gave overcast skies and rain to South Bengal and Orissa.

Friday, 13th July.—Pressure decreased slightly during the preceding 24 hours in Orissa, South-West Bengal, and at the majority of the North Bengal stations, and increased elsewhere. The fall of the barometer in Orissa was due to the westward movement of the feeble cyclonic vortex which was at 10 A. M. approaching the Orissa coast. It crossed the Orissa coast south of False Point and near Gopalpore late in the evening of this day. Pressure varied very slightly from the normal at 10 A. M. except in Orissa, and more especially at False Point where it was ·14" below the average for the day. Temperature was above the generally and was unusually high in Behar and North Bengal. Buxar recorded the highest maximum temperature—101·9°. Winds were light to moderate in force at the head of the Bay, and indicated feeble indraught to the vortex off the Orissa coast. North-east winds generally prevailed in Orissa and South-West Bengal at 10 A.M, but shifted round to south-east during the next 24 hours. Winds were light, variable, and unsteady in South Behar. The air was slightly damper in Bengal and Orissa. Skies were overcast or thickly clouded in South Beng l and Orissa. The sky was almost clear at the Behar stations. Rain fell in moderate amounts over South-West Bengal, East Bengal and the greater part of North Bengal Little or no rain fell in Behar, and the rainfall of North Bengal was very limited. The cyclonic vortex gave slightly unsettled weather with rain to South Bengal and Orissa. In Behar, North Bengal and Chutia Nagpur the break in the rains continued.

Results of the Thermometrical Observations taken at the Meteorological Office, Chowringhee, from 8th to 14th July 1883.

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA
The 16th July 1883.

JOHN ELIOT,
For Meteorological Reporter to the Govt. of India.

MEMORANDA.

THE subjoined table presents the vital statistics of the first class Municipalities in Bengal for the week ending 30th June. The results to be gathered from it, contrasted with those disclosed in the table for the preceding week ending 23rd June, are the following. As this week closes the month, occasion will also be taken to review the results of the whole month.

(1) The Municipalities which returned the highest birth and death-rates in this week were :—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Gya	29·4	Gya	70·4
Burdwan	29·0	Darjiling	59·3
Santipore	25·9	Mozufferpore	47·4
		Poori	38·5
		Durbhanga	36·2
		Patna	28 9
		Suburbs of Calcutta ..	27·1
		Chuprah	25 4
		Kishnaghur	25·0

(2.) The mortality from the different death-causes stood as follows as compared with that in the preceding week :—

	Ratio per 1,000 during weeks ending	
	30th June.	23rd June.
Cholera	3·8	4·5
Small-pox	·5	·4
Fever	10·2	11·7
Bowel-complaints	3·6	4·5
Injury	·6	·4
Other causes	6·6	6 9

These figures reveal that, excepting fractional increases in the death-rates from small-pox and violence, all the other diseases proved less fatal this week. Examining the death-rates from the above-mentioned diseases in all the weeks in June, it is seen that the only disease that prevailed, on the whole, with noticeable severity, was cholera, the death-rate from which was never below 4 per 1,000 of population, except during the week under review, when it stood at the still high ratio of 3·8 per 1,000.

Of the above-mentioned diseases cholera, small-pox and fever exhibited the greatest severity during this week in the following Municipalities:—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.
Gya	20·5	Gya	4·1	Darjiling ...	44·5
Mozufferpore ..	12·2			Gya	25·3
Durbhanga ..	6·3			Jessore ...	24·5
Chuprah ..	5 9				
Suburbs of Calcutta	4·5				

Bowel-complaints proved greatly fatal in Durbhanga and Chupra, exhibiting a mortality represented by 11 8 and 9·8 persons per 1,000, respectively; and those diseases that are classed under the head of "Other causes" in Gya (15·7 per 1,000), in Poori (12·8 per 1,000), and in the Suburbs of Calcutta (9·7 per 1,000). Adverting again to the figures of all the weeks in June, we find that cholera persistently maintained the highest death-rates during *all* these weeks in Mozufferpore, Durbhanga, Gya and the Suburbs of Calcutta, in the order mentioned, and in Arrah and Howrah in the first and second weeks; small-pox only in Gya in the first, second and fourth weeks; and fever in Purneah in the first, second and third weeks, and in Darjiling, Gya and Jessore in the fourth week; and that all the other diseases did not exhibit exceptional local severity during the whole of the period under review.

Class or *Nationality.*—The death-rate among Christians was the highest this week, (3 87 per 1,000 of population); Hindus furnished the next highest rate, viz. 26 6 per 1,000; and Mahomedans the lowest rate, the mortality among them amounting to 22·2 per 1,000.

Referring to *Age*, it is seen that during this week, while infants continued to perish in the highest proportion (223·6 per 1,000 of the living), old men died at the unprecedentedly low ratio of 29·5 per 1,000. The lowest death-rate was returned from among children aged 5 and under 10 years, who usually die in considerably larger numbers.

F. W. A. DEFABECK,

The 16th July 1883. *Officiating Sanitary Commissioner for Bengal.*

Grand Total ...	1,184,824	11,91,369	943,633½	10,67,110	281,977½	1,55,837	40,787	31,578
Net ...	.....	.	.....	.....	241,190½	1,24,259	... .	...

The increase is in third-class ordinary passengers who appear to have been moving in large numbers to the various mêla and places of pilgrimage.

The average number of passengers in a train at any one time was for the period—
May 1883 268
,, 1882 266
shewing the necessity for the extra train service.

GOODS.

The main features in the month's traffic are the large increases in the export wheat and seed trade, and the falling off in weight and earnings of material carried on construction account.

The principal fluctuations are given below :—

INCREASES.

Coal, down.	Piece-goods.
Ordnance stores.	Railway materials (Foreign.)
Wheat.	Seeds.
Gunny.	Sugar.

DECREASES.

Beer, Commissariat.	Iron.
Coal, up.	Construction material.
Rice.	Salt.
Pulses.	Stone.

Remarks.

INCREASES.

Coal, down ... ... Mds 3 52,760 Rs 51,210
Asansol, Barakar, and Giridi show increased despatches downwards, chiefly to Calcutta.

Ordnance stores .. .. Mds. 6,160 Rs. 21,810

This arises at Howrah, and consisted of a large quantity of ammunition despatched to Rawalpindi.

Wheat .. . . Mds. 11,45,160 Rs. 5,86 390

Gunny ... ... Mds 55,980 Rs. 52,890

The large export of country produce during the month led to an extensive enquiry for bagging.

Piece goods . .. . Mds. 55,640 Rs. 40,640

Improved demands in the Tirhoot and North-West districts will account for the larger despatches this year

Railway materials (Foreign) ... . Mds 1,31,950 Rs. 95 570

Consignments for the Patna-Bareich Railway to Bankaghat, to Benares for the Oudh and Rohilkhund Railway, and to Cawnpore for the Furruckabad line make up the increase this year.

Seeds .. .. Mds. 2,73,440 Rs. 1,31,750

Very large exports of oilseeds from Calcutta are reported during the month of May.

Sugar .. .. Mds. 23,930 Rs. 4,840

Increases appear at Patna, Benares, Mirzapore and Cawnpore.

DECREASES.

Beer, Commissariat ... ... Mds. 15,770 Rs. 18,110

This fluctuates a good deal.

Coal, upwards ... . Mds. 81,870 Rs. 32,170

Decreases are shown against Asansol, Seetarampur, and Barakar in weight and receipts, and against Giridi in weight also.

Rice ... . Mds. 34,010 Rs 31,210

The demand in Calcutta has been unusually slack.

Pulses ... . Mds. 68,000 Rs. 24,010

The exports from some stations to Howrah were not large.

Iron ... ... Mds. 7,390 Rs. 15,020

There does not appear to have been any but normal demands for first class iron, while the despatches of machinery, second class, fell off also.

Construction material ... . Mds. 12,09,050 Rs. 32,390

The doubling of the line between Buxar and Moghalserai has been completed.

Salt ... ... Mds. 49,790 Rs 28,770

The following statement will explain where the falling off has arisen.

Salt Traffic during five weeks ending 26th May 1883.

URBAN BROUGHTON, *Offg. Traffic Manager.*

Report on Fluctuation of Traffic on the Tirhoot State Railway for the month of May 1883

THE total quantity of goods carried during the month of May 1883 aggregated maunds 3 00,831 as compared with maunds 3,36,372 carried during the corresponding period of 1882, and maunds 3,27,604 carried during the previous month, showing decreases of maunds 35 541 and maunds 26,773 respectively

Of the several increases and decreases, the following are the most prominent ones and worthy of special explanations:—

INCREASES.

Food-grains ... ... Mds. 2,866

This traffic is chiefly rice from Durbhunga and other stations on the Branch Line, and the increase is due to the demand for foreign markets.

Piece goods ... ... Mds. 2,892

This is due partly to the extensions of the line and partly to this being the last of the auspicious months for the Hindoo marriages

Salt .. .. Mds. 3,283

The stocks in the local markets having been exhausted owing to the small quantity imported last month, merchants had to buy extensively to meet local demands.

Seeds ... ... Mds. 12,656

This increase is due partly to the extensions of the line, partly to the high rates ruling in Calcutta, and partly to the fear of a block on the East Indian Railway.

DECREASES.

Coal .. .. Mds. 24,030

Owing to the contractors for the extensions of this Railway having burnt nearly all the bricks and ballast they require

Hides and horns ... ... Mds. 2,789

Falls off in the hot weather, and decreases probably due to the weather being more favourable for cattle than usual at this time of the year

Iron ... ... Mds. 4,505

Due to small quantity of machinery having been imported by planters during the month.

Lime and kunker ... ... Mds. 11 607

Owing to the completion of the civil buildings at Durb anga and of the extensions of the line.

Railway materials ... . Mds. 25,248

The decrease in this commodity is due to the completion of the three extensions of this Railway

Tobacco .. .. Mds. 1,298

This is probably due to there not being a sufficient number of l comotives on the line to convey all traffic away that was brought in daily.

TRAFFIC DEPARTMENT.

Statement showing Increases and Decreases in Maundage of principal Staples carried over the Line during the month of May 1883 *as compared with the corresponding period of* 1882.

Total ...	66,846	19,125	78,406	13,142	85,971	90,638	25,190	20,525

Increase.

	Mds.
Coal	1,690

This increase is due to coal being required for the working of the Rice-mills at Canning on a larger scale than the previous year.

Hay	3,560

This increase is due to favourable market.

Straw	1,573

This increase is due to greater demands at selling stations.

Rice	15,416

This increase is due to mills at Canning working on a larger scale than the previous year, and exports of rice from Hogla Hât.

Sundries	3,251

This increase is due to exports and imports of miscellaneous goods to and from the extension.

Decrease.

	Mds.
Building materials	7,029

This decrease is due to works for the extension coming to close.

Railway materials	9,154

This decrease is due to completion of the extension.

Firewood	2,922

This decrease is due to less import of firewood at Canning and Basra stations for the roughness of the river.

Wooloo	820

This decrease is due to unfavourable market.

Paddy	898

This decrease is due to less demand at the selling stations.

Calcutta, the 16*th July* 1883 R. G MOOKERJEE, *Manager.*

Increase.

	Mds.
Seeds	2,305

The increase is due to high rate in the local market.

Jute	4,748

This increase is due to want of sufficient water in the river Bhagirathee which carries the traffic; also high rate in the Calcutta market.

Decrease.

Edible grains	967

The decrease is due to low rate in the Calcutta market.

Sugar and Jaggree	519

The decrease is due to low rate.

Revenue stores	684

This decrease is due to no ballast being carried by ordinary train.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 14 of 1883.

A Bill to amend the Cattle-trespass Act, 1871.

WHEREAS it is expedient to amend the Cattle-trespass Act, 1871; It is hereby enacted as follows :—

Power for Local Government to transfer functions of District Magistrate and Local Government to local authority and direct that surplus receipts be credited to local fund.

1. The Local Government may, from time to time, by order notified in the local official Gazette—

(*a*) transfer to any local authority, within any part of the territories under its administration in which the Cattle-trespass Act, 1871, is in operation, all or any of the functions of the Local Government and the Magistrate of the district under sections four, five, six, seven, twelve, fourteen and seventeen, and clause (*a*) of section eighteen, of that Act, within the local area subject to the jurisdiction of the local authority ; or 1 of 1871.

(*b*) direct that the surplus accruing in any district under section eighteen of that Act shall be placed to the credit of such local fund or funds as may be formed for any local area or local areas comprised in that district,

and may from time to time, in like manner, cancel any order made under this section.

Definitions.

2. In this Act—

"Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area ; and

"local fund" means any fund under the control or management of a local authority.

STATEMENT OF OBJECTS AND REASONS.

BY the Central Provinces Local Self-government Act, 1883, (I of 1883), certain functions which under the Cattle-trespass Act (I of 1871), are to be performed by the Local Government or the Magistrate of the District are transferred to the local authorities constituted under the first-mentioned Act, and the surplus proceeds arising under section 18 of the Cattle-trespass Act are directed to be carried to the local funds which are placed under the control of the local authorities. Provisions to the same effect are embodied in the Bill now pending in the Legislative Council of the Lieutenant-Governor of Bengal for the amendment of the system of Local Self-government in that province and in the Bills now pending in the Legislative Council of the Governor General for the amendment of the system of Local Self-government in the North-West Provinces and in the Panjáb. But doubts have been entertained whether, inasmuch as these provisions amount to an amendment of the Cattle-trespass Act, which is an Act of the Governor General in Council, their enactment would not be beyond the powers of a local legislature such as the Legislative Council of the Lieutenant-Governor of Bengal. It has therefore been thought desirable to amend the Act in such a way as to enable Local Governments to make the requisite changes by executive order.

2. The following extracts from the Cattle-trespass Act will explain the nature of the powers which it is proposed by the Bill to confer on Local Governments:—

"4. Pounds shall be established at such places as the Magistrate of the District, subject to the general control of the Local Government, from time to time directs.

"The village by which every pound is to be used shall be determined by the Magistrate of the District.

"5. The pounds shall be under the control of the Magistrate of the District; and he shall fix, and may from time to time alter, the rates of charge for feeding and watering impounded cattle.

"6. The Magistrate of the District shall also appoint for each pound a pound-keeper:

"Provided that, in the Presidency of Fort St. George, the heads of villages, and, in the Presidency of Bombay, the police pátíls, or (where there are no police pátíls) the heads of villages, shall be *ex-officio* the keepers of village-pounds.

"Every pound-keeper appointed by the Magistrate of the District may be suspended or removed by such Magistrate.

* * * * * * * *

"7. Every pound-keeper shall keep such registers and furnish such returns as the Local Government from time to time directs.

"12. For every head of cattle impounded as aforesaid, the pound-keeper shall levy a fine according to the following scale:—

* * * * * * * *

"All fines so levied shall be sent to the Magistrate of the District through such officer as the Local Government from time to time directs.

* * * * * * * *

"14. If the cattle be not claimed within seven days from the date of their being impounded, the pound-keeper shall report the fact to the officer in charge of the nearest police-station, or to such other officer as the Magistrate of the District appoints in this behalf.

* * * * * * * *

"If the cattle be not claimed within seven days from the date of the notice, they shall be sold by public auction by the said officer, or an officer of his establishment deputed for that purpose, at such place and time and subject to such conditions as the Magistrate of the District by general or special order from time to time directs:

"Provided that if any such cattle are, in the opinion of the Magistrate of the District, not likely to fetch a fair price if sold as aforesaid, they may be disposed of in such manner as he thinks fit.

"17. The officer by whom the sale was made shall send to the Magistrate of the District the fines so deducted.

"The charges for feeding and watering deducted under section sixteen shall be paid over to the pound-keeper, who shall also retain and appropriate all sums received by him on account of such charges under section thirteen.

"The surplus unclaimed proceeds of the sale of cattle shall be sent to the Magistrate of the District, who shall hold them in deposit for three months, and, if no claim thereto be preferred and established within that period, shall, at its expiry, dispose of them as hereinafter provided.

"18. Out of the sums received on account of fines and the unclaimed proceeds of the sale of cattle, shall be paid—

"(*a*) the salaries allowed to pound-keepers under the orders of the Local Government;

"(*b*) the expenses incurred for the construction and maintenance of pounds, or for any other purpose connected with the execution of this Act;

"and the surplus (if any) shall be applied, under orders of the Local Government, to the construction and repair of roads and bridges and to other purposes of public utility."

The 20th June, 1883.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 15 OF 1883.

A Bill to amend the Native Passenger Ships Act, 1876.

III of 1876. WHEREAS it is expedient to amend the Native Passenger Ships Act, 1876, with a view to provide for the better regulation of the passenger traffic between British India and ports in the Red Sea; It is hereby enacted as follows:—

Preamble.

Short title. 1. This Act may be called the Native Passenger Ships Act, 1883;

Commencement. and it shall come into force on such day as the Governor General in Council directs by notification in the *Gazette of India*.

II of 1876. Addition to section 11 of the Native Passenger Ships Act, 1876. 2. After clause (*e*) of section 11 of the Native Passenger Ships Act, 1876, the following clause shall be added :—

"(*ee*) in the case of any ship sailing to any port in the Red Sea, that she is propelled principally by steam, and, if she is carrying more than one hundred passengers being Natives of Asia or Africa, that she has on board a medical officer licensed in accordance with rules to be made under this Act."

Substitution of new section for section 26 of the same Act. 3. For section twenty-six of the same Act, the following section shall be substituted :—

Bond where ship clears for port in Red Sea. "26. In the case of every ship sailing from any port in British India to any port in the Red Sea, the officer whose duty it is to grant a port clearance for any such ship shall not grant the clearance unless and until the owner, agent or master of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of Rs. 5,000, conditioned—

"(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty passengers; and

"(*b*) that the master and medical officer (if any) of the ship shall comply with on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty passengers, the provisions of this Act and of such rules relating to ships sailing between ports in British India and ports in the Red Sea as the Governor General in Council may, from time to time, make under section forty-six."

Amendment of section 27 of same Act. 4. In section twenty-seven of the same Act, for the word "thirty" the word "sixty" shall be substituted.

Addition to section 28 of the same Act. 5. To section twenty-eight of the same Act the following words shall be added :—"and the authority empowered to grant the same may refuse to grant a bill of health in the case of any ship on board of which the requirements of the rules made under section 46 are not complied with."

Addition of new sections after section 28 of same Act. 6. After section twenty-eight of the same Act, the following sections shall be added :—

Certain ships to carry medical officer. "28A. Every ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers being Natives of Asia or Africa shall have on board a medical officer licensed in accordance with rules to be made under this Act.

Certain ships to be propelled by steam. "28B. Every ship sailing from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

Power for Governor General in Council to issue notification requiring medical inspection in case of certain passengers. "28C. *(1)* The Governor General in Council may, from time to time, by notification in the *Gazette of India*, direct that no passenger of such class as may be specified in the notification shall be received

on board any ship sailing from any port in British India to any port in the Red Sea unless and until he has obtained a certificate from a medical officer to be appointed by the Local Government in this behalf, to the effect that he has been examined by that officer and is not suffering from any dangerously infectious or contagious disease, and is in a fit state of health to undertake the voyage to the port in the Red Sea for which he is bound.

(2) The Governor General in Council may cancel or alter, either in whole or in part, any notification which may at any time be issued under this section.

Addition of new sections after section 38 of same Act.

7. After section thirty-eight of the same Act, the following sections shall be added:—

"38A. If the master of any such ship as is referred to in section twenty-seven, or any medical officer in charge of any such ship, wilfully breaks, or omits or neglects to obey, any rule with regard to those ships made under section forty-six, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

"38B. If any ship sailing from or to any port in British India to or from any port in the Red Sea and carrying more than one hundred passengers has not on board a medical officer as required by section 28A, the master of the ship shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master of certain ships sailing without medical officer.

"38C. The owner and master of any ship sailing from or to any port in British India to or from any port in the Red Sea and not principally propelled by steam shall be punished with fine which may extend to five hundred rupees, or with imprisonment which may extend to three months, or with both.

Penalty on owner and master of certain ships not propelled by steam.

"38D. If the master of any ship, while a notification under section 28C is in force, knowingly receives on board his ship any person in contravention of that notification, he shall be punished with imprisonment which may extend to three months, or with fine which may extend to five hundred rupees for each person so received, or with both."

Penalty on master receiving passenger in contravention of a notification under section 28C.

8. After clause (*b*) of section forty-six of the same Act, the following clause shall be added:—

Additions to section 46 of same Act.

"(*bb*) the licensing and appointment of medical officers in cases where they are required, under this Act, to be carried";

and after clause (*e*) of the same section the following clauses shall be added:—

"(*ee*) the functions of the master, medical officer (if any) and other officers of the ship during the voyage;

"(*eee*) the access of intermediate or between decks passengers to the upper deck.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Native Passenger Ships Act, VIII of 1876, with a view to provide for the better regulation of the pilgrim traffic between British India and Arabia. This traffic has formed the subject of correspondence between the Secretary of State, the Government of India and the various local maritime Governments in India. A careful consideration has brought the Government to the conclusion that the importance of the pilgrim traffic makes its detailed regulation imperative, and that, to secure uniformity of procedure, and thereby avoid the friction which must inevitably follow divergence between rules separately framed by different States, it is desirable that, in all the more important points, a common understanding should be come to among the Governments who are chiefly interested in the proper management of that traffic. The establishment of a practical coincidence between the general provisions of the local Turkish regulations and those of the law of India—the country which at present furnishes the largest number of pilgrims to the Hedjaz—can only be effected by diplomatic correspondence between the British and Turkish Governments. But, since experience has shown that the provisions of the Indian law as it at present stands are insufficient to meet the peculiar exigencies of this traffic, and that in some respects they require revision, it seems desirable, before attempting to bring about an assimilation of the British and Turkish laws, to make such amendments of our own law as are necessary to put it in a satisfactory state.

2. The Indian law on this subject is contained partly in the provisions of the Native Passenger Ships Act, 1876, and partly in those of the rules framed under that Act. With a view to the amendment of the latter, the Government of India has already submitted to the Secretary of State a copy of a draft set of rules, which have been framed on the model of those regulating the transport of emigrants from India to the English and French colonies, and which it proposes to issue under the Native Passenger Ships Act, 1876, as rules regulating the conveyance of Native passengers between the ports of India and of the Hedjaz. With a view to the amendment of the former, the present Bill has been prepared.

3. Section 2 adds to section 11 of the Native Passenger Ships Act, 1876, a provision requiring the certificate given under that section to contain in the case of a ship sailing to the Red Sea a declaration that she is propelled principally by steam, and when the ship carries more than 100 Native passengers a declaration that she has on board a licensed medical officer. The effect of this will be that such ships will not be able to obtain a port-clearance (see section 9) unless they comply with these requirements.

4. Section 3 amends section 26 of the Act, by requiring the bond given under that section to be conditioned for the observance of the provisions of the Act and of such rules with regard to Native passenger ships sailing to the Red Sea as the Governor General in Council may make under section 46 of the Act. The object of this amendment is to enable the Government of India to enforce the observance of its rules beyond the limits of its jurisdiction.

5. The substitution (by section 4 of the Bill) of 60 for 30 as the number of passengers which must be on board a ship in order that section 27 of the Act may apply follows as a necessary consequence of the provision that all ships are to be propelled by steam (see section 2 of the Act).

6. Section 5 empowers the authorities at Aden to refuse a bill of health to a ship if the requirements of the rules are not complied with.

7. The sections (28A, 28B and 28C) which section 6 adds to the Act require every ship sailing to or from the Red Sea and carrying more than 100 Native passengers to have a licensed medical officer, and every Native passenger ship sailing to or from the Red Sea to be propelled principally by steam, and empower the Governor General in Council to issue a notification directing that no passenger of such description as may be specified in the notification shall be received on board any such ship until he has obtained a certificate from a prescribed medical officer certifying that he is not suffering from any infectious or contagious disease, and is in a fit state of health to proceed to the port to which he intends to proceed.

With regard to section 28A, the Government has no doubt that the presence of a medical officer on board will serve to diminish many of the hardships from which pilgrims now suffer, especially if he is by rule made responsible for seeing that the sanitary and dietary arrangements on board are properly managed, and if he is liable to be disqualified for any breach of duty on his own part. It may not always be possible to secure Muhammadan medical men for this service, but endeavours will be made to supply officers of that persuasion in preference to others. Section 28B speaks for itself. Section 28C may have to be enforced, at the instance of the European powers, as a precaution against the possible introduction of epidemic disease by Indian pilgrims into Arabia.

8. Section 7 imposes penalties for breaches of the requirements of the Bill.

9. Lastly, by section 8, certain words are added to section 46 of the Act to enable the Governor General in Council to make rules to regulate the licensing of medical officers and the functions of those officers and of the officers of the ship generally, and ensure to the passengers free access to the upper deck.

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT

[Second publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 20th June, 1883, and was referred to a Select Committee on the 27th idem :—

No. 17 OF 1883.

A Bill for the protection of Inventions exhibited in the Exhibitions of India.

WHEREAS it is expedient that such protection as is hereinafter mentioned should be afforded to the inventors of new manufactures who are desirous of exhibiting them at Exhibitions to be held in India; It is hereby enacted as follows :—

Preamble.

Short title.

1. This Act may be called the Protection of Inventions Act, 1883;

Commencement.

and it shall come into force at once.

Act to be read with Act XV of 1859.

2. It shall be read with and taken as part of Act XV of 1859 (*for granting exclusive privileges to inventors*).

Inventions exhibited when to be deemed new though publicly used or made publicly known.

[cf. 33 & 34 Vic., c. 27, s. 2.]

3. If, within six months from the time of the opening of an International Exhibition, a person, being the inventor and exhibitor of any manufacture exhibited at that Exhibition, petitions the Governor General in Council under Act XV of 1859, for leave to file a specification of his invention, the circumstance that the invention has at any time after the opening of the Exhibition been publicly used or made publicly known shall not prevent the invention being deemed to have been at the time of presenting the petition a new invention for the purposes of the said Act.

Meaning of term "International Exhibition."

[cf. 33 & 34 Vic., c. 27, s. 3.]

4. In this Act, "International Exhibition" means the International Exhibition to be held in the year one thousand eight hundred and eighty-four at Calcutta, and any Exhibition to be held in India which the Governor General in Council may, upon the application of any persons desirous of holding the Exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill has been prepared in view of the forthcoming International Exhibition which it is proposed to hold in Calcutta next cold weather. It has been brought to the notice of Government that the want of some such protection as the Bill affords might probably deter inventors of unpatented inventions from sending them, and thus prevent the exhibition of some interesting exhibits.

2. It has been found necessary in England, and also, it is believed, in the Australian colonies, to legislate on this subject.

The Bill is drawn on the model of the Protection of Inventions Act, 1870 (33 & 34 Vic., cap. 27), but necessarily differs from it in details, inasmuch as the system of protection to inventions in force in this country differs from that in force in England in many respects, and, among others, in permitting an inventor to use his invention, or allow others to use it, publicly for a year without losing his right to protection. The effect of the Bill, if it becomes law, may be shortly stated to be that, if an inventor exhibiting his invention applies within six months from the opening of the exhibition for leave to file a specification, the circumstance of the invention having been publicly used or publicly made known after the opening of the exhibition will not affect his rights.

3. To prevent the necessity for similar legislation in the case of other exhibitions which may hereafter be held, section 4 of the Bill defines the term "International Exhibition" as meaning, not only the contemplated "International Exhibition" to be held at Calcutta, but any exhibition to be held in India which the Governor General in Council may, upon the application of any persons desirous of holding the exhibition, by notification in the *Gazette of India*, declare to be, in the judgment of the Governor General in Council, calculated to promote Indian art or industry, and to prove beneficial to the mercantile, agricultural or industrial classes of Her Majesty's subjects in India.

The 20th June, 1883.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

Ditto ditto ghee	0	0	6	,,
Each room in the public building	1	0	0	Per mensem, or Rs. 10 a year.
,, stall	0	8	0	Per mensem, or Rs. 5 a year.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 19th July 1883.—In continuation of the notification dated the 15th January 1883, published in the *Calcutta Gazette* of the 17th idem, it is hereby notified that, on the recommendation of the Commissioners of the Howrah Municipality, the Lieutenant-Governor intends to extend the provisions of Act VI (B.C.) of 1878 (for the cleansing and construction of latrines in first class municipalities) to the portion of the Howrah Municipality which is comprised within the following boundaries:—

North.—A line 100 feet to the north of and parallel to the Benares road.
South and East.—Grand Trunk Road,
West.—Railway line.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 23rd July 1883.—Whereas a notification was published in the *Calcutta Gazette* of the 28th February 1883, declaring the intention of the Lieutenant-Governor to extend the provisions of Act VI (B.C.) of 1878 to the Patna Municipality, and whereas no valid objections have been raised to the proposal within six weeks of the publication of the notification within the municipality, the Lieutenant-Governor, in the exercise of the powers conferred on him by section 2 of the Act, declares that from the 1st August 1883 the Commissioners of the said municipality will maintain an establishment for the cleansing of all public and private latrines situated within the limits of the municipality.

2. The Lieutenant-Governor also directs that the fees to be levied under section 3 of the Act by the Municipal Commissioners shall be at the rate of Rs. 7½ per cent on the annual value of all holdings within the limits of the said municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 19th June 1883.—It is hereby notified, under section 4 of Act VII of 1878 (the Indian Forest Act), that it is proposed to constitute the following areas, in the district of Pooree, lying within the boundaries described below, reserved forests under the provisions of the said Act:—

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Dandimal range, Churang block.	*North.*—Demarcated boundary line between Khorda and Dompara, Khorda and Motri, Khorda and Ratagarh, Khorda and Chandi, and Khorda and Sarangarh. *East.*—Demarcated boundary line between Jujgarh and Churang following the Trunk Road. *South.*—From a point on the Trunk Road to the Barimul hill, then along the base of the hill to the Churang fort wall; thence along the base of the Angar hill along the southern boundary of mouzah Bhalunka to the triple junction of mouzahs Bhalunka, Krushnanagar, and Bhuasuni; thence to the southern corner of the Rangamati hill; then west to the boundary line between mouzahs Talsadei and Chandka. *West.*—Along a demarcated boundary line running to the Nodha hill, which is the starting point.
Ditto ...	Ditto ...	Dandimal range, Chandika block.	*East.*—The boundary of the Churang block. *South.*—A demarcated line passing to the north of the cultivated land of mouzah Chandka, running first west, then north-west to the Kendujhar nala; thence almost due south to the boundary of mouzahs Chandka and Simlipatana; then along that boundary to a feeder of the Kendujhar nala; then south to the Mahalimba hill, passing to the east of it in a southerly direction to the Bhalumundia; then westward to the boundary between Kantabar and Bhagabatipore at the base of the Raikhala hill. *West*—The demarcated boundary between Kantabar and Bhagabatipore. *North.*—The demarcated boundary line between Khorda and Dompara.
Ditto ...	Ditto ..	Dandimal range, Barapita block.	*East.*—The demarcated boundary line between Kantabar and Bhagabatipore to the Raikhala hill. *South.*—A demarcated line running westward along the base of the Raikhala hill, crossing the Haldigundi nala to the Basang hill in mouzah Kadamjhar, to the triple junction point between Koduamunda, Kadamjhar, and Krushna Mohanpore, following the southern demarcated boundary of Krushna Mohanpore, then following the eastern demarcated boundary of Fakirpara to the tri-junction with Koduamunda, Fakirpara, and Minchinpatna; thence along the southern boundary of Fakirpara to the triple junction of Bantal, Majana, and Fakirpara; thence a demarcated line passing to the south of the Deolia hill to the south-east spur of the Kansari hill, then along the southern base of the Kansari hill to the base of the Baghaitangi Mundia. *West.*—Along the demarcated boundary between Tarkai and Baghaitangi, and Tarki and zillah Haldia, to the Maruaband triple junction of zillah Dompara and zillahs Dandimal and Haldia. *North.*—The demarcated boundary between Dompara and Khorda.
Ditto ...	Ditto ...	Dandimal range, Panchgarh block.	*North.*—Cultivated lands of mouzahs Mardabari Pankal-Sahi, Kuspala, Kothpala, Palidighiri, Mandal Singh, and Kautara. *East*—Demarcated boundary line between Khorda and Killah Ranpore. *South.*—Demarcated boundary line between Khorda and Killah Nayagarh. *West.*—Demarcated boundary line between Khorda and Nayagarh.
Ditto ...	Ditto ...	Dandimal range, Barunai block.	*North*—From a point on the boundary between Palatotapara and Khorda, running along the base of the hills on the north to the triple junction of jemader Makundprasad, and Khorda; thence to the triple junction of Makundprasad, Kholaduar, and Khorda, skirting along the base of the Barunai hills. *East.*—The base of the Barunai hills along a demarcated line to the triple junction of Kholaduar, Porapara, and Khorda.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			South.—Thence along a demarcated line along the base of the hills to the triple junction of Soaliapatna, Palatotapara, and Khorda. *West.*—Along a demarcated line to the starting point.
Pooree ...	Khorda ...	Banpore range, Arang block.	*North.*—From the Salia river at the boundary between Khorda and Killah Ranpore, following the demarcated boundary on Ranpore of mouzahs Kunda Khai and Dhuanali. *East.*—Thence along the eastern boundary of Dhuanali to the triple junction of the Sandha Mal, Bara Mal, and Dhuanali. *South.*—Thence along the south-eastern demarcated boundaries of Dhuanali and Arang to the northern limit of Beruanbari; thence along the southern boundary of Arang to the triple junction of Beruanbari, Arang and Jualiambo; thence along the south-eastern boundary of the last named village to the junction of San Seraipore, Bankarpali, Bankargarh, and Jualiambo; thence along the Bankar nadi, and on along the southern demarcated boundary of Bankargarh to the triple junction of Nilapali, Bamdebpore, and Bankargarh. *West.*—Thence along the south-western demarcated boundary of Bankargarh to the triple junction of Nilapali in Rigirisimah and Bankargarh; thence along the southern base of the Rigirisimah hills to the Salia river, then north following the Salia river to the road between Niladriprasad and Arang; thence along the north base of the hills to the triple junction of Bhaliapara, Raipara, and Bankargarh; thence along the base of the hills to the triple junction of Bhaliapara, Jualiambo, and Bankargarh, skirting round the cultivated lands of Jualiambo to the road from Jualiambo to Beruanbari; then north along the demarcated boundary between Jualiambo and Arang, and Kiagorara and Arang, skirting the cultivated lands of Arang Dhuanali, and Nathpore to the Salia river, and along that river to the starting point.
Ditto ...	Ditto ...	Banpore range, Tamna hill block.	*West and North.*—From the triple junction of Ankula, Baldiabhiri, and Baharaput along the demarcated boundary line between the Bara Mal and Duriama Mal to the triple junction of Barikata, Kushnatara, and Killah Nayagarh; thence along the demarcated boundary between the Bara Mal and Killah Nayagarh to the Tamna great trigonometrical survey station; thence along the same demarcated boundary to the triple junction between the Bara Mal and Killahs Nayagarh and Ranpore, and on to the Salia river. *East and South.*—The Salia river, where it forms the boundary between Kundakhai and Nathpore; thence along the demarcated southern boundary of Kundakhai and Silingpara; thence along the demarcated eastern boundary of Dumdumi to the Salia river; thence along the demarcated southern and south-western boundaries of the same village; thence along the demarcated southern boundaries of Krushnatara and Barikata; thence along the demarcated south-eastern boundary of Barikata; thence along the eastern boundary of Baharaput to the Pathura nadi, and on to the triple junction of Ankula, Baldiabhiri, and Baharaput, which is the starting point.
Ditto ...	Ditto ...	Banpore range, Katual block.	*North.*—From the triple junction of Baldiabhiri, Nunguna, and Katual along the demarcated line of Katual to the Pathara nala. *East.*—Following the Pathara nala to the cultivated lands of the Birijai Thakurani; thence along the limits of those lands to the northern corner of the demarcated boundary between Katual and Kariapali; thence along the demarcated eastern boundary of Katual to the junction of the four villages Bighniput, Bankiapala, Talbarohi, and Katual. *South.*—The southern demarcated boundary of Katual to the triple junction of Bhatpara, Bhujiabarbara, and Katual. *West.*—Thence along the western demarcated boundary of Katual to the starting point.
Ditto ...	Ditto ...	Banpore range, Bamdebpore block.	*North.*—The Arang block. *East.*—The demarcated western boundary of Bankarpali, Raghunathpore, Gangadaipore, Champajharpali, Baharakhola, and Bhuskapara.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			South.—The demarcated northern boundary of Bengrajpali skirting the base of the Guhiapahar, Solia Parbat to the Salia river, on the northern boundary of Noagan, to the triple junction of that village with Porakhai and Kosurara. *West.*—The demarcated eastern boundary of Porakhai, Nakulpali, and Kuranjpali, Panbaraj, and Nilapali to the starting point.
Pooree ...	Khorda ...	Banpore range, Kuhuri block.	*North.*—From the junction of a nala in mouzah Goripara with the Kusmi river to the east, following that river to the triple-junction of Kandgaria, Goripara and Killah Ranpore; thence south along the demarcated boundary between Kandgaria and Goripara to a permanently marked survey station; thence eastward through Kandgaria passing to the north of the Boita hill, and skirting the cultivated lands of Kandgaria to a survey station on the boundary between Jaritap and Kandgaria; thence eastward passing to the north of a little hill to another survey station on the boundary between Tutambarpali and Jaritap. *East.*—Thence southward along the demarcated boundary of the last-named village to the triple junction with Talgarh-Kuhuri; thence turning west along the demarcated boundary to the junction of the villages Kandgaria, Jaritap, Talgarh-Kuhuri, and Mahujhar; thence south along the demarcated western boundary of Talgarh-Kuhuri, and mouzah Dighitpara. *South.*—Thence along the demarcated boundary westward to a survey station on the boundary between Ariapara and Mahujhar; then west to a survey station on the boundary between Ariapara and Kunjuri; thence south along the western demarcated boundary of Ariapara to the triple junction of Ariapara, Akaspali, and Kunjuri; thence westward to the triple junction of Akaspali, Malakaria, and Kunjuri. *West.*—Turning north through Kunjuri to the triple-junction of Kunjuri, Goripara, and Mahujhar; thence along a demarcated line skirting the cultivation of Mahujhar and Goripara to the starting point.
Ditto ...	Ditto ...	Banpore range, Sulia block.	*North.*—Commencing from the triple junction of Banpore, Kuhuri, and Ranpore, and running north along the demarcated boundary of Mundilo to a survey station; thence north-east to a survey station on the Kusmi river; thence south-east, following that river to the cart track from Ranpore to Mundilo, first south-west to a tank, then due south to a survey station on the boundary between Mundilo and Salapdihi; thence along the demarcated boundary to the triple junction with Dhoba Dhobani, Salapdihi, and Mundilo; thence east through Dhoba Dhobani to the triple junction of Amabil, Harandihi, and Dhoba Dhobani, then along the demarcated boundary of Harandihi and Dhoba Dhobani, then south through Harandihi to the triple junction of Khairpali, Harandihi, and Salapdihi, then eastward through Khairpali to a survey station on the boundary between Khairpali and Kunjuri; thence along the demarcated southern boundary of Kunjuri to a survey station. *East.*—Turning southward skirting east of the hills in Malakaria to the triple junction of that village with Akaspali and Belpara; thence eastward along the northern demarcated boundary of Belpara to a tank, leaving out the cultivated lands of Belpara to the Kochila Mundia in Joymangalpore; thence skirting and enclosing the Kochila Mundia and back to the triple junction of Belpara, Jariput, and Joymungulpore; thence south to a survey station on the boundary between Jariput and Joymungulpore; thence westward to a survey station on the boundary between Jariput and Gorarajhari, then northward along the demarcated boundary of Jariput to the triple junction of Belpara, Jariput, and Gorarajhari. *South.*—Thence a demarcated line passing to the north and west, skirting the cultivated lands of Gorarajhari, Kundoambojhar, Moramoripatna, and Salapdihi, to a survey station on the boundary between Salapdihi and Gamai. *West.*—Thence along the western demarcated boundary of Salapdihi to the triple junction of Salapdihi, Gamai, and the Kumla Mal; thence along the demarcated boundary of Salapdihi to the starting point.

The Lieutenant-Governor is pleased to appoint Mr. W. C. Taylor, Settlement Officer, and Sub-Divisional Officer of Khorda, to perform the duties of Forest Settlement Officer under the provisions of Chapter II of Act VII of 1878; to enquire into and determine the boundaries to be finally laid down; and to ascertain and determine the existence, nature, and extent of any rights alleged to exist in favour of any person over any lands comprised within the boundaries specified above, or in or over any forest produce to be found therein, and to deal with the same as by law provided.

The Lieutenant-Governor is also pleased, under section 16 of the Indian Forest Act, 1878, to appoint the Commissioner of the Orissa Division to hear appeals from the decision of the Forest Settlement Officer as above appointed.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 19th July 1883.—The following Notice to Mariners is published for general information.

A. P. MACDONNELL,
Offg. Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 32).

BAY OF BENGAL—BRITISH BURMA.

TENASSERIM COAST—TAVOY RIVER.

New Reef Island light.

THE Superintendent of Lighthouses in British Burma has notified that, on or about the 1st August 1883, a fixed white light will be exhibited on Reef island, at the entrance to Tavoy river, as a guide to vessels approching the port of Tavoy.

The illuminating apparatus will be dioptric, or by lenses of the fifth order, and will be shown from a temporary wooden tripod during the time the lighthouse is in course of construction. The building will be a circular masonry tower, and is intended to be 28 feet high.

Further particulars will be published hereafter.

By direction of the Government of Bengal,
J. MENTEITH BRENNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 17th July* 1883.

NOTIFICATION.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 29.)

RED SEA.

Shoal off St. John's Island.

THE Political Resident of Aden has notified, that information has been received from the master of the S. S. *Gulf of St. Vincent* relative to a shoal lying near the fairway in the Red Sea.

The *Gulf of St. Vincent*, when proceeding down the Red Sea on the 24th June 1883, passed a reef (which, it is stated, is not shown on the Admiralty Chart) lying 45 miles S. E. of St. John's islands.

The reef, which has very little water upon it, is about a mile long in a S E ½ S and N W ½ N (Magnetic) direction, and $\frac{1}{8}$th of a mile in width.

The bearings place the reef in latitude 23° 9′ 30″ N, longitude 36° 55′ 30″ E.

Mariners passing through the Red Sea are hereby cautioned to give this reef a wide berth.

By direction of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 11th July* 1883.

A. P. MACDONNELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 9th July 1883.—In modification of the notification dated the 13th February 1883, published in the *Calcutta Gazette* of the 14th idem, Part I, page 176, the Lieutenant-Governor is pleased, under section 16 of Act VI of 1871, to fix Berhampore, the sudder station of the district of Moorshedabad, as the place at which the Court of the Munsif of Lalbagh shall, until further orders, be held; and under section 18 of the aforesaid Act to fix the local limits of the jurisdiction of the said Court as described below. The jurisdictions of the other Munsif's Courts of the district shall also be as shown against each below.

These arrangements have taken effect from the 14th March 1883.

MUNSIFS.		THANAS.
Berhampore (head-quarters Berhampore).	at	Sujagunge. Gorabazar. Kalyangunge. Gokarna. Hariharpara. Nowada. Barwa. Daulatbazar.
Azimgunge (head-quarters Azimgunge).	at	Goas. Jellinghee.
Lalbagh (head-quarters Berhampore).	at	Bhagwangola. Shahanagar. Manullabazar. Assanpur. Sagardighi.
Jungypore (head-quarters Jungypore).	at	Dewansarai. Raghunathgunge. Mirzapur. Sooti. Shamshergunge.
Kandi (head-quarters at Kandi).		Bharatpore. Kha gaon. Kandi.

Note.—Mohimapur and Budrihat, which were mentioned as thanas in the notification dated the 19th January 1880, are in reality dependent outposts—the former subordinate to Thana Shahanagar, and the latter to the independent outpost of Sagardighi.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

No. 1856A.

The 16th July 1883.—The undermentioned gentlemen are appointed to be Honorary Magistrates for the Naihati Bench, in the district of the 24-Pergunnahs, and are vested with the powers of a Magistrate of the third class :—

Baboo Jyotish Chundra Chatterjee. | Pundit Hara Prosad Sastri.

The 17th July 1883.—Baboo Sreenath Bhudder, Deputy Magistrate and Deputy Collector, Furreedpore, is vested with powers under section 110 of the Code of Criminal Procedure.

Mr. K. J. Badshah, Officiating Joint Magistrate and Deputy Collector, in charge of the Goalundo Division, of the district of Furreedpore, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

The 20th July 1883.—Baboo Gossain Das Hazra, Temporary Sub-Deputy Collector, Maldah, is vested with the powers of a Magistrate of the third class.

Baboo Nund Lall Koondoo is appointed to be Rent-suit Munsif at Chandpore, in the Tipperah district.

The 21st July 1883.—Baboo Mohendro Nath Mitter, Subordinate Judge, Moorshedabad, is appointed temporarily to be Additional Subordinate Judge of Furreedpore.

The 24th July 1883.—Baboo Abinash Chunder Mitter, Officiating Second Subordinate Judge of Tirhoot, is allowed leave for two weeks, under rule 1 (*a*), section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 10th May 1883.

Baboo Radha Nath Sen is appointed to act temporarily as a Munsif in the district of the 24-Pergunnahs, and to be ordinarily stationed at Diamond Harbour as Third Munsif.

Baboo Shib Chander Nag, Deputy Magistrate and Deputy Collector, Jessore, is vested with the powers of a Magistrate of the third class.

F. B. PEACOCK,
Secretary to the Govt of Bengal.

NOTIFICATION.

The 16th July 1883.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Qazi Mozhur Hosain authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the police stations of Lalpore and Charghat, in the district of Rajshahye, vice Qazi Safdar Hosain, deceased.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 18th July 1883.—It is hereby notified that the Lieutenant-Governor sanctions the extension of the provisions of section 34 of Act V of 1861 to the town of Diamond Harbour, in the district of the 24-Pergunnahs.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 5th July 1883.—It is hereby notified that Bholanath Adhikari, Rural Sub-Registrar of Dulai, in the Pubna district, who has been sentenced to 14 months' rigorous imprisonment on conviction of offences under sections 457, 354, and 323 of the Indian Penal Code, is dismissed from the Registration Department, and is further declared incapable of serving Government again in any capacity.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 11th July 1883.—It is hereby notified for general information that, under the provisions of section 269 of the Code of Civil Procedure (Act XIV of 1882), the Lieutenant-Governor has made the following rule for the maintenance and custody of live-stock while under attachment under a decree or order of the Court of Small Causes, Calcutta.

Rule.—Live stock attached under a decree or order of the Court of Small Causes, Calcutta, may, while under attachment, be sent for maintenance and safe custody, at the decree-holder's expense, to such place as the Chief Judge may from time to time direct.

N.B.—Notwithstanding the extension of section 269 of the Code of Civil Procedure to the Court of Small Causes, Calcutta, the rules for the maintenance and custody, while under attachment, of live-stock and other moveable property, which were published in the *Calcutta Gazette* of the 16th April 1879, do not apply to it, but apply exclusively to Courts in the mofussil

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

IRRIGATION.

The 2nd July 1883.

No. 244.—*Notification.*—Notice is hereby given that the Lieutenant-Governor of Bengal proposes, under the provisions of section 6 of Act II (B.C.) of 1882, to declare that clause *b* of section 76 of that Act shall take effect over a tract of country extending for one mile from each bank of the rivers or portions of rivers specified below. The erection of any new embankment, or any addition to an existing embankment, or the obstruction or diversion of any watercourse within the tract above defined, without the previous permission of the Superintendent of Embankments, is prohibited.

WEDNESDAY, JULY 25, 1883.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of the Sonthal Pergunnahs will be put up to sale at the Dumka Collectorate on Friday, the 28th September 1883, corresponding with 13th Assin 1290 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of the purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
